4º Congreso Iberoamericano de  
Medicina Familiar y Comunitaria

# Ethical limits of knowledge in GP/FM

M. Jamoulle

Department of General practice, Liege University, Belgium

# Searching for ethical limits in knowledge

Taking in account family doctors are working in multiple fields

	To do	To be
individual	Bio math medicine	Mental health
community	Epidemiology	Anthropology

Figure 1 Four fields of General Practice / Family medicine  
Adapted from M. Van Dormael<sup>2</sup>

What right does medicine have to invade all fields of life?

Jerome Bosh. MBA Lisbon

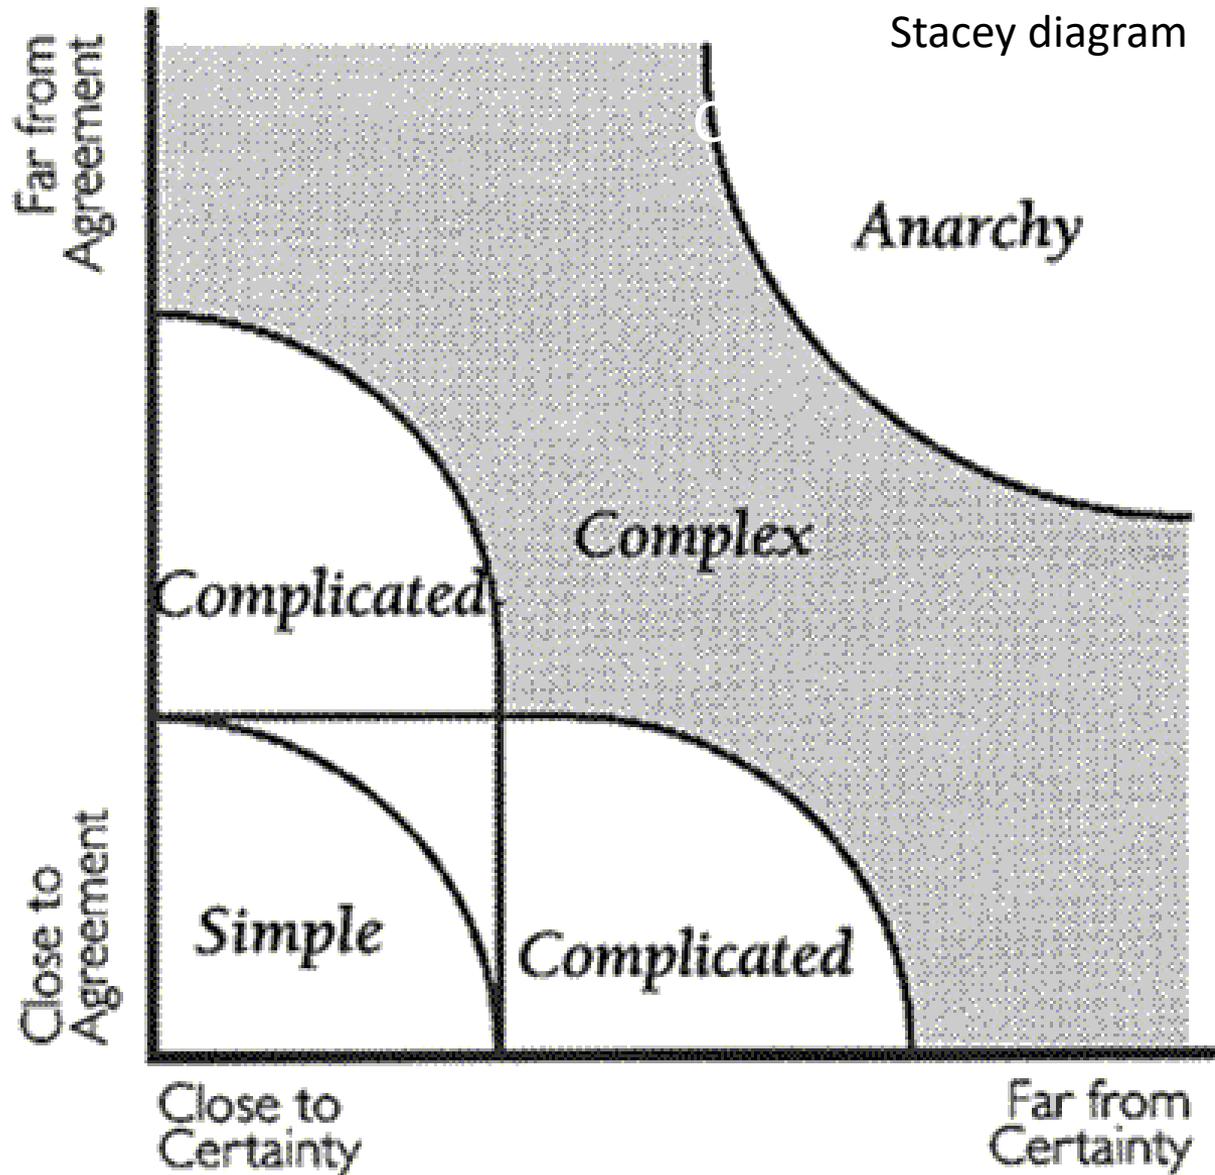

Taking in account family doctors are working in complexity

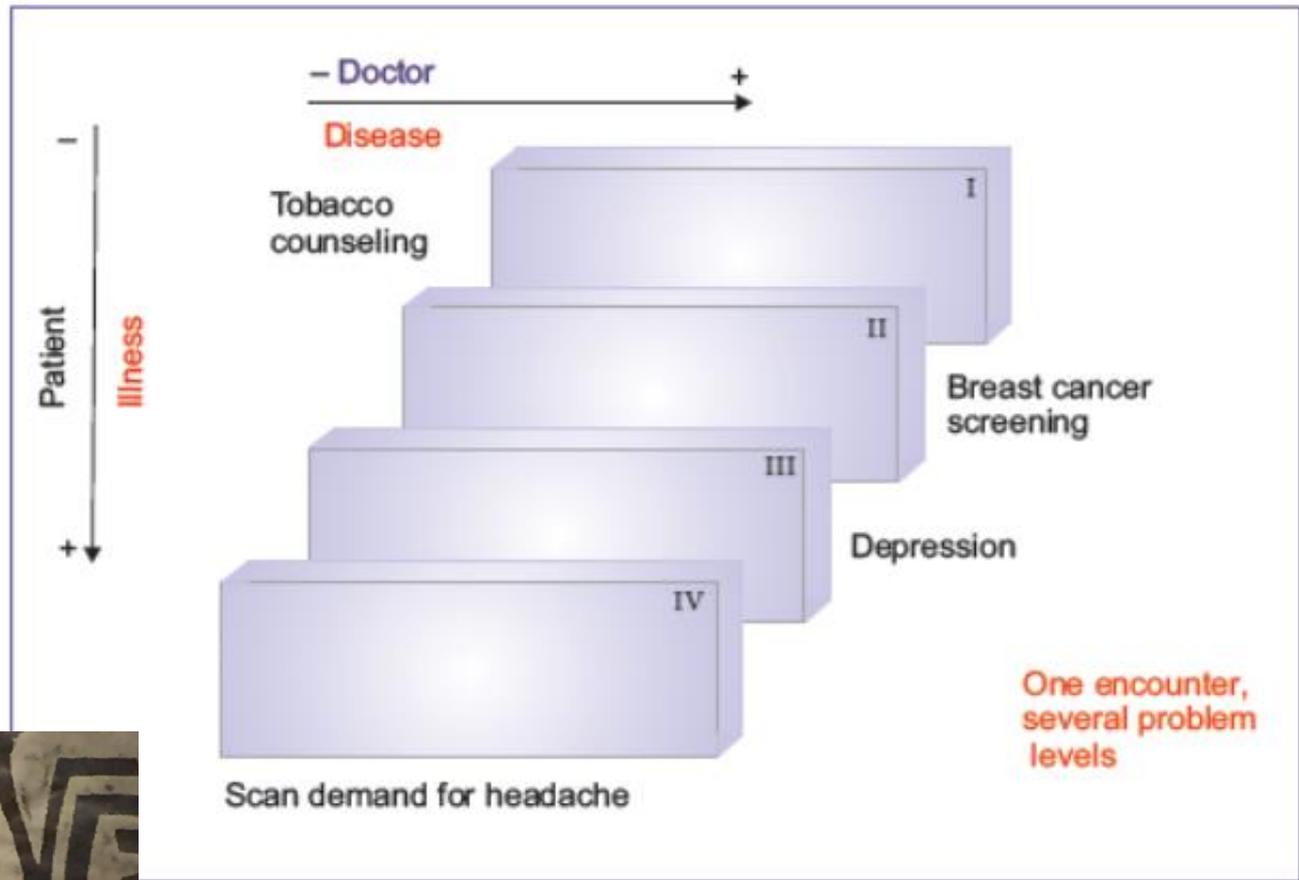

What right does the patient have not to be in agreement?

