**Witness:** B3L

**Transliteration:**

$iw\ d\dot{s}.n-\ i\ p.t\ iw\ nm[i.n-i\ ish.w]$

**Translation:**

I have crossed the sky, I have traversed the sunshine,

**Notes:**

Only the N35:T34*G17 group is visible.

**Witness:** B1C,a

**Transliteration:**

$iw\ d\dot{s}.n-i\ p.t\ iw\ nm[i.n-i\ ish.w]$

**Translation:**

I have crossed the sky, I have traversed the sunshine,

**Witness:** B1C,b

**Transliteration:**

$[iw\ d\dot{s}.n-i\ p.t\ iw\ nm[i.n-i\ ish.w]]$

**Translation:**

I have crossed the sky, I have traversed the sunshine,

**Notes:**

Only the N35:T34*G17 group is visible.

**Witness:** B1L

**Transliteration:**

$iw\ d\dot{s}.n-i\ p.t\ iw\ nm[i.n-i\ ish.w]$

**Translation:**

I have crossed the sky, I have traversed the sunshine,
Witness: M3C
Transliteration:
imiento =i p.t inti
Translation:
I have crossed the sky, I have traversed the sunshine,

Witness: M30C
Transliteration:
[imiento =i p.t inti
Translation:
I have crossed the sky, I have traversed the sunshine,

Notes:
Only the N35 is visible.

Group 4: Nominal sdm.n-f (Balanced sentence), Lemma nmi (second position)

Lemma: nmi (to traverse)
Morphology 1: sdm.n-f nominal

Witness: S2C,a
Transliteration:
[dš.n=] p.t inti
Translation:
I have crossed the west, I have traversed the sky,

Notes phrase:
In this phrase, the following pattern variations occur: G1+G3 (B3L, B1C,a, B1C,b, B1L, M3C, M30C), G2+G4 (S2C,a, S2C,b).

Spell: 96 Phrase: 283 b

Group 1: Circumstantial sdm.n-f (lw(+f) sdm.n-f), Lemma dši (first position)

Lemma: dši (to cross)
Morphology 1: sdm.n-f circumstantial

Witness: B3L
Transliteration:
[ímnt] p.t inti
Translation:
I have crossed the west of the sky,
I have traversed the east of the sky,
I have crossed to the west of the sky,
I have traversed to the east of the sky,

I have crossed the west after I traversed the east of the sky,

I have crossed the west after I traversed the east of the sky,
I have crossed to the west of the sky,
I have traversed to the east of the sky,

**Group 3:** Circumstantial $sdm.n$-f (Temporal clause), Lemma $nmi$ (second position)

**Lemma:** $nmi$ (to traverse)

**Morphology 1:** $sdm$-f circumstantial

**Syntax:** Temporal clause **Subject:** Pronominal subject

**Witness:** M3C

I have crossed the west after I traversed the east of the sky,

**Witness:** M28C

I have crossed the west after I traversed the east of the sky,

**Notes:**
The T34 is not visible.

**Witness:** M30C

I have crossed the west after I traversed the east of the sky,

**Witness:** M37C

I have crossed the west after I traversed the east of the sky,

**Notes:**
The M17 and N35 are not visible.

**Notes phrase:**
In this phrase, the following pattern variations occur: G1+G2 (B3L, B1C,a, B1C,b, B1L), G1+G3 (M3C, M28C, M30C, M37C).

**Spell:** 96  **Phrase:** 2 83 c
Witness: B3L
Transliteration: in \textit{r} \textit{iri} n-i \textit{iri} b3 n r'
Translation: it is Re who made my name, I am the one who made the soul of Re.

Witness: B1C,a
Transliteration: in \textit{r} \textit{iri} b3+i \textit{iri} b3 n r'
Translation: it is Re who made my soul, \textit{spi} made the soul of Re.

Witness: B1C,b
Transliteration: [in \textit{r} \textit{iri}] b3+i [\textit{spi} \textit{iri}] b3 n r'
Translation: it is Re who made my soul, \textit{spi} made the soul of Re.

Witness: S2C,a
Transliteration: in \textit{r} [\textit{iri} b3]-i \textit{ts phr}
Translation: it is Re who made my soul, and vice-versa.

Witness: S2C,b
Transliteration: [in] \textit{r} [\textit{iri} b3]-i [\textit{ts phr}]
Translation: it is Re who made my soul, and vice-versa.

\textbf{Group 2:} Stative (3rd person masculine singular), Lemma \textit{pfr} (first position)
\textbf{Lemma:} \textit{pfr} (to turn around)
\textbf{Morphology 1:} Stative \textbf{Morphology 2:} 3rd person masculine singular
\textbf{Morphology 3:} Syntax: \textbf{Subject:}

Witness: M3C
Transliteration: n \textit{r} b3+i n-i \textit{ts pfr}
Translation: because Re is my soul for me, and vice-versa.

Witness: M30C
Transliteration: n \textit{r} [b3+i n-i ts \textit{pfr}]
Translation: because Re is my soul for me, and vice-versa.

Witness: M37C
Transliteration: [n \textit{r} b3+i n-i ts \textit{pfr}]
Translation: because Re is my soul for me, and vice-versa.
**Group 3:** Perfective active participle (masculine singular), Lemma *iri* (second position)

*Lemma:* *iri* (to do, to make)

*Morphology 1:* participle
*Morphology 2:* perfective active
*Morphology 3:* masculine singular

*Syntax:* *Subject:*

*Witness:* B3L

*Transliteration:* $in\ r^*\ iri\ ri\ n\ =\ ink\ \ iri\ b\ z\ n\ r^*$

*Translation:* it is Re who made my name, I am the one who made the soul of Re.

*Witness:* B1C,a

*Transliteration:* $in\ r^*\ iri\ b\ z\ =\ i\ spi\ \ iri\ b\ z\ n\ r^*$

*Translation:* it is Re who made my soul, *spi* made the soul of Re.

*Witness:* B1C,b

*Transliteration:* $[in\ r^*\ iri]\ b\ z\ =\ i\ [spi\ \ iri]\ b\ z\ n\ r^*$

*Translation:* it is Re who made my soul, *spi* made the soul of Re.

**Group 4:** Stative (3rd person masculine singular), Lemma *pXr* (second position)

*Lemma:* *pXr* (to turn around)

*Morphology 1:* Stative
*Morphology 2:* 3rd person masculine singular

*Syntax:* *Subject:*

*Witness:* S2C,a

*Transliteration:* $in\ r^*\ [iri\ b\ z]\ =\ i\ [pXr]$*

*Translation:* it is Re who made my soul, and vice-versa.

*Witness:* S2C,b

*Transliteration:* $[in]\ r^*\ [iri\ b\ z]\ =\ i\ [s\ pXr]$*

*Translation:* it is Re who made my soul, and vice-versa.

*Notes:*
*Notes phrase:*

In this phrase, the following pattern variations occur: G1+G3 (B3L, B1C,a, B1C,b) G1 (B1L), G1+G4 (S2C,a, S2C,b) G2 (M3C, M30C, M37C). Note that M28C does have a phrase here, but it is non-verbal.
Group 1:  Imperfective active participle (masculine plural), Lemma s3aw
Lemma: s3aw (to guard)
Morphology 1: participle
Morphology 2: imperfective active
Morphology 3: masculine plural
Syntax: Subject: 
Witness: B3L
Transliteration: $33\text{.}w \text{nbd}.w
Translation: who guard the evil ones.

Group 2:  Imperfective active participle (feminine singular), Lemma s3aw
Lemma: s3aw (to guard)
Morphology 1: participle
Morphology 2: imperfective active
Morphology 3: feminine singular
Syntax: Subject: 
Witness: B1C,a
Witness: B1C,b
Transliteration: $33\text{.}1 \text{nbd}.w
Transliteration: $33\text{.}1 \text{nbd}.w
Translation: which guards the evil ones,
Translation: which guards the evil ones,

Witness: B1L
Transliteration: $33\text{.}1 \text{nbd}.w
Translation: which guards the evil ones.
Translation: which guards the evil one,
Witness: M28C
Transliteration: sże.t nbđ
Translation: which guards the evil one,

Witness: M30C
Transliteration: s[še.t nbđ]
Translation: which guards the evil one,
Notes: Only the O34 is visible.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B3L), G2 (B1C,a, B1C,b, B1L, M3C, M28C, M30C, M37C).

Spell: 96 Phrase: 2 85 c

Group 1: Imperfective active participle (masculine singular), Lemma šhm
Lemma: šhm (to have power)
Morphology 1: imperfective active Morphology 2: masculine singular
Syntactically: Subject: participle

Witness: B3L
Transliteration: šhm m lft.yw-f
Translation: who has power with his enemies,

Witness: B1C,a
Transliteration: šhm m lft.yw-f
Translation: who has power with his enemies,

Witness: B1C,b
Transliteration: [šhm m lft.yw-f]
Translation: who has power with his enemies,

Witness: B1L
Transliteration: šhm m lft.yw-f
Translation: who has power with his enemies,
Group 2:  Circumstantial $s\text{d}m$-$f$ (Temporal clause), Lemma $s\text{hm}$

Lemma:  $s\text{hm}$  (to have power)

Morphology 1:  $s\text{d}m$-$f$

Morphology 2:  circumstantial

Morphology 3:  

Syntax:  

Subject:  

Witness:  M3C
Transliteration:  $s\text{hm}$-$i$  $m$  $\text{ht}\text{i}.yw$-$i$
Translation:  while I have power with my enemies,

Witness:  M28C
Transliteration:  $s\text{hm}$-$f$  $m$  $\text{ht}\text{i}.yw$-$f$
Translation:  while he has power with his enemies,

Witness:  M30C
Transliteration:  $s\text{hm}$-$i$  $m$  $\text{ht}\text{i}.y[w]$-$i$
Translation:  while I have power with my enemies,

Witness:  M37C
Transliteration:  $s\text{hm}$-$i$  $m$  $\text{ht}\text{i}.y[w]$-$i$
Translation:  while he has power with his enemies,

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B3L, B1C,a, B1C,b, B1L), G2 (M3C, M28C, M30C, M37C).

Spell:  96  Phrase:  2  85  d

Group 1:  Circumstantial $s\text{d}m$.-$n$-$f$ (Temporal clause), Lemma $r\text{di}$

Lemma:  $r\text{di}$  (to give, to place)

Morphology 1:  $s\text{d}m$.-$n$-$f$

Morphology 2:  circumstantial

Morphology 3:  

Syntax:  

Subject:  

Witness:  B3L
Transliteration:  $r\text{di}$-$i$  $w$-$s$.t
Translation:  after I placed a road,
Witness: M3C
Transliteration: 
\(di.n=i\) \(w3.t\)
Translation: after I placed a road,

**Group 2:** *Circumstantial sdm.n-f (Temporal clause), Lemma wdi*

| Witness: | B1C,a |
| Transliteration: | \(di.n=i\) \(w3.t\) |
| Translation: | after I placed a road, |

Notes group:
Could be considered to be group 1 as well.

**Group 3:** *Passive circumstantial sdm.n-f (Temporal clause), Lemma rdi*

| Witness: | M28C |
| Transliteration: | \(di.n\) \(w3.t\) |
| Translation: | after a road was placed, |

Notes:
The hand of the D37 is not visible.
Witness: M37C
Transliteration: 
di.n ws[i.ī]
Translation: after a road was placed,

Notes phrase: In this phrase, the following pattern variations occur: G1 (B3L, B1L, M3C), G2 (B1C,a, B1C,b), G3 (M28C, M30C, M37C).

Spell: 96 Phrase: 286 b

Group 1: Perfective active participle (masculine singular), Lemma pri
Lemma: pri (to go forth)
Morphology 1: participle Morphology 2: perfective active Morphology 3: masculine singular
Syntax: Subject:
Witness: B3L
Transliteration: pr m hw r lft.y=i
Translation: which went forth in the day against my enemy,
Notes: Could be an imperative as well.

Group 2: Prospective sdm-f (Final clause implying purpose), Lemma pri
Lemma: pri (to go forth)
Morphology 1: sdm=f Morphology 2: prospective Morphology 3: Syntax: Subject:
Subject: Final clause implying purpose Pronominal subject
Witness: B1C,b
Transliteration: pr=i m hw r lft.yw=i
Translation: so that I will go forth in the day, against my enemies,

Witness: B1L
Transliteration: pr=i m hw r lft.y=i
Translation: so that I will go forth in the day, against my enemy,
Witness: M3C
Transliteration: 
Translation: so that I will go forth in the day,

Notes: The O1 is not visible.

In this phrase, the following pattern variations occur: G1 (B3L), G2 (B1C,b, B1L, M3C, M28C, M30C, M37C).

Spell: 96 Phrase: 2 87 d

Group 1: Passive circumstantial ṣḏm-f (iw(-f) ṣḏm-f), Lemma rdi (first position)
Lemma: rdi (to give, to place)
Morphology 1: circumstantial Morphology 2: passive Morphology 3: Syntax: Subject: ṣḏm-f Nominal subject

Witness: B3L
Transliteration: 
Translation: A road is given to me by the one hidden of shape

Witness: B1L
Transliteration: 
Translation: A road is given to me by the one hidden of shape

Witness: M30C
Transliteration: 
Translation: so that I will go forth in the day,

Witness: M37C
Transliteration: 
Translation: so that I will go forth in the day,
**Witness:** M30C  
**Transliteration:** iw rdi n=ī wṣ.t (i)r=f in sfg irw  
**Translation:** A road is given to me by the one hidden of shape

**Witness:** M37C  
**Transliteration:** iw rdi n=ī wṣ.t [(i)r=f in sfg irw]  
**Translation:** A road is given to me by the one hidden of shape

**Group 2:** Perfective passive participle (masculine singular), Lemma rdi (first position)  
**Lemma:** rdi  
(to give, to place)  
**Morphology 1:** participle  
**Morphology 2:** perfective passive  
**Morphology 3:** masculine singular  
**Syntax:** Subject:

**Witness:** M3C  
**Transliteration:** iw rd.y n=ī in sfg irw  
**Translation:** that which was given to me by the one hidden of shape,

**Group 3:** Imperfective active participle (masculine singular), Lemma sfg (second position)  
**Lemma:** sfg  
(to be hidden)  
**Morphology 1:** participle  
**Morphology 2:** imperfective active  
**Morphology 3:** masculine singular  
**Syntax:** Subject:

**Witness:** B3L  
**Transliteration:** iw rdi n=ī wṣ.t (i)r=f in sfg irw  
**Translation:** A road is given to me by the one hidden of shape

**Witness:** B1C,b  
**Transliteration:** iw rdi n=ī wṣ.t [(i)r=f in sfg irw]  
**Translation:** A road is given to me by the one hidden of shape

**Witness:** B1L  
**Transliteration:** iw rdi n=ī wṣ.t (i)r=f in sfg irw  
**Translation:** A road is given to me by the one hidden of shape

**Witness:** M3C  
**Transliteration:** iw rd.y n=ī in sfg irw  
**Translation:** that which was given to me by the one hidden of shape,
Witness: M28C
Transliteration: iw rdi n=i ws.t (i)r=f in sfg irw
Translation: A road is given to me by the one hidden of shape
Notes: Only traces of the S29 and W11 left, the rest is visible.

Witness: M30C
Transliteration: [iw rdi n=i ws.t (i)r=f in sfg irw]
Translation: A road is given to me by the one hidden of shape

Notes phrase: In this phrase, the following pattern variations occur: G1+G3 (B3L, B1C,b, B1L, M28C, M30C, M37C), G2+G3 (M3C).

Spell: 96 Phrase: 2 88 c

Group 1: Passive sdm.t-f (negation), Lemma iyi
Lemma: iyi (to come)
Morphology 1: sdm.t-f
Morphology 2: Passive
Morphology 3: Syntax:
Negation
Subject:
Nominal subject

Witness: B3L
Transliteration: n iy.yt hrw.w=i
Translation: before my days had come.

Witness: B1C,b
Transliteration: [n iy.yt hrw.w=i]
Translation: before my days had come.
Witness: M3C
Transliteration:
n iy.yt hrw=f
Translation: before his day had come.
Notes:

Witness: M28C
Transliteration:
n iy.y[t] hrw=f
Translation: before his day had come.
Notes:
The X1 is not visible.

Witness: M30C
Transliteration:
[n iy.yt hrw=f]
Translation: before his day had come.

Group 2: Infinitive (status absolutus), Lemma iyi
Lemma: iyi (to come)
Morphology 1: status absolutus

Witness: M37C
Transliteration:
[n iy.yt hrw=f]
Translation: before his day had come.

Notes:

Group 1: Circumstantial sdm.n-f (iw=f) sdm.n-f, Lemma ini
Lemma: ini (to bring)
Morphology 1: circumstantial

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B3L, B1C,b, M3C, M28C, M30C, M37C), G2 (B1L).

Spell: 96 Phrase: 2 88-89 d-a
Witness: B3L  
Transliteration: iw in.n-f wi r s.t tn  
Translation: He has brought me to this place,

Witness: B1C,b  
Transliteration: [iw in.n-f wi r s.t tn]  
Translation: He has brought me to this place,

Witness: B1L  
Transliteration: iw in.n-f wi r s.t tn  
Translation: He has brought me to this place,

Witness: M30C  
Transliteration: [iw in.n-f wi r s.t tn]  
Translation: He has brought me to this place

Notes: Only traces of the N35:N35 group left, the W25 is not visible.

ndr.n-i htr hnt(.y) mn.wt-f 
Translation: 
after I held the lashing of the one who presides over his thighs fast.

Notes group: 
Note that Sq6C and Sq3Sq use a nominal subject instead of a pronominal subject.

Group 3: Perfective active participle (masculine plural), Lemma pri (second position)
Lemma: pri (to go forth)
Morphology 1: perfective active
Morphology 2: masculine plural
Morphology 3: Subject:

Witness: B3Bo
Transliteration: 
ndr.n-s m htr.w pr hnt it-s 
Translation: 
after she held fast with the lashings, which went forth in front of her father.
Notes phrase:
In this phrase, the following pattern variations occur: G1 (S14C, L1Li), G2 (Sq6C, Sq35q, B1Bo, B1C), G2+G3 (B3Bo). Note that B2Bo does have a phrase here, but it is non-verbal.

Spell: 151 Phrase: 2 258 b

Group 1: Prospective setCurrent-value-F (Main clause), Lemma Ȓni
Lemma: Ȓni (to row)
Morphology 1:  setCurrent-value-F prospective
Morphology 2:  setCurrent-value-F
Morphology 3:  Subject: Main clause
Syntax: Pronominal subject
Witness: S14C
Transliteration: Ȓn.y=i m ns.t=i im.t wis nṯr
Translation: I will row in my seat, which is in the bark of the god,

Group 2: Nominal setCurrent-value-F (Balanced sentence), Lemma Ȓni
Lemma: Ȓni (to row)
Morphology 1:  setCurrent-value-F nominal
Morphology 2:  setCurrent-value-F
Morphology 3:  Subject: Balanced sentence
Syntax: Pronominal subject
Witness: L1Li
Transliteration: Ȓn.n=i m ns.t=i im.t wis nṯr
Translation: I have rowed in my seat, which is in the bark of the god,

Notes phrase:
In this phrase, the following pattern variations occur: G1 (S14C), G2 (L1Li).
Spell: 151  Phrase: 2  258-259  c-a

Group 1: Prospective $sdm\cdot f$ (Main clause), Lemma $hsi$

Lemma: $hsi$ (to descend)

Morphology 1: $sdm\cdot f$
Morphology 2: prospective
Morphology 3: Syntax: Subject:

Main clause Pronominal subject

Witness: S14C
Transliteration: $h\text{.}y\cdot i m ns.t\cdot i im.t\ wi\overset{\cdot}{s} n\overset{\cdot}{t}r$
Translation: I will descend into my seat, which is in the bark of the god.

Witness: B3Bo
Transliteration: $h\text{.}z\cdot w dh\overset{\cdot}{w}ty\cdot nh\overset{\cdot}{t}\ t n m ns.t\cdot s im.t\ wi\overset{\cdot}{s}$
Translation: This $dh\overset{\cdot}{w}ty\cdot nh\overset{\cdot}{t}$ will descend into her seat, which is in the bark.

Witness: B2Bo
Transliteration: $h\text{.}y\cdot i [r] ns.t im.t\ wi\overset{\cdot}{s} r^c$
Translation: I will descend to the seat which is in the bark of Re.

Witness: B1Bo
Transliteration: $h\text{.}z\cdot y\cdot f r ns.t im.t$
Translation: He will descend to the seat which is in

Witness: B1C
Transliteration: $h\text{.}z\cdot y\cdot i r ns.t\cdot i im.t\ h\overset{\cdot}{s}.t\ wi\overset{\cdot}{s} r^c$
Translation: I will descend to the seat which is in the forepart of the bark of Re.

Notes group:
Note that B3Bo uses a nominal subject instead of a pronominal subject.

Group 2: Nominal $sdm\cdot n\cdot f$ (Balanced sentence), Lemma $hsi$

Lemma: $hsi$ (to descend)

Morphology 1: $sdm\cdot n\cdot f$
Morphology 2: nominal
Morphology 3: Syntax: Subject:

Balanced sentence Pronominal subject
I have descended into the seat which is in the bark.

This snni has descended even to his seat, which is in the boat of Re.

Controller, I was not neglectful of my seat which is in the bark of the controller,

Controller, she was not forgetful of her seat which is in the bark of the controller,
Witness: Sq3Sq
Transliteration: [h]rs n mh sn mi pn ns.t-f im.t dp.t r² ḫrs
Translation: One who drives away, this sn mi was not forgetful of his seat, which is in the boat of Re, the one who drives away.

Notes group:
Note that Sq3Sq uses a nominal subject instead of a pronominal subject.

Group 2: Passive indicative sḏm-f (negation), Lemma ḫnb (first position)
Lemma: ḫnb (to send)
Morphology 1: sḏm-f indicative
Morphology 2: passive
Morphology 3: Syntax: Subject:
Negation Nominal subject

Witness: L1Li
Transliteration: ḫsr n ḫnb.w ns.t-i ḫsr.t
Translation: One who drives away, my seat which was driven away was not send,

Group 3: Imperative (second person singular), Lemma tm (first position)
Lemma: tm (to not do)
Morphology 1: imperative
Morphology 2: 2nd person singular
Morphology 3: Syntax: Subject:

Witness: B1C
Transliteration: m mh wi
Translation: Do not be forgetful of me,

Group 4: Perfective passive participle (feminine singular), Lemma ḫsr (second position)
Lemma: ḫsr (to drive away)
Morphology 1: participle
Morphology 2: perfective passive
Morphology 3: feminine singular
Syntax: Subject:

2222
Witness: L1Li

Transliteration: ḫsr n ḫsb.w ns.t-i ḫsr.t

Translation: One who drives away, my seat which was driven away was not send,

Group 5: Negative complement, Lemma mhi/w (second position)

Lemma: mhi/w (to be neglectful)

Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:
negative complement

Witness: B1C

Transliteration: m mh wi

Translation: Do not be forgetful of me,

Notes phrase: In this phrase, the following pattern variations occur: G1 (S14C, B3Bo, Sq3Sq, B2Bo), G2+G4 (L1Li), G3+G5 (B1C).

Note that B1Bo does have a phrase here, but it is non-verbal.

Spell: 151 Phrase: 2 259 c

Group 1: Indicative sḏm-f (negation), Lemma iwi (first position)

Lemma: iwi (to leave stranded)

Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:
sḏm-f indicative Negation Nominal subject

Witness: S14C

Transliteration: n iw wi ns.t-i im.t wiś nṯr

Translation: my seat which is in the bark of the god did not leave me stranded.

Witness: B3Bo

Transliteration: n iw s(y) ns.t-s im.t wiś nṯr

Translation: her seat which is in the bark of the god did not leave her stranded.
Witness: L1Li
Transliteration: n iw wi ns.t-i im.t wis ntr
Translation: my seat which is in the bark of the god did not leave me stranded.

Witness: B2Bo
Transliteration: n iw wi ns.t im.t wis ṅ3
Translation: the seat which is in the great bark did not leave me stranded.

Witness: B1Bo
Transliteration: n iw sw ns.t-f im.t iwnw
Translation: his seat which is in Heliopolis did not leave him stranded.

Group 2: Indicative sḏm-f (negation), Lemma wnn (first position)
Lemma: wnn (to be, to exist)
Morphology 1: sḏm-f indicative
Morphology 2: Negation
Morphology 3: Nominal subject
Syntax:
Subject:

Witness: Sq3Sq
Transliteration: n wn snni p[n] ns.t-f im.t wi ṅ3
Translation: this snni is not his seat which is in the great bark.

Group 3: Imperative (second person singular), Lemma ṭm (first position)
Lemma: ṭm (to not do)
Morphology 1: imperative
Morphology 2: 2nd person singular
Morphology 3: Syntax:
Subject:

Witness: B1C
Transliteration: m iw wi s.t-i im.t ḫṣ.t wis ṅ3 ṅ3
Translation: Do not leave me stranded, my seat which is in the forepart of the great bark of Re.
Group 4: negative complement, Lemma iwi (second position)

Lemma: iwi (to leave stranded)

Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:
negative complement

Witness: B1C

Transliteration:
m iwi s.t-i im.t hzi.t wis r" sii

Translation:
Do not leave me stranded, my seat which is in the forepart of the great bark of Re.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (S14C, B3Bo, L1Li, B2Bo, B1Bo), G2 (Sq3Sq), G3+G4 (B1C).
Appendix 5.38. Spell 154

Spell: 154  Phrase: 2 266-267 d

**Group 1:** Infinitive (status absolutus), Lemma šḥ (first position)

* Lemma: Ax (to be potent)
* Morphology 1: infinitive
* Morphology 2: status absolutus

**Syntax:**  
**Subject:**

**Witness:** S2P

Transliteration:
šḥ m ḫr.t-nmgr

Translation:
and being potent in the necropolis.

**Notes:**
Only the Y2 is visible.

**Witness:** S1Ṭū

Transliteration:
šḥ m [ḥr.t-nmgr]

Translation:
and being potent in the necropolis.

**Witness:** S3C

Transliteration:
[šḥ m ḫr.t-nmgr]

Translation:
and being potent in the necropolis.

**Notes:**
The head of the G25 is damaged.

**Witness:** S9C,a

Transliteration:
šḥ tp ṭs šḥ m ḫr.t-nmgr

Translation:
being potent upon the land, being potent in the necropolis,

**Notes:**
The head of the G25 is damaged.

**Witness:** S9C,b

Transliteration:
šḥ tp ṭs šḥ ḫr.t-nmgr

Translation:
being potent upon the land and being potent in the necropolis.

**Witness:** B1L

Transliteration:
šḥ tp ṭs m ḫr.t-nmgr

Translation:
being potent upon the land and in the necropolis,
Group 2: Infinitive (status absolutus), Lemma wḥ (first position)
Lemma: wḥ (to endure)
Morphology 1: infinitive
Morphology 2: status absolutus
Morphology 3: syntax: subject:
Witness: B2Bo
Transliteration: wḥ tp ṭs st m ḥt.t-nṯr
Translation: enduring upon the land, being potent in the necropolis,

Group 3: Infinitive (status absolutus), Lemma ẖ (second position)
Lemma: ẖ (to be potent)
Morphology 1: infinitive
Morphology 2: status absolutus
Morphology 3: syntax: subject:
Witness: S9C,a
Transliteration: ẖ tp ṭs st m ḥt.t-nṯr
Translation: being potent upon the land, being potent in the necropolis,
Notes: Only traces left of the G25.
Witness: S9C,b
Transliteration: ẖ tp ṭs st m ḥt.t-nṯr
Translation: being potent upon the land and being potent in the necropolis.
Notes phrase: In this phrase, the following pattern variations occur: G1 (S2P, S3P, S1Tū, S2C, S3C), G1+G3 (S9C,a, S9C,b), G2+G3 (B2Bo).
Spell: 154  Phrase: 2  268-269 d

**Group 1:** Infinitive (status absolutus), Lemma ṛḥ

**Lemma:** ṛḥ (to know, to learn)

**Morphology 1:**
- Infinitive

**Morphology 2:**
- Status absolutus

**Syntax:**

**Subject:**

**Witness:** S2P

**Transliteration:** ṛḥ bs. w iwnw

**Translation:** Knowing the souls of Heliopolis.

**Witness:** S1Tü

**Transliteration:** ṛḥ bs. w iwnw

**Translation:** Knowing the souls of Heliopolis.

**Witness:** S3C

**Transliteration:** ṛḥ bs. w iwnw

**Translation:** Knowing the souls of Heliopolis.

**Notes:** Only the D21 is visible.

**Witness:** B2P

**Transliteration:** ṛḥ bs. w iwnw

**Translation:** Knowing the souls of Heliopolis.

**Witness:** B3C

**Transliteration:** ṛḥ bs. w iwnw

**Translation:** Knowing the souls of Heliopolis.
Witness: B4L,a
Transliteration: 
\textit{r}h b3.w \textit{i}wnw
Translation: Knowing the souls of Heliopolis.

Witness: B4L,b
Transliteration: 
\textit{r}h b3.w \textit{i}wnw
Translation: Knowing the souls of Heliopolis.

Witness: B1Y
Transliteration: 
\textit{r}h b3.w \textit{i}wnw
Translation: Knowing the souls of Heliopolis.

Witness: B17C
Transliteration: 
\textit{r}h b3.w \textit{i}wnw
Translation: Knowing the souls of Heliopolis.

Witness: S1C,a
Transliteration: 
\textit{r}h b3.w \textit{i}wnw
Translation: Knowing the souls of Heliopolis.

Witness: B1C
Transliteration: 
\textit{r}h b3.w \textit{i}wnw
Translation: Knowing the souls of Heliopolis.

Witness: S1C,b
Transliteration: 
\textit{r}h b3.w \textit{i}wnw
Translation: Knowing the souls of Heliopolis.

Notes: 
Only traces left of the D21, the Aa1 is visible.

\textbf{Group 2:} Stative (first person singular), Lemma \textit{r}h

Lemma: \textit{r}h (to know, to learn)

Morphology 1: Stative
Morphology 2: 1st person singular
Morphology 3: Syntax: Subject:

Witness: B2Bo
Transliteration: 
iw=i \textit{r}h.\textit{kwi} b3.w \textit{i}wnw
Translation: I know the souls of Heliopolis.
Notes phrase:
In this phrase, the following pattern variations occur: G1 (S2P, S3P, S1Tü, S2C, S3C, B4Bo, b2P, B3C, B4L, a, B4L, b, B1Y, B17C, B1C, S1C, a, S1C, b), G2 (B2Bo).

Translation: I came to be among those who came to be that open the sight of his sole eye,

Witness: B1C
Transliteration: hpr. n-i m-m hpr. w wn.w hr rdi. t-f w’
Translation: I came to be among those who came to be that open the face of who will place the sole one,

Witness: M38C
Transliteration: [hpr]. n-i m-m hpr. w wn.w hr ir.t-f w’.t
Translation: I came to be among those who came to be that open the sight upon his sole eye,
Notes: The L1 is not visible.

Notes group:
Note that B4Bo and B3C use a nominal subject instead of a pronominal subject.
**Group 2:** Perfective active participle (masculine plural), Lemma ḫpr (second position)

**Lemma:** ḫpr (to become)

**Morphology 1:** participle

**Morphology 2:** perfective active

**Morphology 3:** masculine plural

**Subject:**

**Syntax:**

**Witness:** S2P

Transliteration:

\(\text{ẖpr.n=i m-m ḫpr.w wn.w ḫr ḫr ir.t-f w^e.t}\)

Translation:

I came to be among those who came to be that open the sight upon his sole eye,

Notes:

Only traces of the L1 are visible, the rest is lost.

**Witness:** S1Tū

Transliteration:

\(\text{ẖpr.n=i m-m ḫpr[w] wn.w ḫr ḫr ir.t-f w^e.t}\)

Translation:

I came to be among those who came to be that open the sight upon his sole eye,

Notes:

Only traces of the L1 are visible, the rest is lost.

**Witness:** S3C

Transliteration:

\(\text{ẖpr[n=i m-m ḫpr.w [wn.w ḫr ḫr ir.t-f [w^e.t]}\)

Translation:

I came to be among those who came to be that open the sight upon his sole eye,

Notes:

Only the L1 and G43 are visible.

**Witness:** S9C,a

Transliteration:

\(\text{ẖpr.n=i m-m ḫpr.w wn.w ḫr ḫr ir.t-f [w^e.t]}\)

Translation:

I came to be among those who came to be that open the sight upon his sole eye,
Witness: B2Bo
Transliteration: 
\[\text{hpr.} \text{n-f m-m hpr.} \text{w wn.w hr hr ir.} \text{f w'*t}\]
Translation:
he came to be among those who came to be that open the sight upon his sole eye,

Witness: B9C
Transliteration: 
\[\text{hpr.} \text{n-i m-m hpr.} \text{w wn(,w) hr hr ir.} \text{f w'*t}\]
Translation:
I came to be among those who came to be that open the sight upon his sole eye,
Notes:
Note that hpr. w is spelled with seemingly one G43 to many.

Witness: B3C
Transliteration: 
\[\text{hpr.} \text{n ss.t-hd-hp tn m-m hpr.} \text{w wn(,w) hr ir.} \text{f w'*t}\]
Translation:
this ss.t-hd-hp came to be among those who came to be that open the sight of his sole eye,

**Spell:** 154  **Phrase:** 2 272-275 c-a  (Note that S1C,a-b use a different line here, namely 2,273,g-h)

**Group 1:** Infinitive (status constructus), Lemma ḫṣī

*Lemma:* ḫṣī (to extend)

*Morphology 1:* infinitive

*Morphology 2:* status constructus

*Morphology 3:*

**Syntax:** Subject:

**Witness:** S2P

**Transliteration:** ḫṣī.t ʿ in ḫṭm r iw w iwnw

**Translation:**

the extending of the arm by the destroyer
against the heir of Heliopolis.

**Witness:** S3P

**Transliteration:** ḫṣī.t ʿ in ḫṭm [r] iw ʿ [iwnw]

**Translation:**

the extending of the arm by the destroyer
against the heir of Heliopolis.
Witness: S1Tü
Transliteration: ∂ς.τ ʾ in ḫtm [r] ṟw r ḫw n
Translation: the extending of the arm by the destroyer against the heir of Heliopolis.

Witness: S3C
Transliteration: [∂ς.τ ʾ in ḫtm r ṟw r ḫw n]
Translation: the extending of the arm by the destroyer against the heir of Heliopolis.

Witness: B2Bo
Transliteration: ∂ς.τ ʾ in ḫtm r ṟw r ḫw n
Translation: the extending of the arm by the destroyer against the heir of Heliopolis.

Witness: B9C
Transliteration: ∂ς.τ ʾ in ḫtm r ṟw r ḫw n
Translation: the extending of the arm by the destroyer against the heir of Heliopolis.
Notes: Only traces left of the X1, the rest is visible.

Witness: B4L,a
Transliteration: ∂ς.τ ʾ in ḫtm r ṟw r ḫw n
Translation: the extending of the arm by the destroyer against Heliopolis.

Witness: S2C
Transliteration: ∂ς.τ ʾ [r] in ḫtm ṟw r ḫw n
Translation: the extending of the arm by the destroyer against the heir of Heliopolis.

Witness: S9C,a
Transliteration: ∂ς.τ ʾ in ḫtm r ṟw r ḫw n
Translation: the extending of the arm by the destroyer against Heliopolis.

Witness: B4Bo
Transliteration: ∂ς.τ ʾ in ḫtm r ṟw r ḫw n
Translation: the extending of the arm by the destroyer against the heir of Heliopolis.

Witness: B2P
Transliteration: ∂ς.τ ʾ in ḫtm r ṟw r ḫw n
Translation: the extending of the arm by the destroyer against the heir of Heliopolis.

Witness: B4L,b
Transliteration: ∂ς.τ ʾ in ḫtm r ṟw r ḫw n
Translation: the extending of the arm by the destroyer against the heir of Heliopolis.
Witness: B1Y
Transliteration: $dš.t\ f\ i̯m\ r\ i̯w\ i̯n̯w$ Transliteration: $dš.t\ f\ i̯m\ r\ i̯w\ i̯n̯w$
Translation: the extending of the arm by the destroyer against the heir of Heliopolis.

Witness: B1C
Transliteration: $dš.t\ f\ m\ dšš.t\ i̯m\ r\ i̯w\ i̯n̯w$
Translation: the extending of the arm in the tribunal, by the destroyer against the heir of Heliopolis.

**Group 2:** Infinitive (status absolutus), Lemma $dši$
Lemma: $dši$ (to cross)
Morphology 1: infinitive Morphology 2: status absolutus
Syntax: Subject:

Witness: B1L
Transliteration: $dš.t\ i̯m\ r\ i̯w\ i̯n̯w$
Translation: the crossing by the destroyer to the heir of Heliopolis.

**Group 3:** Infinitive (status constructus), Lemma $wbḥ$ (first position)
Lemma: $wbḥ$ (to open up)
Morphology 1: infinitive Morphology 2: status constructus
Syntax: Subject:

Witness: S1C,a
Transliteration: $wbḥ\ dwš.t\ i̯n\ ū/hr\ dšš.f\ rḥ\ sw\ m\ krs\ n-f\ it-f\ wsir$ Transliteration: $wbḥ\ dwš.t\ i̯n\ ū/hr\ dšš.f\ rḥ\ sw\ m\ krs\ n-f\ it-f\ wsir$
Translation: the opening of the underworld by Horus himself, who knows him as the one who buries his father Osiris for him.

Witness: S1C,b
Transliteration: $wbḥ\ dwš.t\ i̯n\ ū/hr\ dšš.f\ rḥ\ sw\ m\ krs\ n-f\ it-f\ wsir$
Translation: the opening of the underworld by Horus, by Horus himself, who knows him as the one who buries his father Osiris for him.
**Group 4:**  Imperfective active participle (masculine singular), Lemma ḫ (second position)

**Lemma:** ḫ  (to know, to learn)

**Morphology 1:** participle

**Morphology 2:** imperfective active

**Morphology 3:** masculine singular

**Syntax:**

**Subject:**

**Witness:** S1C,a

**Transliteration:**

wbš dwž.t in ḫr ḫs=f ḫ m ḫrs n-f it=f wsir

**Translation:**

the opening of the underworld by Horus himself, who knows him as the one who buries his father Osiris for him.

**Notes group:**

Could be an infinitive or perfective participle as well.

**Group 5:**  Imperfective active participle (masculine singular), Lemma ḫs (third position)

**Lemma:** ḫs  (to bury)

**Morphology 1:** participle

**Morphology 2:** imperfective active

**Morphology 3:** masculine singular

**Syntax:**

**Subject:**

**Witness:** S1C,a

**Transliteration:**

wbš dwž.t in ḫr ḫs-f ḫh m ḫs n-f it-f wsir

**Translation:**

the opening of the underworld by Horus himself, who knows him as the one who buries his father Osiris for him.

**Notes phrase:**

In this phrase, the following pattern variations occur: G1 (S2P, S3P, S1Tū, S2C, S3C, S9C,a, B2Bo, B4Bo, B9C, B2P, B4L,a, B4L,b, B1Y, B17C, B1C), G2 (B1L), G3+G4+G5 (S1C,a, S1C,b).
**Spell:** 154  **Phrase:** 2 274-275  b

**Group 1:** Stative (first person singular), Lemma ḫy (first position)

**Lemma:** ḫy (to know, to learn)

**Morphology 1:** Stative

**Morphology 2:** 1st person singular

**Morphology 3:** Syntax: Subject:

**Witness:** S2P

**Transliteration:**

iw ḫ.y. ir. yt ḫns.k.t n(.t) ṭ₂.y ḫr=s

**Translation:**

I know upon which it was made, the braided lock of hair of a man.

**Witness:** S3P

**Transliteration:**

iw r[h].k.i ir.yt ḫnsk.t n(.t) ṭ₂.y [ḥ)r=s

**Translation:**

I know upon which it was made, the braided lock of hair of a man.

**Notes:**

Only the D21 is visible. (spelling based on 2,272,a)

**Witness:** S1Tü

**Transliteration:**

iw ḫ.y. ir. yt ḫns.k.t n(.t) ṭ₂.y ḫr=s

**Translation:**

I know upon which it was made, the braided lock of hair of a man.

**Witness:** S2C

**Transliteration:**

iw=i ḫ.y. ir.yt ḫnsk.t n(.t) ṭ₂.y hr=s

**Translation:**

I know upon which it was made, the braided lock of hair of a man.

**Witness:** S9C,a

**Transliteration:**

iw=i [r]ḥ.k.i ir.yt ḫnsk.t n(.t) ṭ₂.y [ḥ)r=s

**Translation:**

I know upon which it was made, the braided lock of hair of a man.

**Notes:**

Only traces left of the Aa1, and the D21 is no longer visible.

**Witness:** B2Bo

**Transliteration:**

iw=i ḫ.y. ki ir.yt ḫns.k.t n(.t) ṭ₂.y hr=s

**Translation:**

I know upon which it was made, the braided lock of hair of a man.

**Witness:** B9C

**Transliteration:**

iw=i ḫ.y. ki ir.yt ḫns.k.t n(.t) ṭ₂.y hr=s

**Translation:**

I know upon which it was made, the braided lock of hair of a man.

**Notes:**

Only traces left of the D21:Aa1-V31A group, the rest is visible.
**Witness:** B2P
**Transliteration:**
\[iw=i \text{r}h.\text{k}i \text{ir.} \text{t} \text{hnsk.}t \text{n(.)t} \text{t}z.y \text{hr}^{*}s\]
**Translation:**
I know upon which it was made, the braided lock of hair of a man.

**Witness:** B4L,a
**Transliteration:**
\[iw=i \text{r}h.\text{k}i \text{ir.} \text{t} \text{hnsk.}t \text{n(.)t} \text{t}z.y \text{hr}^{*}s\]
**Translation:**
I know upon which it was made, the braided lock of hair of a man.

**Witness:** B4L,b
**Transliteration:**
\[iw=i \text{r}h.\text{kwi} \text{ir.}yt \text{hnsk.}t \text{n(.)t} \text{t}z.y \text{hr}^{*}s\]
**Translation:**
I know upon which it was made, the braided lock of hair of a man.

**Witness:** B1Y
**Transliteration:**
\[iw \text{r}h.\text{kwi} \text{ir.}yt \text{hnsk.}t \text{n(.)t} \text{t}z.\text{y yr}^{*}s\]
**Translation:**
I know upon which it was made, the braided lock of hair of a man.

**Witness:** B17C
**Transliteration:**
\[iw=i \text{r}h.\text{kwi} \text{ir.} \text{t} \text{ngmm.}t \text{n(.)t} \text{t}z.yw \text{hr}^{*}s\]
**Translation:**
I know upon which it was made, the orgasm of men.

**Witness:** B1C
**Transliteration:**
\[iw=i \text{r}h.\text{kwi} \text{ir.} \text{t} \text{ngmm.}t \text{n(.)t} \text{t}z.yw \text{hr}^{*}s\]
**Translation:**
I know upon which it was made, the orgasm of men.

**Witness:** S1C,a
**Transliteration:**
\[iw=i \text{r}h.\text{ki} \text{ir.} \text{t} \text{hnsk.}t \text{n(.)t} \text{t}z.y \text{hr}^{*}s\]
**Translation:**
I know upon which it was made, the braided lock of hair of a man.

**Witness:** S1C,b
**Transliteration:**
\[iw=i \text{r}h.\text{ki} \text{ir.} \text{t} \text{hnsk.}t \text{hr}^{*}s n \text{t}z.y\]
**Translation:**
I know the making of a braided lock of hair upon it for a man.

**Notes:**
The back of the V31 is damaged.
**Group 2:** Imperfective relative sDm=f, Lemma rḥ (first position)

**Lemma:** rḥ (to know, to learn)

**Morphology 1:** sDm=f

**Morphology 2:** Imperfective relative

**Syntax:** Pronominal subject

**Witness:** B4Bo

**Transliteration:** iw dhwyty-nḥt rḥ-t[n] ir.yt ḫnsk.t n(.t) ṭś.y hr=s

**Translation:** dhwyty-nḥt, who you know, upon who it was made, the braided lock of hair of a man.

**Group 3:** Perfective passive participle (feminine singular), Lemma irī (second position)

**Lemma:** irī (to do, to make)

**Morphology 1:** participle

**Morphology 2:** perfective passive

**Morphology 3:** feminine singular

**Syntax:**

**Subject:**

**Witness:** S2P

**Transliteration:** iw rḥ.ḥ ki ir.yt ḫnsk.t n(.t) ṭś.y hr=s

**Translation:** I know upon which it was made, the braided lock of hair of a man.

**Witness:** S1Tū

**Transliteration:** iw rḥ.ḥ ki ir.yt ḫnsk.t n(.t) ṭś.y [hr=s]

**Translation:** I know upon which it was made, the braided lock of hair of a man.

**Witness:** S3P

**Transliteration:** iw ḫ.ḥ.ḥ ki ir.yt ḫnsk.t n(.t) ṭś.y [hr=s]

**Translation:** I know upon which it was made, the braided lock of hair of a man.

**Witness:** S2C

**Transliteration:** iw-l ḫ.ḥ.ḥ ki ir.yt ḫnsk.t n(.t) ṭś.y hr=s

**Translation:** I know upon which it was made, the braided lock of hair of a man.

**Notes:**

Only the D4 is visible.
Witness: S3C  
Transliteration:  
iw r[h.ki i[r.t]] hn[sk.t n(.t) t].y hr=s  
Translation:  
I know upon which it was made, the braided lock of hair of a man.

Witness: S9C,a  
Transliteration:  
iw-[r][h.k i[r.yt] hnsk [.t] n(.t) t].y [h]r=s  
Translation:  
I know upon which it was made, the braided lock of hair of a man.  
Notes:  
the top of the M17*M17 group is damaged.

Witness: B2Bo  
Transliteration:  
iw=i r[h.ki i[r.yt] hnsk.t n(.t) t].y hr=s  
Translation:  
I know upon which it was made, the braided lock of hair of a man.

