Handbook of Research on Operational Quality Assurance in Higher Education for Life-Long Learning

Part of the Advances in Higher Education and Professional Development Book Series

Walter Nuninger (Université de Lille, France) and Jean-Marie Châtelet (Université de Lille, France)

Description:
Previously, key levers of higher education have seemed to be the learning organization, work-integrated learning for life-long learning, and learner-centered pedagogy. However, funding evolution and the integration of digital tools are changing professional styles and learning behaviors. Nonetheless, the sustainability of higher education requires quality agreement based on ethical, robust, and replicable pedagogical approaches.

The Handbook of Research on Operational Quality Assurance in Higher Education for Life-Long Learning is a comprehensive scholarly book that focuses on the evolution of the education framework and job market as well as necessary changes needed in organizations to reply to life-long learning and competency-based training initiatives. Highlighting topics such as digital environment, e-learning, and learning analytics, this book is essential for higher education faculty, managers, deans, professionals, administrators, educators, academicians, researchers, and policymakers.

ISBN: 9781799812388    Release Date: December, 2019    Copyright: 2020    Pages: 400
