THIS IS A PROVISIONAL PAGE. THIS WEB SITE IS UNDER CONSTRUCTION. ALL SUGGESTIONS AND CORRECTIONS ARE VERY WELCOME.

Welcome to PalyWeb

PalyWeb is a worldwide database on all kind of fossilized palynomorphs from pre-Mesozoic levels. The project has been initiated in 2005 in order to provide a useful palaeontologic tool for scientific institutions. This database increases perpetually and is into constant improvement. It is result of the collaboration of all **PalyWebUsers** who registered to this site. **PalyWeb** is free for the scientific community and can not be used for commercial purpose. **PalyWeb** was presented officially to the scientific community during the congress of the CIMP (<http://www.cimp.ulg.ac.be/>) in Prague, September 2006. For more precisions on this project, you may have additional information in the publication of Steemans & Breuer (2007) (http://paleopolis.rediris.es/cg/CG2007_M01/CG2007_M01_Abstract08.html) in the "Notebooks on geology" (<http://paleopolis.rediris.es/cg/uk-index.html>).

You are a palynologist and interested by **PalyWeb**, you want to be a **PalyWebUser**, then ask your login to the administrator of this site by sending an E-mail to p.steemans@ulg.ac.be

Browse the **PalyWeb database** by categories or thanks to the "Go" and "Search" buttons on the border of this page or starting from the various links suggested on this introductory page. Visit also our community portal to find out how you can contribute to **PalyWeb**.

We started in March 2005 and are now working on 203 pages. For more detailed statistic data on this website, go to the statistic page.

To prevent any error, this page cannot be edited. If you have remarks to make concerning this page thank you to communicate them to the **PalyWeb** administrator by E-Mail (p.steemans@ulg.ac.be).

--P. Steemans 11:21, 21 Sep 2007 (CEST)

PalyWeb has been brought into operation thanks to the effort of:

- P. Breuer, PhD student in palynology, University of Liège, Belgium
- M. Guadagnano, secretary, University of Liège, Belgium
- D. Korthoud, "Service général d'informatique", University of Liège, Belgium
- P. Steemans, palynologist, administrator of PalyWeb, University of Liège, Belgium
- ...

PalyWeb databank - Spores - Pollen - Acritarchs - Chitinozoans - Incertae sedis - and your suggestions ...