Witness: B4Bo  
Transliteration:  
iw Dhwty-nht r[h-tn i[r.yt] hnsk.t n(.t) t].y hr=s  
Translation:  
Dhwty-nht, who you know, upon who it was made,  
the braided lock of hair of a man.

Witness: B9C  
Transliteration:  
iw=i r[h.ki i[r.yt hnsk.t n(.t) t].y hr=s  
Translation:  
I know upon which it was made, the braided lock of hair of a man.

Witness: B2P  
Transliteration:  
iw=i r[h.ki i[r.t] hnsk.t n(.t) t].y hr=s  
Translation:  
I know upon which it was made, the braided lock of hair of a man.  
Notes:  
Could be read as infinitive, or even psd.t as well.

Witness: B4L,a  
Transliteration:  
iw=i r[h.ki i[r.yt] hnsk.t n(.t) t].y hr=s  
Translation:  
I know upon which it was made, the braided lock of hair of a man.  
Notes:  
Could be an infinitive as well.

Witness: B4L,b  
Transliteration:  
iw=i r[h.kwi i[r.yt] hnsk.t n(.t) t].y hr=s  
Translation:  
I know upon which it was made, the braided lock of hair of a man.
Witness: B1Y
Transliteration: [iw rḫ.kwī ḫns.t.ỉ n.(.?)] ḫ.t y [ḥr=s
Translation: I know upon which it was made, the braided lock of hair of a man.

Witness: B1C
Transliteration: [iw-i rḫ.kwī ḫns.t n.(.?)] ḫ.t y ḫr-s
Translation: I know upon which it was made, the braided lock of hair of a man.
Notes: Could be an infinitive as well.

Witness: S1C,a
Transliteration: [iw]=i rḫ.ki ḫns.t ḫ.t n.(.?)[ḥr-s
Translation: I know upon which it was made, the braided lock of hair of a man.
Notes: Could be read as infinitive as well.

Group 4: Infinitive (status constructus), Lemma ḫr (second position)

Lemma: ḫr (to do, to make)
Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:
infinite status constructus

Witness: S1C,b
Transliteration: iw-i rḫ.ki ḫns.t ḫr=s n ḫ.t y
Translation: I know the making of a braided lock of hair upon it for a man.
Notes phrase:
In this phrase, the following pattern variations occur: G1+G3 (S2P, S3P, S1Tü, S2C, S3C, S9C,a, B2Bo, B9C, B2P, B4L,a, B4L,b, B1Y, B1L, B17C, B1C, S1C,a), G2+G3 (B4Bo), G1+G4 (S1C,b).

Spell: 154 Phrase: 2 278-279 b

Group 1: Prospective sdm-f (Main clause), Lemma Šsp (first position)
Lemma: Šsp (to take)
Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:
sdm-f prospective Main clause Pronominal subject

Witness: S2P
Transliteration: Šsp-i m'bzi.w=i iw"=i niw.t tn
Translation: "I will take my harpoons, I will inherit this city."

Group 2: \textit{sdm}.\textit{k3}=\textit{f} (Main clause), Lemma \textit{hpr} (first position)
Lemma: \textit{hpr} (to become)
Morphology 1: \textit{sdm}.\textit{k3}=\textit{f} (active)
Morphology 2: \textit{Morphology 3:}
Syntax: Main clause
Subject: Pronominal subject
Witness: B2P
Transliteration: 
\textit{hpr.k3-f} m \textit{wr m3.w m s3 iri n it=f}
Translation: Then he will come to be as the greatest of seers, as the son who acted for his father.

Witness: B4L,a
Transliteration: 
\textit{hpr.k3-f} m \textit{wr m3.w m s3 iri n it=f}
Translation: Then he will come to be as the greatest of seers, as the son who acted for his father.

Witness: B4L,b
Transliteration: 
\textit{hpr.k3-f} m \textit{wr m3.w m s3 iri n it=f}
Translation: Then he will come to be as the greatest of seers, as the son who acted for his father.

Witness: B1Y
Transliteration: 
\textit{[hpr].k3-f} m \textit{wr m3.w m s3 [iri] n it=f}
Translation: Then he will come to be as the greatest of seers, as the son who acted for his father.
Notes: Only traces of the V31A:G1 group are visible, the rest is lost.

Witness: B1L
Transliteration: 
\textit{hpr.k3-f} m \textit{wr m3.w m s3 iri n it=f}
Translation: Then he will come to be as the greatest of seers, as the son who acted for his father.

Witness: B1C
Transliteration: 
\textit{hpr.k3-f} m \textit{wr m3.w m s3 iri n it=f}
Translation: Then he will come to be as the greatest of seers, as the son who acted for his father.

Witness: B17C
Transliteration: 
\textit{hpr.k3-f} m \textit{wr m3.w m s3 [iri] n it=f}
Translation: Then he will come to be as the greatest of seers, as the son who acted for his father.

Group 3: Perfective active participle (masculine singular), Lemma \textit{iri} (second position)

Lemma: \textit{iri} (to do, to make)
Morphology 1: participle
Morphology 2: perfective active
Morphology 3: masculine singular
Syntax: Subject:
Witness: S2P
Transliteration:  
\[hpr \text{ fsk} \ m \ wr \ m3.w \ m \ ss \ iri \ n \ it\]
Translation:  
The shorn one comes to be even as the greatest of the seers,  
as a son who acted for the father.

Witness: S1Tü
Transliteration:  
\[hpr \text{ fsk} \ m \ wr \ m3.w \ m \ ss \ iri \ n \ it\]
Translation:  
The shorn one comes to be even as the greatest of the seers,  
as a son who acted for the father.

Notes:  
Only traces left.

Witness: S3C
Transliteration:  
\[hpr \text{ fsk} \ m \ wr \ m3.w \ m \ ss \ iri \ n \ it\]
Translation:  
The shorn one comes to be even as the greatest of the seers,  
as a son who acted for the father.

Translation:  
The shorn one comes to be even as the greatest of the seers,  
as a son who acted for his father.

Witness: B2Bo
Transliteration:  
\[hpr \text{ fsk} \ m \ wr \ m3.w \ m \ ss \ iri \ n \ it-f\]
Translation:  
Then he will come to be as the greatest of seers,  
as the son who acted for his father.

Witness: B9C
Transliteration:  
\[hpr \text{ wr} \ m3.w \ m \ fsk \ m \ ss \ iri \ n \ it-f\]
Translation:  
The greatest of seers comes to be even as the shorn one,  
as a son who acted for his father.

Witness: B4L,a
Transliteration:  
\[hpr.k3-f \ m \ wr \ m3.w \ m \ ss \ iri \ n \ it-f\]
Translation:  
Then he will come to be as the greatest of seers,  
as the son who acted for his father.

2289
Then he will come to be as the greatest of seers, as the son who acted for his father.

Translation: may you descend into it,

Witness: S2C
Transliteration: h3+k im[-f]
Translation: may you descend into it,

Witness: B2Bo
Transliteration: h3+k im-f skd-k im-f
Translation: may you descend into it, may you sail in it,

Witness: B1Bo
Transliteration: h3+k im-f
Translation: may you descend into it,
Notes group:
Note that B6C uses a nominal subject instead of a pronominal subject.

Group 2: Passive subjunctive sḏm-f (Wish clause), Lemma shši (first position)
Lemma: shši (to cause to descend)
Morphology 1: sḏm-f subjunctive
Morphology 2: passive
Syntax: Wish clause
Subject: Pronominal subject
Witness: Y1C
Transliteration: shš(.w)-k im=f
Translation: may you be caused to descend into it,

Group 3: Subjunctive sḏm-f (wish clause), Lemma škḍi (second position)
Lemma: škḍi (to sail)
Morphology 1: sḏm-f subjunctive
Morphology 2: passive
Syntax: Wish clause
Subject: Pronominal subject
Witness: B1Bo
Transliteration: škḍ=k im=f
Translation: may you descend and sail in it
Witness: B6C
Transliteration: škḍ-k im=f
Translation: may this škḍ-nḥt descend into it, may you sail in it,

Notes phrase:
In this phrase, the following pattern variations occur: G1+G3 (B1Bo, B6C, B2Bo), G1 (S2C, M22C, G1T), G2 (Y1C).
Note that B4Bo does have a phrase here, but it is non-verbal.
Group 1: Perfective active participle (masculine singular), Lemma iri

| Spell: 162 | Phrase: 2 403 |  

**Group 1:** Perfective active participle (masculine singular), Lemma iri

**Lemma:** iri (to do, to make)

**Morphology 1:** participle

**Morphology 2:** perfective active

**Morphology 3:** masculine singular

**Syntax:**

**Subject:**

| Witness: B1Bo | Transliteration: in ḫhw-t-nḫt pn ir ḫ-is ḫ-s-f | Translation: It is this ḫhw-t-nḫt, who made the bark himself, |

| Witness: B6C | Transliteration: ir ḫ-is-f ḫ-s-f | Translation: who made his bark himself, |

| Witness: G1T | Transliteration: ink ir ḫ-is ḫ-s-i | Translation: I am the one who made the bark myself, |

Group 2: Prospective sḏm-f (in-construction), Lemma iri

| Spell: 162 | Phrase: 2 403 |  

**Group 2:** Prospective sḏm-f (in-construction), Lemma iri

**Lemma:** iri (to do, to make)

**Morphology 1:** sḏm-f

**Morphology 2:** prospective

**Morphology 3:**

**Syntax:**

**Subject:**

| Witness: S2C | Transliteration: ink [ir]-i ḫ-s-i | Translation: I will make (it) myself, |

| Witness: B2Bo | Transliteration: ink ir-i ḫ-is-i ḫ-s-i | Translation: I will make my bark myself, |

| Witness: M22C | Transliteration: ink ir-i ḫ-is-i ḫ-s-i | Translation: I will make my bark myself, |
### Group 3: Prospective šdm-f (Main clause), Lemma irt

**Lemma:** irt (to do, to make)

</tbody>
</table>

**Witness:** B1Bo

**Transliteration:** ḗṣ.y=f im-f r ššn.t

**Translation:**
he will cross in it to the lotus room,

**Witness:** B6C

**Transliteration:** ḗṣ ḗḥš-nht pn im-f r ššn.t

**Translation:**
this ḗḥš-nht will cross in it to the lotus room,

**Witness:** S2C

**Transliteration:** ḗṣ.i im-[f] r [ššn.t]

**Translation:**
I will cross on it to the lotus room,

**Witness:** B2Bo

**Transliteration:** ḗṣ.yš im-f r ššn.t

**Translation:**
I will cross in it to the lotus room
Witness: B4Bo
Transliteration:  $d5\,y\,dhwty\text{-}hn\,tn\,im\text{-}f\,r\,s\text{n}\,t$
Translation: this $dhwty\text{-}hn$ will cross in it to the lotus room,

Witness: M22C
Transliteration:  $d5i\,im\text{-}f\,r\,s\text{n}\,t$
Translation: I will cross in it to the lotus room,

Witness: G1T
Transliteration:  $d5i\,im\text{-}f\,r\,s\text{n}\,t$
Translation: I will cross in it to the lotus room,

Notes group:
Note that B6C and B4Bo use a nominal subject instead of a pronominal subject.

Group 2: Prospective $sd\,m\text{-}f$ (Main clause), Lemma $sd5$
Lemma: $sd5$ (to travel)
Morphology 1: $sd\,m\text{-}f$ prospective
Syntax: Main clause
Subject: Pronominal subject

Witness: Y1C
Transliteration:  $sd5\text{-}l\,im\text{-}f\,r\,s\text{n}\,t$
Translation: I will travel in it to the lotus room,

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B1Bo, S2C, B6C, B2Bo, B4Bo, M22C, G1T), G2 (Y1C).

Spell: 162 Phrase: 2 403-404 e-a

Group 1: Active $sd\,m\,.k\,z\,f$ (main clause), Lemma $s\,d\,l$
Lemma: $s\,d\,l$ (to hew out)
Morphology 1: $sd\,m\,.k\,z\,f$ active
Syntax: Main clause
Subject: Pronominal subject
Witness: B1Bo  
Transliteration: šd.k3=f wiš im n mḫ ḫ3 r tp.y-f(y)  
Translation: then he will hew a bark out there, of 1000 cubits to its two heads,  

Notes:

Witness: B6C  
Transliteration: šd.k3 ḫ3-nḫt pn wiš im=f n mḫ ḫ3 r tp.y-f(y)  
Translation: then this ḫ3-nḫt will hew a bark out in it, of 1000 cubits to its two heads,  

Witness: B4Bo  
Transliteration: šd. <k> ḫwty-nḫt tn wiš im=f n mḫ ḫ3 r tp.y-f(y)  
Translation: then this ḫwty-nḫt will hew a bark out in it, of 1000 cubits to its two heads.

Group 2: Passive sdm.k3=f (main clause), Lemma šdi  
Lemma: šdi (to hew out)  
Morphology 1: sdm.k3=f passive  
Morphology 2:  
Morphology 3:  
Syntax: Subject:  
Main clause Nominal subject

Witness: Y1C  
Transliteration: šd.k3 wiš im=f  
Translation: then a bark will be made in it.

Witness: S2C  
Transliteration: [šd].k3-i wiš im=f n mḫ ḫ3 r tp.y-[f(y)]  
Translation: then I will hew a bark out in it, of 1000 cubits to its two heads,  
Notes: Only the V31:G1 group is visible.

Witness: B2Bo  
Transliteration: šd.k3-i wiš im=f n mḫ ḫ3 r tp.y-f(y)  
Translation: then I will hew a bark out in it, of 1000 cubits to its two heads,  

Witness: M22C  
Transliteration: šd.k3-i wiš im=f n mḫ ḫ3 r tp.y-f(y)  
Translation: then I will hew a bark out in it, of 1000 cubits to its two heads,  
Notes: Only traces left of the V31.
Group 3: Prospective šdm-f (Main clause), Lemma šdi
Lemma: šdi (to hew out)
Morphology 1: šdm-f
Morphology 2: prospective
Morphology 3: Syntax: Main clause
Subject: Pronominal subject
Witness: G1T
Transliteration: šd.y=i wiż i m n mh ḫz r t.y=f(y)
Translation: I will hew a bark out there, of 1000 cubits to its two heads,

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B1Bo, S2C, B6C, B2Bo, B4Bo, M22C), G2 (Y1C), G3 (G1T).
## Appendix 5.40. Spell 165

| Spell: 165 | Phrase: 3 6 a |

### Group 1: Imperfective active participle (masculine singular), Lemma htp (first position)

- **Lemma:** htp  → (to be pleased)
- **Morphology 1:** participle
- **Morphology 2:** imperfective active
- **Morphology 3:** masculine singular
- **Syntax:** Subject:

**Transliteration:** \[i Htp Hr ir.n-f sp fd.w sbb ms\(s^3\).t n r\(^\circ\) r\(^\circ\) nb\]  
**Translation:** O, one who is pleased because he has acted four times, who sent Maat to Re every day,
Witness: Sq10C
Transliteration:  
\[ i [\text{hpt}] \ hr \ ir.\ t.n-f \ sp \ fd.w \ sb[b] \ m\text{s}.t \ n \ r^* \ r^* \ nb \]
Translation:  
O, one who is pleased upon that which he has done four times, who sends Maat to Re every day,
Notes:  
Only the O35 is visible.

Witness: B3C
Transliteration:  
\[ i \text{ h)p} \ hr \ ir.\ t.n-f \ sp \ fd.w \ sbb \ m\text{s}.t \ n \ r^* \ r^* \ nb \]
Translation:  
O, one who is pleased upon that which he has done four times, who sends Maat to Re every day,

Notes phrase:  
In this phrase, the following pattern variations occur: G1+G2+G4 (S2C, S1C, B5C, M22C, B2Bo, B4Bo, B3Bo, Sq10C, B3C, B2L,b), G1+G3+G4 (M2C).

Spell: 165 Phrase: 3 6 b

Group 1: Prospective sd\text{m}-f (Final clause implying purpose), Lemma \text{\textbar}h
Lemma: \text{\textbar}h (to flourish)
Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:  
sd\text{m}-f prospective  
Final clause implying purpose Nominal subject

Witness: S2C
Transliteration:  
\[ \text{s}\text{\textbar}h \ mis.t \ r^* \ hr \ m\text{s}.t \ r^* \ nb \]
Translation:  
so that the liver of Re will flourish because of Maat, every day,

Notes:  
Addition of the Aa1 seems necessary, due to the M15 classifier.
**Witness:** M22C
Transliteration:
\[ s\dot{h}.w \, m\, is.t \, r^\circ \, hr \, ms^2.t \, r^\circ \, nb \]
Translation:
so that the liver of Re will flourish because of Maat, every day,

**Witness:** B2Bo
Transliteration:
\[ s\dot{h}.w \, mis.t \, r^\circ \, hr \, ms^2.t \, r^\circ \, nb \]
Translation:
so that the liver of Re will flourish every day, because of his truth,

**Witness:** B3Bo
Transliteration:
\[ s\dot{h} \, mis.t \, r^\circ \, r^\circ \, nb \]
Translation:
so that the liver of Re will flourish every day,

**Witness:** Sq10C
Transliteration:
\[ s\dot{h}.w \, [mi]s.t \, r^\circ \, [hr] \, ms^2.t \, r^\circ \, nb \]
Translation:
so that the liver of Re will flourish because of Maat, every day,
Notes:
Only the G43 is visible.

**Witness:** B17C
Transliteration:
\[ s\dot{h} \, mis.t \, r^\circ \, hr \, ms^2.t \, r^\circ \, nb \]
Translation:
so that the liver of Re will flourish because of Maat, every day,
Notes:
The G1 is not visible.

**Witness:** B2L,a
Transliteration:
\[ s\dot{h} \, mis.t \, r^\circ \, hr \, \{hr\} \, ms^2.t \, r^\circ \, nb \]
Translation:
so that the liver of Re will flourish because of Maat, every day,

**Witness:** B1Be
Transliteration:
\[ s\dot{h} \, mis.t \, r^\circ \, hr \, ms^2.t \, r^\circ \, nb \]
Translation:
so that the liver of Re will flourish because of Maat, every day,
Notes:
Could be \( s\dot{h} \) (to be potent) instead.
Group 2:  Prospective $s\text{d}m\text{-}f$ (Final clause implying purpose), Lemma $i\text{s}\text{h}\text{i}$

Lemma:  $i\text{s}\text{h}\text{i}$  (to overflow)

Morphology 1:  $s\text{d}m\text{-}f$
Morphology 2:  prospective
Morphology 3:  
Syntax:  Final clause implying purpose
Subject:  Nominal subject

Witness:  B5C
Transliteration:  $i\text{s}\text{h}.\text{w}$  $\text{m}\text{i}s.\text{t} \text{r}^{r} \text{hr} \text{m}^{s}.\text{t} \text{r}^{r} \text{nb}$
Translation:  so that the liver of Re will overflow because of Maat, every day,

Notes phrase:
In this phrase, the following pattern variations occur: G1 (S2C, S1C, M22C, B2Bo, B4Bo, B3Bo, Sq10C, B3C, B17C, B2L, a, B1C, B1Be), G2 (BSC). Note that M2C does have a phrase here, but it is non-verbal, due to a corruption.

Spell:  165  Phrase:  3  7  a

Group 1:  Circumstantial $s\text{d}m\text{-}f$ (Temporal clause), Lemma $s\text{m}\text{z}$

Lemma:  $s\text{m}\text{z}$  (to join, to partake)

Morphology 1:  $s\text{d}m\text{-}f$
Morphology 2:  circumstantial
Morphology 3:  
Syntax:  Temporal clause
Subject:  Pronominal subject

Witness:  S2C
Transliteration:  $s\text{m}\text{z}\text{-}f \text{n} \text{h}.\text{t} \text{wr}.\text{t}$
Translation:  while he partakes of the offering of the great one.

Witness:  M22C
Transliteration:  $[s\text{m}\text{z}\text{-}f \text{n} \text{h}.\text{t} \text{wr}.\text{t}]$
Translation:  while he partakes of the offering of the great one.

Witness:  S1C
Transliteration:  $s\text{m}\text{z}\text{-}f \text{n} \text{h}.\text{t} \text{wr}.\text{t}$
Translation:  while he partakes of the offering of the great one.

Witness:  B2Bo
Transliteration:  $s\text{m}\text{z}\text{-}f \text{n} \text{h}.\text{t} \text{wr}.\text{t}$
Translation:  while he partakes of the offering of the great one.
Witness: B4Bo
Transliteration: $slm3\ dhwty-nht\ tn\ n\ h.t\ wr.t$
Translation: while this $dhwty-nht$ partakes of the offering of the great one.

Witness: M2C
Transliteration: $slm3\ f\ n\ h.t\ wr.t$
Translation: while he partakes of the offering of the great one.

Witness: B3C
Transliteration: $slm3\ f\ n\ ily.wt\ wr.t$
Translation: while he partakes of the offerings of the great one.

Witness: B2L,a
Transliteration: $slm3\ f\ n\ h.t\ wr.t$
Translation: while he partakes of the offering of the great one.

Witness: B1Be
Transliteration: $slm3\ f\ n\ h.t\ wr$
Translation: while he partakes in the offering of the great one.

Notes group:
Note that B4Bo uses a nominal subject instead of a pronominal subject.

Witness: B3Bo
Transliteration: $slm3\ fr\ wr.t$
Translation: while he partakes against the great one.

Witness: Sq10C
Transliteration: $slm3\ fr\ [h.t\ wr.t]$
Translation: while he partakes of the offering of the great one.
Notes: Only traces left of the O34, the rest is visible.

Witness: B17C
Transliteration: $slm3\ f\ n\ ily.wt\ wr.t$
Translation: while he partakes of the offerings of the great one.

Witness: B1C
Transliteration: $slm3\ f\ n\ ily.wt\ wr.t$
Translation: while he partakes of the offerings of the great one.
Group 2: Infinitive (status absolutus), Lemma smA

Lemma: smA
(to join, to partake)

Morphology 1: Infinitive
Morphology 2: Status absolutus

Witness: B5C

Transliteration: smA n h. wt wr.t

Translation: partaking of the offerings of the great one.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (S2C, S1C, M22C, B2Bo, B4Bo, B3Bo, M2C, Sq10C, B3C, B17C, B2Lα, B1C, B1Be), G2 (B5C).

Spell: 165 Phrase: 3 7 b

Group 1: Stative (1st person singular), Lemma wΔs (first position)

Lemma: wΔs
(to be uninjured)

Morphology 1: Stative
Morphology 2: 1st person singular

Witness: S2C

Transliteration: wΔs.ki m-n sdb nb

Translation: I am uninjured from any restraint,

Notes phrase:
In this phrase, the following pattern variations occur: G1+G3 (S2C, S1C, M22C, B2Bo, B4Bo, B3Bo), G1 (M2C), G2+G3 (B5C).

Spell: 166 Phrase: 3 14 a

Group 1: Imperfective active participle (feminine singular), Lemma smt (first position)

Lemma: smt (to hear)
Morphology 1: participle imperfective active feminine singular
Morphology 2: Morphology 3: Syntax: Subject:

Witness: S2C
Translation: in smt.t wi [ts phr] sšn.t wi [ts phr]
Translation: it is she who hears me and vice-versa, she who unstops me and vice-versa.

Witness: S1C
Translation: in smt.t wi smn [wi] ts phr
Translation: it is she who hears me and makes me firm, and vice-versa.

Witness: M22C
Translation: in smt.t {t} wi in sšn.t {t} wi ts phr
Translation: it is she who hears me, it is she who unstops me, and vice-versa.

Witness: B4Bo
Translation: [t] smt.t
Translation: it is the one who hears.
Witness: M2C
Transliteration: in smt.t \{t\} wi in s[nS] \{t\} wi
Translation: it is she who hears me, it is the one who unstops me.

Witness: B3C
Transliteration: smt.t ss.t-hd-htp ssn.t ss.t-hd-htp in ts phr
Translation: She who hears ss.t-hd-htp, she who unstops this ss.t-hd-htp, and vice-versa.

**Group 2:** Imperfective active participle (masculine singular), Lemma smt (first position)

**Lemma:** smt (to hear)

**Morphology 1:** participle
**Morphology 2:** imperfective active
**Morphology 3:** masculine singular

**Syntax:** Subject:

Witness: B5C
Transliteration: in smt wi sdm.w ts phr
Translation: it is the one who hears me who is heard, and vice-versa.

Witness: B2Bo
Transliteration: in smt m smt dhwy-nht ssn.tw msdr dhwy-nht ts phr
Translation: It is the one who hears as the one who hears dhwy-nht, while the ear of dhwy-nht is opened, and vice-versa.

Witness: B3Bo
Transliteration: in smt.w in ssmt.[t] \[s(y)\] in ssmt.w dhwy-nht in
Translation: it is the one who hears, it is the one who feeds she who hears her, it is the one who is caused to hear this dhwy-nht.

**Group 3:** Imperative, Lemma sšm (first position)

**Lemma:** sšm (to guide, to lead)

**Morphology 1:** imperative
**Morphology 2:** 2nd person singular

**Syntax:** Subject:

Witness: B17C
Transliteration: sšm msdm.t im-i snš.w \{t\} wi
Translation: Lead with that which is heard with me, who unstops me.
**Group 4:**  Stative (3rd person masculine singular), Lemma phr (first position)

*Lemma:* phr  
(to turn, to go around)

*Morphology 1:*  
*Morphology 2:*  
*Morphology 3:*  
*Syntax:*  
*Subject:*  
Stative  
3rd person masculine singular

*Witness:* B2L  
*Transliteration:*  
*sšmn.t iš i sšn.št i ṯs phr*  
*Translation:*  
The guide with me is my unstopper, and vice-versa.

*Witness:* B1C  
*Transliteration:*  
*sšmn im i sšn.t i ṯs phr*  
*Translation:*  
The guide with me is my unstopper, and vice-versa.

**Group 5:**  Stative (3rd person masculine singular), Lemma phr (second position)

*Lemma:* phr  
(to turn, to go around)

*Morphology 1:*  
*Morphology 2:*  
*Morphology 3:*  
*Syntax:*  
*Subject:*  
Stative  
3rd person masculine singular

*Witness:* S2C  
*Transliteration:*  
in smt.i ṯs phr sšn.t ṯs phr  
*Translation:*  
it is she who hears me and vice-versa, she who unstops me and vice-versa.

**Group 6:**  Imperfective active participle (feminine singular), Lemma smn (second position)

*Lemma:* smn  
(to cause to endure)

*Morphology 1:*  
*Morphology 2:*  
*Morphology 3:*  
*Syntax:*  
*Subject:*  
participle  
imperfective active  
feminine singular
Witness: S1C
Transliteration: in smt.t wi snn [wi] ts phr
Translation: it is she who hears me and makes me firm, and vice-versa.

Group 7: Imperfective active participle (masculine singular), Lemma sgm (second position)
Lemma: sgm (second position)
Morphology 1: participle
Morphology 2: imperfective passive
Morphology 3: masculine singular
Syntax: Subject:

Witness: B5C
Transliteration: in smt wi sDm.w ts phr
Translation: it is the one who hears me who is heard, and vice-versa.

Group 8: Imperfective active participle (feminine singular), Lemma snš (second position)
Lemma: snš (to unstop)
Morphology 1: participle
Morphology 2: imperfective active
Morphology 3: feminine singular
Syntax: Subject:

Witness: M22C
Transliteration: in smt.t {t} wi in s[sn.t {t} wi ts phr]
Translation: it is she who hears me, it is she who unstops me, and vice-versa.

Notes: Only the S29 is visible.

Group 9: Circumstantial sDm.tw=f (Temporal clause), Lemma snš (second position)
Lemma: snš (to unstop)
Morphology 1: sDm.tw=f
Morphology 2: circumstantial
Morphology 3: Syntax: Subject:
Temporal clause Nominal subject
Translation: She who hears ss1-ṭḥ-hṭp, she who unstops this ss1-ṭḥ-hṭp, and vice-versa.
Witness: B2Bo
Transliteration: 
in smst m smt dhwty-nḥṭ ssñ.tw msdr dhwty-nḥṭ ts phr
Translation: It is the one who hears as the one who hears dhwty-nḥṭ, while the ear of dhwty-nḥṭ is opened, and vice-versa.

Group 10: Imperfective active participle (masculine singular), Lemma smn (second position)
Lemma: smn (to feed)
Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:
participle imperfective active masculine singular

Witness: B3Bo
Transliteration: 
in smt.w in smn smt.[t] [s(y)] in ssmt.w dhwty-nḥṭ tn
Translation: it is the one who hears, it is the one who feeds she who hears her, it is the one who is caused to hear this dhwty-nḥṭ.

Group 11: Imperfective active participle (masculine singular), Lemma snš (second position)
Lemma: snš (to unstop)
Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:
participle imperfective active masculine singular

Witness: M2C
Transliteration: 
in smt.t {t} wi in snš {t} wi
Translation: it is she who hears me, it is the one who unstops me.
Notes: Not seen by de Buck himself.

Group 12: Imperfective passive participle (feminine singular), Lemma sḏm (second position)
Lemma: sḏm (to hear, to listen)
Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:
participle imperfective passive feminine singular
Lead with that which is heard with me, who unstops me.

**Group 13:** Imperfective active participle (feminine singular), Lemma snš (third position)

| Witness: | B17C |
| Transliteration: | sšm m sḏm.t im-i snš.w {t} wi |

**Translation:**

it is she who hears me and makes me firm, and vice-versa.

**Group 14:** Stative (3rd person masculine singular), Lemma pḥr (third position)

| Witness: | S2C |
| Transliteration: | in smt.t wi ṭs pḥr sšn.t wi ṭs pḥr |

**Translation:**

it is the one who hears me who is heard, and vice-versa.

**Witness:** M22C

| Transliteration: | in smst m sḏhwty-nḥṭ sšn.tw msdr dḥhwty-nḥṭ ṭs pḥr |

**Translation:**

it is the one who hears as the one who hears ḏḥhwty-nḥṭ, while the ear of ḏḥhwty-nḥṭ is opened, and vice-versa.
Witness: B3C
Translation: smt.t ss.t-hds-hpt ssn.t ss.t-hds-hpt tn ṭs phr
Translation: She who hears ss.t-hds-hpt, she who unstops this ss.t-hds-hpt, and vice-versa.

Group 15: Imperfective active participle (feminine singular), Lemma smt (third position)
Lemma: smt (to hear)
Morphology 1: participle
Morphology 2: imperfective active
Morphology 3: feminine singular
Syntax: Subject:
Witness: B3Bo
Translation: in smt.w in ssn smt.ṭ ṭs(y) ṭn ssmt.w ḏḥwty-nḥt tn
Translation: it is the one who hears, it is the one who feeds she who hears her, it is the one who is caused to hear this ḏḥwty-nḥt.
Notes: Only traces left of the D52:X1 group, and the second X1 is no longer visible.

Group 16: Imperfective active participle (masculine singular), Lemma snš (third position)
Lemma: snš (to unstop)
Morphology 1: participle
Morphology 2: imperfective active
Morphology 3: masculine singular
Syntax: Subject:
Witness: B17C
Translation: sšm m sgm.t ṭn-i snš.w ṭy wi
Translation: Lead with that which is heard with me, who unstops me.

Group 17: Stative (3rd person masculine singular), Lemma phr (fourth position)
Lemma: phr (to turn, to go around)
Morphology 1: stative
Morphology 2:
Morphology 3: 3rd person masculine singular
Syntax: Subject:

it is she who hears me and vice-versa, she who unstops me and vice-versa.

**Group 18:** Imperfective active participle (masculine singular), Lemma ssmt (fourth position)

**Lemma:** ssmt (to cause to hear)

**Morphology 1:** participle
**Morphology 2:** imperfective active
**Morphology 3:** masculine singular

**Translation:**
it is the one who hears, it is the one who feeds she who hears her, it is the one who is caused to hear this dhwytnh.t.

Notes phrase:
In this phrase, the following pattern variations occur: G1+G5+G13+G17 (S2C), G1+G6+G14 (S1C), G2+G7+G14 (B5C), G1+G8+G14 (M22C, B3C), B2+G9+G14 (B2Bo), G1 (B4Bo), B2+G10+G15+G18 (B3B0), G1+G11 (M2C), G3+B12+G16 (B17C), G4 (B2L, B1C, B1Be).

**Spell:** 166 **Phrase:** 3 16 a

**Group 1:** Imperative (2nd person singular), Lemma rdi (first position)

**Lemma:** rdi (to give, to place)

**Morphology 1:** imperative
**Morphology 2:** 2nd person singular

**Translation:**
Give me these offerings,
Witness: B5C
Transliteration: 
im n-i mw sw.wt-i
Translation: Give water and my offerings to me,

Witness: M22C
Transliteration: 
[imi n-i nn sw].t
Translation: Give me this offering,

Witness: B2Bo
Transliteration: 
im n-i nn sw.wt
Translation: Give me these offerings,

Witness: B4Bo
Transliteration: 
im n dhwty-nht nn sw.wt
Translation: Give to +DHwty-nxt-I bread with Min, give these offerings to dhwty-nht,

Witness: B3Bo
Transliteration: 
im n dhwty-nht nn sw.wt-i
Translation: Give these offerings of mine to this dhwty-nht,

Witness: B3C
Transliteration: 
im sw.wt n ss.t-hd-htp t
Translation: Give the offerings to this ss.t-hd-htp,

Witness: B2L
Transliteration: 
im n-i sw.wt
Translation: Give the offerings to me,

Witness: B1C
Transliteration: 
im n-i sw.wt
Translation: Give the offerings to me,

Witness: B1Be
Transliteration: 
im n-i sw.wt
Translation: Give the offerings to me,

Group 2: Passive circumstantial sdm-f (iwl-[if] hr sdm-f), Lemma rdi (first position)
Lemma: rdi (to give, to place)
Morphology 1: sdm-f
Morphology 2: circumstantial
Morphology 3: passive
Syntax: iwl-[if] sdm-f
Subject: Nominal subject
Witness: B17C
Transliteration: iw rdi.w n=i sw.wt
Translation: Offerings are given to me,

**Group 3:** Imperative (2nd person singular), Lemma rdi (second position)

**Lemma:** rdi (to give, to place)

**Morphology 1:** imperative 2nd person singular

Witness: B4Bo
Transliteration: imi n ḏḥwty-nḥt t[.]w ḫr nnw imi n ḏḥwty-nḥt nn sw.wt
Translation: Give to +DHwty-nxt+l bread with Min, give these offerings to ḏḥwty-nḥt,

Notes phrase: In this phrase, the following pattern variations occur: G1 (S2C, S1C, B5C, M22C, B2Bo, B3Bo, B3C, B2L, B1C, B1Be), G2 (B17C), G1+G3 (B4Bo).

Transliteration: iy.n=i ḥr-k wdp.w n rꜣ iy.n=i ḥr-k
Translation: I have come to you, butler of Re, I have come to you.

Witness: B2L
Transliteration: iy.n=i ḥr-k wdp.w n rꜣ iy.n=i ḥr-k
Translation: I have come to you, butler of Re, I have come to you.

Witness: B17C
Transliteration: iy.n=i ḥr-k wdp.w n rꜣ iy.n=i ḥr-k
Translation: I have come to you, butler of Re, I have come to you.

Witness: B1Be
Transliteration: iy.n=i ḥr-k wdp.w n rꜣ iy.n=i ḥr-k
Translation: I have come to you, butler of Re, I have come to you.

Group 4: Nominal śḏm.n-f (Balanced sentence), Lemma iwi (second position)

Lemma: iwi (to come)

Morphology 1: Nominal
Morphology 2: śḏm.n-f
Morphology 3: nominal
Syntax: Balanced sentence
Subject: Pronominal subject

Notes group:
Note that group 3 and group 4 should be considered to be the same (iyi and iwi).

Notes phrase:
In this phrase, the following pattern variations occur: G1+G3 (S2C, S1C, M22C, B2Bo, B4Bo, B3C, B17C, B2L, B1C), G2 (B5C), G1+G4 (B1Be (=G1+G3)).
The face of Re is content because of you,
Group 2: Nominal $sgm$-f (Emphatic use), Lemma $htp$

Lemma: $htp$ to be satisfied

Morphology 1: $sgm$-f nominal

Syntax: Emphatic use

Subject: Nominal subject

Witness: S1C

Transliteration:

$htp$ $n=k$

Translation:
The face of the double Ennead is even content because of you,

Notes:
Phrase continues in 3,18,c.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (S2C, B5C, M22C, B2Bo, B4Bo, B3C, B17C, B2L, B1C, B1Be), G2 (S1C).

Spell: 167 Phrase: 3 19 a

Group 1: Circumstantial $sgm$.n-f (Temporal clause), Lemma $rdi$

Lemma: $rdi$ (to give, to place)

Morphology 1: $sgm$.n-f circumstantial

Syntax: Temporal clause

Subject: Pronominal subject

Witness: S2C

Transliteration:

$rdi.n=k$ $n=i \{t\}$ $hnk.t$

Translation:
after you gave bread and beer to me,

Witness: B5C

Transliteration:

$rdi.n=k$ $n=i t$ $hnk.t$

Translation:
after you gave bread and beer to me,

Witness: M22C

Transliteration:

$rdi.n=k$ $n=i t$ $hnk.t$

Translation:
after you gave bread and beer to me,
Group 2: Circumstantial \textit{sdlm-f} (Temporal clause), Lemma \textit{rdi}

**Lemma:** \textit{rdi} (to give, to place)

**Morphology 1:** \textit{sdlm-f}

**Morphology 2:** circumstantial

**Morphology 3:**

**Syntax:** Temporal clause

**Subject:** Pronominal subject

**Witness:** B2Bo

\textbf{Transliteration:} \textit{di}+\textit{k} n\textit{i} t

\textbf{Translation:} while you give bread to me,

**Witness:** B3C

\textbf{Transliteration:} \textit{di}+\textit{k} t n \textit{s3.t-hd}\textit{-htp tn}

\textbf{Translation:} while you give bread to this \textit{s3.t-hd}\textit{-htp},

Transliteration: 
[di.t(w)-tn n-i ntr.w m t m ḫnk.t
Translation: May you be given to me, gods, with bread and beer,

Witness: P.Gard.2,a
Transliteration: 
[di.t(w)-t n-i ntr.w m t ḫnk.t
Translation: May you be given to me, gods, with bread and beer,

Notes group: Could be an infinitive as well.

Witness: B1Bo
Transliteration: 
[di.t(w)-tn n ḫhwty-nḥt pn ntr.w m t ḫnk.t
Translation: May you be given to this ḫhwty-nḥt, gods, with bread and beer,
**Group 3:** Subjunctive $s^m$-f (Object clause), Lemma rdi (second position)

**Lemma:** rdi (to give, to place)

**Morphology 1:** subjunctive

**Morphology 3:** Object clause

**Syntax:** Pronominal subject

**Witness:** S1C

**Transliteration:**
$di\mathord{\text{-}in}
\ n\mathord{\text{-}i}
di\mathord{\text{-}in}
\ nj\mathord{\text{-}r}.w\ m\ t\ \tnk.t$

**Translation:**
May you cause for me that you give the gods with bread and beer,

**Notes phrase:**
In this phrase, the following pattern variations occur: G1+G3 (S1C), G1 (S2C, B1Y, B3C, M22C, B2L), G2 (B4Bo, B2Bo, P.Gard.2,a, B1Bo).
Appendix 5.44. Spell 225

**Spell:** 225  **Phrase:** 3 212; 213  a, b-d, e; a, b-c, d-e  *(titles)*

**Group 1:**

**Lemma:** 
*Infinitive (status constructus), Lemma ḏḏ-mdw (first position)*

**Morphology 1:** Infinitive

**Morphology 2:** Status constructus

**Morphology 3:**

**Subject:**

**Witness:** S2C,b

**Transliteration:** ḏḏ-mdw  sms^2-hrw s r hft(.y)-f

**Translation:** Recitation: Causing a man to be justified against his enemy.

**Notes:** Only traces left.

**Group 2:**

**Lemma:** 
*Infinitive (status constructus), Lemma ms^2-hrw (first position)*

**Morphology 1:** Infinitive

**Morphology 2:** Status constructus

**Morphology 3:**

**Subject:**

**Witness:** B2Bo

**Transliteration:** r n ms^2-hrw s r hft(.y)-f m ḥr.t-nṯr

**Translation:** A spell of justifying a man against his enemy in the necropolis.

**Notes:**
Group 3:  **Infinitive (status constructus), Lemma sm$\mathbf{s}$-$\mathbf{r}$w (first position)**

**Lemma:**

sm$\mathbf{s}$-$\mathbf{r}$w  
(to cause to be justified)

**Morphology 1:**

infinitive

**Morphology 2:**

status constructus

**Morphology 3:**

**Syntax:**

**Subject:**

**Witness:**  
S2C,a

**Transliteration:**

$r n [s m s-\mathbf{r} w s r hft.y-f]$

**Translation:**

A spell of causing a man to be justified against his enemy.

A spell of causing a man to be justified against his enemy in the necropolis.

Group 4:  **Infinitive (status absolutus), Lemma $\mathbf{s}$hm (first position)**

**Lemma:**

$\mathbf{s}$hm  
(to have power)

**Morphology 1:**

infinitive

**Morphology 2:**

status absolutus

**Morphology 3:**

**Syntax:**

**Subject:**

**Witness:**  
T1L

**Transliteration:**

$s h m m m w p r t m h r w m g r h h r b w m h r r w s h i b - f i m$

**Translation:**

Having power in water, going forth in the day and in the night by the spirit to every place where his heart loves.

Group 5:  **Infinitive (status constructus), Lemma wn (first position)**

**Lemma:**

wn  
(to open)

**Morphology 1:**

infinitive

**Morphology 2:**

status constructus

**Morphology 3:**

**Syntax:**

**Subject:**

**Witness:**  
B4C

**Transliteration:**

$r n w n w r t n [s m h r . t - n t r]$

**Translation:**

A spell of opening a road for a man in the necropolis.
**Group 6:** *Infinitive (status absolutus), Lemma rdi (first position)*

**Lemma:** rdi (to give, to place)

**Morphology 1:** infinitive  
**Morphology 2:**  
**Morphology 3:** status absolutus  
**Subject:**  

**Witness:** B1L

**Transliteration:**  
rdi.t šsp s pr.t-ḥrw n-f m ḏws.w m mšr.w

**Translation:** Causing that a man takes an invocation offering for himself in the morning and in the evening.

---

**Group 7:** *Infinitive (status constructus), Lemma ḫtm (first position)*

**Lemma:** ḫtm (to destroy)

**Morphology 1:** infinitive  
**Morphology 2:**  
**Morphology 3:** status constructus  
**Subject:**  

**Witness:** B2L

**Transliteration:**  
r n šhm s m ḫt(.y)w-f m ts m hr.t-nṯr ḫtm ḫkš.w nb ḏw.y

**Translation:** A spell of the power of a man with his male and female enemies in the land, in the necropolis, and destroying all evil magic.

---

**Group 8:** *Infinitive (status constructus), Lemma sms²-ḥrw (second position)*

**Lemma:** sms²-ḥrw (to cause to be justified)

**Morphology 1:** infinitive  
**Morphology 2:**  
**Morphology 3:** status constructus  
**Subject:**  

**Witness:** S2C,b

**Transliteration:**  
dx-mdw sms²-ḥrw s r ḫt(.y)-f

**Translation:** Recitation: Causing a man to be justified against his enemy.
Group 9: **Infinitive (status constructus), Lemma mšr-hrw (second position)**  
**Lemma:** mšr-hrw (to be justified)  
**Morphology 1:** infinitive  
**Morphology 2:**  
**Morphology 3:** status constructus  
**Syntax:**  
**Subject:**  
**Witness:** M2NY  
**Transliteration:** ḍḏ-mdw Ṧ n mšr-hrw ṣ ḫḥ(,y)-f Ṣ ḥr.t-nṯr  
**Translation:** Recitation: A spell of justifying a man against his enemy in the necropolis.

Group 10: **Infinitive (status absolutus), Lemma pri (second position)**  
**Lemma:** pri (to go forth)  
**Morphology 1:** infinitive  
**Morphology 2:** status absolutus  
**Morphology 3:**  
**Syntax:**  
**Subject:**  
**Witness:** T1L  
**Transliteration:** sḫm Ṣ mw ṭ ṣ ḥr w ṣ ḫā Ṣ nb mr.r.w ib-f ṣm  
**Translation:** Having power in water, going forth in the day and in the night by the spirit to every place where his heart loves.

Group 11: **Subjunctive sḏm-f (Object clause), Lemma šṣp (second position)**  
**Lemma:** šṣp (to take, to receive)  
**Morphology 1:** sḏm-f  
**Morphology 2:** subjunctive  
**Morphology 3:** Object clause  
**Syntax:** Nominal subject  
**Subject:**  
**Witness:** B1L  
**Transliteration:** rḏl.t šṣp s ḥ ṭ-hrw Ṣ f Ṣ ḥr.w Ṣ dw.ḥ Ṣ m mšr.w  
**Translation:** Causing that a man takes an invocation offering for himself in the morning and in the evening.
Group 12: Imperfective relative sḏm-f, Lemma mṛi (third position)

Lemma: mṛi (to love)

Morphology 1: Imperfective relative

Syntax: Nominal subject

Witness: T1L

Transliteration: sḏm m mw pr.t m hrw m grḥ in st ṛ bw nb mṛr.w ib-f im

Translation: Having power in water, going forth in the day and in the night by the spirit to every place where his heart loves.

Notes: Only traces left of the U7, the rest is visible.

Notes phrase: In this phrase, the following pattern variations occur: G1+G8 (S2C,b), G1+G9 (M2NY), G2 (B2Bo, B1Y, Y1C), G3 (S2C,a, Pap.Berl), G4+G10+G12 (T1L), G5 (B4C), G6+G11 (B1L), G7 (B2L).