Pared. SubTe. Buenos Aires

**Taking in account family doctors are working at multiple levels of patient demand**

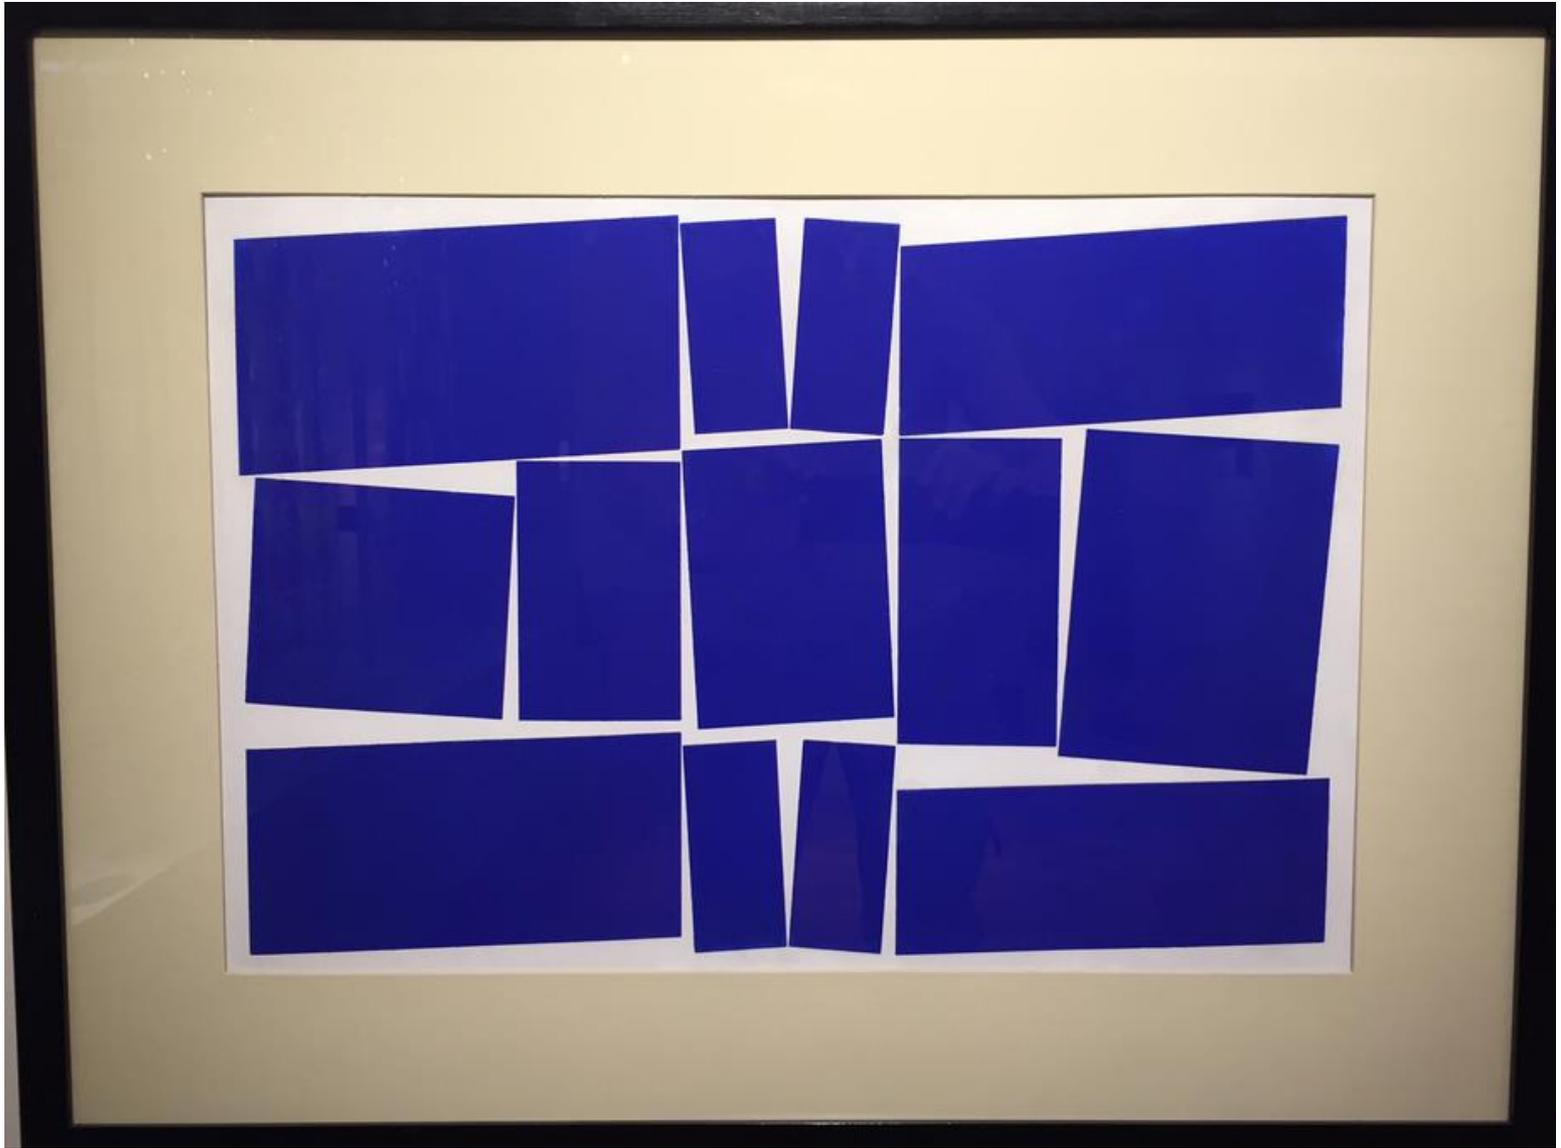

Antonio Berni. Juanito. Detail  
Museo Fortabat . Buenos Aires

M.Jamouille Prevention levels

What right to ask for what the patient does not ask for?

**Taking in account family doctors are always missing something**

Hélio Oiticica, Metaesquema, 1958  
MALBA, Buenos Aires

**What right to know everything about a human being?**

What right to go  
behind the  
symptom ?

Symptom Suitcase (Jean Carpentier †, Paris, 1989)

Through symptoms, one can read : transition [passage], signs [signes], wandering [errance], work [travail], unemployment [chomage], family [famille], neighbors [voisins], certainty [certitude] elsewhere [ailleurs], dreams [rêves] ghosts [fantasme] history [histoire] be the significance and influences of the symptom

One can hardly say  
bioethics  
in Family Medicine will be easy

## Charter for an Ethic of Medical Informatics

[http://www.cispclub.org/4daction/w3\\_CatVisu/en/charter-&-ethic.html?wCatIDAdmin=1073](http://www.cispclub.org/4daction/w3_CatVisu/en/charter-&-ethic.html?wCatIDAdmin=1073)

8 october **2005** (8th CispClub Workshop, Sables d'Olonne, FR)

Edited January 2006

*The French User's Club of the International Classification of Primary Care, an association affiliated with the WICC (Wonca International Classification Committee), and better known under the name CISP Club, has met annually since 1998.*

