Being mobile in the Greater Region

Why ?

Taking a course, attending a conference, loaning a book at the university libraries: the "University of the Greater Region – UniGR" network provides you with a variety of reasons to visit the neighbouring universities.

What about the travel costs?

To make this financially feasible, most UniGR universities offer funding for short-time stays at the partner institutions. Students and PhD students can apply for travel allowances from the so-called **UniGR mobility funds**.

Moreover, there are **special offers and conditions** for students provided by the public transport services, depending on the university and the region.

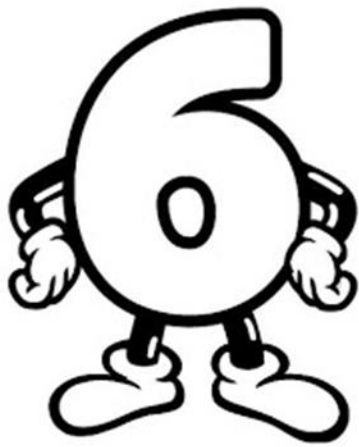

<http://www.uni-gr.eu/en/mobility>

Seek **advice**

- From your peers
- From your promotor
- From your Faculty
- From the future host
- From other mobile researchers

Build your **network**

- Attend events, seminars, summer schools
- Look for references on the web
- Meet other mobile researchers