Spell: 225 Phrase: 3 214-215 b

Group 1: Subjunctive sḏm-f (Wish clause), Lemma wn (first position)

Lemma: wn (to open)

Morphology 1: subjunctive

Syntax: Wish clause

Witness: S2C,b

Transliteration: wn=k p.t ts

Translation: May you open the sky and the land,

Group 2: Passive nominal sḏm-f (Balanced sentence), Lemma wn (first position)

Lemma: wn (to open)

Morphology 1: nominal

Morphology 3: passive

Syntax: Balanced sentence

Subject: Nominal subject
The sky is opened for you, the land is opened for you,

The sky is opened for you, the land is opened for you,

The sky is opened for you,

The sky is opened for you, the land is opened for you,

The sky is opened for you, the land is opened for you,

The sky and the land are opened for this dhwt-nht,

The two doors of the sky and the land are opened for me,

The sky and the land are opened for you,

The sky and the land are opened for you,

The sky and the land are opened for you,

The sky and the land are opened for you,
Witness: B2L
Transliteration: wn n-k p.t ts
Translation: The sky and the land are opened for you,

Group 3:  Prospective passive participle (masculine singular), Lemma s\textsuperscript{m}
Lemma: s\textsuperscript{m}  (to swallow)
Morphology 1: participle  Morphology 2: prospective passive  Morphology 3: masculine singular
Syntax: Subject:
Witness: Y1C
Transliteration: $s\textsuperscript{m}y m t n m \text{\textlknkt} t n.t \text{bd.t } kd.t r b w w^b$.
Translation: which will be swallowed with bread of and with beer of white emmer wheat at the pure place.

Notes phrase: In this phrase, the following pattern variations occur: G1 (S2C,b, T1L, MC105, T9C, B2Bo, B4Bo, S2C,a, Pap.Berl, M2NY, B1L, B2L, B1C, S1C,b, T1Be, T2Be, T2L), G2 (B4C), G3 (Y1C).

Spell: 225  Phrase: 3 240-241 b

Group 1: Circumstantial $s\text{dm=f}$ (Temporal clause), Lemma $s\text{ds}$
Lemma: $s\text{ds}$  (to travel)
Morphology 1: $s\text{dm=f}$  Morphology 2:  Morphology 3: Syntax: Subject:
circumstantial  Pronominal subject
Witness: S2C,b
Transliteration: is $s\text{ds}=sr\text{iwnw }\text/hr\text{s}\text{s} n \text{mdw } n\text{tr } m\text{d} s\text{.t} n.t \text{dhw}\text{ty}$
Translation: even while she travels to Heliopolis, under the writing of the word of the god, the book of Thot.
Witness: MC105
Transliteration: [is $s\text{ds}=sr\text{iwnw }\text/hr\text{s}\text{s}.w n (.w) \text{mdw } n\text{tr } m\text{d} s\text{.t} n.t \text{dhw}\text{ty}$]
Translation: even while she travels to Heliopolis, under the writings of the word of the god, the book of Thot.
Witness: T1L
Transliteration: is $s\text{ds}=sr\text{iwnw }\text/hr\text{s}\text{s} n \text{mdw } n\text{tr } m\text{d} s\text{.t} n.t \text{dhw}\text{ty}$
Translation: even while she travels to Heliopolis, under the writing of the word of the god, the book of Thot.
Witness: T9C
Transliteration: is $s\text{ds}=sr\text{iwnw }\text/hr\text{s}\text{s}.w n (.w) \text{mdw } n\text{tr } m\text{d} s\text{.t} n.t \text{dhw}\text{ty}$
Translation: even while she travels to Heliopolis, under the writings of the word of the god, the book of Thot.
even while she travels to Heliopolis, under the four writings of the words of the god, the books of Thot.

Witness: B4Bo
Transliteration: 
\[is \ sds\textsuperscript{3} s \ r \ iwnw \ hr \ s\textsuperscript{3} n \ mdw \ ntr \ md\textsuperscript{3} t \ n.t \ dhwty\]
Translation: 
even while she travels to Heliopolis, under the writing of the word of the god, the book of Thot.

Notes: 
Only traces left of the Y2, the rest is visible.

Witness: M2NY
Transliteration: 
\[is \ sds\textsuperscript{3} s \ r \ iwnw \ hr \ s\textsuperscript{3} n \ mdw \ ntr \ md\textsuperscript{3} t \ n.t \ dhwty\]
Translation: 
even while she travels to Heliopolis, under the writing of the word of the god, the offering of Thot.
Notes: 
Only traces left.

Witness: S1C,b
Transliteration: 
\[is \ sds\textsuperscript{3} s \ r \ iwnw \ hr \ s\textsuperscript{3} n \ mdw \ ntr \ md\textsuperscript{3} t \ n.t \ dhwty\]
Translation: 
even while she travels to Heliopolis, under the writing of the word of the god, the book of Thot.
**Group 2:** Circumstantial $s\dot{d}m\cdot f$ ($iw(\text{+f}) s\dot{d}m\cdot f$), Lemma $s\dot{d}\dot{z}$

*Lemma:* $s\dot{d}\dot{z}$ (to travel)

*Morphology 1:* $s\dot{d}\dot{m}\cdot f$

*Morphology 2:* circumstantial

*Morphology 3:* $iw(\text{+f}) s\dot{d}m\cdot f$

*Syntax:*

*Subject:* Pronominal subject

*Witness:* Y1C

*Transliteration:* $iw\cdot s\ s\dot{d}\dot{z}\cdot s\ r\ i\cdot w\ n\ h\ s\ s\ n\ m\ d\ w\ n\ t\ r\ m\ d\ z\ t\ n\ t\ d\ h\ w\ t\ y$

*Translation:* she travels to Heliopolis under the writing of the word of the god, the book of Thot.

*Notes:* The top of the S29*U29 group is damaged.

*Witness:* T1Be

*Transliteration:* $iw\ s\dot{d}\dot{z}\cdot s\ s(y)\ r\ i\cdot w\ n\ h\ s\ s\ w\ n\ w\ m\ d\ w\ m\ n\ t\ r$

*Translation:* she travels it to Heliopolis, under the writings of the words of the god.

*Notes:* The top of the S29*U29 group is damaged.

**Group 3:** Infinitive (status absolutus), Lemma $s\dot{w}\dot{d}\dot{z}$

*Lemma:* $s\dot{w}\dot{d}\dot{z}$ (to cause to be whole)

*Morphology 1:* infinitive

*Morphology 2:* status absolutus

*Morphology 3:* $iw\ s\dot{d}\dot{z}\cdot s\ s(y)\ r\ i\cdot w\ n\ h\ s\ s\ w\ n\ w\ m\ d\ w\ m\ n\ t\ r$

*Translation:* even making (it) whole at Heliopolis, under the writing of the word of the god, the book of Thot, the lord of Hermopolis.

*Notes:* Could be an participle or stative as well.

**Group 4:** Infinitive (status absolutus), Lemma $s\dot{d}\dot{z}$

*Lemma:* $s\dot{d}\dot{A}$ (to travel)

*Morphology 1:* infinitive

*Morphology 2:* status absolutus

*Morphology 3:* $iw(\text{+f}) s\dot{d}m\cdot f$

*Syntax:*

*Subject:*
while traveling to Heliopolis, under the writings of the words of the gods in the book of Thot, the lord of Hermopolis.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (S2C,b, T1L, MC105, T9C, B4C, B2Bo, B4Bo, S2C,a, Pap.Berl, M2NY, B1L, S1C,b), G2 (Y1C, T1Be, T2Be, T2L), G3 (B2L), G4 (B1C).

Group 1: Subjunctive sḏm-f (Wish clause), Lemma sḏm (first position)

Witnes: T1L

Transliteration: sxm = k m irr.w r-k m ḫr.t-nṯr

Translation: may you have power over those who act against you in the necropolis,

Notes: The S29*S42 group is not visible.

Group 2: Imperfective active participle (masculine plural), Lemma iri (second position)

Witnes: MC105

Transliteration: [ṛ]ḥ-m-t m irr.w r-t m ḫr.t-nṯr

Translation: may you have power over those males who act against you, and over those females of yours that act against you in the necropolis,

Notes: The S29*S42 group is not visible.
may you have power over those who act against you in the necropolis,

Notes:
Could be considered a substantive.

Notes phrase:
In this phrase, the following pattern variations occur: G1+G2 (T1L), G1+G2+G3 (MC105).

Group 1: Subjunctive برا-ت (Wish clause), Lemma برا (first position)
Lemma: برا (to have power)  
Morphology 1: برا-ت (subjunctive) 
Morphology 2:  
Morphology 3:  
Syntax: Wish clause  
Subject: Pronominal subject

Witness: T1L  
Transliteration: برا-km ود.م ir.ت t-k تي ت نت  
Translation: may you have power over those who commanded that which was done against you upon the land in the necropolis.
Group 2: Perfective active participle (masculine plural), Lemma wD (first position)
Lemma: wD (to command)
Morphology 1: participle
Morphology 2: perfective active
Morphology 3: masculine plural
Syntax:
Subject:
Witness: MC105
Transliteration: [m wD.w ir.t r=T tp tA Ts pXr
Translation: and over those who commanded that which was done against you upon the land, and vice-versa.

Notes: The V24*G43 group is not visible.

Group 3: Perfective active participle (masculine plural), Lemma wD (second position)
Lemma: wD (to command)
Morphology 1: participle
Morphology 2: perfective active
Morphology 3: masculine plural
Syntax:
Subject:
Witness: T1L
Transliteration: sxm=k m wD.w ir.t r=k tp tA m hr.t-nTr
Translation: may you have power over those who commanded that which was done against you upon the land in the necropolis.

Group 4: Perfective passive participle (feminine singular), Lemma iri (second position)
Lemma: iri (to do, to make)
Morphology 1: participle
Morphology 2: perfective passive
Morphology 3: feminine singular
Syntax:
Subject:
Witness: MC105
Transliteration: [m wD.w ir.t r=t tp tA ts phr
Translation: and over those who commanded that which was done against you upon the land, and vice-versa.

2542
Group 5: Perfective passive participle (feminine singular), Lemma iri (third position)
Lemma: iri (to do, to make)
Morphology 1: participle
Morphology 2: perfective passive
Morphology 3: feminine singular
Syntax:
Subject:
Witness: T1L
Transliteration: sîm.k m wd.w ir.t r-k tp ts m hr.t-nṯr
Translation:
may you have power over those who commanded that which was done against you upon the land in the necropolis.

Group 6: Stative (3rd person masculine singular), Lemma pḥr
Lemma: pḥr (to turn, to go around)
Morphology 1: stative
Morphology 2: 3rd person masculine singular
Morphology 3: Syntax:
Subject:
Witness: MC105
Transliteration: [m w]/d.w ir.t r-t t ps m pḥr
Translation:
and over those who commanded that which was done against you upon the land, and vice-versa.

Notes phrase: 
In this phrase, the following pattern variations occur: G1+G3+G5 (T1L), G2+G4+G6 (MC105).

Spell: 225 Phrase: 3 246-247 d

Group 1: Imperative (2nd person singular), Lemma ṭsi (first position)
Lemma: ṭsi (to raise)
Morphology 1: imperative
Morphology 2: 2nd person singular
Morphology 3: Syntax:
Subject:
Raise yourself upon your right side,

Raise yourself upon your left,

Raise yourself upon your right side,

Raise me upon my right side,

Raise me upon my right side,

Raise yourself upon your right side,
Witness: B1L
Transliteration: 
\(ts\ tw\ hr\ wnm-k\)
Translation: raise yourself upon your right,

Witness: T1Be
Transliteration: 
\(ts\ [i]w\ hr\ wnm-k\)
Translation: Raise yourself upon your right,
Notes: Only traces left of the V13/V14:O34 group.

Witness: T2Be
Transliteration: 
\([ts\ tw\ hr\ wnm-k]\)
Translation: Raise yourself upon your right,

Group 2: Subjunctive \(sdm-f\) (Wish clause), Lemma \(tsi\) (first position)
Lemma: \(tsi\) (to raise)
Morphology 1: \(sdm-f\) subjunctive
Morphology 2: 
Morphology 3: Syntax: Wish clause
Subject: Pronominal subject

Witness: B2L
Transliteration: 
\(ts-k\ tw\ hr\ gs-k\ wnm\)
Translation: May you raise yourself upon your right side,

Group 3: Subjunctive \(sdm-f\) (Wish clause), Lemma \(slm\) (first position)
Lemma: \(slm\) (to have power)
Morphology 1: \(sdm-f\) subjunctive
Morphology 2: 
Morphology 3: Syntax: Wish clause
Subject: Pronominal subject

Witness: B1C
Transliteration: 
\(slm-k\ m\ ts-t-k\ tw\ hr\ gs-k\ wnm\)
Translation: May you have power over your raising of yourself upon your right side,
Group 4: Infinitive (status pronominalis), Lemma ți (second position)

Lemma: ți (to raise)
Morphology 1: infinitive
Morphology 2: status pronominalis

Witness: B1C
Transliteration: shlm=k m țs.t=k tw hr gs=k wnm
Translation: May you have power over your raising of yourself upon your right side,

Notes phrase:
In this phrase, the following pattern variations occur: G1 (S2C,b, T1L, MC105, B4C, B2Bo, B4Bo, S2C,a, Pap.Berl, Y1C, M2NY, B1L, T1Be, T2Be, T2L), G2 (B2L), G3+G4 (B1C).

Spell: 225 Phrase: 3 248-249 c

Group 1: Imperative (2nd person singular), Lemma rdi

Lemma: rdi (to give, to place)
Morphology 1: imperative
Morphology 2: 2nd person singular

Witness: S2C,b
Transliteration: imi tw
Translation: place yourself,

Witness: MC105
Transliteration: imi tn
Translation: place yourself,

Witness: T1L
Transliteration: imi tw
Translation: place yourself,

Witness: B2Bo
Transliteration: imi tw
Translation: place yourself,
Witness: B4Bo
Transliteration: \textit{imi }[im]\{w\}
Translation: place yourself,
Notes: Only the back of the arm is visible.

Witness: S2C,a
Transliteration: \textit{imi }\texttt{wi}
Translation: place me,

Witness: Pap.Berl
Transliteration: \textit{imi }\texttt{wi}
Translation: place me,

Witness: M2NY
Transliteration: \textit{imi }\texttt{tw}
Translation: place yourself,

Witness: B2L
Transliteration: \textit{imi }\texttt{tw hr gs=k isb}
Translation: place yourself upon your left side,

Witness: T2Be
Transliteration: \textit{imi }\texttt{tw hr isb-k}
Translation: place yourself upon your left,

Group 2: \textit{Circumstantial sdm-f (Temporal clause), Lemma rdi}
Lemma: rdi (to give, to place)
Morphology 1: sdm-f
Morphology 2: circumstantial
Morphology 3: Syntax:
Subject: Pronominal subject
**Witness:** B1C
**Transliteration:**
di-i tw hr gs-k isb
**Translation:**
while I place you upon your left side,

**Notes phrase:**
*In this phrase, the following pattern variations occur: G1 (S2C,b, T1L, MC105, B2Bo, B4Bo, S2C,a, Pap.Berl, Y1C, M2NY, B1L, B2L, T1Be, T2Be), G2 (B1C).*

infinitive status absolutus

2557
Witness: T1C,b
Transliteration: qd-mdw pr.t m hrw
Translation: Recitation: going forth in the day.

Witness: T1Be
Transliteration: imš. hr r' r' n nb mnṯw-hṭp qd-f r n pr.t m hrw m ḫr.t-nṯr
Translation: The honoured dead under Re, every day, mnṯw-hṭp.
He says: A spell of going forth in the day from the necropolis.

Group 6: Perfective active participle (feminine singular), Lemma ms[t] (second position)
Lemma: ms[t] (to be true)
Morphology 1: participle perfective active feminine singular
Syntax: Subject:

Witness: Sq1C
Transliteration: r n pr.t m hrw m ḫr.t-nṯr imš.yt ss.t-bṣs.tt ms[t] t ḫrw nb.t imš.
Translation: A spell of going forth in the day from the necropolis of the honoured dead, ss.t-bṣs.tt, true of voice, the lady of veneration.

Notes:
Note that this group should be considered a group together with group 7, as the morphology variation only occurs due to the gender of the owner.

Group 7: Perfective active participle (masculine singular), Lemma ms[τ] (second position)
Lemma: ms[τ] (to be true)
Morphology 1: participle perfective active masculine singular
Syntax: Subject:

Witness: Sq7C
Transliteration: [r n pr.t m hrw] m ḫr.t-nṯr imš.y ḫr ms[τ] ḫrw
Translation: A spell of going forth in the day from the necropolis of the honoured dead, ḫr, true of voice.
Notes: The U1 was not seen by de Buck himself.

Witness: Ms4C
Transliteration: [r n pr.t] m hrw m ḫr.t-nṯr ḫnm-hṭp ms[τ] ḫrw qd-f
Translation: A spell of going forth in the day from the necropolis of ḫnm-hṭp, true of voice. He says:
Notes: Only traces left of the D36, the Aa11 is visible.

Transliteration:
\[ \text{wn} \text{-i} \text{ m ts+i} \text{ iy.n+i} \text{ m niw.t+i} \]
Translation:
May I exist on my land, after I came from my city.

**Witness:** Sq4Sq
Transliteration:
\[ wn \text{-k} \text{ m ts+i} \text{ iy.n+k} \text{ m niw.t+i} \]
Translation:
May you exist on the land, after you came from your city.
Witness: Sq7Sq
Transliteration: wn[*i] m ts iy.n=m m [niw.t=*i]
Translation: May I exist on the land, after I came from my city.

Witness: M4C
Transliteration: wn=*i m ts=*i iy.n=m niw.t=*i
Translation: May I exist on my land, after I came from my city.

Witness: M54C
Transliteration: wn=*i m ts=*i iy.n=m niw.t=*i
Translation: May I exist on my land, after I came from my city.

Witness: M1C
Transliteration: wn=*i m ts=*i iy.n=m niw.t=[*i]
Translation: May I exist on my land, after I came from my city.
Notes: Only traces left.

Witness: L1NY
Transliteration: wn m [ts=*i] iy.n m niw.t=i
Translation: May one exist on my land, after one came from my city.
Notes: It is possible that a =i should be supplied here.

Witness: L3Li
Transliteration: [wn]=i m ts=i iy.n=i m niw.t=i
Translation: May I exist on my land, after I came from my city.

Witness: T2Be
Transliteration: wn=*i [m] ts=*i iy.n=m niw[.t=*i]
Translation: May I exist on my land, after I came from my city.
Notes: Only traces left of the N35, the E34 is visible.

Witness: M57C
Transliteration: wn=*i m ts iy.n=m niw.t=i
Translation: May I exist on the land, after I came from my city.

Witness: BH1Br
Transliteration: wn=*i m ts pn iy*i=m niw.t=i
Translation: May I exist in this land, while I come from my city.
Witness: M1Be
Transliteration:
wn-i m ts-i iy.i n-i m niw.t-i
Translation:
May I exist on my land, after I came from my city.

Notes group:
Note that T1C,a and L1NY use a zero subject instead of a pronominal subject, however, it could be argued that they should have the -i supplied. Note that B3C uses a nominal subject instead of a pronominal subject.

Group 2: Nominal sdm-f (Emphatic use), Lemma wnn (first position)
Lemma: wnn (to be, to exist)
Morphology 1: sdm-f nominal
Morphology 2: Emphatic use
Morphology 3: Pronominal subject

Witness: M7C
Transliteration:
wnn-i m ts[-i iy. n-i m niw. t-i]
Translation:
I exist even on the land, after I came from my city.
Notes:
The front of the E34:N35:N35 group is damaged.

Witness: T1Be
Transliteration:
wnn-i m ts-i iy.n-i m niw.t-i
Translation:
I exist even in my land, after I came from my city.

Group 3: Nominal sdm.n-f (Balanced sentence), Lemma iyi (first position)
Lemma: iyi (to come)
Morphology 1: sdm.n-f nominal
Morphology 2: Balanced sentence
Morphology 3: Pronominal subject

Witness: T3L
Transliteration:
wnn-i m ts-i iy.n-i m niw.t-i
Translation:
I exist even on my land, after I came from my city.

Witness: T3L,b
Transliteration:
[wnn-i m ts-i iy.n-i m niw.t-i]
Translation:
I exist even on my land, after I came from my city.
**Witness:** T3Be
**Transliteration:** iy.n=i m niw.t=i pr.n=i m ts=i
**Translation:**
I came from my city, I went forth from my land,

**Group 4:** Circumstantial sdm.n-f (Temporal clause), Lemma iyı (second position)

**Lemma:** iyı (to come)

**Morphology 1:** sdm.n-f circumstantial

**Syntax:** Temporal clause **Subject:** Pronominal subject

**Witness:** T1C,a
**Transliteration:** wn m ts iy.n m niw.t
**Translation:**
May one exist on the land, after one came from the city.

**Notes:**
It is possible a -i suffix should be supplied here.

**Witness:** B9C,b
**Transliteration:** wn=i m ts=i iy.n=i m niw.t=i
**Translation:**
May I exist on my land, after I came from my city.

Transliteration: spr $i r r n sI.tyw p.t
Translation: I arrive at the land of the horizon-dwellers of the sky,

Notes group:
Note that B3C uses a nominal subject instead of a pronominal subject.

Group 3: Nominal $dm.n-f (Emphatic use), Lemma spr
Lemma: spr (to arrive)
Morphology 1: $dm.n-f
Morphology 2: nominal
Syntax: Emphatic use
Subject: Pronominal subject

Witness: Sq4Sq
Transliteration: spr $n=k r sI.tyw p.t
Translation: You have reached the land of the horizon-dwellers of the sky,
Notes: Only traces left of the S29, the D21 is not visible.

Group 4: Nominal $dm-f (Balanced sentence), Lemma spr
Lemma: spr (to arrive)
Morphology 1: $dm-f
Morphology 2: nominal
Syntax: Balanced sentence
Subject: Pronominal subject

Witness: B1P
Transliteration: spr $i r r n sI.tyw $m p.t
Translation: I arrive at the land of the horizon-dwellers in the sky,

Notes group:
Balanced sentence with the prr in 4,222,b.

Witness: B5C
Transliteration: spr $i r r n sI.tyw (i)m
Translation: I arrive at the land of the horizon-dwellers there,
Group 5:  
Nominal *sdm.n-f* (Balanced sentence), Lemma *spr*

**Lemma:**  
*spr*  
(to arrive)

**Morphology 1:**  
*sdm.n-f*

**Morphology 2:**  
nominal

**Morphology 3:**  

**Syntax:**  
Balanced sentence

**Subject:**  
Pronominal subject

**Witness:**  
Sq8Sq

**Transliteration:**

*spr.n-i r [ts] pn n [š.tyw m p.t]*

**Translation:**

I have arrived at this land of the horizon-dwellers in the sky,

**Notes:**

Only traces left of the D54, the rest is visible.

**Notes group:**

*Balanced sentence due to the pr.n in 4,223,b.*

**Notes phrase:**

*In this phrase, the following pattern variations occur: G1 (T1C,a, T2Be, M57C), G2 (B9C,b, B3C, T1C,b, B1Y, B9C,a, Sq1C, Sq7C, Sq1Sq, Sq2C, Sq7Sq, M4C, M8C, M7C, M54C, M1C, L1NY, T1Be, L3Li, T3L, M1NY, BH1Br, T3L,b, M1Be), G3 (Sq4Sq), G4 (B1P, B5C), G5 (Sq8Sq, T3Be).*

**Spell:**

335  Phrase: 4  222-223  b

Group 1:  
Perfective active participle (masculine singular), Lemma *pri*

**Lemma:**  
*pri*  
(to go forth)

**Morphology 1:**  
participle

**Morphology 2:**  
perfective active

**Morphology 3:**  
masculine singular

**Syntax:**  

**Subject:**

**Witness:**  
T1C,a

**Transliteration:**

*pr m sbs dsr*

**Translation:**

which went forth from the holy portal.

**Witness:**  
M57C

**Transliteration:**

*pr hr sbs dsr*

**Translation:**

which went forth upon the holy portal.
Group 2: Circumstantial sḏm-f (Temporal clause), Lemma pri

Lemma: pri
Morphology 1: sḏm-f
Morphology 2: circumstantial
Morphology 3: 

Syntax: Temporal clause
Subject: Pronominal subject

Witness: B9C,b
Transliteration: *pr-i im hr sbi dṣr*
Translation: while I go forth there, upon the holy portal.

Witness: T1C,b
Transliteration: *pr-i m sbi dṣr*
Translation: while I go forth from the holy portal.

Witness: Sq1Sq
Transliteration: *pr-i m sbi dṣr*
Translation: while I went forth from the holy portal.

Witness: M54C
Transliteration: *pr-i m sbi dṣr*
Translation: while I go forth from the holy portal.
Notes: The D54 is not visible.
While I go forth from the holy portal.

Notes:
Only traces left of the D54, the rest is lost.

Notes group:
Note that B3C uses a nominal subject instead of a pronominal subject.
Group 3: Nominal sḏm-f (Balanced sentence), Lemma pri

Lemma: pri (to go forth)

Morphology 1: sḏm-f
Morphology 2: nominal

Syntax: Balanced sentence
Subject: Pronominal subject

Witness: B1P
Transliteration: prr[^i] m sbz ḍsr
Translation: I go forth from the holy portal.

Notes: Only traces left of the O1:D21 group, the rest is lost.

Group 4: Circumstantial sḏm.n-f (Temporal clause), Lemma pri

Lemma: pri (to go forth)

Morphology 1: sḏm.n-f
Morphology 2: circumstantial

Syntax: Temporal clause
Subject: Pronominal subject

Witness: Sq1C
Transliteration: pr.n[^i] ḫr sbz ḍsr
Translation: after I went forth upon the holy portal.

Notes: There might be some traces left of the O1:D21 group left.

Group 5: Nominal sḏm.n-f (Balanced sentence), Lemma pri

Lemma: pri (to go forth)

Morphology 1: sDm.n=f
Morphology 2: nqmin'āl

Syntax: Balanced sentence
Subject: Pronominal subject

Witness: BH1Br
Transliteration: pr.n[^i] m sbz ḍsr
Translation: after I went forth from the holy portal.
Witness: Sq8Sq
Transliteration: [pr.n-i m] sbs ḏsr
Translation: I went forth from the holy portal.

Group 6: Subjunctive sḏm-f (Final clause implying purpose), Lemma pri
Lemma: pri (to go forth)
Morphology 1: sḏm-f subjunctive
Morphology 2: Final clause implying purpose
Morphology 3: Pronominal subject

Witness: M8C
Transliteration: pr.t-i m sbs ḏsr
Translation: so that I go forth from the holy portal.

Notes: In this phrase, the following pattern variations occur: G1 (T1C,a, M57C), G2 (B9C,b, B3C, Sq4Sq, T1C,b, B1Y, B9C,a, Sq1Sa, Sq7Sa, M4C, M54C, M1C, L1NY, T1Be, L3Li, T2Be, T3L, M1NY, T3L,b, M1Be), G3 (B1P, B5C), G4 (Sq1C, Sq7C, Sq2C, BH1Br), G5 (Sq8Sq, T3Be), G6 (M8C, M7C).

I am this one who flew, who was born on yesterday, from the buttocks of the celestial cow.  
Notes:  
Complete guess.
**Group 4:** Perfective passive participle (masculine singular), Lemma msi (second position)

**Lemma:** msi (to birth, to bring forth)

**Morphology 1:** participle
**Morphology 2:** perfective passive
**Morphology 3:** masculine singular

**Syntax:**

**Subject:**

**Witness:** T1C,a
**Transliteration:** iw ms.z n rz pw ms.y m sf r hpd.w mH.t-wr.t
**Translation:** This Re saw who was born on yesterday, from the buttocks of the celestial cow.

**Witness:** B3C
**Transliteration:** iw ms.n ss.t-hd-htp in rz pw ms.y m sf r hpd.w mH(.t)-wr.t
**Translation:** This ss.t-hd-htp saw it is Re who was born on yesterday, from the buttocks of the celestial cow.

**Witness:** T1C,b
**Transliteration:** iw ms.n-i rz pw ms.y m sf r hpd.w mH(.t)-wr.t
**Translation:** I saw it is Re who was born on yesterday, from the buttocks of the celestial cow.

**Witness:** B5C
**Transliteration:** iw ms.n-i rz pw ms.y m sf r hpd.wy mH(.t)-wr.t
**Translation:** I saw it is Re who was born on yesterday, from the two buttocks of the celestial cow.

**Notes:**
The M17*M17 group is not visible.

**Witness:** B9C,b
**Transliteration:** iw ms.n-i rz pw ms.y m sf r hpw.w mH.t-wr.t
**Translation:** I saw it is Re who was born on yesterday, from the buttocks of the celestial cow.

**Witness:** Sq4Sq
**Transliteration:** iw [m]s[i .n-f] rz pw ms r hpd mH.t-wr[t].t
**Translation:** He saw it is Re who was born
from the buttock of the celestial cow.

**Witness:** B1P
**Transliteration:** [i]w ms.n-i rz pw ms.y sf r h[p]{r} <d> wy mH.t[-wr.t]
**Translation:** I saw it is Re who was born yesterday,
from the two buttocks of the celestial cow.

**Witness:** B1Y
**Transliteration:** [i]w ms.n-i rz pw ms.y [m sf r] hpd.wy mH(.t)-wr.t
**Translation:** I saw it is Re who was born on yesterday,
from the two buttocks of the celestial cow.

**Notes:**
Only the M17*M17 group is visible.

Translation: What even is it, Re who was born on yesterday from the two buttocks of the celestial cow?

Witness: T3L,b
Transliteration: [sy pw r̀ ms.y m sf r hpd.w mh.t-wr.t]
Translation: What is it, Re who was born on yesterday from the buttocks of the celestial cow?

Notes phrase: In this phrase, the following pattern variations occur: G1 (T1C,b), G2 (B1P, B5C, B15C, Sq1C, Sq7C, Sq2C, Sq8Sa, M4C, M7C, M1C, T1Be, L3Li, T2Be, T3Be, M1NY, BH1Br, T3L,b).
Note that B9C,a, M8C, L1NY and M57C do have a phrase here, but it is non-verbal.
Group 1: Circumstantial sdm-f (Temporal clause), Lemma msi

Lemma: msi (to birth, to bring forth)

Morphology 1: circumstantial
Morphology 2: Temporal clause
Morphology 3: Pronominal subject

Witness: B9C,a

Transliteration:
twt pw n ir.t ms=s dw3(w) sp sn.w r° nb

Translation:
It is the image of the eye, while it births the morning, twice, every day.

Notes:
Could be read as mss (imperfective participle as well), reflecting back to twt.

Group 2: Imperfective active participle (masculine singular), Lemma dw3

Lemma: dw3 (to worship)

Morphology 1: participle
Morphology 2: imperfective active
Morphology 3: masculine singular

Witness: Sq1C

Transliteration:
twt pw n ir.t r° dw3 ms.t=f r° nb

Translation:
It is the image of the eye of Re, who worships at his birth every day.

Group 3: Prospective relative sdm-f, Lemma iri

Lemma: iri (to do, to make)

Morphology 1: prospective relative

Witness: M1NY

Transliteration:
twt n ir.yw r° dw3.t hr ms.t=f r° nb

Translation:
The image of that which Re of the netherworld will do upon his birth every day.
Notes phrase:
In this phrase, the following pattern variations occur: G1 (B9C,a), G2 (Sq1C, T3Be), G3 (M1NY). The rest of the witnesses are non-verbal. Notes that in this phrase the witnesses with a verbal form are the exception, not the rule.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B9C,a, M4C), G1+G2 (T1C,a, B9C,b, B3C, Sq4Sq, T1C,b, B1P, B5C, B1Y, Sq1C, Sq7C, Sq2C, Sq7Sq, Sq8Sq, M8C, M7C, M54C, M1C, L1NY, T1Be, L3Li, T2Be, T3Be, M57C, M1NY, BH1Br, T3L,b, M1Be).

Spell: 335 Phrase: 4 256-257 b

Group 1: Stative (1st person singular), Lemma iyi (first position)
Lemma: iyi (to come)
Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:
Witness: T1C,a
Transliteration: 
m[-tn] n w(i) iy.i.k(i) hr-t[n]
Translation: Behold me, I come to you,

Witness: T1C,b
Transliteration: 
m-tn n wi iy.i.ki hr-t[tn]
Translation: Behold me, I come to you,

Witness: B9C,b
Transliteration: 
m-tn wi iy.i.kw hr-{tn]
Translation: Behold me, I come to you,

Witness: B1P
Transliteration: 
m-tn n wi iy.i.kwi hr-{tn]
Translation: Behold me, I come to you,

Witness: B5C
Transliteration: 
m-t[n] w[i] iy.i.kwi hr-t[tn]
Translation: Behold me, I come to you,
Notes: Only the V31A and traces of the M18*M17 group are visible.

Witness: B9C,a
Transliteration: 
m-t[n] w(i) iy.i.kwi hr-{tn]
Translation: Behold me, I come to you,

Witness: Sq1C
Transliteration: 
m-tn n wi iy.i.kwi hr-t[tn]
Translation: Behold me, I come to you,

Witness: Sq7C
Transliteration: 
m-[tn] w[i] iy.i.kw hr-t[tn]
Translation: Behold me, I come to you,

Notes: Only traces of the M18 and G43 are visible, the rest is lost.

Witness: Sq2C
Transliteration: 
m-{tn n} w[i] iy.i.kwi hr-[tn]
Translation: Behold me, I come to you,
Witness: Sq7Sq
Transliteration: 
\[m\overline{tn} n \overline{w}i \overline{yi.i.ki} \ h[r\overline{tn}]\]
Translation: Behold me, I come to you,

Witness: Sq8Sq
Transliteration: 
\[m\overline{tn} n \overline{w}i \overline{yi.i.kwi} \ h[r\overline{tn}]\]
Translation: Behold me, I come to you,

Witness: M4C
Transliteration: 
\[m\overline{tn} wi \overline{yi.i.kwi} \ h[r\overline{tn}]\]
Translation: Behold me, I come to you,

Witness: M8C
Transliteration: 
\[m\overline{tn} n wi \overline{yi.i.kwi} \ h[r\overline{tn}]\]
Translation: Behold me, I come to you,

Witness: M54C
Transliteration: 
\[m\overline{tn} n wi \overline{yi.i.kwi} \ h[r\overline{tn}]\]
Translation: Behold me, I come to you,
Only traces left of the D54, the rest is visible.

Witness: L1NY
Transliteration: 
\[m\overline{tn} \overline{w}(i) \overline{yi.i.kw} \ h[r]n\overline{tn}\]
Translation: Behold me, I come to you,

Notes: The top of the M18 and the D54 are lost, only traces left of the V31A.

Witness: L3Li
Transliteration: 
\[m\overline{tn} \overline{nt} \overline{yi.kw} \ h[r]n\overline{tn}\]
Translation: Behold, I come, which you know,

Transliteration: [m-tn n wi iy.i.ki hr-tn]
Translation: Behold me, I come to you,

Witness: M1Be
Transliteration: m-tn wi iy.i.kwi hr-tn
Translation: Behold me, I come to you,

Notes group:
Note that B1Y uses iwi instead of iyi, but these two verbs are considered to be the same.

Group 2: Stative (3rd person feminine singular), Lemma iyi (first position)
Lemma: iyi (to come)
Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:
Stative 3rd person feminine singular

Witness: B3C
Transliteration: m-[tn] ss.1-hd-htp tn iy.i.t(i) hr-tn
Translation: Behold this ss.1-hd-htp, she comes to you,

Notes group:
Note that group 2 and group 4 should be considered the same group, as the variation is due to the gender of the owner.
**Group 3:** Imperative (2nd person plural), Lemma *rdi* (first position)

**Lemma:** *rdi*  
(to give, to place)

**Morphology 1:** imperative  
2nd person plural

**Witness:** T2Be

**Transliteration:** *imi nw [iyi.kwi ḥr-tn]*

**Translation:** Give this, I come to you,

---

**Group 4:** Stative (3rd person masculine singular), Lemma *iyi* (first position)

**Lemma:** *iyi*  
(to come)

**Morphology 1:** Stative  
3rd person masculine singular

**Witness:** M1NY

**Transliteration:** *m-tn ḥi-hip pn iyī(.w) ḥr ṭn*

**Translation:** Behold this ḥi-hip, coming to you,

---

**Notes group:**

Note that group 2 and group 4 should be considered the same group, as the variation is due to the gender of the owner.

---

**Group 5:** Circumstantial *sdm.n-f* (Temporal clause), Lemma *rḥ* (second position)

**Lemma:** *rḥ*  
(to know)

**Morphology 1:** *sdm.n-f*  
circumstantial

**Morphology 3:** Temporal clause

**Subject:** Pronominal subject

**Witness:** T1Be

**Transliteration:** *m-tn n wi iyī.kwi rḥ.n-ī ṭn*

**Translation:** Behold me, I come after I knew you,
### Group 6: Imperfective relative \( sDm=f \), Lemma \( rh \) (second position)

**Lemma:** \( rh \) (to know)

**Morphology 1:** Imperfective relative

**Subject:** Pronominal subject

**Witness:** L3Li

**Transliteration:** \( m-tn \{n\} tyi.kw rh-tn \)

**Translation:** Behold, I come, which you know,

### Group 7: Stative (1st person singular), Lemma \( iyi \) (second position)

**Lemma:** \( iyi \) (to come)

**Morphology 1:** Stative

**Morphology 2:** 1st person singular

**Subject:**

**Witness:** T2Be

**Transliteration:** \( imi nw [iyi.kwi hr-tn] \)

**Translation:** Give this, I come to you,

**Notes phrase:** In this phrase, the following pattern variations occur: G1 (T1C,a, B9C,b, T1C,b, B1P, B5C, B1Y, B9C,a, Sq1C, Sq7C, Sq2C, Sq8S, Sq8S, M4C, M8C, M7C, M54C, M1C, L1NY, T3Be, M57C, BH1Br, T3L,b, M1Be), G1+G5 (T1Be), G1+G6 (L3Li), G2(=G4) (B3C, M1NY), G3+G7 (T2Be).

### Group 1: Subjunctive \( sDm-f \) (Wish clause), Lemma \( dr \) (first position)

**Lemma:** \( dr \) (to expel)

**Morphology 1:** subjunctive

**Subject:** Pronominal subject

**Phrase:** 335

**Spell:** 4

**Phrase:** 256-257

### Notes phrase:

In this phrase, the following pattern variations occur: G1 (T1C,a, B9C,b, T1C,b, B1P, B5C, B1Y, B9C,a, Sq1C, Sq7C, Sq2C, Sq8S, Sq8S, M4C, M8C, M7C, M54C, M1C, L1NY, T3Be, M57C, BH1Br, T3L,b, M1Be), G1+G5 (T1Be), G1+G6 (L3Li), G2(=G4) (B3C, M1NY), G3+G7 (T2Be).
Witness: T1C,a
Transliteration:
\(\text{dr} \cdot \text{tn} \ \text{dw}.t \ \text{ir}.t\)
Translation:
may you expel the evil thereof,

Witness: B9C,b
Transliteration:
\(\text{dr} \cdot \text{tn} \ \text{dw}.t \ \text{ir}.t\ i\)
Translation:
may you expel the evil which belongs to me,
Notes:
The D21 is damaged.

Witness: B3C
Transliteration:
\(\text{dr} \cdot \text{tn} \ \text{dw}.t \ \text{ir}.t\ s\)
Translation:
may you expel the evil which belongs to her,

Witness: T1C,b
Transliteration:
\(\text{dr} \cdot \text{tn} \ \text{dw}.t \ \text{ir}.t\)
Translation:
may you expel the evil thereof,

Witness: B1Y
Transliteration:
\(\text{dr} \cdot \text{tn} \ \text{dw}.t \ \text{ir}.t\ i\)
Translation:
may you expel the evil which belongs to me,
Notes:
Only traces left of the D21, the D40 is not visible.

Witness: Sq1C
Transliteration:
\(\text{dr} \cdot \text{tn} \ \text{dw}.t \ \text{ir}.t\ i\)
Translation:
may you expel the evil which belongs to me,

Witness: Sq7C
Transliteration:
\(\text{dr} \cdot \text{tn} \ \text{dw}.t \ \text{ir}.t\ i\)
Translation:
may you expel the evil which belongs to me,
Witness: Sq2C
Transliteration: 
\[dr\cdot tn \ dw. t \ ir. t\cdot i\]
Translation: 
may you expel the evil which belongs to me,

Witness: Sq7Sq
Transliteration: 
\[dr\cdot fn \ dw. t \ ir. t\cdot i\]
Translation: 
may you expel the evil which belongs to me,

Witness: Sq8Sg
Transliteration: 
\[dr\cdot tn \ dw. t \ ir. t\cdot i\]
Translation: 
may you expel the evil which belongs to me,

Witness: M8C
Transliteration: 
\[dr\cdot fn \ dw. t \ ir. t\cdot i\]
Translation: 
may you expel the evil which belongs to me,

Witness: M7C
Transliteration: 
\[dr\cdot tn \ dr\cdot tn \ dw. t \ ir. t\cdot i\]
Translation: 
may you expel, may you expel the evil which belongs to me,

Witness: M54C
Transliteration: 
\[dr\cdot tn \ dw. t \ ir. t\cdot i\]
Translation: 
may you expel the evil which belongs to me,

Witness: M1C
Transliteration: 
\[dr\cdot tn \ dw. t \ ir. t\cdot i\]
Translation: 
may you expel the evil which belongs to me,

Witness: L1NY
Transliteration: 
\[dr\cdot tn \ dw. t \ ir. t\cdot i\]
Translation: 
may you expel the evil thereof,

Witness: L3Li
Transliteration: 
\[dr\cdot tn \ dw. t \ ir. t\cdot i\]
Translation: 
may you expel all the evil which belongs to me,

Witness: BH1Br
Transliteration: 
\[dr\cdot tn \ dw. t \ ir. t\cdot i\]
Translation: 
may you expel the evil thereof,
Witness: T3L,b
Transliteration: [dr-tn ḏw.t nb.t] ir.t-i
Translation: may you expel all the evil which belongs to me,

Notes: Only traces left of the D40, the rest is visible.

Group 2: Subjunctive sḏm-f (Wish clause), Lemma ḫsr (first position)
Lemma: ḫsr (to dispel)
Morphology 1: subjunctive
Morphology 2: sḏm-f
Morphology 3: subjunctive
Syntax: Wish clause
Subject: Pronominal subject
Witness: B1P
Transliteration: ḫsr-tn ḏw.t ir.t-i
Translation: May you dispel the evil which belongs to me,

Notes: Only traces left of the D21 due to a crack in the wood.

Group 3: Subjunctive sḏm-f (Wish clause), Lemma ḏr (first position)
Lemma: ḏr (to remove)
Morphology 1: subjunctive
Morphology 2: sḏm-f
Morphology 3: subjunctive
Syntax: Wish clause
Subject: Pronominal subject
Witness: T2Be
Transliteration: [dr-tn] ḏw.t ir[t].-i
Translation: may you remove the evil which belongs to me,
Witness: T3Be
Transliteration: $dr=tn \, dw.t \, nb.t \, ir.t=i$
Translation: may you remove all the evil which belongs to me,

**Group 4:** Subjunctive $sdm=f$ (Wish clause), Lemma $dr$ (second position)

Lemma: $dr$ (to expel)

Morphology 1: $sdm=f$
Morphology 2: subjunctive
Morphology 3: Wish clause
Syntax: Wish clause
Subject: Pronominal subject

Witness: M7C
Transliteration: $dr=tn \, dr=tn \, dw.t \, ir.t=i$
Translation: may you expel, may you expel the evil which belongs to me,

Notes: Duplication, could be a dittography, or a method to place more emphasis on the action.

**Notes phrase:**
In this phrase, the following pattern variations occur: G1 (T1C,a, B9C,b, B3C, Sq4Sg, T1C,b, B5C, B1Y, B9C,a, Sg1C, Sg7C, Sg2C, Sg7Sg, Sg8Sg, M8C, M54C, M1C, L1NY, T1Be, L3Li, M57C, BH1Br, T3L,b, M1Be), G1+G4 (M7C), G2 (B1P, M1NY), G3 (M4C, T2Be, T3Be).

Spell: 335 Phrase: 4 258-259 b

**Group 1:** Relative $sdm.n=f$, Lemma $iri$

Lemma: $iri$ (to do, to make)

Morphology 1: $sdm.n=f$
Morphology 2: relative
Morphology 3: Syntax: Nominal subject
Subject: Nominal subject

Witness: T1C,a
Transliteration: $ir.n \, inpw \, s.t=sn$
Translation: whose seat Anubis made,
Witness: B3C
Transliteration: 
\textit{ir.w.n inpw s.wt+sn}
Translation: whose seats Anubis made,

Witness: T1C,b
Transliteration: 
\textit{ir.n inpw s.t+sn}
Translation: whose seat Anubis made,

Witness: M1C
Transliteration: 
n izr wr rn-f
Translation: 'The great one was not driven away' is his name.
Notes: Assumed to be a corruption of Air, but the i could be a prefix.

Witness: T1Be
Transliteration: 
n izr wr rn-f
Translation: 'The great one was not driven away' is his name.
Notes: Note that the V4 is a corruption of the T12.

Witness: L3Li
Transliteration: 
n izr wr
Translation: 'The great one was not driven away'.

Witness: M57C
Transliteration: 
n sr wr rn-f
Translation: 'The great one was not driven away' is his name.

Witness: M1NY
Transliteration: 
n izr wr rn-f
Translation: 'The great one was not driven away' is his name.

Witness: BH1Br
Transliteration: 
n izr rn-f
Translation: 'His name was not driven away'.

Group 3: Infinitive (status absolutus), Lemma sr (first position)
Lemma: sr (to drive away)
Morphology 1: infinitive
Morphology 2: status absolutus
Morphology 3: Syntax: Subject:
**Witness:** T3Be
**Transliteration:**
*n sir ir=f rn=f*
**Translation:**
There is no oppressing against him is his name.

**Notes group:**
Note that T3L,b was places here as I reconstructed it based on T3Be, it could be the same structure as group 2 as well.

