POPs Center of Excellence

for Food, Feed and Environmental Analysis

Dedicated Resources

To demonstrate our commitment to supporting laboratories charged with the task of researching and monitoring POPs, we have established a POPs Center of Excellence. This direct resource for our customers and associates is staffed with experts in POPs analysis. Our commitment ensures high productivity, added value solutions for some of the most challenging POPs determinations.

Located in Bremen, Germany, the POPs Center of Excellence is chartered to support our international customers and associates, addressing a wide range of requirements.

- Reference for POPs analysis
- Point for access to POPs methodology on Thermo Scientific products
- Resource for collaborative projects on the latest instrumentation
- Knowledge hub for Thermo Scientific product users who are working in POPs analysis
- Partner to industrial and governmental laboratories; improving quality and efficiency in our world-wide POPs monitoring capacity