*As an ongoing result of these reunions, the present document has been written by Bruno Seys (GP in Brussels), Madeleine Favre (GP in Paris) and Michel De Jonghe (GP in Tournai) and edited by Marc Jamouille (GP in Charleroi)*

De Jonghe, M., Favre, Seys, B., & Jamouille, M. (April 2006). L'information et l'éthique de l'information ; la Charte de l'éthique de l'information. <em>Revue Prescrire, 26 (271), 312-313.(French and English version  
<https://hdl.handle.net/2268/171566>

# Confidentiality

Who owns the information? Ex: Iceland; 90', personal data, inheritance data, genetic data

## Belgium; patient authorization

The autorisation is given by sharing the ID card

Two series of digits needed : the National Number and the Number of the ID card

But the patient don't know that

All hospital based data edited on RSW : Reseau santé wallon (Walloon Health Network) but without data management

Uy : pantalla electronica compartida?

# For a renewal of the Hipocratic Oat

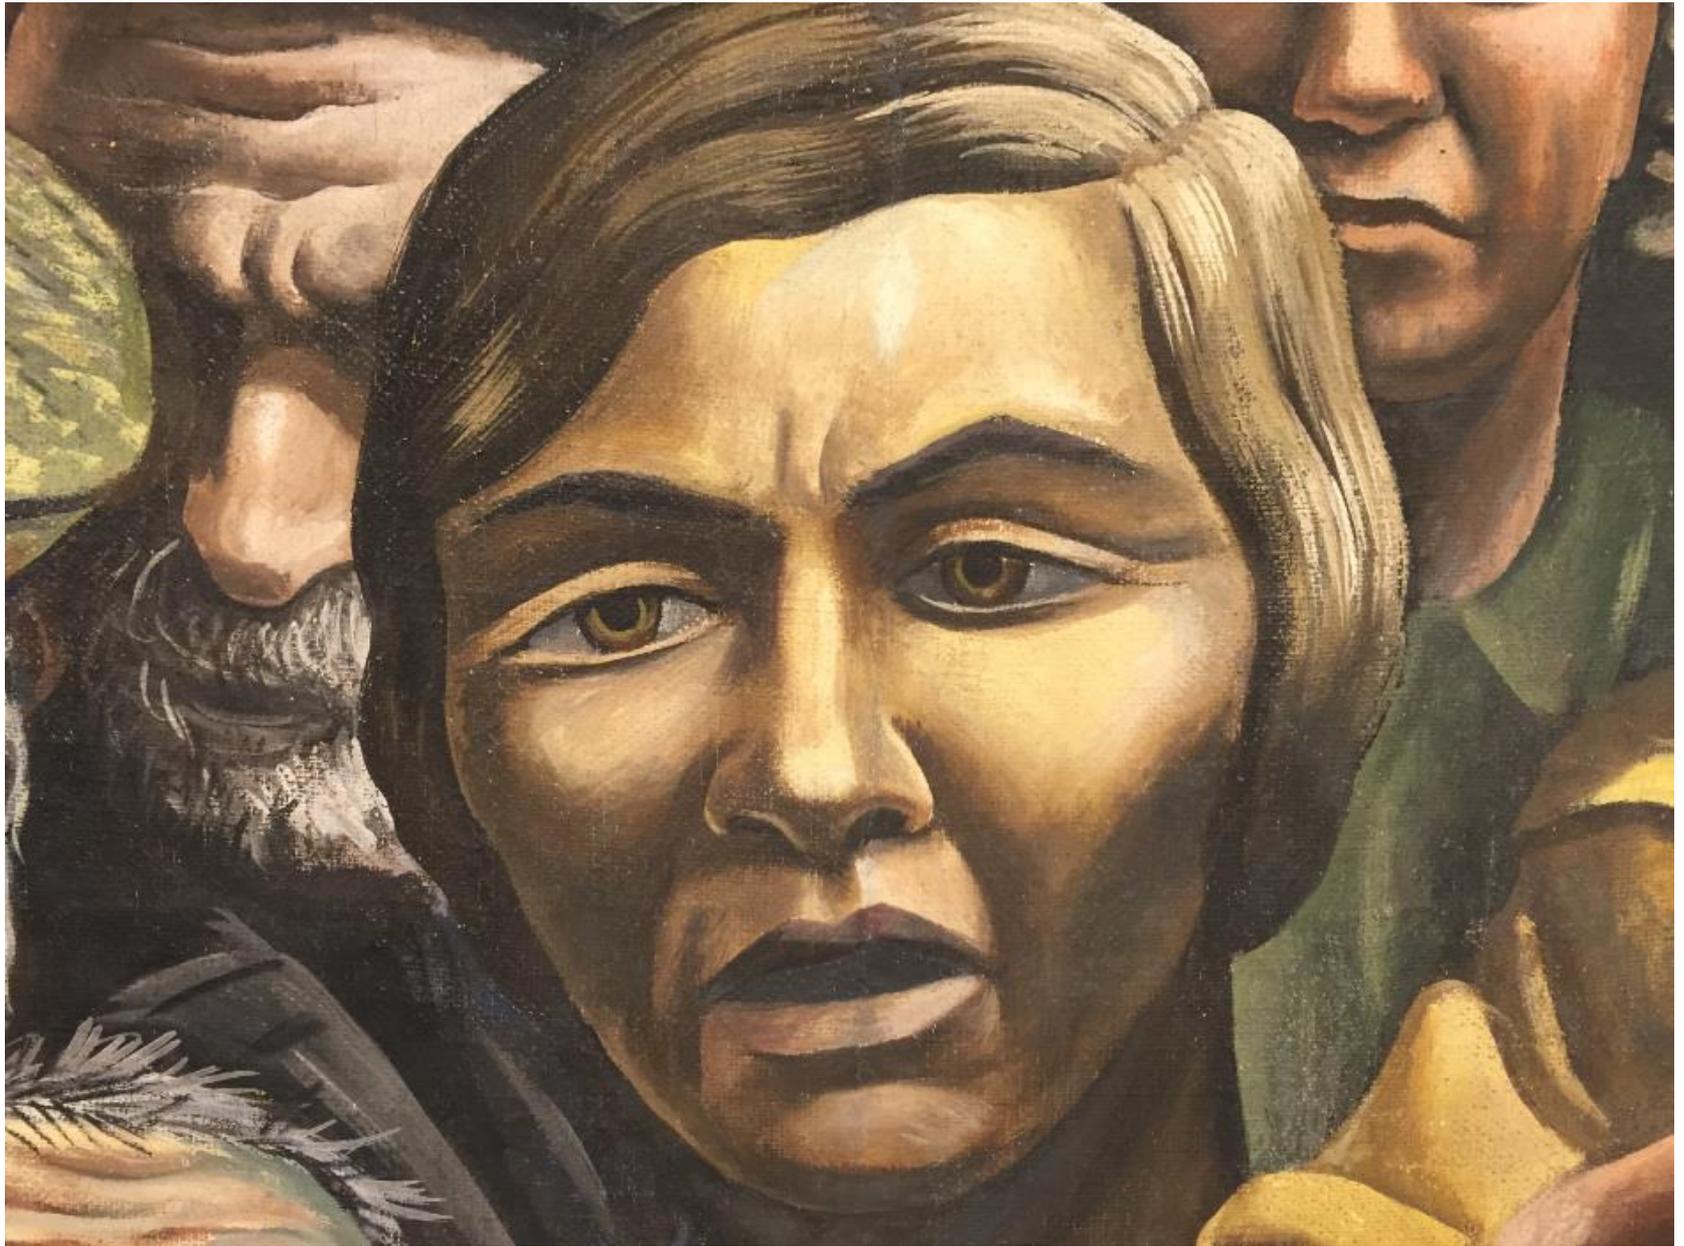

## Declaration of Cos 1992

Dispersed school of health

.../ we commit ourselves to develop responsible practices aware of the possible abuses caused by the influence of politics, economics, science and technology on our practices, we express our determination not to compromise on the following ethical positions;

Jamouille, M. (2019). Multilingual re-edition of the COS Declaration (1992)