**Group 4:** Perfective active participle (masculine singular), Lemma ms=f (second position)
**Lemma:** ms=f (to be true)
**Morphology 1:** participle
**Morphology 2:** perfective active
**Morphology 3:** masculine singular

**Witness:** Sq7C
**Transliteration:**
*n Air ir=f rn=f imAx.y hr ms=f hrw*
**Translation:**
'The great one was not driven away' is his name. The honoured dead, hr, true of voice.

**Notes phrase:**
In this phrase, the following pattern variations occur: G1 (T1C,b, B1P, B9C,a, M8C, M7C, L1NY), G2 (Sq1C, Sq2C, Sq7Sq, M4C, M54C, M1C, T1Be, L3Li, M57C, M1NY, BH1Br), G2+G4 (Sq7C), G3 (T3Be, T3L,b).

**Spell:** 335 **Phrase:** 4 268-269 c

**Group 1:** Passive indicative sdm=f (Negation), Lemma rdi
**Lemma:** rdi (to give, to place)
**Morphology 1:** sdm=f
**Morphology 2:** indicative
**Morphology 3:** passive
**Syntax:** Negation
**Subject:** Pronominal subject

**Witness:** T1C,a
**Transliteration:**
*kz n rdi=f hnt hwt=f*
**Translation:**
the bull 'he was not placed in front of his fire',

**Witness:** Sq1C
**Transliteration:**
*kz n rdi=f hnt hwt=f*
**Translation:**
the bull 'he was not placed in front of his fire',

2765
Witness: Sq7C
Transliteration:
ksz n rdi-f hnt hwt[f]
Translation:
the bull 'he was not placed in front of his fire',

Witness: T1Be
Transliteration:
ksz n rdi-f hnt hwt-f
Translation:
the bull 'he was not placed in front of his fire',

Witness: L3Li
Transliteration:
ksz n rdi-f hnt hwt-f
Translation:
the bull 'he was not placed in front of his fire',

Group 2: Passive circumstantial sdm.n-f (Negation), Lemma rdi
Lemma: rdi (to give, to place)
Morphology 1: sdm.n-f circumstantial
Morphology 2: passive
Morphology 3: Syntax: Negation
Subject: Pronominal subject

Witness: B1P
Transliteration:
[ksz n rdi.n-t(w)] hnt hwt
Translation:
the bull 'one is not placed in front of the fire'
Notes:
Could be read as rdi.n.t(w) as well, if hnt is read as hnt(.y).

Witness: M8C
Transliteration:
ksz n rdi.n-f hnt hwt-f
Translation:
the bull 'he is not placed in front of his fire',

Witness: M7C
Transliteration:
ksz n r[di].n-f hnt hwt-f
Translation:
the bull 'he is not placed in front of his fire',
Notes:
Only traces left of the D21 and N35, the D37 is not visible.
Group 3: Nominal sdm.n-f (Emphatic use), Lemma rdi
Lemma: rdi (to give, to place)
Morphology 1: sdm.n-f
Morphology 2: nominal
Morphology 3: Emphatic use
Syntax: Pronominal subject

Witness: Sq2C
Transliteration: kṣ r[d]i.n-f [hnt h]wt-f
Translation: the bull 'he was placed in front of his fire',

Group 4: Stative (3rd person masculine singular), Lemma nbi
Lemma: nbi (to be aflame)
Morphology 1: Stative
Morphology 2: 3rd person masculine singular
Morphology 3: Syntax: Subject:

Witness: L1NY
Transliteration: kṣ n i[w-f nbi(.w) hnt hwt-f
Translation: the bull of 'he is aflame in front of his fire',
Notes: The foot of the D58 is not visible.

Notes phrase: In this phrase, the following pattern variations occur: G1 (T1C,a, Sq1C, Sq7C, T1Be, L3Li), G2 (B1P, M8C, M7C), G3 (Sq2C), G4 (L1NY).
Note that T1C,b, B9C, M4C, M54C, M1C, T2Be, T3Be, T38e, M57C, M1NY, BH1Br and T3L,b do have a phrase here, but it is non-verbal.

Spell: 335 Phrase: 4 268-269 d
**Witness**: T1C,a

**Transliteration**: km hr im.y wnw.t-f

**Translation**: 'the one who is black of face, who is in his hour',

**Morphology 3**: masculine singular

**Syntax**: Subject:

**Witness**: T1C,b

**Transliteration**: 'k hr im.y wnw.t-f

**Translation**: 'the one who enters upon the one who is in the hour',

**Witness**: B9C,a

**Transliteration**: 'k im.y wnw.t-f rn-f

**Translation**: 'who enters upon the one who is in his hour', is his name,

**Witness**: Sq7C

**Transliteration**: 'k hr im.y wnw.t-f

**Translation**: 'the one who enters upon the one who is in his hour',

**Witness**: M8C

**Transliteration**: 'k hr im.y wnw.t-f

**Translation**: 'the one who enters upon the one who is in his hour',

**Notes**: Only traces left of the D36, the rest is visible.
Witness: M54C
Transliteration: ʾq̲ h̲r i̲m̲.y̲ w̲n̲w̲.t̲-̲f̲
Translation: 'the one who enters upon the one who is in his hour',
Notes: Only traces left of the D54, the rest is visible.

Witness: M1C
Transliteration: ʾq̲ h̲r i̲m̲.y̲ w̲n̲w̲.t̲-̲f̲
Translation: 'the one who enters upon the one who is in his hour',

Witness: L1NY
Transliteration: ʾq̲ h̲r i̲m̲.y̲ w̲n̲w̲.t̲-̲f̲
Translation: 'the one who enters upon the one who is in his hour',

Witness: T1Be
Transliteration: ʾq̲ h̲r i̲m̲.y̲ w̲n̲w̲.t̲-̲f̲
Translation: 'the one who enters upon the one who is in his hour',

Witness: L3Li
Transliteration: ʾq̲ r̲-̲Xnw̲ w̲n̲w̲.t̲-̲f̲
Translation: 'the one who enters within his hour',
Notes: Only the D36 is visible.

Witness: T2Be
Transliteration: ʾq̲ r̲-̲Xnw̲ w̲n̲w̲.t̲-̲f̲
Translation: 'the one who enters within his hour',

Witness: M57C
Transliteration: ʾq̲ h̲r i̲m̲.y̲ w̲n̲w̲.t̲-̲f̲
Translation: 'the one who enters upon the one who is in his hour',
Notes: The G35 was not seen by de Buck himself.

Witness: M1NY
Transliteration: ʾq̲ h̲r i̲m̲.y̲ w̲n̲w̲.t̲-̲f̲
Translation: 'the one who enters upon the one who is in his hour',

Witness: BH1Br
Transliteration: ʾq̲ h̲r i̲m̲.y̲ dw̲t̲.t̲-̲f̲
Translation: 'the one who enters upon the one who is in his netherworld',

Notes: Note that the G35 was corrupted into a G1. However, it is possible that this should be read as the verb ʾq̲z̲ (to be accurate) instead.
Group 3: Imperfective active participle (masculine singular), Lemma šš̄s

Lemma: šš̄s (to be hidden)

Morphology 1: imperfective active
Morphology 2: masculine singular

Witness: Sq7Sq

Transliteration:
šš̄s [hr] im.y wnw.t=f [rn]=f

Translation:
'The one who is hidden upon the one who is in his hour.' is his name.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (T1C,a), G2 (T1C,b, B1P, B9C,a, Sq1C, Sq7C, Sq2C, M8C, M7C, M54C, M1C, L1NY, T1Be, L3Li, T2Be, T3Be, M57C, M1NY, BH1Br), G3 (Sq7Sq).
Note that M4C does have a phrase here, but it is non-verbal.

Spell: 335 Phrase: 4 270-271 b

Group 1: Imperfective passive participle (masculine singular), Lemma ššb (first position)

Lemma: ššb (to glow, to burn)

Morphology 1: imperfective passive
Morphology 2: masculine singular

Witness: T1C,a

Transliteration:
ššb hr pr m-ḥt sp sn.w

Translation:
'the one who is glowing of face, who went forth after turning back',

Witness: Sq7C

Transliteration:
ššb hr pr m-ḥt ḫt

Translation:
'the one who is glowing of face, who went forth after turning back',

Notes:
Only traces left of the G1, the rest is visible.
Witness: M4C
Transliteration: ssb hr pr m-ḥt ḫt
Translation: 'the one who is glowing of face, who went forth after turning back',

Witness: M8C
Transliteration: ssb hr pr m-ḥt ḫt
Translation: 'the one who is glowing of face, who went forth after turning back',

Witness: M7C
Transliteration: ssb [ḥr] pr m-ḥt ḫt
Translation: 'the one who is glowing of face, who went forth after turning back',

Witness: T1Be
Transliteration: ssb hr pr m-ḥt ḫt
Translation: 'the one who is glowing of face, who went forth after turning back',

Witness: L3Li
Transliteration: ssb hr prr m-ḥt ḫt
Translation: 'the one who is glowing of face, who goes forth after turning back',

Witness: T3Be
Transliteration: sbs hr pr ḫḥt
Translation: 'the one who is glowing of face, who went forth, who turned back',
Notes: sbs is understood to be a spelling variation of ssb.

Witness: M57C
Transliteration: ssb hr pr m-ḥt ḫt
Translation: 'the one who is glowing of face, who went forth after turning back',

Group 2: Imperfective passive participle (masculine singular), Lemma nbs (first position)
Lemma: nbs (to burn)
Morphology 1: participle
Morphology 2: imperfective passive
Morphology 3: masculine singular
Syntax: Subject:

Witness: T1C,b
Transliteration: nbs hr prr m-ḥt ḫt
Translation: 'the one who is burning of face, who goes forth after turning back',

Witness: B1P
Transliteration: nbs hr pr m-ḥt ḫt
Translation: 'the one who is burning of face, who goes forth after turning back',

2771
Witness: B9C,a
Transliteration:
nbs hr prr m-ḥt ḫt r[n-ʃ]
Translation:
the one who is burning of face, who goes forth
after turning back' is his name,

Witness: M54C
Transliteration:
[nbs hr] prr m-ḥt ḫt
Translation:
'the one who is burning of face, who goes forth after turning back',

Witness: M1C
Transliteration:
[nbs] hr prr m-ḥt ḫt
Translation:
'the one who is burning of face, who goes forth after turning back',

Translation: 
the ones who pull of Osiris.
Notes phrase:
In this phrase, the following pattern variations occur: G1 (B9C,b, T1Be), G2 (B3C, T1C,b, B1Y, T2Be, T3Be, M1Be), G3 (Sq7S, L1NY, M57C), G4 (M4C). Note that B9C,a, Sq2C and M54C do have a phrase here, but it is non-verbal.

Spell: 335 Phrase: 4 304 b

Group 1: Imperfective active participle (feminine singular), Lemma ḫṣf (first position)
Lemma: ḫṣf (to oppose)
Morphology 1: participle
Morphology 2: imperfective active
Morphology 3: feminine singular
Syntax:
Subject:
Witness: T1C,b

Transliteration:
$\delta\delta\delta.t\ t n\ \ hṣf.\ t\ (i)\ h.\ wt\ n(.wt)\ hft.yw\ n.w\ r^c$
Translation:
it is this tribunal, who opposes the matters of the enemies of Re.

Witness: Sq2C

Transliteration:
$\delta\delta\delta.t\ p[w\ hṣf.\ t\ (i)\ h.\ wt\ n(.wt)\ hft.yw\ n(.w)\ wsir]$
Translation:
it is the tribunal who opposes the matters of the enemies of Osiris.

Witness: M4C

Transliteration:
$\delta\delta\delta.t\ p w\ hṣf.\ t\ (i)\ h.\ wt\ n(.wt)\ hft.yw\ n(.w)\ wsir$
Translation:
it is the tribunal who opposes the matters of the enemies of Osiris.

Witness: M54C

Transliteration:
$[\delta\delta\delta.t\ p w]\ hṣf.\ t\ (i)\ h.\ t\ n(.t)\ hft.yw^]\$n w
Translation:
it is the tribunal who opposes the case of the enemies.
Notes:
The Aa1 is not visible.
**Witness**: L1NY

**Transliteration**:
\[d\text{sd}_3\text{t} \text{ pw} \text{ hsf}_1 \text{ (i)h}_7\text{.t} \text{ n(n.t)} \text{ hfr}_7\text{.yw n.w wsir}\]

**Translation**: it is the tribunal who opposes the case of the enemies of Osiris.

**Notes**: Visible for de Buck, in my image the Aa1 is not visible.

**Group 2**: Perfective active participle (masculine singular), Lemma ms = (second position)

**Lemma**: ms = (to be true)

**Morphology 1**: participle  
**Morphology 2**: perfective active  
**Morphology 3**: masculine singular

**Witness**: B9C,a

**Transliteration**: 
\[d\text{sd}_3\text{t} \text{ tn pw n.t wsir hsf}_1\text{.t hfr}_7\text{.yw wsir imn-m-hs}_7\text{.t ms} = \text{ hwr}\]

**Translation**: It it this tribunal of Osiris, who opposes the enemies of the Osiris imn-m-hs = t, true of voice.

**Notes phrase**: In this phrase, the following pattern variations occur: G1 (T1C,b, Sq2C, Sq7SQ, M4C, M54C, L1NY), G1+G2 (B9C,a).

**Spell**: 335  **Phrase**: 4 305 a

**Group 1**: Prospective sdm-f (Negation), Lemma shm

**Lemma**: shm = (to have power)

**Morphology 1**: sdm-f  
**Morphology 2**: prospective

**Witness**: B9C,b

**Transliteration**: 
\[n \text{ shm ds.w=sn m sA}_7\text{.t-hd-htp tn}\]

**Translation**: Their knives will not have power over this sA = t - hd - htp,

**Notes**: The Y2 is not visible (see de Buck 4,305,1*).
**Witness:** Sq2C
Transliteration: 
[n slm ds.w=sn im=i]
Translation: Their knives will not have power over me,

**Witness:** Sq7S
Transliteration: 
[n slm ds=sn im=i]
Translation: Their knife will not have power over me,
Notes: Only traces left of the G17, the rest is visible.

**Witness:** T1Be
Transliteration: 
[n slm ds.w=tn im=i]
Translation: Their knives will not have power over me,
Notes: The S29 was not seen, there are only traces left of the S42.

**Witness:** T2Be
Transliteration: 
[n slm ds.w=tn im=i]
Translation: Your knives will not have power over me,

**Witness:** T3Be
Transliteration: 
[n slm ds.w=sn im=i]
Translation: Their knives will not have power over me,

**Witness:** M1Be
Transliteration: 
[n slm ds. w=sn im=i]
Translation: Their knives will not have power over me,

**Group 2:** Subjunctive sdm-f (Negation), Lemma ḫr
Lemma: ḫr (to fall)
Morphology 1: sdm-f  Morphology 2: subjunctive  Morphology 3: subjunctive
Syntax: Negation  Subject: Pronominal subject

**Witness:** T1C,b
Transliteration: 
nn ḫr=i n dm.wt-tn
Translation: I will not fall because of your knives,
**Witness:** L1NY

Transliteration:

$n [n \, h][r \, i \, [n] \, d, s_.w-t\, n$

Translation: I will not fall because of your knives,

**Notes:**

Only the D21-A54 group was visible for de Buck.

---

**Witness:** M1NY

Transliteration:

$nn \, h\, r \, w-h\, h\, p\, n \, <n> \, d, s_.w-t\, n$

Translation: This w-h-hp will not fall because of your knives,

**Notes group:**

Group 2 and Group 3 should be considered to be the same.

Note that M1NY uses a nominal subject instead of a pronominal subject.

**Group 3:** Prospective $s_d\!m\,-f$ (Negation), Lemma $h\, r$

**Lemma:** $h\, r$ (to fall)

**Morphology 1:** Prospective

**Morphology 2:**

**Morphology 3:**

**Syntax:** Negation

**Subject:** Pronominal subject

**Witness:** B9C,a

Transliteration:

$n \, h\, r \, i \, n \, d, s_.w-t\, n$

Translation: I will not fall because of your knives,

**Notes group:**

Group 2 and Group 3 should be considered to be the same.

**Group 4:** Prospective $s_d\!m\,-f$ (Negation), Lemma $h\, b\, w$

**Lemma:** $h\, b\, w$ (to plough)

**Morphology 1:** Prospective

**Morphology 2:**

**Morphology 3:**

**Syntax:** Negation

**Subject:** Nominal subject

**Witness:** M54C

Transliteration:

$n \, h\, r \, i \, n \, d, s[.w]-t\, n$

Translation: I will not fall because of your knives,
Witness: B1Y
Transliteration: 
*n h{s w=s[n im-i]*
Translation: Their knives will not plough into me,

Notes phrase: In this phrase, the following pattern variations occur: G1 (B9C,b, B3C, Sq2C, Sq7s, T1Be, T2Be, T3Be, M1Be), G2 (and G3) (T1C,b, B9C,a, M4C, M5s, L1NY, M57C, M1NY), G4 (B1Y).

Spell: 335 Phrase: 4 305 b

Group 1: Prospective s{d m-f (Negation), Lemma h{si
Lemma: h{si (to descend)
Morphology 1: s{d m-f Morphology 2: Morphology 3: Syntax: Subject:
prospective Negation Pronominal subject

Witness: B9C,b
Transliteration: *n h{s y-i r w[h{s w=s[n
Translation: I will not descend into their cauldrons,

Witness: B1Y
Transliteration: *n h{s y-i r w[h{s w=s[n
Translation: I will not descend into their cauldrons,

Notes: Note that the gemination of the G1 is a bit unusual here.

Witness: B9C,a
Transliteration: *n h{s y-i r w[h{s w=s[n
Translation: I will not descend into their cauldrons,
**Witness:** Sq2C  
Transliteration:  
\[n \ [h\cdot.y=i \ r \ w\cdot.w=t\cdot sn]\]  
Translation:  
I will not descend into their cauldrons,

**Witness:** Sq7Sq  
Transliteration:  
\[n \ [h\cdot.y=i \ r \ w\cdot.w=t\cdot sn]\]  
Translation:  
I will not descend into their cauldrons,

Notes:  
Only traces left of the G1, the O4 is not visible.

**Witness:** T1Be  
Transliteration:  
\[n \ h\cdot.y=i \ r \ w\cdot.w=t\cdot sn\]  
Translation:  
I will not descend into their cauldrons,

**Witness:** M1Be  
Transliteration:  
\[n \ h\cdot.y=i \ r \ w\cdot.w=t\cdot sn\]  
Translation:  
I will not descend into their cauldrons,

Notes group:  
*Note that B3C uses a nominal subject instead of a pronominal subject.*

**Group 2:**  
*Subjunctive sdm-f (Negation), Lemma hsi*  
**Lemma:**  
hsi  
(to descend)  
**Morphology 1:**  
sdm-f  
**Morphology 2:**  
subjunctive  
**Morphology 3:**  
  
**Syntax:**  
Negation  
**Subject:**  
Pronominal subject

**Witness:** T1C,b  
Transliteration:  
\[n \ h\cdot.y=i \ r \ w\cdot.w=t\cdot tn\]  
Translation:  
I will not descend into your cauldrons,

**Witness:** M4C  
Transliteration:  
\[n \ h\cdot.y=i \ r \ w\cdot.w=t\cdot tn\]  
Translation:  
I will not descend into your cauldrons,
Witness: M54C
Transliteration: $nn \text{hsz-i r hs} \text{wt-tn}$
Translation: I will not descend into your cauldrons,

Notes:
Visible for de Buck, only traces left of the O4 and G1 in my image.

Witness: L1NY
Transliteration: $nn \text{hs.y-i r whz.wt-tn}$
Translation: I will not descend into your cauldrons,

Witness: T3Be
Transliteration: $nn \text{hsz-i r whz.wt-sn}$
Translation: I will not descend into their cauldrons,

Witness: M57C
Transliteration: $nn \text{hsz-i r whz.w[t-tn]}$
Translation: I will not descend into your cauldrons,

Witness: M1NY
Transliteration: $nn \text{hz wh-hip pn r hs.w(t)-tn}$
Translation: this \textit{wh-hip} will not descend into your cauldrons,

Notes group:
Note that M1NY uses a nominal subject instead of a pronominal subject.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B9C,b, B3C, B1Y, B9C,a, Sq2C, Sq7Sq, T1Be, T2Be, M1Be), G2 (T1C,b, M4C, M54C, L1NY, T3Be, M57C, M1NY).
However, for the purpose of analysis, the two groups should be considered to be the same.

Spell: 335
Phrase: 4 306 a

Witness: Sq7Sq
Transliteration: [iw=i m šms(.w)] n nb (i)ḥ.wt [r] sš n hpr.w
Translation: I am in the following of the lord of things in order to write for those who will come to be.

Witness: T1Be
Transliteration: iw-i m šms.w n nb (i)ḥ.w[t] r sš n hpr.w
Translation: I am in the following of the lord of things in order to write for the ones who will come to be.

Notes: Due to the Z1, it would be possible to read sš mdšt as well.

Witness: M1NY
Transliteration: ḫr-nṯt {t}wi m šms(w) n nb (i)ḥ.wt r sš n hpr.yw
Translation: Because I am in the following of the lord of things in order to write for the ones who will come to be.

Notes: Due to the Z1, it would be possible to read sš mdšt as well.
### Group 3:

*Circumstantial* ṣḏm. n-f (ḵw=ḏ ṣḏm. n-f), *Lemma* šms (first position)

**Lemma:** šms (to follow)

**Morphology 1:** ṣḏm. n-f

**Morphology 2:** circumstantial

**Morphology 3:** ṣḏm.n-f =f

**Syntax:** iḫ=ḏ ṣDm.n-f

**Subject:** Nominal subject

**Witness:** M4C

**Transliteration:**

> iw šms.n nb+i (i)ḫ.wt r š n ḫpr.w

**Translation:**

My lord followed the things in order to write for the ones who will come to be.

---

### Group 4:

*Prospective active participle (masculine plural), Lemma* ḫpr (first position)

**Lemma:** ḫpr (to become)

**Morphology 1:** participle

**Morphology 2:** prospective active

**Morphology 3:** masculine plural

**Syntax:**

**Subject:**

**Witness:** T3Be

**Transliteration:**

> iw=ḏ m ṣḏs.w nb (i)ḫ.wt r ḫ.pr.w

**Translation:**

I am in the following of the lord of things, at the houses of those who will come to be.

---

### Group 5:

*Prospective active participle (masculine plural), Lemma* ḫpr (second position)

**Lemma:** ḫpr (to become)

**Morphology 1:** participle

**Morphology 2:** prospective active

**Morphology 3:** masculine plural

**Syntax:**

**Subject:**

**Witness:** B9C,b

**Transliteration:**

> iw=ḏ m ṣḏs(.w) n nb psḏ.t šš n ḫ(pr).w

**Translation:**

I am in the following of the lord of the Ennead, who writes for those who will come to be.

**Notes:**

Note that the D21 most likely needs to be added, the Z2 is not visible.
Witness: T1C,b
Transliteration: iw-i m šms.w n nb (i)ḫ.wt r ss n ḫpr.w
Translation: I am in the following of the lord of things in order to write for those who will come to be.

Witness: B1Y
Transliteration: iw-i m šms(w) [n] nb (i)ḫ.wt ss [n] ḫpr.w
Translation: I am in the following of the lord of things, who writes for those who will come to be.

Witness: Sq2C
Transliteration: [iw=i m Sms(w) n nb (i)x.wt sS n] xpr.w
Translation: I am in the following of the lord of things, in order to write for those who will come to be.
Notes: Only traces left of the G43, the rest is visible.

Witness: M54C
Transliteration: ḫr-nht wi m šms(w) n nb (i)ḫ.wt r ss n ḫpr.w
Translation: Because I am in the following of the lord of things in order to write for the ones who will come to be.
Notes: Only traces left of the G43, the Z2 is not visible.

Witness: T1Be
Transliteration: iw-i m šms.w n nb (i)ḫ.wt r ss n ḫpr.yw
Translation: I am in the following of the lord of the thing in order to write for the ones who will come to be.

Witness: M1NY
Transliteration: ḫr-nht {t}wi m šms(w) n nb (i)ḫ.wt r sS n ḫpr.yw
Translation: Because I am in the following of the lord of things in order to write for the ones who will come to be.

Group 6: Infinitive (status absolutus), Lemma sš (second position)
Lemma: sš (to write)
Morphology 1: infinitive  Morphology 2: status absolutus  Morphology 3:  Syntax: Subject:
My lord followed the things in order to write for the ones who will come to be.

**Group 7:** Prospective active participle (masculine plural), Lemma hpr (third position)

**Lemma:** hpr (to become)

**Morphology 1:** participle  
**Morphology 2:** prospective active  
**Morphology 3:** masculine plural  

**Translation:**
My lord followed the things in order to write for the ones who will come to be.

**Notes phrase:**
In this phrase, the following pattern variations occur: G1+G5 (B9C,b, B1Y), G2+G5 (B3C, T1C,b, Sq2C, Sq7Sq, M54C, T1Be, T2Be, M1NY), G3+G6+G7 (M4C), G4 (T3Be, M1Be).

**Spell:**  
**Phrase:** 4 310 b

**Group 1:** Prospective sdm-f (Main clause), Lemma ūḫi

**Lemma:** ūḫi (to fly)

**Morphology 1:** sdm-f  
**Morphology 2:** prospective  

**Translation:**
I will fly as a falcon,

**Translation:**
This sstḥd-ḥtp will fly as a falcon,
Witness: T1C,b
Transliteration:
ʼh.y•i m bik
Translation:
I will fly as a falcon,

Witness: B1Y
Transliteration:
ʼh•i m bi[k]
Translation:
I will fly as a falcon,

Witness: Sq2C
Transliteration:
[ʼh.y•i m bik]
Translation:
I will fly as a falcon,

Witness: M54C
Transliteration:
[ʼh•i m bik]
Translation:
I will fly as a falcon,

Witness: T1Be
Transliteration:
ʼh.y•i m bi[k]
Translation:
I will fly as a falcon,

Witness: T2Be
Transliteration:
ʼh.y•i mi bi[k]
Translation:
I will fly like a falcon,

Witness: T3Be
Transliteration:
ʼh.y•i m bik
Translation:
I will fly as a falcon,

Witness: M1NY
Transliteration:
ʼh.y ṭp pn m bik
Translation:
This ṭpt will fly as a falcon,

Witness: M1Be
Transliteration:
ʼh.y•i m bik
Translation:
I will fly like a falcon,

Notes group:
Note that B3C and M1NY use a nominal subject instead of a pronominal subject.
Group 2: Prospective active participle (masculine singular), Lemma "hi
Lemma: "hi (to fly)
Morphology 1: participle
Morphology 2: prospective active
Morphology 3: masculine singular
Syntax: Subject:
Witness: M4C
Transliteration: "hi m bik
Translation: The one who will fly as a falcon,

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B9C,b, B3C, T1C,b, B1Y, Sq2C, M54C, T1Be, T2Be, T3Be, M1NY, M1Be), G2 (M4C).

Spell: Phrase: 335 4 311 a

Group 1: Perfective active participle (masculine singular), Lemma ngg
Lemma: ngg (to cackle)
Morphology 1: participle
Morphology 2: perfective active
Morphology 3: masculine singular
Syntax: Subject:
Witness: B9C,b
Transliteration: ngg m smn
Translation: who cackled as a goose,

Group 2: Prospective sdm-f (Main clause), Lemma ngg
Lemma: ngg (to cackle)
Morphology 1: sdm-f
Morphology 2: prospective
Morphology 3: Main clause
Syntax: Subject:
Witness: Nominal subject
Witness: B3C
Transliteration: ng ss.t-hq-htp m m smn
Translation: this ss.t-hq-htp will cackle as a goose,

Witness: B1Y
Transliteration: [ng-i] m [smn]
Translation: I will cackle as a goose,

Witness: M54C
Transliteration: [ng-i] m smn
Translation: I will cackle as a goose,

Witness: T3Be
Transliteration: ngi-i m smn.w
Translation: I will cackle as geese,

Witness: M1Be
Transliteration: ng-i m smn
Translation: I will cackle as a goose,

Notes group:
Note that B3C uses a nominal subject instead of a pronominal subject.
Group 3: Imperfective active participle (masculine singular), Lemma nγγ

Lemma: nγγ (to cackle)

Morphology 1: participle
Morphology 2: imperfective active
Morphology 3: masculine singular

Syntax: Subject:

Witness: M4C

Transliteration: nγγ m smn

Translation: who cackles as a goose,

Notes: Only the A2 is visible. Due to the size of the lacuna, reading two W11 signs seems most likely.

Notes phrase: In this phrase, the following pattern variations occur: G1 (B9C,b), G2 (B3C, T1C,b, B1Y, Sq2C, M54C, T1Be, T3Be, M1NY, M1Be), G3 (M4C), G4 (T2Be).

Group 4: Circumstantial sδm-f (Temporal clause), Lemma nγγ

Lemma: nγγ (to cackle)

Morphology 1: sδm-f
Morphology 2: circumstantial
Morphology 3: Temporal clause

Syntax: Subject: Pronominal subject

Witness: T2Be

Transliteration: [nγγ-i mi smn]

Translation: while I cackle like a goose,

Notes: Only the A2 is visible. Due to the size of the lacuna, reading two W11 signs seems most likely.

Spell: 335  Phrase: 4 311 b

Group 1: Prospective sδm-f (Main clause), Lemma ski

Lemma: ski (to pass time)

Morphology 1: sδm-f
Morphology 2: prospective
Morphology 3: Main clause

Syntax: Subject: Pronominal subject
**Witness:** B9C,b
**Transliteration:**
`sk. y= i nhḥ mỉ nhḥ-ka.w`
**Translation:**
I will pass eternity like Nehebkau.

**Witness:** B3C
**Transliteration:**
`sk. y ss. t-hd-htp tn nhḥ mỉ nhḥ-ka.w`
**Translation:**
this `ss. t-hd-htp` will pass eternity like Nehebkau.

**Witness:** B1Y
**Transliteration:**
`[sk. y] i nhḥ mỉ nhḥ-ka.w`
**Translation:**
I will pass eternity like Nehebkau.

**Notes:**
Only the V31A and M17*M17 group is visible.

**Witness:** Sq2C
**Transliteration:**
`[sk. y= i nhḥ] mỉ nhḥ[b-ka.w]`
**Translation:**
I will pass eternity like Nehebkau.

**Witness:** M54C
**Transliteration:**
`sk= i nhḥ mỉ nhḥ-ka.w`
**Translation:**
I will pass eternity like Nehebkau.

**Witness:** T1Be
**Transliteration:**
`sk= i nhḥ mỉ nhḥ-ka.w`
**Translation:**
I will pass eternity like Nehebkau.

**Witness:** T2Be
**Transliteration:**
`sk. y[-i] nhḥ mỉ nhḥ-ka.w`
**Translation:**
I will pass eternity like Nehebkau.

**Witness:** T3Be
**Transliteration:**
`sk= i nhḥ mỉ nhḥ-ka.w`
**Translation:**
I will pass eternity like Nehebkau.

**Witness:** M1NY
**Transliteration:**
`sk. y wsr ḥḥp pn nhḥ mỉ nhḥ-ka(.w)`
**Translation:**
the Osiris, this `ḥḥp`, will pass eternity like Nehebkau.
Witness: M1Be
Transliteration: sk.y-i nḫḫ mi nḥḥ-bk3.w
Translation: I will pass eternity like Nehebkau.

Notes group:
Note that B3C and M1NY use a nominal subject instead of a pronominal subject.

Group 2: Prospective active participle (masculine singular), Lemma ski
Lemma: ski (to pass time)
Morphology 1: participle Morphology 2: prospective active Morphology 3: masculine singular Syntax: Subject:

Witness: M4C
Transliteration: sk.y nḥḥ mi nḥḥ-bk3.w
Translation: who will pass eternity like Nehebkau.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B9C,b, B3C, T1C,b, B1Y, Sq2C, M54C, T1Be, T2Be, T3Be, M1NY, M1Be), G2 (M4C).

Spell: 335  Phrase: 4 312  c

Group 1: Imperfective active participle (masculine singular), Lemma ʿnh
Lemma: ʿnh (to live)
Morphology 1: participle Morphology 2: imperfective active Morphology 3: masculine singular Syntax: Subject:

Witness: B3C
Transliteration: ʿnh m ḫr.yt
Translation: who lives in butchery,
Witness: B1Y
Transliteration: 'nh m hr.yt
Translation: who lives in butchery,

Witness: Sq2C
Transliteration: ['nh m hr].yt
Translation: who lives in butchery,

Witness: M4C
Transliteration: 'nh m hr.yt
Translation: who lives in butchery,

Witness: M54C
Transliteration: 'nh m hr.yt
Translation: who lives the people,

Notes:
Only traces left of the N35, the rest is visible.

Witness: M1Be
Transliteration: 'nh m hr.yt
Translation: who lives in butchery,

Group 2: Imperfective active participle (masculine singular), Lemma anx

Lemma: 'nh (to swear)

Morphology 1: participle
Morphology 2: imperfective active
Morphology 3: masculine singular

Subject:

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B3C, T1C,b, B1Y, Sq2C, M4C, M54C, M1Be), G2 (M1NY).
Group 1: Imperfective active participle (masculine singular), Lemma wdi

Lemma: wdi (to place)

Morphology 1: participle
Morphology 2: imperfective active
Morphology 3: masculine singular

Syntax: Subject:

Witness: B3C
Transliteration: wddṣṭṣ. w
Translation: who places wounds,

Witness: Sq2C
Transliteration: [wddṣṭṣ. w]
Translation: who places wounds,

Witness: T1C,b
Transliteration: wddṣṭṣ
Translation: who places the wound,

Notes:
Only the D36 is visible.

Group 2: Imperfective active participle (masculine singular), Lemma wdi

Lemma: wdi (to send)

Morphology 1: participle
Morphology 2: imperfective active
Morphology 3: masculine singular

Syntax: Subject:

Witness: M54C
Transliteration: [wddṣṭṣ]
Translation: who places the wound,

Notes:
Only traces left of the G43 due to a crack in the wood.
**Witness:** B1Y  
**Transliteration:** \( w\dd \{f\} <d> \ s[l^s.w] \)  
**Translation:** who sends wounds,

**Witness:** M4C  
**Transliteration:** \( w\dd \ skr \)  
**Translation:** who sends injury,

**Notes:** The G37 is not visible.

**Witness:** T2Be  
**Transliteration:** \( w\dd \ stz.w [m \ tp-f] \)  
**Translation:** who sends wounds on his head,

**Notes:** Only traces left of the G43, the rest is visible.

**Notes phrase:** *In this phrase, the following pattern variations occur: G1 (B3C, T1C,b, Sq2C, M54C, T1Be, M1NY), G2 (B1Y, M4C, T2Be, M1Be).*

**Spell:** 335  
**Phrase:** 4 314 e

**Notes phrase:**

In this phrase, the following pattern variations occur: G1 (T1C,b), G2+G3 (Sq2C, T1Be).

**Spell:** 335

**Phrase:** 4 321 f

---

**Group 1:** Relative s\(\text{d}m\).n-f, Lemma rdi

*Lemma:* rdi (to give, to place)

*Morphology 1:* s\(\text{d}m\).n-f *Morphology 2:* relative

**Syntax:**

**Subject:** Nominal subject

**Witness:** B3C

**Transliteration:**

\[rdi\,n\,n-s"m\,n\,b\,r-d\,r\,sh(w)\]

**Translation:**

to whom the lord of all gave power,

**Notes:**

The hand of the D37 is damaged, the N35 is not visible.

**Witness:** T2Be

**Transliteration:**

\[rdi\,n\,n-s"m\,n\,b\,r-d\,r\,sh(w)\]

**Translation:**

to whom the lord of all gave power,

**Notes:**

**Witness:** M1NY

**Transliteration:**

\[rdi\,n\,n\,b\,r-d\,r\,sh(w)\,f\]

**Translation:**

whose power was given to the lord of all,
Group 2: Circumstantial sdm.n-f (Temporal clause), Lemma rdi

Lemma: rdi (to give, to place)

Morphology 1: sdm.n-f
Morphology 2: circumstantial
Morphology 3: Temporal clause
Syntax: Pronominal subject

Witness: T1C,b

Transliteration: rdi.n=sn nb r-qr sh(w)

Translation: after they gave power to the lord of all,

Group 3: Imperfective relative sdm=f, Lemma ʾnn

Lemma: ʾnn (to turn back)

Morphology 1: sdm=f
Morphology 2: Imperfective relative
Morphology 3: Nominal subject
Syntax: Subject:

Witness: T1Be

Transliteration: ʾnn=sn nb r-qr dw.t shw

Translation: for whom the lord of all turns back evil and power,

Notes:
Uncertain, as there is no gemination of the N35, which should occur with 2-gem. It is possible this should be read as di.n instead.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B3C, B1Y, T2Be, M1NY), G2 (T1C,b), G3 (T1Be).

Spell: 335 Phrase: 4 322 a
**Witness:** B3C  
Transliteration:  
\( r \, \text{ir.t} \, ss \, wt \, hft.yw=f \)  
Translation:  
in order to watch over his enemies,

**Witness:** B1Y  
Transliteration:  
\( r \, \text{ir.(t)} \, ss \, wt \, h[f][r(.y)w=f] \)  
Translation:  
in order to watch over his enemies,

**Notes:**  
The X1 is not visible, and there is barely any space for it.

**Witness:** T1Be  
Transliteration:  
\( r \, \text{ir.t} \, ss \, hft.yw \)  
Translation:  
in order to do watching over enemies,

**Witness:** T2Be  
Transliteration:  
\( r \, \text{ir.t} \, ss \, wt \, sby.yw \)  
Translation:  
in order to watch over the rebels,

**Witness:** M1NY  
Transliteration:  
\( r \, \text{ir.t} \, ss \, (w)t \, hft.yw=f \)  
Translation:  
in order to watch over his enemies,

**Group 2:** Imperfective active participle (masculine plural), Lemma \textit{iri}  

**Lemma:** \textit{iri} (to do, to make)  

**Morphology 1:** participle  
**Morphology 2:** imperfective active  
**Morphology 3:** masculine plural  
**Syntax:**  
**Subject:**

**Witness:** T1C,b  
Transliteration:  
\( \text{irr.w} \, ss \, wt \, r \, hft.yw=f \)  
Translation:  
those who do guard duty against his enemies,

**Notes phrase:**  
In this phrase, the following pattern variations occur: G1 (B3C, B1Y, T1Be, T2Be, M1NY), G2 (T1C,b).
Group 1: Subjunctive $sdm$-$f$ (Negation), Lemma $\text{hr}$
- **Lemma:** $\text{hr}$ (to fall)
- **Morphology 1:** $sdm$-$f$
- **Morphology 2:** subjunctive
- **Morphology 3:**
- **Syntax:** Negation
- **Subject:** Pronominal subject

**Witness:** T1C,b
**Transliteration:**
$nn\ hr\ i\ \text{n}\ ds.w\text{-}\text{tn}$
**Translation:**
I will not fall to your knives,

**Notes:**
Note that M1NY uses a nominal subject instead of a pronominal subject.

Group 2: Prospective $sdm$-$f$ (Negation), Lemma $\text{hbw}$
- **Lemma:** $\text{hbw}$ (to plough)
- **Morphology 1:** $sdm$-$f$
- **Morphology 2:** prospective
- **Morphology 3:**
- **Syntax:** Negation
- **Subject:** Nominal subject

**Witness:** B1Y
**Transliteration:**
$[n\ \text{hb}\\ \text{ds}[.w]-s[n]\ \text{im}-i$
**Translation:**
Their knives will not plough into me,

**Notes:**
Only traces left of the D58, the rest is lost.

**Witness:** T1Be
**Transliteration:**
$[n\ \text{hb}\ \text{ds}.w]-s[n]\ \text{im}-i$
**Translation:**
Their knives will not plough into me,
Notes phrase:
In this phrase, the following pattern variations occur: G1 (T1C,b, M1NY), G2 (B1Y, T1Be, T2Be).

Spell: 
Phrase: 

Group 1: Prospective $sdm$-f (Negation), Lemma "k
Lemma: "k (to enter)
Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:
$sdm$-f prospective Negation Pronominal subject

Witness: B3C
Transliteration: n "k ss.t-hd-hip in r istsw.w+sn
Translation: This $ss.t$-hdp will not enter into their places of judgment,
Notes group:
Note that B3C uses a nominal subject instead of a pronominal subject.

Group 2: Subjunctive $sdm$-f (Negation), Lemma "k
Lemma: "k (to enter)
Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:
$sdm$-f subjunctive Negation Pronominal subject

Witness: T1C,b
Transliteration: nn "k-i ir istsw.w+tn
Translation: I will not enter into your places of judgment,
Notes:
Only traces left of the N29*D54 group, the D36 was not seen.
Witness: T2Be
Transliteration: nn ّ[ـ] r ıst.tıyw•sn
Translation: I will not enter into their places of judgment,

Notes phrase: In this phrase, the following pattern variations occur: G1 (B3C, B1Y), G2 (T1C, b, T1Be, T2Be, M1NY). However, for the purpose of analysis, the two groups should be considered to be the same.

Spell: 335 Phrase: 4 323 d

Group 1: Prospective ȝd•f (Negation), Lemma ḥsi
Lemma: ḥsi (to descend)
Morphology 1: ȝd•f prospective
Morphology 2: ȝd•f
Morphology 3: ȝd•f
Syntax: Negation
Subject: Pronominal subject

Witness: B3C
Transliteration: n ḥṣ.ẅ sȝ.t¬hd•htp tn r ṭḥṣ.ẃt•sn
Translation: this sȝ.t¬hd•htp will not descend into their cauldrons,

Notes group: Note that B3C uses a nominal subject instead of a pronominal subject.

Witness: M1NY
Transliteration: nn ّ[ـ] r ıst.tıyw•tn
Translation: he will not enter into your places of judgment,

Notes: The O4 is not visible, and there are only traces left of the G1.
**Group 2:** Subjunctive $sdm$-f (Negation), Lemma $hsi$

**Lemma:** $hsi$ (to descend)

**Morphology 1:** $sdm$-f

**Morphology 2:** subjunctive

**Morphology 3:**

**Syntax:** Negation

**Subject:** Pronominal subject

**Witness:** T1C,b

**Transliteration:**

\[ nn \, hA.y \, =i \, r \, -Xnw \, Had.w=sn \]

**Translation:** I will not descend within your traps,

**Witness:** T2Be

**Transliteration:**

\[ nn \, hA \, =i \, r \, nm.wt=sn \]

**Translation:** I will not descend into their places of slaughter,

**Witness:** M1NY

**Transliteration:**

\[ nn \, hA.wx \, -Htp \, pn \, r \, hA.d.w=tn \]

**Translation:** this $wx$-Htp will not descend into your traps,

**Notes group:**

Note that M1NY uses a nominal subject instead of a pronominal subject.

**Notes phrase:**

In this phrase, the following pattern variations occur: G1 (B3C, B1Y, T1Be), G2 (T1C,b, T2Be, M1NY).

However, for the purpose of analysis, the two groups should be considered to be the same.

**Spell:** 335  **Phrase:** 4 324 a

**Group 1:** Prospective $sdm$-f (Negation), Lemma $hmsi$

**Lemma:** $hmsi$ (to sit)

**Morphology 1:** $sdm$-f

**Morphology 2:** prospective

**Morphology 3:**

**Syntax:** Negation

**Subject:** Pronominal subject

**Witness:** B3C

**Transliteration:**

\[ n \, hms.w \, ss.t-hd-htp \, m-\lnw \, h^d.w=sn \]

**Translation:** this ss.t-hd-htp will not sit within their traps,

**Witness:** B1Y

**Transliteration:**

\[ n \, hmsi-i \, m[-\lnw \, h^d.w[=sn] \]

**Translation:** I will not sit within their traps,

2900
Witness: T1Be  
Transliteration: 
\( n \ hms-i \ m-hmw \ h\delta[d.w-sn] \)  
Translation: 
I will not sit within their traps,

Notes group: 
Note that B3C uses a nominal subject instead of a pronominal subject.

Group 2: Subjunctive \( sd\text{-}m-f \) (Negation), Lemma \( hmsi \)  
Lemma: \( hmsi \) (to sit)  
Morphology 1: \( sd\text{-}m-f \)  
Morphology 2: Subjunctive  
Morphology 3: Negation  
Syntax:  
Subject: Pronominal subject  
Witness: T2Be  
Transliteration: 
\( nn \ hms-i \ hr mw n \ h\delta[d.w-sn] \)  
Translation: 
I will not sit upon the water of their traps,

Notes phrase: 
In this phrase, the following pattern variations occur: G1 (B3C, B1Y, T1Be), G2 (T2Be).  
However, for the purpose of analysis, the two groups should be considered to be the same.

Spell: 335  Phrase: 4 324 b

Translation: If this sky comes as the north wind

Witness: M22C
Transliteration: ir īwi [p.t t]n m ṹhy.t
Translation: If this sky comes as the north wind

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B1Bo,a), G2 (B1Bo,b, S1C, S2C, G1T, A1C, BH3Ox, B4C, B2Bo, B4Bo, M22C).

Spell: 355 Phrase: 5 4 a

Group 1: Prospective sdm-f (Conditional), Lemma Ṣmsi
Lemma: Ṣmsi (to sit)
Morphology 1: sdm-f
Morphology 2: prospective
Morphology 3: Syntax: Conditional Subject: Pronominal subject

Witness: B1Bo,a
Transliteration: Ṣms dhwy-t-nḫt pn ḫl ṛṣy s(w)
Translation: then this dhwy-t-nḫt will sit to the south of it.

Witness: B1Bo,b
Transliteration: Ṣms dhwy-t-nḫt pn ḫl ṛṣy s(w)
Translation: then this dhwy-t-nḫt will sit to the south of it.
Witness: S1C
Transliteration: 
\textit{hms\,i} \textit{<m> rsy s(w)}
Translation: 
then I will sit to the south of it.

Witness: S2C
Transliteration: 
\textit{hms\,[i hr] rsy s(w)}
Translation: 
then I will sit upon the south of it.

Witness: A1C
Transliteration: 
\textit{hms\,i m rsy s(w)}
Translation: 
then I will sit in the south of it.

Witness: BH3Ox
Transliteration: 
\textit{hms\,-f hr rsy s(w)}
Translation: 
then he will sit to the south of it.

Witness: B4C
Transliteration: 
\textit{hms\,w ss\,t-hd-hpt tn m rsy s(w)}
Translation: 
then this \textit{ss\,t-hd-hpt} will sit in the south of it.

Witness: B2Bo
Transliteration: 
\textit{hms <i> hr rsy s(w)}
Translation: 
then I will sit to the south of it.

Witness: M22C
Transliteration: 
\textit{hms\,[i m rsy s(w)]}
Translation: 
then I will sit to the south of it

Notes group:
Note that B1Bo,a-b, B4C and B4Bo use a nominal subject instead of a pronominal subject.

Group 2: Nominal \textit{s\,t.m.n-f (Emphatic use)}, Lemma \textit{hmsi}
\textbf{Lemma:} \textit{hmsi} (to sit)
\textbf{Morphology 1:} \textit{s\,t.m.n-f} \textbf{Morphology 2:} nominal \textbf{Morphology 3:} Emphatic use
\textbf{Syntax:} Pronominal subject
Witness: G1T
Transliteration: hms.n-i hr rsy s(w)
Translation: I sat even upon the south of it.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B1Bo,a, B1Bo,b, S1C, S2C, A1C, BH3Ox, B4C, B2Bo, B4Bo, M22C), G2 (G1T).

Spell: 355 Phrase: 5 4 b

Group 1: Subjunctive sdm-f (Conditional), Lemma iwi
Lemma: iwi (to come)
Morphology 1: subjunctive Morphology 2: Morphology 3: Syntax: Subject: Conditional Nominal subject
Witness: B1Bo,a
Transliteration: ir iwi.t p.t tn m rsw
Translation: If this sky comes as the south wind
Notes: Could theoretically be a sdm.1-f.

Group 2: Prospective sdm-f (Conditional), Lemma iwi
Lemma: iwi (to come)
Morphology 1: prospective Morphology 2: Morphology 3: Syntax: Subject: Conditional Nominal subject
Witness: S1C
Transliteration: ir iwi p.t tn m rsw
Translation: If this sky comes as the south wind
Notes: If this sky comes as the south wind
Witness: A1C
Transliteration: ir ʿiwî p.t tn m rsw
Translation: If this sky comes as the south wind

Witness: BH3Ox
Transliteration: ir ʿiwî p.t tn m [rsw]
Translation: If this sky comes as the south wind

Witness: B4C
Transliteration: ir ʿiwî p.t m rsw
Translation: If the sky comes as the south wind

Witness: B2Bo
Transliteration: ir ʿiwî p.t tn m rsw
Translation: If this sky comes as the south wind

Witness: B4Bo
Transliteration: ir ʿiwî p.t tn m rsw
Translation: If this sky comes as the south wind

Notes phrase: In this phrase, the following pattern variations occur: G1 (B1Bo,a), G2 (S1C, G1T, A1C, BH3Ox, B4C, B2Bo, B4Bo).

Spell: 355 Phrase: 5 4 c

Group 1: Prospective sḏm-f (Conditional), Lemma ḥmsi
Lemma: ḥmsi (to sit)
Morphology 1: sḏm-f prospective Morphology 2: Morphology 3: Syntax: Subject:
Conditional Pronominal subject

Witness: B1Bo,a
Transliteration: ḥms ḥwty-nḥt pn ḫr rsy s(w)
Translation: then this ḥwty-nḥt will sit to the south of it.

Witness: S1C
Transliteration: ḥms-i m mh.t s(w)
Translation: then I will sit in the north of it.
Witness: A1C
Transliteration: 
\textit{hms\textasciitilde i} m mh.t
Translation: 
then I will sit in the north.

Witness: BH3Ox
Transliteration: 
\textit{[hms\textasciitilde f]} hr mh.t s(w)
Translation: 
then he will sit upon the north of it.

Witness: B4C
Transliteration: 
\textit{hms\textasciitilde w ss.t-hd-htp} [tn m mh.t s(w)]
Translation: 
then this \textit{ss.t-hd-htp} will sit in the north of it.

Witness: B2Bo
Transliteration: 
\textit{hms\textasciitilde i} hr mh.t s(w)
Translation: 
then I will sit to the north of it

Witness: B4Bo
Transliteration: 
\textit{hms\textasciitilde w} sA.t-\textit{HD-Htp} [tn m mh.t s(w)]
Translation: 
then this \textit{sA.t-\textit{HD-Htp}} will sit in the north of it.

Notes group:
Note that B1Bo,a, B4C and B4Bo use a nominal subject instead of a pronominal subject.

Group 2: Nominal s\textit{dm. n-f} (Emphatic use), Lemma \textit{hmsi}

Lemma: \textit{hmsi} (to sit)

Morphology 1: Morphology 2: Morphology 3: Syntax: Subject:
\textit{s\textit{dm. n-f}} nominal Emphatic use Pronominal subject

Witness: G1T
Transliteration: 
\textit{hms.n < i>} hr mh.t s(w)
Translation: 
I sat even upon the north of it.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B1Bo,a, S1C, A1C, BH3Ox, B4C, B2Bo, B4Bo), G2 (G1T).
Group 1: Subjunctive $sdm\cdot f$ (Conditional), Lemma $iwi$

**Lemma:** $iwi$ (to come)

**Morphology 1:** $sdm\cdot f$

**Morphology 2:** Subjunctive

**Morphology 3:**

**Syntax:** Conditional

**Subject:** Nominal subject

Translation:

then I will sit upon the west of it.

Witness: M22C

Transliteration:

$[\hat{hms}^i \ hr]$ inn. t $s(w)$

Translation:

then I will sit upon the west of it.

Notes group:

Note that B1Bo,a and B4Bo use a nominal subject instead of a pronominal subject.
Group 2: Nominal sdm. n-f (Emphatic use), Lemma ḫmsi
Lemma: ḫmsi (to sit)
Morphology 1: sdm. n-f
Morphology 2: nominal
Morphology 3:
Syntax: Emphatic use
Subject: Pronominal subject
Witness: G1T
Transliteration: ḫms.i = ḫ rm.m t s(w)
Translation: I sat even upon the west of it.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (B1Bo,a, S1C, S2C, A1C, BH3Ox, B2Bo, B4Bo, M22C), G2 (G1T).

Spell: 355 Phrase: 5 7 a

Group 1: Infinitive (status constructus), Lemma ith
Lemma: ith (to pull)
Morphology 1: infinitive
Morphology 2: status constructus
Morphology 3:
Syntax:
Subject:
Witness: B1Bo,a
Transliteration: ith im.m fiqḍ
Translation: Pulling the skin from the nose

Witness: B1Bo,b
Transliteration: ith im.m šr.t-k
Translation: pulling the skin from your nose

Witness: B2Bo
Transliteration: ith im.m šr.t
Translation: Pulling the skin from the nose,

Witness: B4Bo
Transliteration: ith im.m šr.t
Translation: Pulling the skin from the nose,
Witness: M22C
Transliteration: [ith in]m m šr.t
Translation: Pulling the skin from the nose,

Group 2: Nominal sdm.n-f (Emphatic use), Lemma ith
Lemma: ith (to pull)
Morphology 1: sdm.n-f
Morphology 2: nominal
Morphology 3: Syntax: Emphatic use Subject: Pronominal subject

Witness: S1C
Transliteration: ith.n=i inm m šr.t-i
Translation: I have pulled the skin even from my nose
Notes: The N35 is not visible.

Group 3: Imperfective passive participle (masculine singular), Lemma wb3
Lemma: wb3 (to open)
Morphology 1: participle
Morphology 2: imperfective passive
Morphology 3: masculine singular
Syntax: Subject:

Witness: G1T
Transliteration: šnt wb3 inm šr.t
Translation: The face (is that) which is opened of the skin of the nostril,

Group 4: Stative (1st person singular), Lemma wbA
Lemma: wbA (to open)
Morphology 1: Stative
Morphology 2: 1st person singular
Morphology 3: Syntax: Subject:
Witness: A1C
Transliteration: ḫnt ḫb.f.k(wl) (i)nm šr.t-i
Translation: The face, I am clearing of the skin of my nostril,
Notes: Could be read as a relative sḏm-f (wbz-k: the face which you opened of the skin of my nostril)

Group 5: Nominal sḏm-f (Emphatic use), Lemma ḫlh
Lemma: ḫlh (to pull)
Morphology 1: Nominal
Morphology 2: Emphatic use
Morphology 3: Nominal subject
Syntax: Nominal subject

Witness: BH3Ox
Transliteration: [ḥlh] ḫn.w (i)nm <m> šr.t
Translation: The colour and skin is pulled even <from> the nostril,
Notes phrase: In this phrase, the following pattern variations occur: G1 (B1Bo,a-b, B2Bo, B4Bo, M22C), G2 (S1-2C), G3 (G1T), G4 (A1C), G5 (BH3Ox).

Spell: 355 Phrase: 5 7 b

Group 1: Imperfective relative sḏm-f, Lemma wbz (first position)
Lemma: wbz (to open)
Morphology 1: Imperfective relative
Morphology 2: Imperfective relative
Morphology 3: Nominal subject
Syntax: Nominal subject

Witness: B1Bo,a
Transliteration: wbz ḫw ir bw mry ḫwty-nḥṭ pn ḫms-f im
Translation: which the wind opens at the place which this ḫwty-nḥṭ will love, in which he will sit.
Group 2: Prospective relative  $s\text{dm}=f$, Lemma mri (first position)

Lemma: mri (to love)
Morphology 1: $s\text{dm}=f$
Morphology 2: prospective relative
Morphology 3: 
Syntax: Subject: Nominal subject

Witness: B1Bo,b
Transliteration: $\text{ir bw nb mry}\text{ d}\text{hwty-nht pn hms}.y=f \text{ im}$
Translation: to every place which this $\text{d}\text{hwty-nht}$ will love, in which he will sit.

Notes group:
Note that G1T uses a pronominal subject instead of a nominal subject.

Group 3: Imperfective passive participle (feminine singular), Lemma wb$z$ (first position)

Lemma: wb$z$ (to open)
Morphology 1: participle
Morphology 2: imperfective passive
Morphology 3: feminine singular
Syntax: Subject:

Witness: S1C
Transliteration: $\text{wb}\text{z} \text{ ir bw mry}\text{-i hms-i im}$
Translation: which is opened at the place which I will love, in which I will sit.

Witness: S2C
Transliteration: $[\text{wb}\text{z}]\text{ ir bw [m]ry}\text{-i hms-i im}$
Translation: which is opened at the place which I will love, in which I will sit.

Witness: BH3Ox
Transliteration: $\text{wb}\text{z} \text{ ir bw mry hnm-hpi pn hms-f im}$
Translation: which is opened at the place which this $\text{hnm-hpi}$ will love, in which he will sit.

Witness: B2Bo
Transliteration: $\text{wb}\text{z}\text{ r bw mry hms-i im}$
Translation: which is opened at the place which is loved, in which I will sit.
which is opened at the place which is loved, in which this $dhwty$-$nh$ will sit.

Group 2: Perfective active participle (masculine singular), Lemma ini (first position)

Translation:
who brings Horus to his eye, Seth to his testicles,

Group 3: Imperfective active participle (masculine singular), Lemma ini (second position)

Translation:
who brings Horus to this eye, who brings Seth to his testicles,
Group 1: Imperfective relative sdm-f, Lemma ini

Lemma: ini (to bring)

Morphology 1: sdm-f
Morphology 2: Imperfective relative

Syntax: Subject: Pronominal subject

Witness: G1T
Transliteration: i mḥn. ty pn inni
Translation: O, this ferryman, (through) who I am brought

Witness: G2T
Transliteration: i mḥn. ty pn inni
Translation: O, this ferryman, (through) who I am brought

Witness: A1C
Transliteration: i mḥn. ty pn inni
Translation: O, this ferryman, (through) who I am brought

Witness: T3L
Transliteration: i mḥn. ty pn inni
Translation: O, this ferryman, (through) who I am brought

Witness: M1Be
Transliteration: [i mḥn. ty p[n] inni[=i]
Translation: O, this ferryman, (through) who I am brought

Notes group:
Uncertain, might be in n-i instead, or a passive relative.

Group 2: Imperfective active participle (masculine singular), Lemma ini (first position)

Lemma: ini (to bring)

Morphology 1: participle
Morphology 2: imperfective active
Morphology 3: masculine singular

Syntax: Subject:

**Witness:** M3C  
**Transliteration:**  
i mḥn.ty in n-i nw  
**Translation:**  
O, ferryman, who brings these four

**Group 3:** Perfective active participle (masculine singular), Lemma ini  
**Lemma:** ini (to bring)

Morphology 3:
Syntax: Emphatic use
Subject: Pronominal subject

I have come even to you, your warrant.

Notes phrase:
In this phrase, the following pattern variations occur: G1 (G1T, G2T, T3L, M2NY, M5C, M4C), G2 (A1C).

Spell: 398 Phrase: 5 152 d-e

Group 1: Subjunctive sḏm-f (wish clause), Lemma imi (first position)

Lemma: imi (to not do)
Morphology 1: sḏm-f
Morphology 2: subjunctive
Morphology 3:
Syntax: Wish clause
Subject: Pronominal subject
May they not take these away, which they have given me upon the lake which the rushes cover.

May they not take these away, which they gave to me upon the lake which the rush covers.

May they not repel these, which they gave me upon the lake which the rush covers.

May they not take these away, which they gave to me upon the lake which the rush covers.

May they not take these away, which they gave to me upon the lake which the rushes cover.

Do not take them away, these which they gave to me upon the lake, which the rushes cover.

Do not take them away, these which they gave to me upon the lake, which the rushes cover.

Do not take them away, these which they gave to me upon the lake, which the one of Šsr of the rushes.
Group 3: Relative sḏm. n-f, Lemma rdi (second position)

Lemma: rdi (to give, to place)
Morphology 1: relative
Morphology 2: Morphology 3:

Witness: G1T
Transliteration: 
imšn ḥm nn rdi.n-sn wi tp š ršr isr.w
Translation: May they not take these away, which they have given me upon the lake which the rushes cover.

Witness: A1C
Transliteration: 
imšn ḥm nn rdi.n-sn wi tp š ršr isr
Translation: May they not repel these, which they gave me upon the lake which the rush covers.

Witness: M2NY
Transliteration: 
im nḥm sn nn rdi.n-sn n-i tp š śsr isr.w
Translation: Do not take them away, these which they gave to me upon the lake, which the rushes cover.

Witness: M4C
Transliteration: 
im nḥm sn nn rdi.n-sn wi tp š śsr isr.w
Translation: Do not take them away, these which they gave me upon the lake of the one of SAr of the rushes.

Witness: G2T
Transliteration: 
imšn ḥm nn rdi.n-sn n-i tp š ršr isr
Translation: May they not take these away, which they gave to me upon the lake which the rush covers.

Witness: T3L
Transliteration: 
imšn ḥm nn rdi.n-sn n-i tp š isr-sn isr.w
Translation: May they not take these away, which they gave to me upon the lake, while they drive the rushes away.

Witness: M5C
Transliteration: 
im nḥm sn nn rdi.n-sn n-i tp š śsr isr.w
Translation: Do not take them away, these which they gave to me upon the lake, which the rushes cover.
Group 4: Imperfective relative $sdm-f$, Lemma $rSr/Sr$ (third position)

**Lemma:** $rSr/Sr$ (to cover)

**Morphology 1:** Imperfective relative

**Syntax:** Nominal subject

**Witness:**

**Transliteration:**

1. $imi=sn$ $nHm$ $nn$ $rdi.n$-$sn$ $wi$ $tp$ $§$ $rSr$ $isr$.w
2. $im=sn$ $nHm$ $nn$ $rdi.n$-$sn$ $n-i$ $tp$ $§$ $rSr$ $isr$

**Translation:**

1. May they not take these away, which they have given me upon the lake which the rushes cover.
2. May they not take these away, which they gave to me upon the lake which the rush covers

**Witness:**

**Transliteration:**

1. $imi=sn$ $nHm$ $nn$ $rdi.n$-$sn$ $wi$ $tp$ $§$ $rSr$ $isr$.w
2. $im=sn$ $nHm$ $nn$ $rdi.n$-$sn$ $n-i$ $tp$ $§$ $rSr$ $isr$

**Translation:**

1. Do not take them away, these which they gave to me upon the lake, which the rushes cover.
2. Do not take them away, these which they gave to me upon the lake, which the rushes cover.

Group 5: Circumstantial $sdm-f$ (Temporal clause), Lemma $Sr$ (third position)

**Lemma:** $Sr$ (to drive away)

**Morphology 1:** Imperfective relative

**Syntax:** Temporal clause

**Witness:**

**Transliteration:**

1. $im$ $nHm$ $sn$ $nn$ $rdi.n$-$sn$ $n-i$ $tp$ $§$ $Sr$ $isr$.w
2. $im$ $nHm$ $sn$ $nn$ $rdi.n$-$sn$ $n-i$ $tp$ $§$ $Sr$ $isr$

**Translation:**

1. May they not take these away, which they gave to me upon the lake, while they drive the rushes away.
2. Do not take them away, these which they gave to me upon the lake, which the rushes cover.
In this phrase, the following pattern variations occur: G1+G3+G4 (G1-2T, A1C), G2+G3+G4 (M2NY, M5C), G1+G3+G5 (T3L), G2+G3 (M4C).

**Group 1:** Passive circumstantial *sdm*-f (None-initial main clause), Lemma *gmi* (first position)

- **Lemma:** *gmi* (to find)
- **Morphology 1:** *sdm*-f
- **Morphology 2:** circumstantial
- **Morphology 3:** passive
- **Syntax:** None-initial main clause
- **Subject:** Pronominal subject

**Witness:** G1T

Transliteration: *sfx.w ipw nTr.w gmi* sn *ks.w*

Translation: These seven gods, they are found bowing down,

**Group 2:** Circumstantial *sdm.n*-f (None-initial main clause), Lemma *gmi* (first position)

- **Lemma:** *gmi* (to find)
- **Morphology 1:** *sdm.n*-f
- **Morphology 2:** circumstantial
- **Morphology 3:** None-initial main clause
- **Subject:** Pronominal subject

**Witness:** T3L

Transliteration: *sfx.w ipw nw [nTr.w] gmi n-i sn ks.w*

Translation: These seven, these gods, I have found them bowing,

**Group 3:** Passive circumstantial *sdm.n*-f (None-initial main clause), Lemma *gmi* (first position)

- **Lemma:** *gmi* (to find)
- **Morphology 1:** *sdm.n*-f
- **Morphology 2:** circumstantial
- **Morphology 3:** passive
- **Syntax:** None-initial main clause
- **Subject:** Pronominal subject
Witness: M2NY
Transliteration: sfr.w ipw ntr.w gm[n].sn kss.w=sn
Translation: These seven gods, they were found. They are bowed

Witness: M5C
Transliteration: sfr.w ipw ntr.w gm.n=sn kss.w=sn
Translation: These seven gods, they were found. They are bowed

Witness: M4C
Transliteration: sfr.w ipw ntr.w gm.n=s kss.w=sn
Translation: These seven gods, it was found. They are bowed,

Group 4: Stative (3rd person masculine plural), Lemma ksi (final position)
Lemma: ksi (to bow down)
Morphology 1: Stative 3rd person masculine plural
Morphology 2: 
Morphology 3: 
Syntax: 
Subject: 

Witness: G1T
Transliteration: sfr.w ipw ntr.w gm.sn ks.w
Translation: These seven gods, they are found bowing down,

Witness: G2T
Transliteration: sfr.w ipw ntr.w gm.sn ks.w
Translation: These seven gods, they are found bowing down,

Witness: T3L
Transliteration: sfr.w ipw nw [ntr.w] gm.n=i sn ks.w
Translation: These seven, these gods, I have found them bowing

Group 5: Perfective active participle (masculine plural), Lemma ksi (final position)
Lemma: ksi (to bow down)
Morphology 1: participle 
Morphology 2: perfective active 
Morphology 3: masculine plural
Syntax: 
Subject: 

2986
Witness: A1C
Transliteration: sfb.w ipw ntr.w sfb.w m ksw.w
Translation: These seven gods, the spirits as those who have bowed,

Group 6: Passive nominal sdm-f (Balanced sentence), Lemma ksi (final position)
Lemma: ksi (to bow down)
Morphology 1: sdm-f Nominal
Morphology 2: Passive
Morphology 3: Balanced sentence
Syntax: Pronominal subject

Witness: M2NY
Transliteration: sfb.w ipw ntr.w gm[n]=sn kss.w=sn
Translation: These seven gods, they were found. They are bowed

Witness: M4C
Transliteration: sfb.w ipw ntr.w gm.n=s kss.w=sn
Translation: These seven gods, it was found. They are bowed,

Notes group: Balanced sentence with sfb (5,153,b)

Notes phrase: In this phrase, the following pattern variations occur: G1+G4 (G1-2T), G2+G4 (T3L), G3+G6 (M2NY, M5C, M4C), G5 (A1C).

Spell: 398 Phrase: 5 153 b

Group 1: Circumstantial sdm-f (Temporal clause), Lemma sfb (first position)
Lemma: sfb (to harvest)
Morphology 1: sdm-f circumstantial
Morphology 2: Morphology 3: Syntax: Temporal clause
Subject: Pronominal subject
Witness: G1T
Transliteration: sshmute sn bd.t smitt ks=k
Translation: while they harvest emmer and barley, while you bow

Witness: G2T
Transliteration: sshmute sn bd.t ksm.tt ks=k
Translation: while they harvest emmer and barley, while you bow

Witness: A1C
Transliteration: sshmite sn t bd.t znit ks=k
Translation: while they harvest emmer and barley, while you bow

Witness: T3L
Transliteration: sshmite sn nw bd.t ksm.ty ks=k
Translation: while they harvest these emmer and barley, while you bow
Notes: the Aa1 is not visible, and there are only traces left of the U1

Group 2: Nominal sdm-f (Balanced sentence), Lemma ssh (first position)
Lemma: ssh (to harvest)
Morphology 1: sdm-f
Morphology 2: nominal
Morphology 3: Balanced sentence
Syntax: Subject:

Witness: M2NY
Transliteration: sshmite sn ksm.wtt ks=k
Translation: and they harvest barley, while you bow

Witness: M5C
Transliteration: sshmite sn hskm.wt ks=k
Translation: and they harvest barley, while you bow

Witness: M4C
Transliteration: sshmite sn ksm.wtt ks=k
Translation: and they harvest barley, while you bow

Group 3: Circumstantial sdm-f (Temporal clause), Lemma ksi (final position)
Lemma: ksi (to bow down)
Morphology 1: sdm-f
Morphology 2: circumstantial
Morphology 3: Temporal clause
Syntax: Subject:

Notes:
while they harvest emmer and barley, while you bow

while they harvest emmer and barley, while you bow

while they harvest emmer and barley, while you bow

while they harvest emmer and barley, while you bow

while they harvest emmer and barley, while you bow

Notes group:
_Could theoretically be read as a first person stative as well._

Notes phrase:
_In this phrase, the following pattern variations occur: G1+G3 (G1T, G2T, A1C, T3L), G2+G3 (M2NY, M5C, M4C)._
I have gathered even that which is between their thighs for an invocation offering for them there, in traveling downstream to Letopolis, in sailing upstream. He saw
I gather even that which is between their thighs in order that the voice will go forth for them there,
in traveling downstream to their Letopolis, in traveling upstream. He saw

Notes phrase: In this phrase, the following pattern variations occur: G1+G3 (G1-2T), G2+G3 (A1C, T3L), G1 (M2NY, M5C).
Appendix 6. Graphical forms of verbal lemmas

The following appendix consists of all the lemmas studied for chapter 5, expanding beyond the lemmas in which some meaningful regionally conditioned variation occurred in the graphical form. Therefore, note that some of the sections in this appendix are identical to those included in chapter 5. However, the list of lemmas which only provided substantives or adjectives, or which were problematic, discussed in chapter 5.2, are excluded from this appendix as well.

The tables are based exclusively on the material from the database, in a manner similar to the one used for the lemmas in chapter 5. Although the material outside the database is included in the discussion, they are not included in the tables, or used for the number of attestations.
Appendix 6.1.  zwi (to extend)

In the database, this lemma is only attested twice, both of which occur in Meir. Therefore, the database does not inform any regional preference. Moreover, the two graphical forms (see table 6.1) are quite distinct, which suggests that this verb form is extremely varied in Meir. However, outside the database, a variant of form 2 without the Z1 (𓊀) classifier is attested in Deir el-Bersha as well. Moreover, outside the database it is possible in Deir el-Bersha and the Theban area to include the Y2 (𓊁) classifier. Nonetheless, the phonetic spelling of form 1 is only attested in Meir.

<table>

</tr>
</tbody>
</table>

Table 6.1 Graphical forms of the stem of zwi.

Appendix 6.2.  zwḥ (to drive out, to drive away)

This lemma is attested only once, in Sq7Sq, a witness from Saqqara, which consists of a fragmentary variant of spell 335, which is partly in a different order. To make matters worse, the graphical form (see figure 6.1) is a reconstruction, as the G1 (𓊀) is not visible, and the A24 (𓊁) is damaged. Thus, other spellings and/or readings of this verb are possible. However, the lemma used in the other witnesses (iḥḥ) is unlikely here, as according to de Buck the V28 (𓊃) is clearly visible.

Appendix 6.3.  zwḥ (to serve)

The lemma zwḥ only occurs three times in the database, and all attestations occur in Meir, in the same phrase. It is not unlikely that the use of this form represents a corruption, as G1T and A1C use šḥ (to be/become a spirit; see appendix 6.7), and M46C and M4C use ḫwḥ (to protect; see appendix 6.183)

---

^43 Buck (1947) CT III, p. 11,c; Buck (1954) CT V, p. 149,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 1.
^44 Buck (1947) CT III, p. 156,b (B2Bo,a).
^45 Buck (1935) CT I, p. 222/102 (B16C); Buck (1961) CT VII, p. 25,j (T1Be).
^46 Note that reading this as zwi is highly uncertain, as it might simply be a corruption of zw. wṛ (offerings). See Buck (1947) CT III, p. 11,c (M2C).
^47 Buck (1951) CT IV, p. 411 (236,b). For additional attestations outside the database, see Plas & Borghouts (1998), p. 2.
instead. In general, this section of the text is badly damaged for all witnesses from Meir, which compounds the issues. As one can see in table 6.2, the graphical forms are varied. Based on the additional attestations outside the database,\footnote{Buck (1951) \textit{CT IV}, p. 365,a.} form 2 and 3 are only attested in Meir, while form 1 is attested in Deir el-Bersha as well. However, it is possible outside the database to use a F40 (𓄫) instead of the G1 (𓄽) in Asyut and Deir el-Bersha. Moreover, the A24 (𓀜) classifier can be used in Deir el-Bersha as addition to the D40 (𓆑) classifier.

<td>1\footnote{See Buck (1951) \textit{CT IV}, p. 365,a (M5C), the G25 (𓄽) is not visible, but de Buck suggest the traces suit a bird. It could simply be a G1 (𓄽) as well.}</td>
</tr>
</tbody>
</table>

Table 6.2 Graphical forms of the stem of 𓅟𓅟𓅟.

Appendix 6.4. 𓅟𓅟𓅟 (to gorge)\footnote{Molen (2000), p. 4.}

In the database the lemma 𓅟𓅟𓅟 occurs in one phrase only,\footnote{Buck (1938) \textit{CT II}, p. 394,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 2.} although it is attested in ten witnesses. As one can see in table 6.3, the variation lies mostly in the use of a different classifier, or in a duplication of the 𓅟 section. Note that in van der Molen 𓅟𓅟𓅟 (form 3) is considered a separate lemma,\footnote{Molen (2000), p. 4.} although still unique to this phrase. Form 4 should be considered a corruption, in which the I9 (𓆑) and G1 (𓄽) switched position.\footnote{Even though it would be possible to read it as 𓅟𓅟 (to lift, to carry) here, the G38 (𓄽) classifier would be unusual.}
Table 6.3 Graphical forms of the stem of $\text{sf}$.

<td>1</td>
</tr>
<tr>
<td>7</td>
<td>Unknown (Y1C)</td>
<td>1</td>
</tr>
</tbody>
</table>

Although it is based on a single attestation, it could be suggested that Beni Hasan prefers to use a humanoid classifier over the bird here. However, the additional attestations outside the database show that the use of a humanoid classifier occurs in P.Gard.2 as well, which is suggested to originate from Asyut. Therefore, it cannot be assumed to be a local preference.

The use of the $\text{sf}$ does present an interesting feature. Even though the attestations come from the Theban area and Gebelein, there seems to be some distinction, as T3C and G1T both considered represent the same southern Egyptian school of artist which seemed to exist in the First Intermediate Period. Thus, the duplication of $\text{sf}$ could suggest a regional preference, even if it only occurred during the First Intermediate Period.

Appendix 6.5. $\text{3mm}$ (to seize, to grasp)$^{58}$

The lemma $\text{3mm}$ is attested thirteen times in the database. However, only eleven attestations are from verbal forms. The majority of the attestations are from spell 75, while one attestation comes from spell 313, a unique spell which only occurs in B5C. The attestations per region are set out in table 6.4, for every graphical form of the stem. Note that as this is a 2ae gem. lemma and gemination occurs in the database, the table has been divided in gemination and no gemination.

<table>

</tr>
</tbody>
</table>

$^{59}$ Buck (1935) CT I, p. 397,b, 397,b; Buck (1951) CT IV, p. 92,h. For additional attestations outside the database, see Plas & Borghouts (1998), p. 3.
Note that form 5 represents an error by the artist, as the second G1 (𓄿) should be read as a G17 (𓅓).

The use of a classifier seems to be the preference in most regions. It is remarkable that form 3 and 5 both use a D36 (𓊷) as classifier, where the D49 (𓊷) and D40 (𓊷) seems more preferable for this verb. Moreover, it has to be a choice by the artist, as the script used in the witnesses (S1C and S2C) is a nearly hieroglyphic form of cursive. This type of script would differentiate between the different signs of the arm, which can become indistinguishable in hieratic and near hieratic cursive script. Thus, it could be argued that Asyut prefers to use the D36 as classifier with ḥmm. However, as S1C and S2C belong to the same owner, it might be a feature of these two supports instead.

Based on the sole attestation from the Theban area, one could suggest that the Theban area prefers not to add a classifier. However, in the original support (T3C) the verb is written together with nḥrd as a double column, which could have been the reason why there is no classifier. Outside the database there are no other attestations from the Theban area which use this lemma, although the absence of a classifier is attested in Asyut as well. Thus, although the absence of a classifier might be a feature of the Theban area, it can be left out in other regions.

Appendix 6.6. ṣr (to drive away)

This lemma is attested 28 times in the database, although the majority of its attestations come from the name of a divinity in spell 335. Note that the first vowel of this lemma is varied, as it can be written as i or si as well. This is most likely a visual representation of the conflation of the s phoneme with the i

---

61 It sometimes occurs in the Coffin Texts that the text has repeated features in the text, where for example the subject of a verb is written once in the column, and the two verbs forms are written above it as two columns next to each other, both using the subject that is only written once. Thus, it does not mean that two columns are written in one column, but rather that sections of the phrase in recurrent constructions are written as two columns, instead of repeating parts of the phrase that do not change twice.
62 Buck (1938) CT II, p. 236,c (S1C,b).
64 Buck (1951) CT IV, p. 265,d, 266-267,b, 266-267,e; Buck (1954) CT V, p. 152,d-e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 3.
65 n ḥḥ wr mnh ‘the great one is not driven away’ is his name Buck (1951) CT IV, p. 267,c (M57C). Note that the phrase is extremely variable, and in some witnesses the negation is not written.
in this lemma. In the following table the attestations per region are set out for every graphical form of the stem (table 6.5):

<table>
<thead>
<tr>

</tbody>
</table>

Table 6.5 Graphical forms of the stem of \(sr\).

Based on these attestations, it seems that in Deir el-Bersha there is the preference to not add a M17 (𓇋) to the word. Although the form \(isr\) is attested once in the Theban area as well, it occurs more often in Meir. In el-Lisht and Beni Hasan there seems to be a preference for writing \(isr\) in a compact format (form 4). Beyond these points, there does not seem to be any clear regional preferences in the spelling of the stem of \(sr\), and especially Meir can be extremely varied in its graphical form.

Appendix 6.7. \(slh\) (to be/become a spirit, to be potent, to be well)\(^{68}\)

In the database, the lemma \(slh\) is attested 63 times. However, some of these are substantives,\(^{69}\) and only 52 attestations represent verbal forms.\(^{70}\) In table 6.6, the attestations per region are set out for every graphical form of the stem:

---

\(^{67}\) Note that the V4 (𓌏) is assumed to be a corruption of the T12 (𓇋) due to their similar form.

\(^{69}\) For example, in Buck (1935) CT I, p. 4,a (B1P), \(slw\) (the potent ones) is used, even though it could be argued that it is technically a participle.

\(^{70}\) Buck (1935) CT I, p. 4-5,a, 141,e, 376,b; Buck (1938) CT II, p. 266-267,d, 273,d-f, 287,d-g, 288-289,a; Buck (1954) CT V, p. 123,c, 145,a, 157,c-d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 3.
In this lemma, there are only scant signs of regional preference. The graphical form used in Meir is highly varied, but it seems that the G25 (𓅜) is never written with a curl or stroke at its claws. The attestations from the Theban area suggest that the Y2 (𓏝) classifier is always written. However, as this is based on one witness only (T3L), it might be a personal preference of the artist responsible for this witness. Moreover, outside the database the Theban area occurs without an Y2 classifier. Asyut seems to have a preference for using the interpretant Aa1 (𓎉) and the Y2 classifier, although the interpretant is not always there. Alternative forms occur in Asyut, but are rare in comparison to form 10 and 11.

Appendix 6.8. 𓎉 (to flourish)\textsuperscript{72}

This lemma is attested 13 times in the database.\textsuperscript{73} Note that the distinction between this lemma and 0 can only be clearly seen in the in the classifier M15 (𓇇).\textsuperscript{74} As one can see in table 6.7, the graphical form of the lemma is remarkably stable, with only one exception (B1Be), which used a Y2 (𓏝) classifier instead of a M15 as classifier.

\textsuperscript{71} Buck (1935) \textit{CT I}, p. 286,f (T9C).
\textsuperscript{72} Molen (2000), p. 6.
\textsuperscript{73} Buck (1938) \textit{CT II}, p. 394,a; Buck (1947) \textit{CT III}, p. 6,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 5.
\textsuperscript{74} It could be argued that this lemma is actually part of 0, as it is related in meaning, although specifically for growth.
Due to the stability of the stem of the lemma, there does not seem to be any sign of regional preferences. Even when the additional attestations of van der Molen are included, the only variation from form 2 is due to errors or corruptions, rather than any intentional change.

Appendix 6.9.  **ṣṣb (to burn, to singe, to glow)**

The lemma ṣṣb occurs 13 times in the database,76 all in spell 335, and all as a participle in the name of a divinity, used in the nfr-ḥr construction. Table 6.8 shows the attestations per region for every graphical form:

For this lemma, there are no clear signs of regional preference, although it is clear that form 4 is the most common. A classifier is only used in Meir in the database, but is more common in the attestations of van der Molen, although that is due to the fact that most of his attestations are actually substantives.78

---

76 Buck (1951) *CT IV*, p. 270-271,b, 272,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 6.
77 Note that ṣḥs is assumed to be a graphical form variation of ṣṣb, instead of a lemma variation.
78 For example, Buck (1938) *CT II*, p. 135,b, which uses ṣṣb.w (the glowing ones), which uses an A40 (𓀭) classifier. Note however that it is possible to still consider this a participle (those that glow).
Appendix 6.10. \( ^{3s\text{h}} \) (to reap, to harvest)\(^{79} \)

In the database, this lemma is attested seven times, all from the same phrase of spell 398.\(^{80} \). The graphical forms are extremely varied, see table 6.9:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem no.</th>

<td>1</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Table 6.9 Graphical forms of the stem of \( ^{3s\text{h}} \).

Although every attestation of this lemma has its own form, there is some variation of note between Meir and the other regions. Meir uses classifiers representing force and effort (A24 (𓀜), D37 (𓂞) and D40 (𓀝)), where Gebelein and the Theban area use a sign representing a tool, U1 (𓌳) or V24 (𓎗). This could suggest that there is some pattern based on the north south axis in Egypt. Deir el-Bersha uses D40 classifiers as well,\(^{81} \) but in Asyut only the tool is used. Thus, it could be argued that from Meir and northwards this lemma can receive a classifier representing force and effort, but from Asyut to the south the preference lies in only using a classifier representing a tool, most commonly the U1. However, outside the database this is not true, as the D40 is attested in the Theban area as well, although with a U1 classifier as well, and in Saqqara a form with only a U1 classifier is attested as well.\(^{82} \) Thus, it seems unlikely that there is a regional preference for this lemma, even though the absence of any classifier is only attested in Aswan.

---

\(^{80} \) Buck (1954) CT V, p. 153,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 6.

\(^{81} \) Although the absence of a classifier or the use of a U1 (𓌳) occurs as well.

\(^{82} \) Buck (1935) CT I, p. 286,a (T2C, Sq3C).
Appendix 6.11. \( \text{sI} \) (to nurse, to bring up)\(^{83}\)

This lemma is attested 21 times in the database, although ten of these attestations are substantives, as \( \text{sI.yt} \) (nurse) was encoded as part of this lemma.\(^{84}\) Note that all attestations, including the substantives, all occur in the same phrase.\(^{85}\) Additionally, the use of the B5 (𓁔) represents a standardisation, as the scripts used by the witnesses rarely provide the all the specific details of this complex sign. In table 6.10, the attestations per region are set out for every graphical form:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>

</tr>
<tr>
<td>5</td>
<td>Deir el-Bersha</td>
<td>1(^{86})</td>
</tr>
</tbody>
</table>

Table 6.10 Graphical forms of the stem of \( \text{sI} \).

In this lemma, there are no clear signs of regional preferences for the graphical form of the stem. However, one interesting feature stands out. The addition of a M17*M17 (𓁔) group only occurs in Deir el-Bersha, and more specifically in the witnesses that are dated to Amenemhat II – Sesostris III (B15C and B1P).\(^{87}\) The other attestations of Deir el-Bersha (B2Bo, B3Bo, B4Bo and B6C) are all dated to the period of the late 11th dynasty until the early 12th dynasty,\(^{88}\) thus it could be suggested that the addition of the M17*M17 is based on the date of coffin creation. However, outside the database, the addition of this group seems to be unique to this phrase, as it is not repeated in the other attestations from the Coffin Texts.

\(^{84}\) As the noun is technically a participle of \( \text{sI} \) (she who nurses, i.e. a nurse).

\(^{85}\) Buck (1935) \( CT \ I \), p. 48,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 6-7.

\(^{87}\) Note that this form represents a special case, as it only occurs with this witness (B6C). It might be simply a dittography of the \( \text{sI.wt} \) before it in the phrase, but due to the duplication of the V13 (𓁔) with a 2-lit verb, I took it as a sḏmn=f instead here.

Appendix 6.12.  *i* (to say, to speak)\(^{89}\)

In the database, this lemma has 225 attestations. However, only 79 attestations represent verb forms,\(^{90}\) the other attestations are interjections. In table 6.11, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>

</tbody>
</table>

Table 6.11 Graphical forms of the stem of *i*.

For this lemma, some regional preferences can be distinguished. The addition of a G1 (𓄿) is only attested in the Theban area, although both form 5 and 11 come from the same witness (T1L).\(^{91}\) The use of the Y2 (𓏝) classifier is only attested in Deir el-Bersha, likewise from one witness (B1P). In el-Lisht, there is either no classifier, or a Z1 (𓆑), which suggest that this region prefers to avoid the humanoid classifiers. Gebelein is only attested with form 2. Even though this is only a single attestation, the same form is used for the interjection as well,\(^{92}\) which suggests that form 2 represents the preferred form for Gebelein.

<td>5</td>
</tr>
<tr>
<td>3</td>
<td>Asyut</td>
<td>9</td>
</tr>
</tbody>
</table>

Table 6.12 Graphical forms of the stem of \textit{i3}.

For the attestations in the database, there is a clear difference between the attestations from Asyut and Deir el-Bersha, as the long format of form 3 is only attested in Asyut. For the attestations outside the database this is true as well, although there are hardly any other attestations of this lemma in the Coffin Texts.

Appendix 6.14. \textit{i3wi} (to be aged)\textsuperscript{98}

There are eighteen attestations of this lemma in the database, although only sixteen attestations from the same phrase in spell 75 are verbal forms.\textsuperscript{99} As one can see in table 6.13, there are only two forms used for the stem:

\textsuperscript{93} Molen (2000), p. 11.
\textsuperscript{94} Buck (1935) \textit{CT I}, p. 86-87.b; Buck (1938) \textit{CT II}, p. 68,a, 68,2*, 71,a, 77,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 9 and Gracia Zamacona (2008), p. 12.
\textsuperscript{95} Written as a line in the original witness. Note that the Z1 (\textsuperscript{𓏤}) signs represent filler strokes.
\textsuperscript{96} From the same witness (B3L), see Buck (1938) \textit{CT II}, p. 71,a, 77,c. Due to the A28 (𓀠) classifier is it uncertain if it even is this lemma, the reading is based on S2C which has this lemma in the same phrases. However, it is possible that this represents a corruption of \textit{qAi} (to be tall, to be high), see appendix 6.317, where the use of the A28 makes more sense.
\textsuperscript{97} Note that the Z1 (\textsuperscript{𓏤}) signs represent filler strokes.
\textsuperscript{99} Buck (1935) \textit{CT I}, p. 374-375,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 10.
The only variation occurs in Deir el-Bersha, where form 2 is used in addition to form 1. However, as the other attestations of this lemma in the Coffin Texts outside this lemma only feature witnesses from Deir el-Bersha, it cannot be said if the other regions might use form 2 as well.

Appendix 6.15. *išlī* (to overflow, to be flooded)\(^{100}\)

In the database there is only one attestation of this lemma,\(^ {101}\) in a phrase where the other witnesses use šlī (to flourish; see 0) instead. However, as this lemma is functional in this phrase, it was not adjusted into šlī. Based on the other attestations of this lemma outside the database,\(^ {102}\) it is clear that the form used (figure 6.2) does not represent a regional preference, but rather a common form for this lemma.

Appendix 6.16. *iššī* (to injure, to be injured, to be missing)\(^ {103}\)

This lemma has a total of seventeen attestations in the database, from the same phrase in spell 154.\(^ {104}\) In the following table, the attestations per regions are shown for every graphical form of the stem (table 6.14):

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>

101 Buck (1947) CT III, p. 6,b (B5C). For additional attestations outside the database, see Plas & Borghouts (1998), p. 11.
102 Buck (1938) CT II, p. 173,f, (Sq3Sq).
103 Molen (2000), p. 16
104 Buck (1938) CT II, p. 276-277,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 12.
Table 6.14 Graphical forms of the stem of *i̯i*.

For this lemma, there are some signs of regional preferences, without clear borders. Although the use of X1 (𓊂) instead of V13 (𓊂) occurs in Deir el-Bersha as well, it is more common in Asyut. Inversely, Deir el-Bersha is more likely to use the V13 instead of the X1. If a classifier is written, Asyut is more likely to use the D57 (𓊄) than the G37 (𓊃), where Deir el-Bersha uses both classifiers at more or less the same rate. The use of other classifiers seems to only occur in Deir el-Bersha. Outside the database there is only one additional attestation of this lemma,\textsuperscript{105} and the only visible attestations are from the Theban area and Saqqara, which use either form 2 or form 8.\textsuperscript{106}

Appendix 6.17. *iyi*\textsuperscript{107} and *iwi*\textsuperscript{108} (to come)

These two lemmas are treated as if the belong to one single lemma, following Winand.\textsuperscript{109} These lemmas occur relatively frequent, with 305 attestations for *iyi* and 190 for *iwi*.\textsuperscript{110} Note however, that due to the

\textsuperscript{105} Buck (1935) *CT I*, p. 295,c.
\textsuperscript{106} Although T2C uses a long format of form 1, and Sq3C used a D56 (𓊒) instead of a D57.
\textsuperscript{107} Molen (2000), p. 16-17.
\textsuperscript{110} Buck (1935) *CT I*, p. 12,b, 20,b, 35,e, 36,d-e, 37,a, 49-50,c-a, 58,c, 73,a, 88-89,b, 89,e, 102-103,a, 107,b, 108,b, 110,b, 113,b-c, 115,a, 116,b, 117,b, 120,c, 121,d, 135,b-c, 137,b, 141,e, 142,c, 145,b, 386,a; Buck (1938) *CT II*, p. 28,c, 55,b, 56,c, 57,b, 58,c, 84,a, 86-87,e-a, 88,c, 91,d, 92,b-c, 402,c; Buck (1947) *CT III*, p. 18,a, 186-187,c-a; Buck (1951) *CT IV*, p. 87,b, 87,l, 88,j, 89,j, 89,k, 89,l, 90,a, 90,b 90,e, 90,i, 206-207,b, 227,a, 256-257,b, 260-261,a, 265,c,
separate encodings of these lemmas, there are some cases where one sub-lemma is preferred over the other in the Coffin Texts. For example, there are 160 attestations of the sḏm.n-f using the sub-lemma iyī, where there are only nine attestations of the sub-lemma iwī. On the other hand, there are only six attestations of the sub-lemma iyī for the sḏm.f, where the sub-lemma iwī has 80 attestations. For the stative, the preference seems to lie with sub-lemma iyī, which has 82 attestations, where sub-lemma iwī only has 26. Moreover, in the database there are no attestations from Saqqara, el-Lisht and Beni Hasan which use the sub-lemma iwī with the stative, while Asyut is only attested in the stative using iwī.\(^{111}\) All the attestations for the imperative have been encoded under the sub-lemma iwī, but as this lemma is irregular, this is rather an aspect of the encoding, than regional preference.

In table 6.15, the attestations per region are set out for every graphical form of the lemma. Note that this table consist of the attestations of both iyī and iwī.

</table>

\(^{111}\) However, this might be the result of the encoding of the database, rather than a regional preference. Moreover, the preference of one sub-lemma over the other in a single region does not seem to be true for the sḏm-f or sḏm.n-f forms.

\(^{112}\) Note that the Z1 (𓏤) stroke is actually written between the legs of the D54 (𓊱).

\(^{113}\) P.Gard.2 and Pap.Berl.

Table 6.15 Graphical forms of the stem of *iyi* and *iwi*.

As one can see in the table above, the usual form of this lemma group is either form 2, 10 or 22, which occurs in nearly every region. Therefore, there does not seem to be any distinct regional preference, as nearly every form is attested in more than one region, or represents a single attestation.
Some of the forms of el-Lisht stand out (form 1, 12, 23, 31) due to the use of partial forms of hieroglyphs of animates, but as these come from the same witness (L2Li), it should not be considered a regional feature. For the forms of the imperative (form 6-13), it seems that there is the preference in Gebelein to use a compact format (form 6). Form 3 is only attested in Asyut, but as these attestations all come from the same witness (S1C), it is assumed to represent a preference of the artist, rather than a regional variant.

Appendix 6.18. ı̀i (to wash)\textsuperscript{114}

The lemma ı̀i has 26 attestations in the database, although only 21 attestations represent verbal forms.\textsuperscript{115} In table 6.16, the attestations per region are shown for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>

<td>Asyut</td>
<td>4</td>
</tr>
</tbody>
</table>

Table 6.16 Graphical forms of the stem of ı̀i.

From the attestations in the database, one could make the suggestion that Asyut prefers to use a long format (form 5) for this lemma. However, form 1 is attested outside the database in Asyut as well.\textsuperscript{116} In Meir there seems to be a preference for the compact format (form 1). However, the long format occurs outside the database as well.\textsuperscript{117} However, the use of the Y2 (𓏝) seems to only occur in Meir for this lemma. Note that this lemma does not serve as evidence that P.Gard.2 originates from Asyut,\textsuperscript{118} as Asyut usually adds the N35A (𓈗) as classifier, which was not added in P.Gard.2.

Appendix 6.19. ı̀b (to unite, to be united, to hand over)\textsuperscript{119}

In the database, this lemma has a total of 30 attestations.\textsuperscript{120} In table 6.17, the attestations per region are set out for every graphical form of the stem:

Table 6.17 Graphical forms of the stem of "'b."

Based on the database, it could be suggested that the attestations from Asyut never add the M17 (𓅆) to the lemma. However, this does occur in Asyut outside the database.\(^{121}\) In Gebelein, the F18 (𓆓) is always added to the spelling, even in attestations outside the database. There do not seem to be any other additional regional preferences, as the graphical form can be remarkably varied.

\(^{121}\) Buck (1951) *CT IV*, p. 173,e (S2C).
Appendix 6.20.  \( i^r \) (to ascend, to draw near)\(^{122}\)

The lemma \( i^r \) is only attested nine times in the database.\(^{123}\) Note that this lemma overlaps with the lemma \( r \) (see appendix 6.45), as they function in a similar manner. In table 6.18, the attestations in the regions are set out to the different graphical forms:

<table>
<thead>
<tr>
<th>Graphical form stem</th>

</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>4</td>
<td>Theban area</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>5</td>
<td>Asyut</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Theban area</td>
<td>2</td>
</tr>
</tbody>
</table>

Table 6.18 Graphical forms of the stem of \( i^r \).

As there is only one attestation of \( i^r \) in Deir el-Bersha, in a dubious source, it could be suggested that this lemma does not occur in Deir el-Bersha. However, this is not the case as this lemma occurs outside the database in Deir el-Bersha as well.\(^{126}\) Thus, this lemma is most likely used in all regions. In the Theban area, the N31 (\( _)\) classifier can be used or left out. The attestations from Asyut are from the same witness (S2C), and both occur in the same phrase,\(^{127}\) which can only be considered a feature of the support, rather than a regional preference. Moreover, outside the database from 2 is attested in Asyut as well.\(^{128}\) Gebelein seem to only use a form without a classifier, but form 2 is attested in Gebelein as well.\(^{129}\) Thus, there does not seem to be a regional preference for this lemma.

Appendix 6.21.  \( iwi \) (to be boatless, to leave stranded)\(^{130}\)

In the database, there are only six attestations of this lemma.\(^{131}\) As one can see in table 6.19, the graphical form is remarkably stable, and only varies in form 2, which represents the use of partial

---

\(^{124}\) Buck (1935) *CT I*, p. 44,d (B15C). Note that this witness was not seen by de Buck itself, and it is possible that it was incorrectly transcribed (which would explain the unusual classifier as well).

\(^{125}\) Buck (1938) *CT II*, p. 56,d (G2T). Note that no D21 (\( _)\) was written, and based on the other witnesses, it is possible that the M17 (\( _)\) should be read as iy\( i\), and the D36 (\( _)\) as di\( i\), written as a double column above the N35 (\( _)\) which can be read for both (making iy\( i.n\) and di\( i.n\)).

\(^{126}\) Buck (1961) *CT VII*, p. 443,c.

\(^{127}\) Buck (1938) *CT II*, p. 76,b (S2C,a and S2C,b).

\(^{128}\) Buck (1938) *CT II*, p. 110,k (S1C).

\(^{129}\) Buck (1938) *CT II*, p. 110,k (G2T).

hieroglyphs of the hieroglyphs of animates in L1Li. Based on attestations outside the database, there does not seem to be any regional preference in the graphical form.

</tbody>
</table>

Table 6.20 Graphical forms of the stem of *iwa*.

\(^{1}\) Molen (2000), p. 23

\(^{2}\) Buck (1935) *CT I*, p. 15,b, 37,f, 41-42,c-a; Buck (1938) *CT II*, p. 278-279,b, 284-285,c; Buck (1951) *CT IV*, p. 93,d; Buck (1954) *CT V*, p. 154,f. For additional attestations outside the database, see Plas & Borghouts (1998), p. 19.
In general, there does not seem to be a regional preference, although some regional features do seem to exist. The absence of the E9 (𓊘) for this lemma (form 10, 11 and 12) is rare, but it is only attested in Deir el-Bersha and Meir. However, outside the database, the absence is attested in the Theban area as well.\(^{134}\) Nonetheless, based on the database, form 11 and 12 represent the only form in which the attestations from Meir occur,\(^ {135}\) while form 10 seems to be unique to Deir el-Bersha.

**Appendix 6.23.  
*iwr* (to conceive)\(^ {136}\)**

This lemma has seventeen attestations in the database, form the same phrase of spell 75.\(^ {137}\) In table 6.21, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Image" /></td>

<td>6</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.21 Graphical forms of the stem of *iwr*.

For this lemma, there does not seem to be a clear regional preference. Even though form 5 could be suggested to represent a regional form from Gebelein, outside the database a form akin to form 2 and 3 is used in Gebelein as well.\(^ {138}\) Form 6 does not represent a regional variation, but rather a feature of the witness B2L, as outside the database this witness replaces the E9 (𓊘) with a M17 (𓊍) in other attestations as well.\(^ {139}\)

---

134 Buck (1956) *CT VI*, p. 398,h (T1L).
135 There is a lack of additional attestations from Meir to verify this claim. However, when used as *iwa* (heir), see Buck (1938) *CT II*, p. 69,a, the E9 is used in the witnesses from Meir as well.
138 Buck (1938) *CT II*, p. 19,c (G1T).
139 Buck (1938) *CT II*, p. 3,g, 19,c, 39,i.
Appendix 6.24. *ibi* (to be thirsty)\(^{140}\)

There are 47 attestations for this lemma in the database, but only eleven attestations represent verbal forms.\(^{141}\) In table 6.22, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Graphical form 1" /></td>
<td>1</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td><img src="image2" alt="Graphical form 2" /></td>
<td>2</td>
<td>Asyut</td>
<td>1</td>
</tr>
<tr>
<td><img src="image3" alt="Graphical form 3" /></td>
<td>3</td>
<td>Deir el-Bersha</td>
<td>2, Meir</td>
</tr>
<tr>
<td><img src="image4" alt="Graphical form 4" /></td>
<td>4</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.22 Graphical forms of the stem of *ibi*.

In the database, it can be suggested that the use of the E8 (𓃙) only occurs in Deir el-Bersha. However, outside the database it occurs in the Theban area and Saqqara as well.\(^{142}\) Additionally, when the attestations beyond the database are included, it becomes clear that form 5 is often used in all regions. Nonetheless, the use of the Y2 (𓏝) classifier seems to only occur in Deir el-Bersha. Moreover, form 2 seems to only occur in Asyut, as all other witnesses add a A2 (𓀁), E8 or N35A (𓀎).

Appendix 6.25. *ip* (to count, to recon, to allot)\(^{143}\)

In the database, there are 29 attestations of this lemma.\(^{144}\) In table 6.23 the attestations per region for every graphical form are set out:

---

141 Buck (1947) *CT III*, p. 19,b, 19,d, 187,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 21. Note that *ib.t* (thirst) was considered to be part of this lemma.
142 Buck (1954) *CT V*, p. 19,a (T1C), 22,c (Sq11C).
144 Buck (1935) *CT I*, p. 70,b, 368-369,b, 402,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 22.
<table>
<thead>

<td></td>
<td>Theban area</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>Aswan</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.23 Graphical forms of the stem of *ip*.

In this table, there is no real sign of regional preferences. Although Saqqara and Gebelein only use form 1, Beni Hasan only uses form 3 and Aswan only uses form 4, all these are single attestations, and cannot be used as indications of regional preference. Outside the database, Aswan is attested with form 1\(^{145}\) and Beni Hasan as well.\(^{146}\) Moreover, Saqqara is attested with form 3.\(^{147}\) Therefore, it seems unlikely that this lemma has any regional preference.

**Appendix 6.26. *imi* (negative verb)\(^{148}\)**

There are only eleven attestations of this lemma in the database.\(^{149}\) As table 6.24 shows, there is hardly any variation in the graphical form:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Deir el-Bersha</td>
<td>6</td>

<td>Aswan</td>
<td>1</td>
</tr>
<tr>
<td>3</td>
<td>el-Lisht</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.24 Graphical forms of the stem of *imi*.

The only major variation in this lemma occurs in form 2, which replaced the D35 (…) with a D37 (…) instead. However, outside the database form 1 is used in Gebelein as well.\(^{151}\) Additionally, form 2 is used in Deir el-Bersha.\(^{152}\) Therefore, form 2 is not unique to Gebelein and Aswan. Form 4 is only attested in el-

---

\(^{145}\) Buck (1938) *CT II*, p. 28,c.
\(^{146}\) Buck (1947) *CT III*, p. 330,b, (BH4C), although all other witnesses use *sip* here instead.
\(^{147}\) Buck (1961) *CT VII*, p. 54,w.
\(^{150}\) Note that this form can easily be mistaken for the imperative of *rdi* (to give, to place). However, these attestations all come from the same phrase (V,152,d-e), where an imperative would be less suitable.
\(^{151}\) Buck (1938) *CT II*, p. 115,h (G2T).
\(^{152}\) Buck (1935) *CT I*, p. 183,b (B12C).
Lisht, but reflects a feature of L2Li, rather than a regional pattern.\textsuperscript{153} Thus, there is no regional preference for this lemma.

Appendix 6.27. \textit{ini} (to bring, to bring away, to buy)\textsuperscript{154}

The lemma \textit{ini} is quite common, and has 233 attestations in the database. However, only 229 of these attestations reflect verbal forms,\textsuperscript{155} as the other four attestations are considered substantives.\textsuperscript{156} In table 6.25, the attestations per region are set out for every graphical form of the stem. Note that this is a 3\textit{ae inf.} lemma and gemination occurs in the database, therefore the table has been divided in gemination and no gemination.

<td>Gebelein</td>
<td>1</td>
<td>2</td>
</tr>
</tbody>
</table>

Table 6.25 Graphical forms of the stem of *ini* (to bring).

For this lemma, there are only some vague signs of a regional preference. The use of the D54 (𓊨) classifier is only attested in Gebelein, even though the attestations from Gebelein occur outside the database without the D54 as well. Aswan has one unique feature with form 4, even though this might have simply been an error for a N35 (𓊧), despite the signs being quite different.\(^{157}\) Beyond these features there are no meaningful variations that show regional preferences.

Appendix 6.28. *ini* (to sever)\(^{158}\)

This lemma has only five attestations in the database, from the same phrase in spell 23.\(^{159}\) In table 6.26, one can see the attestations per region for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Stem no.</th>

<td>1</td>
</tr>
<tr>
<td>4</td>
<td>Theban area</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.26 Graphical forms of the stem of *ini* (to sever).

Based on the database, there does not seem to be a regional preference for this lemma, although the D40 (𓊨) classifier only occurs in the Theban area. The only other attestation of this lemma in the Coffin Texts\(^{160}\) does not disprove the use of D40 classifier in the Theban area, although the lemma can only be seen fully intact in three of the ten witnesses, due to damage.\(^{161}\)

\(^{157}\) See Buck (1954) *CT V*, p. 121,3* and Willems (1996), pl. 21, col. 140.
\(^{159}\) Buck (1935) *CT I*, p. 72,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 30.
\(^{160}\) Buck (1954) *CT V*, p. 287,c.
\(^{161}\) B2Bo,b, B7Bo,b and M23C,b.
Appendix 6.29. *inī* (to fetter)\textsuperscript{162}

In the database, there are a total of five attestations for this lemma, from the same phrase of spell 23.\textsuperscript{163}

In table 6.27, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 Deir el-Bersha 1\textsuperscript{164}</td>
<td>1 Deir el-Bersha 1</td>
<td>1 Theban area 1</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2 Deir el-Bersha 1</td>
<td>5 Theban area 1</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Table 6.27 Graphical forms of the stem of *inī*.

As one can see in the table, the graphical forms are extremely varied. Moreover, the use of the V13 (𓂨) is actually rare, which suggests that for this lemma the distinction between the *f* and *t* has already been lost. The use of the A24 (𓀜) classifier seems to be unique to the Theban area, but as this is only one attestation, it might be unique to this witness (T1L) instead.

Appendix 6.30. *iri* (to do, to make, to perform)\textsuperscript{165}

This is one of the most common lemmas in the database, with a total of 836 attestations.\textsuperscript{166} In table 6.28, one can see the attestations per region for the graphical form of the stem. Note that this is a 3ae inf. lemma and gemination occurs in the database, therefore the table has been divided in gemination and no gemination. However, as one can see in form 4, it is possible for the attestations without

\textsuperscript{162}Molen (2000), p. 42.

</tbody>
</table>

Table 6.28 Graphical forms of the stem of iri.

As one can see in form 3 and 9, for most attestations the same form is used for nearly every region. Nonetheless, there are some features that can represent a regional variation. The addition of M17 (𓇋) is rare, and occurs in Beni Hasan and Deir el-Bersha as well (form 6, 7 and 13), but it is much more common in the Theban area. However, it does not represent any specific period, as it occurs in witnesses dated to the reign of Mentuhotep II (T9C) and to the reign of Sesostris III (T2Be).

<sup>167</sup> Buck (1938) *CT II*, p. 274,b (B2P), 275,b (B1C).

<sup>168</sup> Buck (1935) *CT I*, p. 110,c (L2Li), the D21 (ramids) represents an eye without a pupil.

<sup>169</sup> Buck (1951) *CT IV*, p. 194,a (Sq4Sqq). This attestation is problematic, as it does not show gemination where it should, as I took it as a nominal sḏm.ṯw=f here. However, the t(w) is written with a V13 (𓏏), and it is possible that this sign should be read as an N35 (埞) and X1 (𓏏) instead, which would make this a nominal sḏm.n.tw=f, which is what occurs in the other witnesses. Moreover, this would not require gemination.
The use of the pupil of the eye, D12 (𓁹), for the entire eye, D4 (𓁹), is quite rare in the Middle Kingdom, and seems to only occur in Deir el-Bersh. The use of D21 for iři only occurs in el-Lisht, although it is far from unlikely that this is a modern error, in which the pupil of the D4 was lost, instead of an intentional change.

Even though form 3 occurs in Beni Hasan for the absence of gemination, it is remarkable that in case of gemination, there are always two D21 signs added (form 10 and 13). Moreover, there is one witness in Beni Hasan (BH5C), which always added the interpretant D21, as there is no attestation in this witness with only the D4.

Appendix 6.31. itp (to be effective)

This lemma has only nine attestations in the database, and only six of these are considered verbal forms. As one can see in table 6.29, there are only three graphical forms, of which one is an error (form 2).

<table>
<thead>
<tr>
<th>Graphical stem</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Deir el-Bersh</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>Theban area</td>
<td>2</td>
</tr>
<tr>
<td>2</td>
<td>Deir el-Bersh</td>
<td>1</td>
</tr>
<tr>
<td>3</td>
<td>Beni Hasan</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.29 Graphical forms of the stem of itp.

The only meaningful variation is the absence of the Y2 (𓏝) classifier in Beni Hasan. However, outside the database the Y2 classifier is used in Beni Hasan as well, and the absence of the Y2 occurs in Deir el-Bersh as well. Therefore, this lemma does not seem to have a regional preference.

Appendix 6.32. ith (to drag, to pull off)

In the database, there are 24 attestations of the lemma ith. In table 6.30, the attestations per region are set out for every graphical form of the stem. Note that the use of the D20 (𓁹) might actually represent the U31 (𓁹), as in near hieratic cursive script these two signs can become indistinguishable.

---

171 Buck (1935) CT I, p. 4-5,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 43.
172 Buck (1935) CT I, p. 4,a (B1P). However, based on a photo of the original, I would not completely agree with de Buck that a Q3 (𓁹) should be read, although the remnants of the sign are clearly too large for a X1 (𓏏).
173 Buck (1947) CT III, p. 271,d (BH3Ox).
174 Buck (1956) CT VI, p. 327,a (B1P), although it is spelled as ipt here.
177 See Möller (1909), p. 8, 46, no. 90 and 491.
For this lemma, there does not seem to be a regional preference. The only form which is clearly different is form 6, but it is unlikely that this is a regional feature of the Theban area, as de Buck added a sic with the bird. Based on the database, it would be possible to suggest that Gebelein and Aswan do not use the V1 (𓊭) classifier. However, outside the database the V1 is used in Gebelein as a classifier. Beni Hasan only has an attestation for form 3, but as it is the only attestation from Beni Hasan in the Coffin Texts, it would be assumptive to suggest it represents a regional preference.

Appendix 6.33. 𓊭 (to take)

The lemma 𓊭 has 86 attestations in the database. In table 6.31, the attestations per region are set out for every graphical form of the stem. Note that with this lemma it is often difficult to know if the X1 (𓊭) should be considered an interpretant, or an addition due to the morphology of the verbal form in which it is used.

---

178 Buck (1935) CT I, p. 45,c (B4Bo). Assumed to be a corruption, as ṛḫḥ (to bake) makes little sense in this phrase.
179 Buck (1935) CT I, p. 45,c (T9C).
180 Buck (1961) CT VII, p. 139,n.
181 Buck (1954) CT V, p. 7,a (BH3Ox).
183 Buck (1935) CT I, p. 15,b, 23,c, 27,a, 37,c, 37,e, 53,b, 58,a, 79,l, 94,b, 399,c; Buck (1951) CT IV, p. 93,e, 236-237,b, 270,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 44.
As one can see, the majority of the attestations are either form 5 or form 7. However, some regional preferences seem to occur. The use of the initial M17 (𓇋) seems to only occur in the Theban area, as the sole attestation from Asyut in form 2 represents a reconstruction.

The use of a stroke at the toe of the V15 (𓎁) seems to only occur in Deir el-Bersha in the database, but this form is attested outside the database in Beni Hasan as well.\(^{187}\) Thus, it is unlikely to be a regional preference. The use of a D40 (𓊲) classifier seems to only occur in Deir el-Bersha, as the attestation from Meir (form 8) is a reconstruction. The attestations from Saqqara and el-Lisht do not seem to appear without the X1 interpretant in the database. However, outside the database this is not true for Saqqara,\(^{188}\) nor for el-Lisht.\(^{189}\)

\(^{184}\) Buck (1935) *CT I*, p. 23,c (S10C), reconstruction, only the V15-A24 (𓎁𓀜) group is visible. It is possible that the particle iw was written above the V15, instead of only the M17 (𓇋).

\(^{185}\) Buck (1951) *CT IV*, p. 237,b (M57C). Partially reconstructed, the D40 (𓊲) is not visible, thus might not have been there at all.

\(^{186}\) All attestations are from the same witness (B1P).

\(^{187}\) Buck (1938) *CT II*, p. 116,w.

\(^{188}\) Buck (1938) *CT II*, p. 176,g.

\(^{189}\) Buck (1961) *CT VII*, p. 9,r, 9,s.
Appendix 6.34. *idi* (to be censed)\(^{190}\)

This lemma has 35 attestations in the database, of which 32 attestations represent verbal forms.\(^{191}\) In table 6.32, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>

</table>

Table 6.32 Graphical forms of the stem of *idi*.

Based on the database, it seems that although the D40 (𓚙) is used as well, Meir has the tendency with this lemma to use D40A (𓚚), which does not occur in the other regions. However, outside the database there is are attestations of the D40A in P.Gard.3.\(^{192}\) However, as there are no coffins with this hieroglyph, it can still function as a regional preference for Meir.

Although the N4 (𓇲) classifier (form 6 and 12) occurs outside Deir el-Bersha as well, it seems that Deir el-Bersha is more likely than either Asyut or the Theban area to use it as classifier. Form 11 seems only to occur in the Theban area, although it is only attested in one witness (MC105).

Appendix 6.35. *gpsi* (to be great)\(^{193}\)

This lemma is relatively common as it has 341 attestations. However, this is deceptive, as the majority of the attestations do not actually represent verb forms, but rather adjectives or substantives. In the

---

\(^{191}\) Buck (1935) *CT I*, p. 21,c, 332-333,a, 333,2³. For additional attestations outside the database, see Plas & Borghouts (1998), p. 44.

\(^{192}\) Buck (1961) *CT VII*, p. 165,i, 167,b.

database, there are 31 attestations where "si is actually used as a verbal form. In the majority of the attestations (23), "si is used as a stative. There are five attestations where "si is used as a sdm.n-f, and two attestations for both a sdm-f and participle. The graphical form of the stem is relatively stable, as one can see in table 6.33:

<table>

Table 6.33 Graphical forms of the stem of "si.

As one can see in this table, the graphical form of the stem is relatively stable. In the majority of the attestations the interpretant G1 (𓄿) is added, and only rarely is there a classifier added. Based on these attestations, there does not seem to be a regional preference for writing "si, when used as a verbal form.

Appendix 6.36. "sb (to create)

This is a rare lemma, currently only attested in one witness, M4C. In the database, this verb occurs twice. According to van der Molen, there might be another attestation in B2L, although that might not be the same verb. For M4C, the graphical form does not vary, and it consistently uses the same stem, M43-D58 (see figure 6.3).

However, this lemma could be considered unique to Meir, although this assumption would be based on one witness, and could simply be a feature of this witness, rather than a regional feature.

Appendix 6.37. "pr (to acquire, to provide, to equip)

The lemma "pr occurs relatively often, with 98 attestations in the database. However, as this lemma occurs as a substantive and adjective as well, there are only 78 attestations where "pr is used as a verb form. Note that the instances of the Aa20 (𓂍) only reflect a standardisation of the graphemes used in

</table>

Table 6.34 Graphical forms of the stem of ‘pr.

The major variation between the forms is the use of only the Aa20 or the addition of the Y2 (𓏝) classifier. In Aswan and Gebelein there are no attestations of the use of the Y2 classifier. The witnesses A1C, G1T and G2T, which provide these attestations should be considered a group, as they represent a southern Egyptian school of artists in the First Intermediate Period, together with T3C.<sup>203</sup> The fact that both Aswan and Gebelein do not have the Y2 classifier supports that grouping. However, as one can see in form 12, the Y2 classifier is used in the Theban area by T1L. As this witness is dated to the reign of Mentuhotep II-III,<sup>204</sup> it is possible that the complete absence of the Y2 in the form is only limited to Aswan and Gebelein.

In Deir el-Bersha it is possible to use the Y2 classifier or leave it out, although the addition of the Y2 is more likely than the absence. Moreover, witnesses that are dated to the late 11th dynasty and the early

---

<sup>200</sup> Note that this form is reconstructed, based on traces visible on a support de Buck did not see himself.

<sup>201</sup> Note that the Aa20C is a placeholder for an unusual variant of this sign, see Buck (1935) CT I, p. 86,c (S11C).

<sup>202</sup> Note that this is a placeholder for an unusual variant of this sign, see Buck (1935) CT I, p. 86,c (S10C).

<sup>204</sup> Willems (1988) p. 115.
12th dynasty\textsuperscript{205} are more likely leave the Y2 classifier out.\textsuperscript{206} Asyut and Meir do not seem to have a specific preference.

Appendix 6.38. \Grave{f}\^{h} (to smash, to crush)\textsuperscript{207}

The lemma \Grave{f}\^{h} is relatively rare, with only eleven attestations, of which ten come from the same phrase.\textsuperscript{208} As table 6.35 shows, the form of the stem can be highly variable, to the extent that form 6 and 7 are technically no longer the same word. However, as \Grave{f}\^{h} does not seem to exist as a lemma, it was considered a corruption of \Grave{f}\^{h}. Same principle was applied to form 6, even though a noun \Grave{s}\textsuperscript{f} (gluttony, glutton) does exist.\textsuperscript{209}

</tbody>
</table>

Table 6.35 Graphical forms of the stem of \Grave{f}\^{h}.

For this lemma, there does not seem to be any regional preference, as the variation originates only in the use of a classifier. Witnesses from Deir el-Bersha are more likely to use the F51 (\textbf{𓄹}) as a classifier.\textsuperscript{210} However, as this occurs in the Theban area as well, it might be a personal choice of the artist.

\textsuperscript{205} B2Bo and B3Bo, see Willems (1988), p. 70-74.
\textsuperscript{206} For form 5 only three of the eight attestations do not belong to this group (B16C and B1L), where there is only one attestation of B2Bo with form 9.
\textsuperscript{207} Molen (2000), p. 70.
\textsuperscript{208} Buck (1935) CT I, p. 30,b, 330,b, occurs only in one witness, S2C, where it seems to be a corruption of \textit{di-i f}\textsuperscript{w} (I give splendour), see S1C.
\textsuperscript{209} However, as this occurs in S10C in connection with the testicles of Seth and in a \textit{sdm.n-f}, considering this a corruption in comparison to the other witnesses would be preferred here. As this form has a D40 (\_\_) classifier, it is necessary to read the D36 (\_\_), which is why it cannot be considered a variant of lemma \textit{sfi}, see appendix 6.4.
\textsuperscript{210} Note that the difference between form 3 and 4 only rests in the orientation of the F51.
Appendix 6.39.  ꜜn (to cover, to be covered) \(^{211}\)

The lemma ꜜn is in the database only attested in one phrase, \(^{212}\) where it is attested for six witnesses. As one can see in table 6.36, variation lies mostly in the use of a classifier, and which classifier is used. Note that form 4 represents a corruption, as the N35 ( _) is lost. \(^{213}\) However, based on the classifier it can be assumed that the lemma ꜜn is intended here, rather than the verb ꜗ (to squeeze). \(^{214}\)

</tbody>
</table>

<table>
<thead>
<tr>
<th>Graphical form stem</th>
</tr>
</thead>
<tbody>
<tr>
<td>ꜜ</td>
</tr>
<tr>
<td>ꜛ</td>
</tr>
</tbody>
</table>

Table 6.36 Graphical forms of the stem of ꜜn.

With the exception of form 2, all the variants with a classifier use some variant of T12 (𓌗), which seems to be influenced more by the type of script used in the witness, instead of intentionally using a graphical variant of the sign. However, form 3 seems to be the preferred form of this lemma, as it is attested outside the database in Asyut as well. \(^{215}\) In the database, form 2 seems to only occur in Meir, but is attested in Deir el-Bersha as well. \(^{216}\) Thus, there does not seem to be a regional preference for this lemma.

Appendix 6.40.  ꜐m (to swallow, to devour, to absorb) \(^{217}\)

In the database, this lemma is attested thirteen times. \(^{218}\) For these attestations the verb is constantly used as an imperfective participle, as it is used in the name of divinities: ‘the one who swallows ...’. For this lemma, the variation is limited to the use and position of the classifier (see table 6.37).

---

\(^{212}\) Buck (1954) CT V, p. 158,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 52.
\(^{213}\) Moreover, the classifier was only added after the first-person stative ending in the original (A1C), rather than before it.
\(^{214}\) Molen (2000), p. 70 added ꜜ as a separate entry, which refers to ꜜn.
\(^{215}\) Buck (1938) CT II, p. 132,b (S1C).
\(^{216}\) Buck (1938) CT II, p. 4,b (81Bo).
\(^{218}\) Buck (1951) CT IV, p. 217,d-e, 314,b, 314,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 52.
The majority of the attestations use the A2 (𓀁) classifier. Meir both has one attestation without a classifier, and one where the A2 has been written next to the G17 (𓅓). However, it would be assumptive to suggest more freedom in Meir, as the absence or the placement of the A2 could be simply due to the amount of space available, rather than any specific pattern. Moreover, the absence of a classifier is attested in Deir el-Bersha as well,\(^{219}\) as is form 2.\(^{220}\) Even so, the long format of form 3 is the preferred form for this lemma in most regions. Note that outside the database it is possible in Deir el-Bersha to use a Y2 (𓏝) classifier as well.\(^{221}\)

The use of the F20 (𓄓) as classifier in the Theban area could suggest a unique feature. However, as this is based on the witness T1Be, which prefers to write the hieroglyphs clustered together,\(^{222}\) it might have been a choice by the artist to use a sign which could form around the next word, and use less space. On the other hand, the F20 classifier is attested outside the database in T2Be as well.\(^{223}\)

**Appendix 6.41. ḫn (to entwine, to bind up)**\(^{224}\)

This lemma is rare in the database, with nine attestations that all occur in the same phrase.\(^{225}\) The following table (table 6.38) shows the variations in the stem. As this verb is a *2ae gem* lemma and gemination occurred, distinction was made between gemination and no gemination in the table.

\(^{219}\) Buck (1938) *CT II*, p. 341,b (B9C).
\(^{221}\) Buck (1938) *CT II*, p. 12,g (B1C, B1P, B2L).
\(^{222}\) See Buck (1951) *CT IV*, p. 314,a-b (T1Be), where the final sign of IV,314,a is actually written in front of the D36:M17 group of ḫm in the column.
\(^{223}\) Buck (1956), p. 145,d (T2Be).
\(^{224}\) Molen (2000), p. 73.
\(^{225}\) Buck (1938) *CT II*, p. 401,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 53.

<td>2</td>
</tr>
<tr>
<td></td>
<td>Deir el-Bersha</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Asyut</td>
<td>1</td>
</tr>
</tbody>
</table>

As one can see, the use of the V1 (𓇛) classifier is completely stable. Beni Hasan seems to add a M29 (𓇛) to the classifier group, but this is based on de Buck, and not yet validated with the original. Thus, the M29 might be an interpretation by the author, rather than the correct sign. Nonetheless, the sole attestation of this verb in the database from Beni Hasan adds an additional feature to the classifier. However, it might be a unique feature of this witness (BH2C), as another attestation outside the database does not have it.  

For the current attestations in the database, it could be suggested that the use of the M22*M22 group (𓇒) could be considered a feature of Meir. However, outside the database the use of M22*M22 group occurs as well in Deir el-Bersha and in P.Gard.2. Thus, there do not seem to be any regional preferences for this lemma.

Appendix 6.42. ‘nn (to turn back, to bring back, to wring)  

This lemma is extremely rare, as it occurs three times in the database. As it only occurs once in Deir el-Bersha, Beni Hasan and the Theban area, it is not possible to make meaningful claims for regional preference. Moreover, form 2 shows that it the spelling could be identical to ‘nn in 0. In table 6.39 one can see the three different graphical forms:

\[\text{Graphical form stem} \quad \text{Region} \quad \text{Attestations} \]

1. Theban area 1
2. Meir 1
3. Beni Hasan 1
4. Deir el-Bersha 4
5. Meir 1
6. Asyut 1

Appendix 6.43. ūnh (to live)\textsuperscript{230}  

The lemma of ūnh is relatively common, with a total of 347 attestations. However, as was the case with Ṇsi (see appendix 6.35), a large number of these attestations are actually substantives or adjectives.\textsuperscript{231} In the database, there are a total of 183 attestations where this lemma is used as a verb form.\textsuperscript{232} In table 6.40, one can see that the majority of the graphical forms are either form 3 or form 4, which is simply a variation between a long format and a compact format. Form 1 is a rare spelling, in which the word is written phonetically.

\hline
\end{tabular}
\caption{Table 6.40 Graphical forms of the stem of ūnh.}
\end{table}

\textsuperscript{230} Molen (2000), p. 73.

\textsuperscript{231} Although it could be argued that the border between a participle and a substantive for this lemma is extremely vague.

\textsuperscript{232} Buck (1935) CT I, p. 61,c, 62,f, 79,d-e, 88-89,b, 89,e, 393,f; Buck (1938) CT II, p. 68,a, 71,a, 77,c, 391,b, 391,e, 394-395,c-a, 396,b, 397,a, 398,d, 398,e-f; Buck (1947) CT III, p. 178,c, 234-235,a, 236-237,a; Buck (1951) CT IV, p. 312,c, 313,c, 320,b, 321,a; Buck (1954) CT V, p. 1,a.

\textsuperscript{233} Note that the ZAA ( ) represent filler strokes here, as this witness (SSC) prefers to use strokes to fill empty spaces.

\textsuperscript{234} P.Gard.2 and Pap.Berl.
Although it is based on the position of the S34 (𓋹), there does seem to be some regional preferences. In Asyut the compact format of form 2 does occur, but it is relatively rare, as it only has three attestations versus 24 attestations of the long format of form 4. Thus, there seem to be a clear preference for the long format in Asyut. This preference would support the suggestion that Y1C originates from Asyut, as it only uses the long format. However, the majority of the attestations in P.Gard.2 and Pap.Berl use form 2, while they are suggested to originate from Asyut as well. Thus, although using the long format in Asyut might be the case for coffins, it does not seem to apply for papyri.

Although not bound to a single region, there seems to have been a preference for using the compact format (form 3) in Saqqara, el-Lisht and Gebelein. In Beni Hasan likewise there seems to have been a preference for the compact format, although the long format occurred there as well. The same is the case for witnesses from Meir, which have a clear preference for the compact writing, although the long format occurs twice. With 42 attestations, it is clear that the preference in Deir el-Bersha lies with the compact format. However, as the long format is attested 26 times as well, there seems to have been some freedom in Deir el-Bersha. In the Theban area there is no preference in the graphical form, as the attestations of form 2 and 4 are about the same.

Appendix 6.44. 𓉫 (to swear)

This is a unique lemma, which only occurs once in the database. Due to the use of a A2 (𓉫) classifier (see figure 6.4), it is clear that it should not be read as 𓉫 (to live; see appendix 6.43). The sole attestation comes from Meir (M1NY), but it is possible that it is a corruption, as all the other witnesses use 𓉫 (to live) in the phrase. However, when the classifier is not taken into regard, it follows the preference of Meir to use a compact format for 𓉫 (see appendix 6.43).

Appendix 6.45. 𓉫 (to mount up, to ascent, to approach)

The lemma 𓉫 is attested 22 times in the database. Note that there is overlap for this lemma with 𓉫 (see appendix 6.20), as they are functionally similar, and for example in I,44,d and II,76,b, where both lemmas are used by the witnesses. In table 6.41, the attestation per region are set out for every graphical form of the stem:

---

237 Buck (1951) CT IV, p. 312,c.
238 It is possible the A2 was added as a clarification that the god who is discussed here does not ‘lives in butchery’ (location), but rather ‘lives through butchery’ (agency), as if the god is nourished by it. In this case, it would fall under 𓉫 (to live) instead.
240 Buck (1935) CT I, p. 44,d, 358,b; Buck (1938) CT II, p. 76,b; Buck (1951) CT IV, p. 91,l.
241 In I,44,d, T9C, there is even a case where both 𓉫 and 𓉫 are used in the same phrase, where the other witnesses usually use one or the other.
As one can see in the table, the graphical form of this lemma is surprisingly stable. The use of the D54 (𓍁) classifier only occurs Deir el-Bersha. In general, this lemma is only rarely used outside Deir el-Bersha, as both attestations of Asyut are dubious and the occurrence of form 2 in the Theban area seems to be an exception, as the other witnesses from the Theban area use the lemma ỉr instead in the same phrase. Based on this, it could be argued that the use of ỉr over ỉr might be a preference of Deir el-Bersha. However, in the attestations of this lemma in Gracia Zamacona, which includes all attestations of this lemma in the Coffin Texts, it becomes clear that ỉr is used in other regions as well.

Appendix 6.46. ToEnd of {End of} 246

This lemma is relatively common, as it is attested 155 times in the database. However, in the same manner as -cols, the lemma is often used for substantives and is only attested 30 times as a verb form. Note that it was attempted to correctly represent the different graphical forms of D34 (𓍂), and that the exact form should not be considered important. Due to the varied type of script used in most witnesses, the distinctions in the different classes of D34 are usually not clearly visible. In table 6.42, one can see that form 2 is completely unique. This form represents a unique spelling of ỉh as ihn, which is currently only attested in Beni Hasan. However, as this is based on only one witness (BH1Br), the current data is not sufficient to suggest that this only occurs in Beni Hasan.

---

242 Buck (1935) CT I, p. 44,d (S10C), the Aa1 (𓍁) is assumed to be a corruption of a D21 (𓍁—).  
243 Buck (1935) CT I, p. 44,d (S10C), reconstructed, no longer visible, so the spelling or graphical form might have been completely different.  
244 Buck (1935) CT I, p. 44,d, see appendix 6.20 for more details.  
245 Gracia Zamacona (2008), p. 264-274. Note that he did not make any distinction between ỉr and ỉr.  
247 As for example fighter, battlefield and warship were added under this lemma in the database, instead of receiving their own lemma.  
248 Buck (1935) CT I, p. 19,c, 325-327,d-a; Buck (1951) CT IV, p. 234-235,b, 292,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 55.  
249 A class is considered a group of graphemes with similar iconic features, see Polis (2020) About That Sign List (TSL). Goal, datamodel and audience of TSL, http://thotsignlist.org/About (accessed 29-06-2020). The new grapheme was made by myself for the TSL, and is currently not yet part of the repertoire of Jsesh.  
250 Note that although it is spelled ih or ỉh here, ihn is the more common form of this lemma for the substantive forms in BH1Br.

Table 6.42 Graphical forms of the stem of 𓆢𓄙.

The use of the D40 (𓆢) classifier is less common than the A24 (𓀜), which is rather remarkable, as the A24 takes up a lot more space in the column than the D40 would. The use of the D40 classifier in Saqqara needs to be discounted however, as it is a reconstruction (Sq8Sq).\(^{251}\) The other two attestations from Saqqara do not have any classifier, which is the case in el-Lisht as well. Thus, it could be suggested that that for the most northern attestations of this lemma in the Coffin Texts, there could be a preference for not using a classifier at all, as the other regions like Deir el-Bersha and the Theban area can occur with and without classifier. In Meir however, all the attestations have some sort of classifier attached,\(^{252}\) although the exact form may vary. Thus, it seems that the use of a classifier is preferred in Meir.

The use of the G1 (𓆢) interpretant occurs once in Meir and the Theban area. However, it seems to represent a personal preference of the artist. The use of the humanoid figure in form 1 is extremely rare, and seems to represent an interpretation of de Buck, instead of a distinct separate sign.\(^{253}\)

\(^{251}\) This witness is one of the witnesses with spell 335 which de Buck added separately, as they are extremely fragmentary. However, the reconstruction was not completely random, as the substantive of 𓆢𓄙 of IV,232,b, see Buck (1951) CT IV, p. 408, is actually written with a D40 classifier.

\(^{252}\) Including form 4, as I consider the Z1 (𓏤) a classifier here.

\(^{253}\) Buck (1935) CT I, p. 19,c (MC105), de Buck added a sic to this sign, and it seems that it might have been a corruption of the D34 instead, where the weapon was turned into two legs.
Appendix 6.47. 𓊴 (to stand, to rise up)\textsuperscript{254}

This lemma is occurs relatively often, as it was attested 82 times\textsuperscript{255} in the database when used as a verbal form.\textsuperscript{256} In table 6.43, one can see that form 4 is most common, as it is attested 61 times. The use of a classifier is relatively rare, but can occur. Additionally, there are many unique spellings as well.

Table 6.43 Graphical forms of the stem of ‘𓊴’.

One of the features that might reflect a regional preference is the use of the D54 (𓊴) classifier which is attested in Deir el-Bersha, Meir and the Theban area. However, form 6 occurs only in Deir el-Bersha, whereas Meir and the Theban area only use the classifier when there is no D36 (𓊴) before the P6 (𓊨). Thus, the combination of the classifier and an initial D36 seems to be unique to Deir el-Bersha, although the form without an initial D36 occurs once as well (form 9). Additionally, the use of the D54 classifier seems to only occur in witnesses from Amenemhat II onwards,\textsuperscript{257} and thus might represent a development over time.

\textsuperscript{254} Molen (2000), p. 77.

\textsuperscript{255} In total there are 114 attestations, but 32 of these attestations are substantives.

\textsuperscript{256} Buck (1935) \textit{CT I}, p. 14,b, 25,a, 25,b, 26,b, 330-331,a, 386,b, 405,d; Buck (1947) \textit{CT III}, p. 17,c, 186,b, 248-249,d; Buck (1951) \textit{CT IV}, p. 278,c, 279,d, 281,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 56 and Gracia Zamacona (2008), p. 275-327.

\textsuperscript{257} The use of a D54 classifier occurs in B1C, B5C, B15C, B17C, B1Y, M4C, T1Be, T2Be and T2L. Only T2L is slightly earlier, as Willems (1988), p. 115, dates it to a period between Sesostris I and Amenemhat II.
The use of humanoid signs as classifiers or phonemograms is rare, and only occurs once in the Theban area and twice in two witnesses which are believed to be from Asyut.\textsuperscript{258} It would be assumptive to base a claim on only three witnesses, but for the lemma \( \textit{ḫm} \) the use of a humanoid sign would not support the suggestion that Pap.Berl. and Y1C originate from Asyut.

The use of P7 (𓊣) is only attested twice, once in Deir el-Bersha (form 12) and once in Aswan (form 7). The use of this grapheme seems not to be a regional preference, but rather a feature of the writing style and amount of space available to the artist.

For this lemma, there are only a few signs of regional preference, with fuzzy borders. There is a distinct form where there is an initial D36 when the classifier D54 is used, which only occurs in Deir el-Bersha. However, the use of D54 on its own occurs in Meir and the Theban area as well. The lack of an initial D36 does occur in multiple regions, but is most common in witnesses from the Theban area.

**Appendix 6.48. \textit{ḥm} (to extinguish, to quench)\textsuperscript{259}**

In the database, this lemma occurs 27 times.\textsuperscript{260} As one can see in table 6.44, the graphical form of this lemma is remarkably constant over the various regions.

<table>

</table>

Table 6.44 Graphical forms of the stem of \textit{ḥm}.

Form 2 should be considered the same as form 1, as the only variation is the orientation of the classifier. This alternative orientation is due to the fact that in I,378,a, S1C is written oriented to the right, rather than to the left. This causes certain signs, like the V31A (𓎚) to be written as the V31 (𓎚), even if the witness would normally use V31A if the writing was oriented to the left. Thus, the orientation of the glyphs should not represent a regional pattern.

Even though the graphical form of the attestations is relatively constant, there are two attestations from the Theban area that add a M17 (𓇋) or replace the D36 (𓂝) with a M17. It could be suggested that this is

\textsuperscript{259} Molen (2000), p. 78.
\textsuperscript{260} Buck (1935) CT I, p. 21,b, 378-379,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 56.
a preference of the Theban area, but outside the database there is an attestation from Meir as well. Nonetheless, it is clear that the Theban area is more likely to use the M17 with this lemma, although it is rarely the preferred form.

Appendix 6.49. ʿḫi (to fly, to fly away)

The lemma ʿḫi is attested eleven times in the database, although all attestations come from the same phrase in spell 335. As one can see in table 6.45, there are three different graphical forms, which vary based on the classifier.

</tbody>
</table>

Table 6.45 Graphical forms of the stem of ʿḫi.

The use of G40 (𓊴) occurs in one witness (M1NY), but this is rather due to the type of script used in this witness. Whereas the other witnesses use a near hieratic cursive script, M1NY is much closer to hieroglyphic. In hieratic, it is nearly impossible to differentiate between G40 and G41 (𓊵), thus it could be argued that the other witnesses might have intended to use the G40, but it can no longer be recognised as such. The additional classifier D54 (𓂻) only occurs in Meir and the Theban area, which could suggest that this only occurred in the southern regions of Egypt. However, this suggestion might be assumptive, as there are no additional attestations of this lemma in the Coffin Texts.

Appendix 6.50. ʿz3 (to be numerous, to be many)

This lemma is attested 25 times in the database, but the majority of these attestations are substantive. Only in six attestations is it used as a verb, in a ḫfr-ḫr construction. The variation in the spelling is relatively limited, with only three different forms attested (table 6.46):

---

263 Buck (1951) *CT IV*, p. 310,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 56.
264 Fischer (1976), p. 41, fig. 4, type 3b-4.
265 See appendix 1 for more detail.
266 Möller (1909), p. 21, no. 221 and no. 222.
268 Buck (1938) *CT II*, p. 90,b, 90,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 57.
Based on this table, one can assume that Meir prefers only the use of the I1 (𓆈), where Deir el-Bersha can use a variety of graphical forms. However, when compared to the stem of a substantive,\textsuperscript{269} it becomes clear that Meir can include the interpretant G1 (𓄿). However, the use of the phonetic spelling (form 1) is only attested in Deir el-Bersha, even though it occurs in P.Gard.4 as well, although the I1 is included in this witness.\textsuperscript{270} The complete absence of the I1 is only attested in Deir el-Bersha, while a Y2 (𓄲) classifier can be included in Deir el-Bersha.\textsuperscript{271}

Appendix 6.51. 𓄨 (to enter)\textsuperscript{272}

The lemma 𓄨 is attested 122 times in the database.\textsuperscript{273} In table 6.47, the different graphical forms of 𓄨 are set out. Note that in form 4,\textsuperscript{274} the G1 (𓄿) is considered to be a corruption of a G35 (𓄲).\textsuperscript{275} Alternatively, it could be the lemma 𓄨 (to be accurate), although it would be the only attestation of that lemma in the database.\textsuperscript{276}

\begin{table}[h]

\textsuperscript{270} Buck (1956) CT VI, p. 139,i (P.Gard.4).
\textsuperscript{271} Buck (1951) CT IV, p. 145,d (B2L).
\textsuperscript{272} Molen (2000), p. 80.
\textsuperscript{273} Buck (1935) CT I, p. 141,a, 142,e, 144,c, 144,g, 387,a, 399,b; Buck (1938) CT II, p. 266,e, 273,d-f, 288-289,b; Buck (1947) CT III, p. 239,b; Buck (1951) CT IV, p. 268-269,d, 271,d, 278-279,a, 290-291,c, 306,a, 323,b, 326,j, 326,k. For additional attestations outside the database, see Plas & Borghouts (1998), p. 57 and Gracia Zamacona (2008), p. 329-385.
\textsuperscript{274} See Buck (1951) CT IV, p. 269,d (T3Be).
\textsuperscript{275} Which is not impossible due to the near hieratic cursive script this witness (T3Be) uses.
\textsuperscript{276} Although it occurs often enough in the Coffin Texts, see Molen (2000), p. 80.
As one can see above, most of the graphical variants are used in multiple regions, and there might be a regional preference, but only to the extent that one graphical form occurs more in one region than the other. For example, Deir el-Bersha uses form 2, 3, 5, 6 and 8, but form 3 and 8 are attested the most. However, in Asyut there is a clear preference to use either form 6 or 8.

As Table 6.47 shows, there are only two graphical forms, which vary based on the addition of the G1 (𓀡) interpretant. Although the table suggests that the absence of the G1 only occurs in Deir el-Bersha, it occurs in other regions as well.

Appendix 6.52.  w3i (to be far)

This lemma has eight attestations in the database, from the same phrase of spell 20. As table 6.48 shows, there are only two graphical forms, which vary based on the addition of the G1 (𓀡) interpretant. Although the table suggests that the absence of the G1 only occurs in Deir el-Bersha, it occurs in other regions as well. Note that outside the database the D54 (𓉩) classifier can be added in Deir el-Bersha.

---

277 Note that this attestation, Buck (1935) CT I, p. 399,b (M23C) is reconstructed, and could therefore be spelled differently as well.
278 It is possible that additional graphical forms that do include the D36 or N29 exist in Asyut, but were not covered by the spells currently encoded in the database.
279 Molen (2000), p. 82.
281 Buck (1938) CT II, p. 143,g (S1C, S2C, G2T).
and Asyut as well. However, as there are no features that is unique to one region, it seems unlikely that there is a regional preference for this lemma.

<table>

<td>4</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.49 Graphical forms of the stem of \( w3\hat{h} \).

In the database it seems that the Y2 (𓏝) classifier only occurs in Deir el-Bersha. However, outside the database, the Y2 classifier is attested in Asyut and Meir as well. The use of the G1 (𓄿) interpretant occurs only in Asyut in the database, but occurs in other regions outside the database as well. In the database it seems that only in Deir el-Bersha the V4 (𓇽) phonogram can be left out (form 1), but outside the database this occurs in other regions as well. However, it needs to be noted that in Asyut the V4 phonogram is always added for this lemma.

---

282 Buck (1938) CT II, p. 45,d (B1C); Buck (1951) CT IV, p. 57,j (B3L); Buck (1956) CT VI, p. 215,j (SSC).
285 Buck (1947) CT III, p. 63,c (M57C); Buck (1951) CT IV, p. 170,c (S2C).
286 Buck (1935) CT I, p. 128,b (B4L, B13C).
287 Buck (1935) CT I, p. 134,e (L2Li); Buck (1956) CT VI, p. 130,c (M3C).
Appendix 6.54. \textit{w3d} (to be green, to be fresh, to cause to flourish)\textsuperscript{288}

This lemma has 22 attestations in the database, but only nine represent verbal forms.\textsuperscript{289} In table 6.50, the attestations per region are set out for every graphical form of the stem. Note that as de Buck corrected every M13A (𓊍) into a M13 (𓊍), it was only possible to distinguish between the two classes of the same sign in the attestations which were seen by the author. Therefore, the variation between these two classes of the same sign should not be considered relevant.

</tbody>
</table>

Table 6.50 Graphical forms of the stem of \textit{w3d}.

In the database, it seems that only in Meir and the Theban area the M13/M13A can be used without interpretants or classifiers. Outside the database this is attested in Deir el-Bersha.\textsuperscript{290} The use of the M14 (𓊍) is only attested in Deir el-Bersha and the Theban area. There do not seem to be any other regional features for this lemma, although it is possible to write this lemma phonetically with a V4 (𓊍) phonemogram outside the database.\textsuperscript{291}

Appendix 6.55. \textit{wai} (to be alone, to be unique)\textsuperscript{292}

This lemma is relatively common in the database, with 191 attestations. However, the majority of these attestations are adjectives or substantives, with only 46 attestations representing verbal forms.\textsuperscript{293} In table 6.51, the attestations per region are set out for every graphical form of the stem:

\textsuperscript{288} Molen (2000), p. 85.
\textsuperscript{289} Buck (1951) \textit{CT IV}, p. 316,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 61.
\textsuperscript{290} Buck (1947) \textit{CT III}, p. 72,c (B2L).
\textsuperscript{291} Buck (1947) \textit{CT III}, p. 72,c (B3Bo, T1L); Buck (1954) \textit{CT V}, p. 386,b (B1Bo).
\textsuperscript{292} Molen (2000), p. 87.
\textsuperscript{293} Buck (1935) \textit{CT I}, p. 334,c, 374-375,d; Buck (1951) \textit{CT IV}, p. 184,d, 186-187,a; Buck (1954) \textit{CT V}, p. 154,f. For additional attestations outside the database, see Plas & Borghouts (1998), p. 65.
For this lemma, the use of the T21 (𓌡) alone seems to only occur in Asyut when used as a verbal form, although in Asyut it is more common outside the database to use form 1. Form 2 is only attested in Meir and the Theban area, which is true outside the database as well. In the database, it seems that the G37 (𓅪) classifier is only used in Meir (form 3), but outside the database this is attested in Deir el-Bersha as well. Nonetheless, it seems that form 1 and form 4 are the preferred forms for this lemma in all regions.

### Appendix 6.56.  \(w^\text{b}(\text{to purify, to be pure})\)

In the database, there are 71 attestations of this lemma. However, only 51 of these attestations represent verbal forms. In table 6.52, the attestations per region are set out for every graphical form of the stem:

---

_Buck (1938) CT II, p. 33,e (B2L)._  
_Molen (2000), p. 88._  
_Buck (1935) CT I, p. 61,b, 61,d, 62,c, 62,g; Buck (1951) CT IV, p. 210-211,b, 324,c, 326,a-b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 66._

</table>

For this lemma, there does not seem to be a regional preference, as most features are attested in multiple regions. Even though the database suggests that in the Theban area the N35A (𓊫) classifier is constantly added, outside the database the lemma can leave it out as well.\(^{298}\)

\(^{297}\) Buck (1935) *CT I*, p. 21.d (T9C). Note that this is the only attestations of this lemma in the database which received a *i*. prefix.

Appendix 6.57. \( w^r \) (to flee, to move quickly)\textsuperscript{299}

In the database there are eleven attestations of this lemma, from the same phrase in spell 398.\textsuperscript{300} In table 6.53, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>

<tr>
<td>5</td>
<td>Meir</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.53 Graphical forms of the stem of \( w^r \).

In the database it seems that the D54 (𓊌) classifier only occurs in Meir, but outside the database it is attested in Deir el-Bersha\textsuperscript{301} and Asyut as well.\textsuperscript{302} Thus, it seems unlikely that there is any regional preference for this lemma, although Gebelein seems to prefer a compact format (form 1).

Appendix 6.58. \( wb^3 \) (to drill, to open)\textsuperscript{303}

In the database, there are 26 attestations for this lemma.\textsuperscript{304} In table 6.54, the attestations per region are set out for every graphical form of the stem:

---

\textsuperscript{299} Molen (2000), p. 88-89.

Table 6.54 Graphical forms of the stem of *wbA*.

The use of the G43 (𓊢) phonemogram is only attested in Beni Hasan in the database. However, it occurs in other regions outside the database as well.\(^{306}\) In the database, the addition of the G1 interpretant is only attested in Deir el-Bersha (form 11), but it occurs in Meir as well.\(^{307}\) Furthermore, it seems that Gebelein and Aswan only use form 7, but outside the database form 8 is used in these regions as well.\(^{308}\) The Y2 (𓊥) classifier is only attested in Deir el-Bersha in the database, but occurs outside of it in the Theban area as well.\(^{309}\) Finally, the use of N2 (𓊤) or one of its classes to replace the U26 (𓊞) is only attested in Deir el-Bersha and Asyut, and only rarely. Thus, except in the exact form of the U26 or its variants there might be a regional preference, for example with form 5 and 6 in Asyut. There do not seem to be any additional regional features for this lemma.

---

\(^{305}\) Buck (1938) *CT II*, p. 273,g-h (S1C,b). The sign used should be considered a class of U26 (𓊞).

*\(^{311}\)* Buck (1935) *CT I*, p. 29,a, 54,a, 114,c, 115,a; Buck (1951) *CT IV*, p. 186,c, 187,d-f, 292-293,c, 294-295,a, 296-297,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 67 and Gracia Zamacona (2008), p. 397-411.

*\(^{312}\)* Buck (1935) *CT I*, p. 114,c (T1L,a). Due to the N8 (𓇶) classifier I assume the w was lost.
Table 6.55 Graphical forms of the stem of *wbn*.

Although the graphical form is highly varied in this lemma, there does not seem to be a clear regional preference. The use of the $H8$ ($\𓇶$) occurs in Deir el-Bersha and the Theban area (form 2, 3, 4, 11, 12, 13 and 16), but is more likely to be added in Deir el-Bersha than the Theban area. In the database it seems that Asyut only uses form 15, but outside the database form 7 is used as well.\(^{314}\) Form 19 only occurs in el-Lisht, but represents a feature of the witness (L2Li), rather than a regional feature.\(^{315}\)

**Appendix 6.60.  *wpi* (to divide, to open)\(^{316}\)**

In the database, there are 78 attestations of this lemma.\(^{317}\) In table 6.56, the attestations per region are set out for every graphical form of the stem:

\(^{313}\) Buck (1935) *CT I*, p. 115,a (B13C). Due to the N8 ($\𓇶$) classifier I assume this is a variation of form 7.

\(^{314}\) Buck (1938) *CT II*, p. 314,b (S3C).

\(^{315}\) Even though the use of partial hieroglyphs for the hieroglyphs of animates is only attested in el-Lisht (L1Li, L2Li).

\(^{317}\) Buck (1935) *CT I*, p. 34,a, 74,i, 340,b, 342,b, 356-358,d-a; Buck (1947) *CT III*, p. 179,d, 179,e, 180,b, 180,c, 181,a, 219,c; Buck (1954) *CT V*, p. 134,a, 139,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 67.
In the database, the Z9 (𓏴) classifier is only attested in Deir el-Bersha and Meir. However, outside the database this classifier occurs in Saqqara and the Theban area as well.\(^{318}\) The combination of the Z9 and Y2 (𓏝) classifier is only attested in Deir el-Bersha in the database, but occurs in Meir as well.\(^{319}\) Form 4 only occurs in Deir el-Bersha and seems to be unique. However, it is possible that the N31 (𓈐) is not a classifier, but rather an erroneous addition, as this lemma often occurs in combination with ws.t (road).\(^{320}\) The use of the G43 (𓅱) in the initial position is limited to Deir el-Bersha, Meir and P.Gard.2 in the database, but as it occurs in Gebelein as well,\(^ {321}\) therefore it cannot be considered a regional feature.

### Appendix 6.61. \textit{wpS} (to scatter light, to illuminate)\(^ {322}\)

There are 42 attestations in the database for this lemma.\(^ {323}\) In table 6.57, the attestations per region are set out for every graphical form of the stem:

\begin{table}[h]

Table 6.57 Graphical forms of the stem of wpš.

For this lemma, the F13 (𓄋) is not written in Gebelein and Aswan. However, there are no additional attestations of this lemma from these regions in the Coffin Texts to verify whether this is a regional preference of the two southernmost regions. Moreover, the use of the G43 (𓅱) seems to only occur to the south of Meir in the database (form 6-9). Outside the database this is attested in Deir el-Bersha as well.\(^{324}\) The use of the Y2 (𓏝) classifier is only attested in Deir el-Bersha.

Appendix 6.62. \textit{wn} (to open)\(^{325}\)

This is a common lemma in the database, with 197 attestations.\(^{326}\) In table 6.58, the attestations per region are set out for every graphical form of the stem:

\(^{324}\) Buck (1956) \textit{CT VI}, p. 382.j (B1C). Note that it is technically written as wpš here, as if the artist was trying to write psš (to divide; see appendix 6.93). However, reading wpš makes more sense in this phrase.

\(^{326}\) Buck (1935) \textit{CT I}, p. 11,a, 40,d, 56,a, 57,c, 75,d; Buck (1938) \textit{CT II}, p. 72,b-c, 75,a, 89,b, 91,b, 255,a, 255,c, 256,b, 256,c, 256,e, 268-271,f-c, 270-271,d, 392,b; Buck (1947) \textit{CT III}, p. 212,e, 214-215,b, 214-215,c, 215,f-g, 218-219,b; Buck (1954) \textit{CT V}, p. 1,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 68.

Table 6.58 Graphical forms of the stem of \( wn \).

Although the clear majority of the attestations are form 2, which is used in nearly all other regions, there are some features that could be considered a regional preference. The use of the M42 (𓇬) is only attested in el-Lisht and Deir el-Bersha (form 7). Moreover, el-Lisht only uses this form for this lemma, as the E34 (𓉿) is not attested in this region for this lemma. Finally, using the O31 (𓈻) as logogram is only attested in Deir el-Bersha.

Appendix 6.63. \( wnm \) (to eat)

The lemma \( wnm \) has 133 attestations in the database. However, only 132 attestations represent verbal forms. In table 6.59, the attestations per region are set out for every graphical form of the stem:

---

327 Buck (1935) \( CT I \), p. 11,a, 56,a (T9C). As a \( sgm-nf \) does not make sense in these phrases, I assume this was an error in this witness.

329 Buck (1935) \( CT I \), p. 11,e, 76,c; Buck (1938) \( CT II \), p. 74,b, 75,b-c; Buck (1947) \( CT III \), p. 5,a, 12,c, 16,c, 17,a, 21,a, 175,b, 184,b, 185,c, 185,d, 234,a, 234-235,c, 236,a; Buck (1954) \( CT V \), p. 136,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 69.
In this lemma, the use of the A2 (𓀁) as logogram (form 1) is only attested in Deir el-Bersha. Moreover, although the use of the double X7 (𓏘) is attested in multiple regions, it is more likely to be used in Deir el-Bersha. The addition of the G17 (𓅓) interpretant seems to only occur in Deir el-Bersha. The use of the

---

330 P.Gard.2 and Pap.Berl.
331 However, this might be a feature of the overrepresentation of Deir el-Bersha sources in de Buck.
M17 (𓎊) as replacement classifier for the A2 is attested in Meir and the Theban area (form 11 and 22), but should be considered features of the supports (M2NY and T1Be), as the A2 is attested often enough in both regions. The use of the double X2 (𓏐) is only attested in Deir el-Bersha and Meir, although it is rare in both regions.

**Appendix 6.64. wnn (to be, to exist)**

This lemma is common in the database, with 209 attestations. In table 6.60, the attestations per region are set out for every graphical form of the stem. Note that this is a 2ae gem. lemma and gemination occurs. Therefore, the table was separated in gemination and no gemination.

Table 6.60 Graphical forms of the stem of wnn.

There is no clear regional variation for this lemma, although in the database the use of the M42 (𓇬) is only attested in Deir el-Bersha and el-Lisht. However, outside the database this occurs in the Theban area as well. Therefore, this variation from the E34 (𓃹) should not be considered a regional feature. Form 5 is a unique form, which only occurs in Deir el-Bersha, but is more likely to be a feature of the witness (B5C), as form 3 and 7 are the more common forms of this lemma in this support.

---

333 Buck (1935) CT I, p. 33,a, 52,d-e, 55,b, 78,a, 83,j, 140,g, 141,e, 393,b; Buck (1938) CT II, p. 89,b, 89,f; Buck (1951) CT IV, p. 88,c, 186-187,a, 200-201,a, 200-201,d, 203,e, 206-207,b, 207,c-d, 230-231,b, 262-263,a, 293,b, 298-299,b, 301,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 70.
334 Buck (1951) CT IV, p. 187,a (T3L). I assume the S43 (𓎊) is an error, and needs to be deleted.
335 Buck (1935) CT I, p. 276,a, (T9C).
Appendix 6.65. *wrr* (to be great)\textsuperscript{336}

This lemma is common in the database, with 442 attestations. However, most of these are adjectives or substantives, with only 54 attestations representing verbal forms.\textsuperscript{337} In table 6.61, the attestations per region are set out for every graphical form of the stem. Note that form 4 and 5 represent geminating forms.

</tbody>
</table>

Table 6.61 Graphical forms of the stem of *wrr*.

In this lemma, the A19 (𓀗) phonemogram is only used in Deir el-Bersha and Asyut. The use of the Y2 (𓏝) classifier is only attested in Deir el-Bersha, which is true outside the database as well. Form 3 is unique to el-Lisht, but should be considered a feature of the witness (L2Li), rather than a regional feature.\textsuperscript{338} Note that outside the database it is possible in Saqqara to only write the G36 (𓅨) phonemogram.\textsuperscript{339}

Appendix 6.66. *whn* (to overturn, to overthrow)\textsuperscript{340}

In the database there are fifteen attestations of this lemma.\textsuperscript{341} In table 6.62, the attestations per region are set out for every graphical form of the stem:

\begin{table}
\centering
\begin{tabular}{|c|c|c|c|c|}
\hline
Graphical form stem & no. & Region & Attestations & Graphical form stem & no. & Region & Attestations \\
\hline
\end{tabular}
\end{table}

\begin{table}
\centering
\begin{tabular}{|c|c|c|c|c|}
\hline
Graphical form stem & no. & Region & Attestations & Graphical form stem & no. & Region & Attestations \\
\hline
\end{tabular}
\end{table}

\textsuperscript{336} Molen (2000), p. 96.
\textsuperscript{337} Buck (1935) *CT I*, p. 16,c, 38,b, 38,c, 143,b; Buck (1938) *CT II*, p. 268-269,e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 71.
\textsuperscript{338} As L1Li and L2Li prefer to write partial forms for the hieroglyphs of animates.
\textsuperscript{339} Buck (1935) *CT I*, p. 280,c (Sq3C).
\textsuperscript{341} Buck (1935) *CT I*, p. 60,e, 400-401,d-a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 74.
There are no regional preferences for this lemma, except for the use of the D40 (𓍀) classifier, which is only attested in Deir el-Bersha. Although the database suggests that the O37 (𓍀) classifier is only attested in Deir el-Bersha and the Theban area, outside the database this classifier is attested in Saqqara and Asyut as well.  

Appendix 6.67.  \textit{whn} (to loosen, to explain, to release)\textsuperscript{343}

The lemma \textit{whn} has 30 attestations in the database.\textsuperscript{344} In table 6.63, the attestations per region are set out for every graphical form of the stem:

\begin{table}[h]
\centering
\begin{tabular}{|c|c|c|c|}
\hline
Graphical form stem & no. & Region & Attestations \\
\hline
\text{ Glyph 1 } & 1 & Asyut & 1 \\
\text{ Glyph 2 } & 2 & Deir el-Bersha & 6 \\
\text{ Glyph 3 } & 3 & Deir el-Bersha & 1 \\
\text{ Glyph 4 } & 4 & Deir el-Bersha & 1 \\
\text{ Glyph 5 } & 5 & Theban area & 1 \\
\text{ Glyph 6 } & 6 & Meir & 2 \\
\text{ Glyph 7 } & 7 & Deir el-Bersha & 3 \\
\text{ Glyph 8 } & 8 & Deir el-Bersha & 1 \\
\hline
\end{tabular}
\caption{Graphical forms of the stem of \textit{whn}.}
\end{table}
In the database, the Theban area only occurs using the P4 (𓊠) as a logogram. However, outside the database the lemma is written phonetically (form 5) as well.\(^{345}\) Asyut and Gebelein do not use the P4 as logogram in the database, but are both attested outside the database using the P4 as logogram as well.\(^{346}\) Thus, there does not seem to be a regional preference for this lemma, as nearly every feature is attested in more than one region.

Appendix 6.68. \textit{wَhَm} (to repeat)\(^{347}\)

This lemma has 37 attestations in the database. However, only 34 attestations represent verbal forms.\(^{348}\) In table 6.64, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem no.</th>

</tr>
</tbody>
</table>

\(^{345}\) Buck (1951) \textit{CT IV}, p. 34.g (T1L).
\(^{346}\) Buck (1947) \textit{CT III}, p. 342,i (S2C); Buck (1951) \textit{CT IV}, p. 174,d (G1T).
\(^{348}\) Buck (1935) \textit{CT I}, p. 8,a, 326-327,b, 393,g; Buck (1951) \textit{CT IV}, p. 88,j, 89,f, 89,i, 90,i, 90,o. For additional attestations outside the database, see Plas & Borghouts (1998), p. 74.
The use of the Y2 (𓏝) classifier is only attested in Deir el-Bersha and Asyut, which is true outside the database as well. However, the use of the Y2 is rare in Asyut, while much more common in Deir el-Bersha, albeit only in the witnesses of the later period of coffin decoration. Beni Hasan is the only region where the use of the A26 (𓀞) is attested (form 4), which is true outside the database as well. There are no other features which represent a regional preference for this lemma.

Appendix 6.69. \textit{wHm} (to throw off, to shake out)\textsuperscript{350}

This lemma has sixteen attestations in the database.\textsuperscript{351} In table 6.65, the attestations per region are set out for every graphical form of the stem:

For this lemma, in Asyut there seems to be a preference for the long format of form 2 and 4, both within and outside of the database. The absence of the Aa1 (𓆄) interpretant is only attested in the Theban area.

---

\textsuperscript{349} Buck (1935) \textit{CT I}, p. 326,b (T3C). I assume the F35 (𓀞) is a corruption of the F25 (𓀞), as in near hieratic cursive script one can be mistaken for the other, if poorly made. See Möller (1909), p. 15-16, no. 162 and 180.

\textsuperscript{351} Buck (1935) \textit{CT I}, p. 90,d; Buck (1947) \textit{CT III}, p. 248-249,e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 75.

\textsuperscript{352} Buck (1935) \textit{CT I}, p. 90,d (S5C). The strokes are filler, as this witness often has strokes added for pure decorative purposes.
(form 5), but its absence is rare. Note that it is possible in Deir el-Bersha to replace the M12 (𓊰) with an M16 (𓊱) instead.  

**Appendix 6.70. **wsr (to be powerful, to be strong)  

The lemma wsr has 42 attestations in the database, but only 24 represent verbal forms. In table 6.66, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Deir el-Bersha</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>2</td>
<td>Meir</td>
<td>4</td>
<td></td>
</tr>
<tr>
<td>3</td>
<td>Aswan</td>
<td>1</td>
<td></td>
</tr>
<tr>
<td>4</td>
<td>Deir el-Bersha</td>
<td>1</td>
<td></td>
</tr>
<tr>
<td>5</td>
<td>Asyut</td>
<td>1</td>
<td></td>
</tr>
<tr>
<td>6</td>

<td>1</td>
<td></td>
</tr>
<tr>
<td>7</td>
<td>Deir el-Bersha</td>
<td>2</td>
<td></td>
</tr>
<tr>
<td>8</td>
<td>Theban area</td>
<td>1</td>
<td></td>
</tr>
<tr>
<td>9</td>
<td>Beni Hasan</td>
<td>1</td>
<td></td>
</tr>
<tr>
<td>10</td>
<td>Gebelein</td>
<td>1</td>
<td></td>
</tr>
</tbody>
</table>

Table 6.66 Graphical forms of the stem of wsr.

In the database, it seems as if the Y2 (𓏝) classifier is only attested in Meir and Asyut. However, outside the database it occurs in Deir el-Bersha as well. The use of the G43 (𓅱) occurs only in Beni Hasan and Meir in the database, but is attested outside the database in Deir el-Bersha and Asyut as well. Moreover, in the database it seems that Asyut and Gebelein do not include the S29 (𓋴) interpretant in this lemma. However, outside the database the S29 interpretant is attested for both regions. The use of the A24 (𓀜) is only attested in Deir el-Bersha in the database, but occurs in the Theban area as well. Thus, there does not seem to be a clear regional preference for this lemma.

---

355 Buck (1935) *CT I*, p. 320, c, 324-327, c-a, 328, b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 76.
358 Buck (1947) *CT III*, p. 339, g (S1C, S2C); Buck (1956) *CT VI*, p. 263, r (G1T).
359 Buck (1956) *CT VI*, p. 144, f (T2L).
Appendix 6.71. \textit{wśb} (to answer, to answer for)\textsuperscript{360}

This lemma has only six attestations in the database. However, only four represent verbal forms.\textsuperscript{361} As table 6.67 shows, every attestation has its own form:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Graphical form 1" /></td>
<td>1</td>
<td>Meir</td>
<td>1</td>
</tr>
<tr>
<td><img src="image2" alt="Graphical form 2" /></td>
<td>2</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image3" alt="Graphical form 3" /></td>
<td>3</td>
<td>Asyut</td>
<td>1</td>
</tr>
<tr>
<td><img src="image4" alt="Graphical form 4" /></td>
<td>4</td>
<td>Asyut</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.67 Graphical forms of the stem of \textit{wśb}.

In the database, the A2 (𓀁) classifier is only attested in Asyut. Outside the database it is attested in Deir el-Bersha and Meir as well.\textsuperscript{362} Nonetheless, it seems that Asyut always includes the A2 classifier, which is true outside the database as well. Additionally, only in Asyut is the F16 (𓄏) classifier added (form 4). Finally, the Y2 (𓏝) classifier is only attested in Deir el-Bersha.

Appendix 6.72. \textit{wś} (to raise up, to lift up, to carry)\textsuperscript{363}

There are only two attestations of this lemma in the database, from the same phrase of spell 75.\textsuperscript{364} As table 6.68 shows, both regions have their own form. Form 1 is additionally attested in other,\textsuperscript{365} but form 2 seems to be unique to Aswan. However, in this lemma the T14 (𓌙) or O30 (𓉽) are habitually written as classifiers, instead of the initial position.\textsuperscript{366} Note that it is possible to have the T14 on the second position in Gebelein as well.\textsuperscript{367}

\textsuperscript{360} Molen (2000), p. 104.

\textsuperscript{361} Buck (1947) \textit{CT III}, p. 20,c. Note that Plas & Borghouts (1998), p. 77 consider this phrase part of \textit{wśb} (to feed) instead, and does not include this lemma. However, I considered this lemma more suitable in this phrase. However, as both these lemmas are difficult to visually distinguish, I used the entries in \textit{wśb} (to feed) to verify the forms.

\textsuperscript{362} Buck (1947) \textit{CT III}, p. 204,b (B2Bo, M22C).

\textsuperscript{363} Molen (2000), p. 106.

\textsuperscript{364} Buck (1935) \textit{CT I}, p. 327-329, c-a (G1T, A1C). For additional attestations outside the database, see Plas & Borghouts (1998), p. 78.

\textsuperscript{365} Buck (1935) \textit{CT I}, p. 178,h (B2Bo); Buck (1947) \textit{CT III}, p. 309,d (T3L).

\textsuperscript{366} For example, see Buck (1935) \textit{CT I}, p. 305,g, and even in Gebelein as well, see Buck (1938) \textit{CT II}, p. 115,f (G2T).

\textsuperscript{367} Buck (1938) \textit{CT II}, p. 7,b (G1T).
Appendix 6.73. *wdi* (to put, to place)\textsuperscript{368}

There are 50 attestations of this lemma in the database.\textsuperscript{369} In table 6.69, the attestations per region are set out for every graphical form of the stem. Note that as this is a 3ae inf. lemma and gemination occurs, the table has been separated in gemination and no gemination.

\begin{table}
\centering
\begin{tabular}{|c|c|c|}
\hline
Graphical form stem & Region & Attestations \\
\hline
1 & Gebelein & 1 \\
2 & Aswan & 1 \\
\hline
\end{tabular}
\caption{Graphical forms of the stem of *w*\textsubscript{s}.}
\end{table}

\begin{tabular}{|c|c|c|}
\hline
Graphical form stem & Region & Attestations \\
\hline
No gemination & el-Lisht & 1 \\
 & Deir el-Bersha & 5 \\
 & Theban area & 1 \\
\hline
No gemination & 7 & Deir el-Bersha & 4 \\
\hline
No gemination & Saqqara & 2 \\
 & el-Lisht & 1 \\
 & Beni Hasan & 1 \\
 & Deir el-Bersha & 1 \\
 & Meir & 2 \\
 & Theban area & 1 \\
\hline
No gemination & 8 & Deir el-Bersha & 1\textsuperscript{370} \\
\hline
No gemination & 9 & Meir & 1 \\
\hline
No gemination & 10 & Saqqara & 1 \\
\hline
\end{tabular}

\textsuperscript{369} Buck (1935) CT \textit{I}, p. 31-32,d-a, 36,d-e; Buck (1938) CT \textit{II}, p. 85,d; Buck (1951) CT \textit{IV}, p. 87,l, 88,e, 88,i, 90,n, 236-237,a, 300,b, 315,d; Buck (1954) CT \textit{V}, p. 155,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 78-79.
\textsuperscript{370} Buck (1951) CT \textit{IV}, p. 88,e (B5C). I assume the addition of the G37 (𓊫) classifier is due to the negative nature of the phrase here.
Table 6.69 Graphical forms of the stem of wdi.

Note that the use of the different arms as classifier should not be considered a valid ground for variation, as in near hieratic cursive script these signs resemble each other. Nonetheless, the U32 (𓀱) is only attested in Deir el-Bersha. The use of a A24 (𓀣) classifier only occurs in Saqqara in the database, but occurs outside the database in Deir el-Bersha as well. The use of the Z9 (𓀤) and the T30 (𓀠) classifiers are only attested in Meir. However, these represent a specific reading of this lemma together with sTA (to inflict a wound). The G37 (𓀯) classifier is only attested in Deir el-Bersha, with the classifier representing the negative nature of this lemma in this phrase, rather than a general regional feature.

Appendix 6.74.  wdn (to be heavy, to weigh upon)

There are eight attestations of this lemma in the database. In table 6.70, the attestations per region are set out for every graphical form of the stem:

---

371 Buck (1951) CT IV, p. 237,a (MS4C). This witness habitually replaces humanoid hieroglyphs with the M17*Z1 (𓀱) group, thus this form most likely represents form 10.

373 Buck (1956) CT VI, p. 173,j (B1Bo).

375 Buck (1935) CT I, p. 71,b, 71,f. For additional attestations outside the database, see Plas & Borghouts (1998), p. 79.

Table 6.70 Graphical forms of the stem of wdn.

In the database, the absence of the N35 (𓀖) is only attested in Deir el-Bersha, but outside the database Asyut can leave it out as well.\(^{378}\) The use of the A24 (𓀜) classifier is only attested in the Theban area, while the D40 (𓀖) classifier is only attested in Deir el-Bersha. Finally, form 5 is only attested in the Theban area, but seems to be a unique form.

Appendix 6.75. \textit{wḏ} (to command, to order, to decree)\(^{379}\)

This lemma is common in the database, with a total of 157 attestations. However, only 138 attestations represent verbal forms.\(^{380}\) In table 6.71, the attestations per region are set out for every graphical form of the stem:

---

\(^{376}\) Note that this form could be easily mistaken for form 6 of \textit{wdi}, see table 6.69.

\(^{377}\) Note that this form could be easily mistaken for form 7 of \textit{wdi}, see table 6.69.

\(^{378}\) Buck (1951) \textit{CT} IV, p. 152,b (S1C,a-b).

\(^{380}\) Buck (1935) \textit{CT} I, p. 8,a, 28,b, 115,c, 385,c, 393-394,e-a, 394,d, 402-403,e-a; Buck (1938) \textit{CT} II, p. 67,d 70,d, 76,b, 77,b, 86,d, 90,b; Buck (1947) \textit{CT} III, p. 232-233,a, 247,h; Buck (1951) \textit{CT} IV, p. 91,a, 93,g, 194-195,a). For additional attestations outside the database, see Plas & Borghouts (1998), p. 79.

Table 6.71 Graphical forms of the stem of \( wD \).

\(^{381}\) Buck (1935) *CT I*, p. 402-403,e-a (B1P)) Based on the other witnesses, I assumed the Aa27 (𓎫) was an error for the V25 (𓎫).

\(^{382}\) Buck (1938) *CT II*, p. 76,b (M28C)) The G43 (𓅫) is a reconstruction that might not have been there at all.
Even though the graphical form of this lemma can be remarkably varied, there does not seem to be a regional preference for this lemma, as most features are shared in multiple regions. However, the use of the Z7 (𓊛) instead of a G43 (𓊕) in form 7 only occurs in Deir el-Bersha, although it is rare in that region as well.

Appendix 6.76.  \textit{wd-md\textit{w}} (to command, to give commands)\textsuperscript{383}

This compound should technically be considered a part of \textit{wd} (to command; see appendix 6.75). In the database there are only four attestations for this lemma, although only two represent verbal forms.\textsuperscript{384} These two attestations were taken separately from \textit{wd}, due to the placement of the Y2 (𓊢) classifier (see figure 6.5), which suggests that the compound was understood as an unit for the Ancient Egyptians. Figure 6.5 represents one of the common graphical forms for this lemma,\textsuperscript{385} although it is possible in Deir el-Bersha to include the D46 (𓊫) interpretant of \textit{md\textit{w}} above the Y2 in the column.\textsuperscript{386}  

Appendix 6.77.  \textit{wdz} (to be hale, to be uninjured)\textsuperscript{387}

This lemma is relatively common, with a total of 68 attestations in the database.\textsuperscript{388} The following table shows the attestations per region for the graphical forms of the stem (table 6.72):

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>

<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

\textsuperscript{384} Buck (1935) \textit{CT I}, p. 46,a (B2Bo, B3Bo). For additional attestations outside the database, see Plas & Borghouts (1998), p. 79.  
\textsuperscript{385} Buck (1954) \textit{CT V}, p. 107,h (T1Be).  
\textsuperscript{386} Buck (1938) \textit{CT II}, p. 264,c, (B1C).  
\textsuperscript{388} Buck (1947) \textit{CT III}, p. 7,b; Buck (1951) \textit{CT IV}, p. 246-247,a, 324,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 80.  
\textsuperscript{389} Buck (1951) \textit{CT IV}, p. 247,a (T2Be). Due to the other witnesses, this form was added to this lemma, although due to the D54 classifier, it could be argued that it should be part of \textit{wdz} (to proceed) instead (see appendix 6.78).
In this table, form 2 represents a rare form, as it only occurs in one witness (M1NY). However, the variation with form 3 is only due to the use of a Y1 (𓏛) classifier over Y2 (𓏝), as the type of script in M1NY allows for the differentiation between the two signs. Note that form 12 and 15 are problematic, as they can be read as part of lemma DA (to extend; see appendix 6.349) or DA (to cross; see appendix 6.350) as well.

As one can see, the graphical form of the lemma can be extremely varied, and there does not seem to be a clear regional preference for one form over another.

Note that the classifier is a representation of an unclear sign, see Buck (1951) CT IV, p. 246,a (B1P).
Buck (1951) CT IV, p. 247,a (L3Li)) Due to the other witnesses, this form was added to this lemma, although due to the D54 (𓊳) classifier, it could be argued that it should be part of wD (to proceed) instead (see appendix 6.78).
Buck (1947) CT III, p. 7,b (Sq10C) reconstructed, could be any other form as well.
See appendix:supports for more detail.
Appendix 6.78.  \( \text{w}d\text{3} \) (to proceed, to go in procession)\textsuperscript{394}

This lemma is attested 52 times, although it is limited to spell 335 in the database.\textsuperscript{395} Note that it can be difficult to differentiate between this lemma and \( \text{w}d\text{3} \) (to be hale; see appendix 6.77), due to the similar forms. Moreover, the use of the D54 (𓂷) classifier is not limited to this lemma alone.\textsuperscript{396} In table 6.73, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>

</tbody>
</table>

Table 6.73 Graphical forms of the stem of \( \text{w}d\text{3} \) (to proceed).

\textsuperscript{395} Buck (1951) CT IV, p. 218,a, 220-221,b, 221a, 226-227,a, 308,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 80 and Gracia Zamacona (2008), p. 430-439.
\textsuperscript{396} See appendix 6.77, table 6.72, form 8 and 11.
\textsuperscript{397} Sq2C Buck (1951) CT IV, p. 407 (308,b). Reconstruction, could be any other form as well.
As one can see here, the forms for this lemma are highly varied, but in a same manner as appendix 6.77, there does not seem to be any regional preference. Form 12, 13 and 14, where the G43 (𓅱) is written after the U29 (𓆜) seems to occur in Saqqara and the Theban area only, but the attestations are in the minority in comparison to the attestations in the same regions for form 5 and 9, that can be considered the two main preferred forms for all the regions. Although form 5 is not attested in the Theban area, the use of a long format cannot be used as a preference, as form 2, 4, 6 and 12 represent compact formats, that occur in the Theban area as well. Form 9 is the only form which occurs in Beni Hasan. However, the attestations are both from the same witness (BH1Br). As these two attestations are the only attestations of this lemma from Beni Hasan in the Coffin Texts, it cannot be stated if this form represents Beni Hasan or if it represents this witness alone.

Appendix 6.79.  \textit{w\textit{di} (to send, to depart)}

There are twelve attestations of this lemma in the database. In table 6.74, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>

<td>Theban area</td>
<td>1</td>
<td><img src="image" alt="Graphical form" /></td>
<td>8</td>
<td>Deir el-Bersha</td>
<td>1\textsuperscript{400}</td>
</tr>
</tbody>
</table>

Table 6.74 Graphical forms of the stem of \textit{w\textit{di}}.

\textsuperscript{398} The attestations outside the database in van der Plas & Borghouts and Gracia Zamacona do not include another witness from Beni Hasan.

\textsuperscript{399} Buck (1951) \textit{CT IV}, p. 314,d, 317,d. This lemma is not attested in van der Molen and van der Plas & Borghouts, as they consider these phrases part of \textit{wdi} (to put; see appendix 6.73). However, the method I used for encoding required the use of this lemma, as \textit{w\textit{di}} is a valid lemma.

\textsuperscript{400} Buck (1951) \textit{CT IV}, p. 314,d (B1Y). I assume the I9 (𓆜) is a corruption of the I10 (𓆆), due to the similarity between the two signs in near hieratic cursive script, see Möller (1909), p. 24-25, no. 250, 263.
As this lemma is not attested in van der Molen and van der Plas & Borghouts, these attestations are currently the only ones of this lemma in the Coffin Texts. Based on table 6.74, it seems that the use of the D46 (𓋱) only occurs in Deir el-Bersha and the Theban area. The use of the D40 (𓋱) classifier is only attested in the Theban area, and the G37 (𓋲) classifier is only attested in Meir.

Appendix 6.80. \(wd\) (to separate, to judge, to appoint)

In the database there are 125 attestations of this lemma, but only 123 of these attestations represent verbal forms. In table 6.75, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>

\(^{401}\) However, I find it likely that more can be found.

\(^{403}\) Buck (1935) CT I, p. 24,a, 26,a, 33,d, 43,a, 44-45,e-a, 47,b, 361,b, 378-391,d-a, 382-383,c, 386,b, 391,b; Buck (1938) CT II, p. 75,a, 90,d, 394,a; Buck (1951) CT IV, p. 234,b, 236,b; Buck (1954) CT V, p. 121,b, 140,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 80.

\(^{404}\) Buck (1935) CT I, p. 391,b (M28C). As this witness was not seen by de Buck himself, I assume the N37 (𓋲) is a modern corruption of an Y2 (𓋲).

\(^{405}\) Buck (1935) CT I, p. 24,a (MC105, T9C). I am not certain why the D36 (𓋱) geminates here, as the addition of the X1 (𓋲) in the original makes it unlikely that this should be read as a sḏmm-f, which would not make much sense here to begin with. However, it is remarkable that this only occurs in the Theban area.
Table 6.75 Graphical forms of the stem of *wDa*.

In the database, the use of the G43 (𓅱) on the initial position only occurs in Deir el-Bersha (form 16). However, outside the database this is attested in other regions as well.406 The V1 (𓆥) classifier is only attested in Deir el-Bersha in the database (form 7), but outside of it occurs in Saqqara as well.407 In the database it seems the Aa22 (𓌤) is only attested in Deir el-Bersha and Meir (form 13-15), but occurs outside the database in the Theban area as well.408 The use of the T30 (𓌍) as classifier only occurs in Deir el-Bersha and Meir in the database, but is attested in multiple other regions as well.409 The A2 (𓀁) classifier is only attested in Beni Hasan and Deir el-Bersha (form 9), and might represent a feature of the more northern attestations of this lemma, although it does not occur in Saqqara or el-Lisht.

Appendix 6.81. *wDa*-mdw (to judge, to separate words)410

This lemma has 86 attestations in the database. However, only 43 attestations represent verbal forms.411 Note that this lemma is technically part of *wDa* (to separate; see appendix 6.80). In table 6.76, the attestations per region are set out for every graphical form of the stem:

---

406 Buck (1935) *CT I*, p. 288,h (T1C, Sq3C); Buck (1951) *CT IV*, p. 126,a (S1C).
407 Buck (1938) *CT II*, p. 163,e (Sq3Sq).
408 Buck (1935) *CT I*, p. 288,h (T2C).
409 Buck (1938) *CT II*, p. 154,e (G2T); Buck (1947) *CT III*, p. 344,d (S1C, S2C,a); Buck (1956) *CT VI*, p. 255,h (Sq3C). I assume this classifier is habitually used when *wDa* should be read as a more aggressive form of separation (to sever, to cut off).
411 Buck (1935) *CT I*, p. 21,d, 35,c, 47,b, 360-361,b; Buck (1954) *CT V*, p. 140,b, 159,e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 80-81.

<sup>412</sup> Buck (1935) *CT I*, p. 21,d (T9C). The M17 (𓇋) is assumed to be a corruption of the S43 (𓌃).
In the database, it seems that in Gebelein the D46 (𓁩) and G43 (𓅱) are always added (form 1, 8 and 12). However, outside the database they can be left out as well.\textsuperscript{414} In Asyut there seems to be a preference to write this lemma in a compact form only (form 4-6), but outside the database long formats are attested as well.\textsuperscript{415} Finally, the use of the A2 (𓁫) classifier is only attested in Meir and the Theban area, which is true outside the database as well, although the use of any humanoid classifier is rare.\textsuperscript{416} Thus, this lemma does not have any clear regional preferences.

**Appendix 6.82. \textit{wdb} (to turn, to turn back)\textsuperscript{417}**

This lemma has 24 attestations in the database.\textsuperscript{418} In table 6.77, the attestations per region are set out for every graphical form of the stem:

\begin{table}[h]
\centering
\begin{tabular}{|c|c|c|}
\hline
\textit{Graphical form stem} & \textit{Region} & \textit{Attestations} \\
\hline
8 & Deir el-Bersha & 1 \\
Gebelein & & 1 \\
9 & Deir el-Bersha & 1 \\
& & 1\textsuperscript{413} \\
17 & Deir el-Bersha & 1 \\
18 & Theban area & 1 \\
\hline
\end{tabular}
\caption{Graphical forms of the stem of \textit{wdb}-\textit{mdw}.}
\end{table}

\begin{itemize}
\item \textsuperscript{413} Buck (1954) \textit{CT V}, p. 159,e (T3L). I assume that the X1 (𓀏) and D21 (𓁩) group are a corruption of the Y2 (𓀏) classifier.

Table 6.77 Graphical forms of the stem of \( \text{w} \text{d} \text{b} \).

---

419 Buck (1935) *CT I*, p. 34,b (MC105). Reconstruction, the phrase is completely lost. Could be any other graphical form as well.

420 Buck (1935) *CT I*, p. 385,b (S1C). I assume the N18 (…) is a corruption of the F46 (…) or any of its classes, or for the N21 (…).

421 Buck (1935) *CT I*, p. 34,b (T9C). The V28 (l) is assumed to be a corruption of the V24 (l), and the tusk of form 15 a variation for the N21 (…).
In the database, the D55 (𓄽) classifier is only attested in Meir and Deir el-Bersha. However, outside the database the D55 classifier is attested in Asyut as well. In the database it seems that Asyut always uses the F46 (𓎫) or any of its classes for this lemma (form 5-7). However, outside the database the N21 (𓉥) is attested in Asyut as well. The absence of the V24 (𓆀) and the use of a D46 (𓄽) is only attested in Meir, which is true outside the database as well. Note that outside the database it is possible in Meir to use a D40 (𓄽) classifier, or use the F46 as logogram.

Appendix 6.83. *b3gi* (to be weary, to be languid, to be limp)\textsuperscript{425}

In the database, the lemma *b3gi* is attested 11 times, although only two attestations are of a verb form, both from the same phrase in spell 6. However, as one is reconstructed, only one graphical form is attested (see figure 6.6) from S10C. However, the attestations of substantives in the database show that there is a preference in the other regions to include a D58 (𓄽) as well in the spelling, although none of these include an attestation from Asyut, so it cannot be said if this is a regional preference, or a particularity of S10C.

Appendix 6.84. *bnn* (to beget)\textsuperscript{427}

This lemma is attested eleven times in the database, where all attestations occur in the same phrase of spell 15. The following table sets out the attestations per region for every graphical form (table 6.78):

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>

</tbody>
</table>

Table 6.78 Graphical forms of the stem of *bnn*.

\textsuperscript{422} Buck (1938) *CT II*, p. 242,d (S1P).
\textsuperscript{423} Buck (1938) *CT II*, p. 242,d (S1C,b, S2C,d).
\textsuperscript{424} Buck (1961) *CT VII*, p. 128,i (M5C, M6C).
\textsuperscript{426} Buck (1935) *CT I*, p. 18,a. Note that the other witnesses in this spell use *p3g* (to kneel) instead. I assume the variation occurred due to the phonetic proximity between *p* and *b*, and the fact that both lemmas use the same classifiers (A7 (𓄽) or any of its classes). For additional attestations outside the database, see Plas & Borghouts (1998), p. 85 and Gracia Zamacona (2008), p. 443.
\textsuperscript{427} Molen (2000), p. 121.
\textsuperscript{428} Buck (1935) *CT I*, p. 45,b.
\textsuperscript{429} Note that one attestation (B4C) is reconstructed.
\textsuperscript{430} Note that both attestations (MC105 and T2C) are reconstructed.
For this lemma, the use of the phallus classifier seems to be restricted to Deir el-Bersha, although the damage in the witnesses from the Theban area makes it difficult to be certain. Moreover, T9C used form 4, where a T30 (𓌪) is used instead of a phallus classifier, which can be assumed to be a corruption. As there are no other attestations in the database or in van der Molen, or in van der Plas & Borghouts for the Coffin Texts, it cannot be stated with certainty whether the Theban area used a phallus classifier or not.

Appendix 6.85.  bḥni (to cut up, to cut off, to punish)

The lemma bḥni is attested twelve times in the database. In table 6.79, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>
<td>Deir el-Bersha</td>
<td>5</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Asyut</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Meir</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>2</td>
<td>Deir el-Bersha</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Theban area</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.79 Graphical forms of the stem of bḥni.

For this lemma, the clear preference lies with form 1. However, there are some distinct features in Deir el-Bersha. The use of the D40 (𓆨) as addition to the T30 (𓌪) classifier seems only to occur in Deir el-Bersha (B1C and B5C), specifically in the witnesses that are dated to the later period of coffin decoration. However, as B1C additionally uses form 1 in the same phrase (I,402,b-c), it is not exclusive. Form 3 occurs only in Deir el-Bersha, in B1Bo. It could be argued that it represents a style from the earlier period of coffin decoration in Deir el-Bersha. However, B6C, which is dated to the same period, uses form 1, thus the use of form 3 is more likely a quirk of this support than a regional preference. The use of the F18 (𓄑) phonemogram in the Theban area seems unique, and does not occur outside the database. Therefore, it would be assumptive to associate this with a single region based on a single attestation. However, the F18 is used as classifier in Beni Hasan.

---

433 Buck (1935) CT I, p. 21,a, 402,b-c; Buck (1951) CT IV, p. 90,m. For additional attestations outside the database, see Plas & Borghouts (1998), p. 87.  
434 Including with other attestations in van der Molen, for all regions, although variations with other classifiers, see for example Buck (1961) CT VII, p. 154,s, where A24 (𓆮) is used as a classifier, instead of T30 (𓌪).  
437 Buck (1938) CT II, p. 116,g (BH3C).
Appendix 6.86. *bs* (to introduce, to initiate)\textsuperscript{438}

This lemma is attested 25 times in the database.\textsuperscript{439} In table 6.80, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>

<td>Deir el-Bersha</td>
<td>1</td>
<td></td>
<td></td>
<td>Asyut</td>
<td>3</td>
</tr>
</tbody>
</table>

Table 6.80 Graphical forms of the stem of *bs*.

In Asyut, there seems to be a possibility to write *bs* only phonetically, without the addition of a phono-repeater or classifier, which does not occur in the other regions. However, beyond the database, there is an attestation from Deir el-Bersha\textsuperscript{440} and the Theban area\textsuperscript{441} that does not include a phono-repeater or classifier. It must be noted that the absence of both is more common in Asyut than in the other regions. In Deir el-Bersha, it is possible to use a A2 (𓀁) as a classifier, which seems be unique to the region.

\textsuperscript{438} Molen (2000), p. 123.
\textsuperscript{439} Buck (1935) *CT I*, p. 141,f; Buck (1938) *CT II*, p. 272-273,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 88.
\textsuperscript{440} Buck (1954) *CT V*, p. 67,c (B2L,b). Note that B2L,a does have the K5 (𓆟) phono-repeater.
\textsuperscript{441} Buck (1947) *CT III*, p. 310,d (T1Be), although the gemination of the s is unusual if *bs* is a 2-lit verb, which means it might be *bsi* (to flow forth) here instead.
Appendix 6.87.  *pA* (auxiliary verb, to have done in the past)\(^{442}\)

In the database, there are eighteen attestations of this lemma, from the same phrase of spell 30.\(^{443}\) In table 6.81, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>

</tbody>
</table>

**Table 6.81 Graphical forms of the stem of *pA*.**

One of the major variations is in the use of the G41 (𓄎) instead of the G40 (𓄓), which occurs in Deir el-Bersha and the Theban area. However, it is not unlikely that this variation occurs due to transcription, rather than original intent, as the witnesses with form 8-10 all use a near hieratic cursive script, in which it is not possible to differentiate between the G40 and G41.\(^{446}\) However, Deir el-Bersha has one feature which is not attested in the other regions, which is the addition of a circle sign (𓄎) at the end of the word (form 8 and 10). In Asyut it is possible to only add the Q3 (𓄎) interpretant (form 2-4), which is not

---

\(^{443}\) Buck (1935) *CT I*, p. 84-85,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 92.

\(^{444}\) Buck (1935) *CT I*, p. 84,c (S11C), assumed to be a corruption, as the *mAA* that follows is not written in this, thus the G1 (𓄎) signs could be the remnant of *mAA*, instead of interpretants of *pA*.

\(^{445}\) Buck (1935) *CT I*, p. 84,c (M24C, M25C), complete reconstruction, could be any other form as well.

\(^{446}\) Möller (1909), p. 21, no. 221 and 222. Note that the script type of T1L (the Theban area attestations of form 9) is not known to me.
attested in the other regions. Regrettably, there are no additional attestations of this lemma from Meir outside the database, which makes it impossible to say if the reconstructions are correct.

Appendix 6.88. \(p\text{ṣh} (\text{to scratch})\)^{447}

In the database there is only one attestation,^{448} as most of the other witnesses use \(p\text{ṣg} \) (to kneel; see appendix 6.89) here. However, it is possible that this lemma does not even exist in this phrase, as de Buck did not see this witness (B15C) himself (see figure 6.7), so the Aa1 (𓀃) could be a modern error for the W11 (𓀂). Based on the attestations from outside the database, the graphical form seems to be the common form of this lemma, even though the D40 (𓀃) classifier can be added in Deir el-Bersha as well.^{449}

Appendix 6.89. \(p\text{ṣg} \) (to kneel, to squat)^{450}

The lemma \(p\text{ṣg} \) only has six attestations in the database, from the same phrase of spell 6.^{451} As one can see in table 6.82, there are only two graphical forms, based on the addition of the G1 (𓀃). However, as all attestations are from Deir el-Bersha, and there are no other attestations of this lemma in the Coffin Texts, it cannot be said that these two graphical forms represent a regional preference. Moreover, there does not seem to be a variation based on the date of the witness, as form 2 is attested with B4Bo and B1P, which represent the early and later period of coffin decoration in Deir el-Bersha.

^{448} Buck (1935) CT I, p. 18,a (B15C). For additional attestations outside the database, see Plas & Borghouts (1998), p. 92.
^{449} Buck (1961) CT VII, p. 491,d (B1Be).
^{451} Buck (1935) CT I, p. 18,a. However, based on Plas & Borghouts (1998), p. 93. and Gracia Zamacona (2008), p. 464, this is the only attestation of this lemma in de Coffin Texts.
Appendix 6.90. *pri* (to go forth)\(^{452}\)

This lemma is one of the most common verb forms in the database, with 669 attestations. However, as the substantive *pr.t* (procession) was encoded under this lemma as well, only 641 attestations represent verbal forms.\(^{453}\) In Table 6.83, the attestations per region are set out for every graphical form of the stem. As this verb is a *3ae inf* lemma and gemination occurred, the distinction between gemination and no gemination has been made in the table.

\(^{453}\) Buck (1935) *CT I*, p. 21,b, 26,b, 28,b, 37,a, 38,b, 38,c, 41,b, 41-42,c-a, 42,c, 43,a, 43-44,c-a, 44,b, 54,c-d, 54,f, 58,d, 60,c, 60,d, 66,d, 68,a, 69,d, 71,d, 80,d, 82-83,a, 113,b-c, 320-323,d-a, 374-375,b, 374-375,c, 382-384,d-a, 384-385,c, 387,a, 391,a, 399,b; Buck (1938) *CT II*, p. 56,a, 57,a, 67,b, 68,2*, 68,c, 68,d, 71,c, 72,a, 73,a, 73,b, 75,a, 78,b, 78,c, 78,d, 79,b, 80,b, 80,c, 81-82,c-a, 85,b, 86,b, 91,a, 255,a, 256,d, 256,e, 257,a, 258,a-b, 273,d-f, 288-289,c, 393,a; Buck (1947) *CT III*, p. 8,a, 11,b, 12,a, 13,a, 24-25,c-a, 25,b, 212,b-d, 218-219,d, 220-221,a, 223;j; Buck (1951) *CT IV*, p. 92,n, 93,k, 184-185,a, 207,b, 208,e-g, 222-223,b, 227,a, 243,d, 270-271,b, 272,a, 279,d, 293,e-f, 293,g, 322,c, 326,g, 236,j, 236;k; Buck (1954) *CT V*, p. 1,b, 7,c, 151,a, 153,c, 156,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 101-102 and Gracia Zamacona (2008), p. 466-673.

\(^{454}\) Buck (1951) *CT IV*, p. 322,c (B3C). As I consider this an infinitive, it is assumed that the second D21 (…) is a corruption of what should be a X1 (…).

\(^{455}\) Buck (1935) *CT I*, p. 71,d, (T1C), based on the other witnesses, and the general structure of the phrase it seems unlikely that this should be read as *pr* (house) instead.
Table 6.83 Graphical forms of the stem of *pri*.

As this is a common lemma, it is not surprising that there is a form (form 8 and 18) which is used in nearly every region. The majority of the variation can be considered errors (form 16) or due to additions of Z1 (𓏤) strokes which are unnecessary (form 6, 9 and 10), but should not be considered regional preferences. Nonetheless, in Gebelein there is a higher tendency to use a compact format (form 1, 2, 5, 19), even though the long format of form 8 occurs as well.

Appendix 6.91. *phr* (to turn, to go around, to envelop)\(^{456}\)

In the database there are 92 attestations of this lemma.\(^{457}\) In table 6.84, the attestations per region are set out for every graphical form of the stem:

Table 6.84 Graphical forms of the stem of *phr*.

Although form 1, 3 and 4 are relatively common for this lemma, it needs to be noted that these forms only occur in the database when used in the construction *ts-phr* (vice-versa). Only in the Theban area does form 2 occur, although it only occurs in T9C. Outside the database it is attested in T1C as well, while form 2 occurs in Asyut as well.\footnote{Buck (1947) *CT III*, p. 379,c (S1C,a).} In the database, the use of the F47 (𓄲) instead of the F46 (𓄲),

\footnote{Buck (1947) *CT III*, p. 210,c (T1C).}
see form 3, is only attested in the Theban area, but outside the database it is attested in Asyut as well.\textsuperscript{460} In the database, Gebelein is only attested with a F48 (𓄱), but outside the database form 19 is attested as well for Gebelein.\textsuperscript{461} However, it seems that only using the two interpretants Q3 (𓆸) and D21 (𓊪) and the classifier D54 (𓀣) is the preferred form in Gebelein for this lemma. The use of the F48 is only attested in Deir el-Bersha, the Theban area and Gebelein (form 4, 11, 17, 20). However, the use of the F49 (𓄱) is only attested in the Theban area (form 12), which is more likely to use F48 or F49 instead of F46. The attestations from Beni Hasan seem to include the Q3, F32 (𓄡) and D21 in all its attestations, which is true outside the database as well.\textsuperscript{462} Only in Asyut is the F32 replaced by an Aa1 (𓀣). However, this only occurs in S10C (form 5-7), and should be considered a feature of this witness, rather than a regional preference in Asyut. The use of the D55 (𓀣) classifier (form 10 and 16) is only attested in Deir el-Bersha, but all attestations come from the same witness (B2Bo).

Appendix 6.92. \textit{psH} (to bite)\textsuperscript{463}

The lemma \textit{psH} has seven attestations in the database, from the same phrase of spell 22.\textsuperscript{464} In table 6.85, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Graphical form 1" /></td>
<td>1</td>
<td>Deir el-Bersha</td>
<td>1</td>
<td><img src="image2" alt="Graphical form 4" /></td>
<td>4</td>
<td>Theban area</td>
<td>1</td>
</tr>
<tr>
<td><img src="image3" alt="Graphical form 2" /></td>
<td>2</td>
<td>Deir el-Bersha</td>
<td>1</td>
<td><img src="image4" alt="Graphical form 5" /></td>
<td>5</td>
<td>Beni Hasan</td>
<td>1</td>
</tr>
<tr>
<td><img src="image5" alt="Graphical form 3" /></td>
<td>3</td>
<td>Deir el-Bersha</td>
<td>1</td>
<td><img src="image6" alt="Graphical form 6" /></td>
<td>6</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td><img src="image7" alt="Graphical form 3" /></td>
<td></td>
<td>Theban area</td>
<td>1</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Table 6.85 Graphical forms of the stem of \textit{psH}.

For this lemma, there do seem to be some regional preferences. The Theban area seems to prefer the long format of form 3 and 4.\textsuperscript{465} The use of a Y2 (𓈊) classifier is only attested in Deir el-Bersha, although it

\textsuperscript{460} Buck (1956) \textit{CT VI}, p. 180,h (S1C).

\textsuperscript{461} Buck (1956) \textit{CT VI}, p. 263,b (G1T).

\textsuperscript{462} Buck (1961) \textit{CT VII}, p. 107,a (BH4C). However, in this attestation the F46 is used as a phono-repeater, instead of a phonogram.

\textsuperscript{463} Molen (2000), p. 139.

\textsuperscript{464} Buck (1935) \textit{CT I}, p. 64-65,c-a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 103.

\textsuperscript{465} Note that outside the database there are attestations without the A2 (𓀁) classifier as well, see Buck (1951) \textit{CT IV}, p. 34,f (T1L), but it is constantly written in the long format.
might be a feature of the witness (B1P), rather than a regional preference. Form 5 suggests that there is a preference in Beni Hasan to use a S29 (𓋴). However, there do not seem to be any other attestations from Beni Hasan in the Coffin Texts, thus it might be simply a feature of the witness (BH5C), rather than a regional feature.

Appendix 6.93. *psš* (to divide)

There are 27 attestations of this lemma in the database, but only eight attestations represent verbal forms. In table 6.86, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>
<td>Meir</td>
<td>1(^{468})</td>
<td></td>
<td>4</td>
<td>Beni Hasan</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>2</td>
<td>Deir el-Bersha</td>
<td>1</td>
<td></td>
<td>5</td>
<td>Meir</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>3</td>
<td>Beni Hasan</td>
<td>1</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Table 6.86 Graphical forms of the stem of *psš*.

There does not seem to be any real regional preference for this lemma. The attestations from Beni Hasan do always have a classifier, but as all attestations are from the same witness (BH1Br), this might be a feature of the witness, rather than Beni Hasan. Note that outside the database form 2 and form 4 are most commonly used in all the regions.\(^{469}\)

Appendix 6.94. *psḏ* (to shine)

In the database there are 21 attestations of this lemma. In table 6.87, the attestations per region are set out for every graphical form of the stem:

---

\(^{466}\) Molen (2000), p. 139-140.

\(^{468}\) Buck (1951) CT IV, p. 283,b (M1C). Assumed to be part of this lemma due to the Z9 (𓋴) classifier.

\(^{469}\) For example, see Buck (1951) CT IV, p. 16,j (B2Be, B1Bo); Buck (1954) CT V, p. 275,c (S1C), although the O34 (𓊃) can be replaced with an S29 (𓋴) as well.

\(^{471}\) Buck (1951) CT IV, p. 292-293,c, 294-295,a, 294,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 103.
<table>

</tbody>
</table>

Table 6.87 Graphical forms of the stem of psḏ.

For this lemma, there does not seem to be any regional preferences. However, the classifier of form 4 and 5 are only attested in Deir el-Bersha and Meir, although it is possible that these attestations represent features of the witness,\(^{474}\) rather than a regional feature.

Appendix 6.95. \(pšn\) (to split)\(^{475}\)

In the database there are 34 attestations of this lemma.\(^{476}\) In table 6.88, the attestations per region are set out for every graphical form of the stem:

---

\(^{472}\) Buck (1951) *CT IV*, p. 293,c (T28e). I assume that the F37 (𓄦) was attached due to the homonym psḏ (back).

\(^{473}\) Buck (1951) *CT IV*, p. 407, 294,a (Sq2C). Partial reconstruction, it is possible that the N5 (𓊹) should be read as a N8 (𓊹), see form 6.

\(^{474}\) As this classifier is only attested in B1P for Deir el-Bersha, including attestations outside the database. For example, Buck (1938) *CT II*, p. 44,d (B1P).

\(^{475}\) Molen (2000), p. 142. Note that \(pšn\) Molen (2000), p. 140 was encoded under this lemma as well.

\(^{476}\) Buck (1951) *CT IV*, p. 282-283,b, 287,e, 288-289,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 104. Note that \(pšn\) is added under psḏ (see appendix 6.93) in Plas & Borghouts (1998), p. 103.
Table 6.88 Graphical forms of the stem of psḥn.

In the database, it seems that Deir el-Bersha prefers to use psḥn rather than pšn for this lemma, even though pšn occurs in Deir el-Bersha as well (form 5). However, based on the attestations outside the database, it becomes clear that psḥn is only used in witnesses from the later period of coffin creation in Deir el-Bersha, as the earlier witnesses use pšn or psḥ. The variant psḥn occurs in Saqqara and Meir as well, but are more an exception rather than the rule. The addition of an additional classifier beyond the Z9 (𓊱) is rare, and is only attested in Meir and the Theban area. Moreover, the use of the D54 (𓂻) classifier is only attested in Meir, although it is the only attestation of this classifier, and might therefore represent a feature of the witness (M1NY) rather than a regional feature, as M1NY is attested with form 5 as well.

Appendix 6.96. psšš (to spread out)

In the database there are only two attestations of this lemma. However, one of the two attestations (M6C) is a reconstruction. The form used in M21C (see figure 6.8) is simple, and there are only two other attestations of this lemma in the Coffin Texts, which use a different classifier. Therefore, it cannot be said with certainty if figure 6.8 is the preferred form in Meir, or if it represents a feature of M21C.

---

477 Buck (1951) CT IV, p. 288,c, (B1P), I consider the G43 (𓊱) an error, rather than reading pw sšn Here.
478 Buck (1951) CT IV, p. 143 (B2L); Buck (1956) CT VI, p. 63,l (B2L).
479 psšn is only attested in Deir el-Bersha in the witnesses B9C, B2L, B1P and B1Y, although B1Y is a reconstruction.
482 Buck (1956) CT VI, p. 264,a (A1C, G1T).
Appendix 6.97. *pg₃* (to unfold, to open up)⁴⁸³

The lemma *pg₃* has twelve attestations in the database.⁴⁸⁴ In table 6.89, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Image" /></td>
<td>1</td>
<td>Theban area</td>
<td>1⁴⁸⁵</td>
<td><img src="image2" alt="Image" /></td>
<td>4</td>
<td>Deir el-Bersha</td>
<td>3</td>
</tr>
<tr>
<td><img src="image3" alt="Image" /></td>
<td>2</td>
<td>Gebelein</td>
<td>1</td>
<td><img src="image4" alt="Image" /></td>
<td></td>
<td>Meir</td>
<td>1</td>
</tr>
<tr>
<td><img src="image5" alt="Image" /></td>
<td>3</td>
<td>Beni Hasan</td>
<td>2</td>
<td><img src="image6" alt="Image" /></td>
<td>5</td>
<td>Unknown (Y1C)</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Deir el-Bersha</td>
<td>2</td>
<td><img src="image7" alt="Image" /></td>
<td></td>
<td>Aswan</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.89 Graphical forms of the stem of *pg₃*.

In this lemma, there does not seem to be any regional preference, as most witnesses use form 4. Gebelein seems to prefer the compact format of form 2, but outside the database form 4 is attested in Gebelein as well.⁴⁸⁶ The use of the F51 (𓄼) classifier is only attested in Y1C, and seems to represent a unique feature of that witness. In Beni Hasan the D40 (𓂡) classifier is not used. However, as there are no additional attestations of this lemma in Beni Hasan, it might represent a regional feature, even though form 3 is not unique to Beni Hasan.⁴⁸⁷

Appendix 6.98. *ptr* (to see, to behold)⁴⁸⁸

In the database there are seven attestations of this lemma, in the same phrase of spell 97.⁴⁸⁹ In table 6.90, the attestations per region are set out for every graphical form of the stem:

---

⁴⁸⁴ Buck (1938) *CT II*, p. 30,b, 390,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 104.
⁴⁸⁵ Buck (1938) *CT II*, p. 390,b (T3C). Assumed not to be intentional, but rather due to limited space at the end of a column.
⁴⁸⁶ Buck (1938) *CT II*, p. 138,b (G2T).
⁴⁸⁷ Buck (1938) *CT II*, p. 138,b (S1C, G1T, A1C).
⁴⁸⁹ Buck (1938) *CT II*, p. 92,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 104.
In the database, it seems that there are distinct forms for every region. However, outside the database this is not true. Meir is only attested in the database without an eye classifier, but outside the database it is attested with a D5 (𓁺) classifier as well. Deir el-Bersha is the only attestation in the database with a D5 classifier, but outside the database it is attested in other regions as well. However, if an eye is added as classifier in Deir el-Bersha, the D5 is commonly used. The use of the D4 (𓁹) as classifier is only attested in the Theban area in the database, which is true outside the database as well. However, it is remarkable that the D5 classifier does not occur in the Theban area, although other eyes like the D10 (𓂀) are used as classifier there. The absence of an eye classifier is attested in all the other regions which use this lemma.

Appendix 6.99.  *pd* (to stretch out, to spread out)\textsuperscript{492}

This lemma has nine attestations in the database.\textsuperscript{493} In table 6.91, the attestations per region are set out for every graphical form of the stem:

\begin{table}[h]
\centering
\begin{tabular}{|c|c|c|c|}
\hline

\textsuperscript{491} Buck (1951) *CT IV*, p. 383,b (T3Be).
\textsuperscript{492} Molen (2000), p. 143-144.
In this lemma, there is some variation in the classifiers. Deir el-Bersha can replace the T9 (𓌒) with the T10 (𓌔), although it seems to be a feature of the witness B1Bo, rather than a regional preference of Deir el-Bersha. The addition of the D54 (𓂻) is only attested in Saqqara and Deir el-Bersha. Note that outside the database form 2 is attested in Saqqara as well.\footnote{Buck (1961) CT VII, p. 62,f (Sq3C).} The addition of the D56 (𓂾) in Asyut (form 3) seems to be a unique feature, which is not repeated in the Coffin Texts. However, form 1 and 2 are most commonly used for this lemma in the Coffin Texts.

Appendix 6.100. \textit{f\texttt{s}i} (to lift, to carry, to raise)\footnote{Molen (2000), p. 145.}

The lemma \textit{f\texttt{s}i} is relatively common in the database, with a total of 59 attestations.\footnote{Buck (1935) CT \textit{I}, p. 366-369,c-a, 368,b, 371,h, 371,i, 368-371,c-a, 370-371,b); Buck (1951) CT \textit{IV}, p. 184,d; Buck (1954) CT \textit{V}, p. 142,b, 143,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 107.} In table 6.92, the attestations per region are set out for every graphical form of the stem. As this is a 3ae inf. lemma, the table is separated due to the occurrence of gemination.

Table 6.92 Graphical forms of the stem of ḥṣl.

Even though the Theban area is underrepresented, it has an interesting feature, as the A9 (𓀋) only occurs as a logogram. However, this is only based on one witness (T3C). Attestations outside the database<sup>502</sup> indicate that classifiers are used in the Theban area as well. The witnesses from Asyut are only attested with form 13 in the database, even though outside the database they are attested with a A9 or equivalent as well. Thus, it cannot be suggested that Asyut prefers to write this lemma phonetically, even though the use of A9 or equivalent signs seems to be less common.

Deir el-Bersha has access to an extreme variety of forms, but based on the database, it seems that the use of the Y2 (𓀋) classifier only occurs in Deir el-Bersha. In Gebelein there seems to be a unique form as well (form 7). However, as it is based on one witness (G1T), it might represent a feature of this witness, rather than regional preference. In Meir, there seems to be a preference to use the A9 or an equivalent sign as a classifier rather than a logogram, when the lemma geminates (see form 16 and 18). However, the A9 or any equivalent can be left out as well (form 13), and is used as a logogram when the lemma does not geminate.

---

<sup>499</sup> Two attestations are reconstructions from B7C, see Buck (1935) <em>CT I</em>, p. 366-368,c-a, 368-370,c-a.
<sup>500</sup> Buck (1935) <em>CT I</em>, p. 368-370,c-a (B1P), the duplication of the A9 (𓀋) is assumed to be a corruption.
<sup>501</sup> All three attestations come from the same witness (M28C).
<sup>502</sup> Buck (1961) <em>CT VII</em>, p. 38,h.
Appendix 6.101. \( f(z)k \) (to be shaved, to be shorn)\(^503\)

In the database, there are a total of 37 attestations for this lemma, although only seven of these attestations are verb forms,\(^504\) which all occur in the same phrase of spell 154, where the other witnesses with this phrase use a substantive. Moreover, all the attestations do not vary in the graphical form of the stem (see figure 6.9), and are all from Deir el-Bersha. Thus, based on the database, it is not possible to suggest that there is a clear preference in the graphical form of the lemma \( f(z)k \), when used as a verbal form. As there are no other attestations, the only comparison can be made with the other substantives, which only vary due to the inclusion or the exclusion of the D3 (𓁸) classifier, which seems to be more prevalent in Deir el-Bersha, but its addition occurs in the other regions as well.

Appendix 6.102. \( fdi \) (to pluck, to uproot)\(^505\)

This lemma is rare in the database, with a total of six attestations, in the same phrase of spell 398.\(^506\) As one can see in table 6.93, the spelling is relatively constant, with only some variation in the classifiers.

Table 6.93 Graphical forms of the stem of \( fdi \).

Based on the database, only in Meir is the humanoid replaced by an arm. However, outside the database this is attested as well in the Theban area and Deir el-Bersha.\(^509\) Gebelein and Aswan are only attested with the humanoid classifier.

\(^{507}\) Note that the D37 (𓁸) could be read as a D40 (𓁸) as well.

\(^{508}\) M5C has an unusual addition to the classifier, and the V1 (𓊁) is only an approximation of the additional line written with the A19 (𓊁).

\(^{509}\) Buck (1954) *CT V*, p. 115,k (T1C), 397,f (B2L).
Appendix 6.103. \textit{m33} (to see)$^{510}$

The lemma \textit{m33} is one of the common lemmas in the database, with 432 attestations. However, only 397 attestations are verbal forms.$^{511}$ In table 6.94 the attestations per region are set out for every graphical form. Note that the forms which include a N35 (\(\text{𓈖}\)) or S4 (\(\text{𓋕}\)) represents a subjunctive \textit{sdlm-f}.$^{512}$

\(^{515}\) All from the same witness (B4L). Two attestations are reconstructions due to the tabular form of spell 31, where the same phrase Buck (1935) *CT I*, p. 96,b, needs to be read for every column below it.

\(^{516}\) Note that the strokes are decorative here, this form should be considered similar to form 8.
Form 7, 16 and 23 are the most common forms for this lemma, and are represented in nearly every region. However, some regional preferences seem to occur. The Theban area seems to have a preference not to write the N35 with the subjunctive $sd$m=f, apart from some rare instances. The use of the S4 occurs only in Asyut, but as it only occurs in one witness (S11C), it cannot be considered a regional preference.

In Gebelein, there seems to be a preference for compact formats (form 6, 13, 15 and 22), although the long format of form 7 is attested as well. Additionally, the G1 (𓄿) is always included in the forms used in Gebelein, which is true for Aswan as well. Moreover, although the Theban area is attested without the G1, this is not true for T3C. Thus, it could be argued that the constant inclusion of a G1 interpretant is a feature of the First Intermediate Period south Egyptian school of artists.

Appendix 6.104. m3c (to be true)

In the database, this lemma has 45 attestations. However, only 37 attestations represent a verbal form. In table 6.95, the attestations per region for every graphical form of the stem are set out:

---

517 There are 2 attestations with the N35 in the Theban area (form 23), while there are 10 attestations without the N35 (form 1 and 7).

518 Although not uniquely for this group, as for example BSC only attestations with the G1 as well. However, for this period the inclusion is constant, where B1Bo, which is one of the earliest witnesses from Deir el-Bersha can leave the G1 out.

520 Buck (1935) CT I, p. 25,b, 37,b, 41-42,c-a, 42,c, 43,a, 78,f, 80,e, 89,e, 113,b-c, 405,e; Buck (1951) CT IV, p. 184-185,a, 263,c, 266,b, 269,b, 289,b, 298,a 304,b, 318,b 326,h-i, 326,l, 236,n. For additional attestations outside the database, see Plas & Borghouts (1998), p. 121.

</tbody>
</table>

In the database, form 5 only occurs in Deir el-Bersha, which suggests that it represents a regional preference. However, when compared to form 6, it becomes clear that the use of these two forms are more or less similar. Notably, there is an interesting feature hidden here, as form 5 is more popular with the later period of coffin decoration in Deir el-Bersha, where form 6 is more popular with the earlier period of coffin decoration. However, the forms are not completely exclusive, as form 5 has one attestation from B3Bo, and two from B4C,521 and form 6 has one attestation from B9C.522 Moreover, form 1 and 3 are not attested beyond the reign of Amenemhat II. Thus, the use of the classifier Y2 (𓏝) is most commonly a later period of coffin decoration preference in Deir el-Bersha. The use of form 5 is not unique to Deir el-Bersha, as outside the database the form is attested in Asyut as well.523 The attestations from Meir seem to prefer the complete absence of the Y2 classifier.

As form 8 is based on L2li, a witness de Buck did not see himself, it cannot be said if the use of the U5 (𓌶) represents a regional preference, or if this is a feature of the witness itself. However, there are no other attestations of this lemma in the Coffin Text for el-Lisht.

Appendix 6.105. mAa (to offer, to present)524

In the database, there are a total of fifteen attestations for this lemma, from the same phrase of spell 335.525 In table 6.96 the attestations per region are set out for every graphical form of the stem. Note

521 B4Bo is dated to the late 11th dynasty and early 12th dynasty, and B4C to Amenemhat I-II. The other attestations (B15C, B1L, B3L and B1P) are dated to Amenemhat II and Sesostris II-III.
522 B9C is the youngest attestation with Amenemhat II, where the other attestations (B2Bo, B3Bo, B4Bo, B4C and B6C) are dated to the late 11th dynasty and early 12th dynasty and Amenemhat I-II.
523 Buck (1938) CT II, p. 381,d (S2P).
525 Buck (1951) CT IV, p. 290-291,a). Note however that Plas & Borghouts (1998), p. 121 consider this phrase part of the lemma mAa (to lead, to guide).
however that only form 3 and 4 can be distinguished from the graphical forms attested for $ms^\ast$ (to be true).\footnote{\textsuperscript{526}}

Table 6.96 Graphical forms of the stem of $ms^\ast$ (to offer).

For this lemma, there does not seem to be a distinct regional preference. However, the use of humanoid figures as classifier is only attested in Meir and the Theban area, even though with single attestations. Outside the database only form 1 and 2 are attested, thus the use of humanoid classifiers most likely represents a unique feature in the witness, rather than a regional preference.

**Appendix 6.106. $ms^\ast$-hrw (to be justified)**\footnote{\textsuperscript{527}}

This lemma was added as a separate entity\footnote{\textsuperscript{528}}, even though it is technically a sub-lemma of $ms^\ast$ (to be true), as it represents a compound verb. Nonetheless, there are 162 attestations of the lemma $ms^\ast$-hrw in the database, although only 110 attestations represent a verbal form,\footnote{\textsuperscript{529}} as the substantive $ms^\ast$-hrw (justification) was added in the database under this lemma. As one can see in table 6.97, the graphical form of this lemma can be remarkably varied.

\textsuperscript{526} See appendix 6.104, table 6.95, form 5, 6 and 7.

Table 6.97 Graphical forms of the stem of msɛ-ḥrw.

In this lemma, a graphical form often occurs only in one witness, and therefore seems to represent a personal preference of the artist, rather than a regional feature. For example, form 32 has six attestations, but all come from the same witness (B4C). Nonetheless, there are some features that can represent a regional preference. The complete phonetic spelling of ḥrw occurs only in Deir el-Bersha.
(form 14, 18, 20, 23). However, with the exception of form 20, all these attestations are from the same witness (B3Bo). The addition of the Aa1 (𓀁) and D21 (𓉀) to the P8 (𓊤) in ḫrw occurs in the Theban area as well (form 21), but is more common in Deir el-Bersha. The other regions only add the G43 (𓅄) to ḫrw.

Based on the attestations from the database, it is possible to suggest that there is a preference in Asyut to use the long format (form 17, 24, 29 and 30). However, outside the database, compact forms are used as well.\textsuperscript{530} The use of a Y2 (𓀃) is attested in Deir el-Bersha (form 4, 19, 22 and 27) and the Theban area (16), but is most prevalent in Deir el-Bersha.

Appendix 6.107. \textit{m3t} (to acclaim)\textsuperscript{531}

The lemma \textit{m3t} has seven attestations in the database, all from the same phrase in spell 36.\textsuperscript{532} In table 6.98, one can see that the majority of variation occurs due to the occurrence of the A2 (𓀁) classifier, and which vessel is used as a phono-repeat.

\begin{table}[h]

\end{tikzpicture} & 3 & el-Lisht & 1 & \\
\hline
\end{tabular}
\caption{Table 6.98 Graphical forms of the stem of \textit{m3t}.}
\end{table}

The attestation from el-Lisht (L2Li) stands out, as it uses a different vessel than the W7 (𓎭) as the phono-repeat. However, as this witness was not seen by de Buck himself, it cannot be said if this represents a regional variant, or if the vessel was a modern transcription instead. Due to the lack of attestations from different regions, it is difficult to say whether the forms from Deir el-Bersha are a representation of a regional preference. However, outside the database there is an attestation from Meir, which added a T14 (𓆾),\textsuperscript{533} which does not occur in Deir el-Bersha, or el-Lisht.

\textsuperscript{530} Buck (1938) \textit{CT II}, p. 154,b (S2C).
\textsuperscript{531} Molen (2000), p. 158.
\textsuperscript{532} Buck (1935) \textit{CT I}, p. 141,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 123.
\textsuperscript{533} Buck (1956) \textit{CT VI}, p. 345,b (M57C).
Appendix 6.108. m(w)t (to die, to be dead)$^{534}$

In the database, this lemma has a total of 58 attestations. However, as the substantive m(w)t (dead) was encoded under this lemma as well, there are only 18 attestations where this lemma is used as a verbal form.$^{535}$ As one can see in table 6.99, the graphical form of this lemma is remarkably stable. However, due to this stability, there does not seem to be any evidence of regional preferences for this lemma.

Table 6.99 Graphical forms of the stem of m(w)t.

Appendix 6.109. mn (to endure, to remain, to be firm)$^{536}$

This lemma is a good example that the choice of spells can strongly influence the number of attestations, as there is only one attestation of this lemma in the database,$^{537}$ even though it is relatively common in the Coffin Texts.$^{538}$ The sole attestation from Beni Hasan (see figure 6.10), cannot be considered a regional preference, as it is used in Deir el-Bersha as well.$^{539}$ Rather, it is one of the two most common forms of the lemma, as the other common form is written without the Y2 (𓊃) classifier.

Appendix 6.110. mni (to moor, to steer)$^{540}$

In the database this lemma has fifteen attestations.$^{541}$ In table 6.100, the attestations per region are set out for every graphical form of the stem:

---

$^{534}$ Molen (2000), p. 188.
$^{535}$ Buck (1935) CT I, p. 30,c, 31,b, 72,c, 80,b; Buck (1951) CT IV, p. 93,o. For additional attestations outside the database, see Plas & Borghouts (1998), p. 125-126.
$^{537}$ Buck (1951) CT IV, p. 193,d-f.
$^{539}$ Buck (1938) CT II, p. 14,d.
$^{541}$ Buck (1951) CT IV, p. 308,c, 325,e, 326,c-d, 326,e-f. For additional attestations outside the database, see Plas & Borghouts (1998), p. 126-127.
Table 6.100 Graphical forms of the stem of *mni*.

For this lemma, there does not seem to be a regional preference, as nearly every feature is used in at least two regions. Form 6 which uses a T22 (𓌢) is unique, but as this witness (Sq2C) is fragmentary, and not seen by de Buck himself, it cannot be said if it is an ancient variation, or simply a modern error for the P11 (𓊧). The use of the T14 (𓌙) in form 4 and 5 only occurs in Meir and the Theban area, but if one considers the similarity between the T14 and P11 in near hieratic cursive script, it might have been a modern transcription error, instead of an intentional variation by the artist.

Appendix 6.111. *mr* (to be ill, to suffer, to have pain)

In the database, this lemma has 28 attestations. However, only fourteen attestations represent verbal forms. In table 6.101, the attestations per region are set out for the graphical forms of the stem:

---

544 Buck (1951) *CT IV*, p. 89,m, 303,b; Buck (1954) *CT V*, p. 155,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 128.
In the database, there are some features that resemble regional preferences for this lemma. In Meir, there seems to be a preference for the long format of form 6 and the absence of a classifier. However, outside the database there is an attestation of form 4 as well, even though a classifier is not attested in Meir for this lemma. The use of the G37 (𓁤) classifier is only attested in Deir el-Bersha and the Theban area, including the attestations outside the database. The use of the D40 (𓁣) classifier is only attested in Deir el-Bersha. In Gebelein and Aswan, only the compact format of form 1 and 4 is used, and there is no classifier attested, including the attestations outside the database. Note that form 4 is one of the most common forms for this lemma, and should not be considered a regional variant, but rather the standard form for this lemma in all regions.

Appendix 6.112. *mr* (to bind)

In the database there are 20 attestations for this lemma, although all are from the same phrase in spell 225. In table 6.102, the attestations per region are set out for every graphical form of the stem:

---

545 Buck (1947) *CT III*, p. 3,d (M22C).
547 Buck (1947) *CT III*, p. 216-217,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 128.
For this lemma, there is one clear regional variation which occurs in the Theban area, where this lemma is written mi rather than mr. However, mr is used as well (form 5). It could be argued that this is due to the date of the witness, as MC105 (form 5) is dated to Mentuhotep II-IV, whereas T1Be, T2Be and T2L (form 7 and 8) are dated to Sesostris I – Amenemhat II (T2L) or Sesostris III (T1Be, T2Be). Thus, it seems that the use of mi for this lemma in the Theban area reflects a later period of coffin decoration.

In Deir el-Bersha, there are some witnesses (B2Bo, B4Bo, B4C and B1Y; form 2 and 3) that include a rectangle (𓈙) sign with this lemma. Based on the attestation from Saqqara (form 4), it could be suggested that Saqqara only uses the S28 (𓋳) as classifier (form 4). However, outside the database, form 5 is used in Saqqara as well.

Appendix 6.113. mri (to love, to wish)

The lemma mri is relatively common in the database, with 160 attestations. However, only 142 of these attestations reflect verbal forms. In table 6.103, the attestations per region are set out for the graphical forms of the stem. Note that this is a 3ae inf. lemma and gemination occurs in the database, therefore the table has been divided in gemination and no gemination.

For additional attestations outside the database, see Plas & Borghouts (1998), p. 128-129.

---

548 M25C and M2NY, both these attestations are reconstructions, that cannot be distinguished from mri (to love). However, based on the available space in the lacuna, the addition of a classifier seems unlikely.
552 Buck (1956) CT VI, p. 251,e, (Sq5C, Sq3C).
554 Buck (1935) CT I, p. 44-45,e-a, 68,a, 69,d, 83,d, 104-106,e-a, 106,b, 112,c, 120,d; Buck (1938) CT II, p. 255,a; Buck (1947) CT III, p. 10,b, 212,b-d, 220-221,a, 223,e; Buck (1951) CT IV, p. 252-253,b, 260,a, 260,b; Buck (1954) CT V, p. 7,b, 122,a, 122,b, 123,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 128-129.
### Table 6.103 Graphical forms of the stem of mri.

As one can see in the table, the majority of the attestations are either form 2 or form 9. However, some regional conditioned variation does seem to occur. The classifier Y2 (𓏝) is only attested in witnesses from Deir el-Bersha (form 6, 7 and 11) as well as the N36 (𓏵) phono-repeater. The N37 (𓈙) phono-repeater is only attested in Meir and Deir el-Bersha. The Theban area is the only region where the N36 is used as a phonemogram when this lemma is used as a verb.
Appendix 6.114. *mhi* (to be forgetful, to be neglectful)\(^{555}\)

This lemma has only five attestations in the database, from the same phrase of spell 151.\(^{556}\) In Table 6.104, the attestations per region are set out for the graphical forms of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Saqqara</td>
<td>1</td>
<td>3</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td>2</td>
<td>Deir el-Bersha</td>
<td>1</td>
<td>4</td>
<td>Deir el-Bersha</td>
<td>1(^{557})</td>
</tr>
<tr>
<td></td>
<td>Asyut</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Table 6.104 Graphical forms of the stem of *mhi*.

In the database, it seems that the use of classifiers only occurs in Deir el-Bersha, but outside the database the G37 (𓊉) is attested in Gebelein as well.\(^{558}\) The minimal format of form 1 is in the database only attested in Saqqara, but outside the database attested for A1C as well.\(^{559}\) The use of the G43 (𓊌) is only attested in Asyut and Deir el-Bersha, but due to a lack of additional attestations outside the database, it cannot be said with certainty if the use of the G43 is a regional preference.

Appendix 6.115. *mḫt* (to fill, to complete)\(^{560}\)

In the database, the lemma *mḫt* has 72 attestations.\(^{561}\) In Table 6.105, the attestations per region are set out for every graphical form of the stem:

---

\(^{556}\) Buck (1938) *CT II*, p. 259,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 129.

\(^{557}\) Buck (1938) *CT II*, p. 259,b (81C), assumed to be a corruption, due to the imperative of *tm* before it, as the other lemmas of *hm* (to be hot) or *hm* (to shout) make little sense with the D35 (𓊉) classifier.

\(^{558}\) Buck (1947) *CT III*, p. 296,k (G1T).

\(^{559}\) Buck (1947) *CT III*, p. 296,k (A1C).

\(^{561}\) Buck (1935) *CT I*, p. 90-91,b, 118,a, 137,d; Buck (1951) *CT IV*, p. 232-233,a; Buck (1954) *CT V*, p. 123,d, 158,e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 129.

</table>

One of the major variations between the forms is the use of a G17 (𓊎) as the initial sign. Although most regions have forms with or without the initial G17, Gebelein and Aswan are only attested with the initial G17 (form 5), where Saqqara is only attested without the initial G17 (form 8 and 12). However, outside the database this is not true for Saqqara or Aswan or Gebelein.\(^{562}\) In the database, the use of the D40 (𓊎) classifier seems to only occur in Meir, although it needs to be noted that there are no other attestations of the use of D40 as classifier for the lemma mH in the Coffin Texts. The attestations from Asyut are always accompanied by a Y2 (𓊎) classifier in the database. However, outside the database this is not true,\(^{563}\) although the use of Y2 is more common than the absence of it. Beni Hasan only occurs with form 12, but as it is a single attestation, it would be assumptive to suggest it represents a regional preference.

\(^{562}\) Buck (1935) *CT I*, p. 284, b (Sq3C); Buck (1947) *CT III*, p. 321, e (A1C); Buck (1956) *CT VI*, p. 272, h (G1T).

\(^{563}\) Buck (1956) *CT VI*, p. 178, k (S1C).
Appendix 6.116. *mḥi* (to drown, to swim, to overflow)\(^{564}\)

In the database there are only three attestations of this lemma, from Gebelein and Aswan, in the same phrase of spell 398.\(^{565}\) Moreover, as one can see in table 6.106, the two forms are closely related to each other, as the only variation occurs in the position of the V28 (𓎛) to the N35A (𓇧). Note that these two forms cannot be considered a regional variant,\(^{566}\) as outside the database form 1 is attested in Deir el-Bersha as well.\(^{567}\)

Table 6.106 Graphical forms of the stem of *mḥi*.

Appendix 6.117. *msi* (to bear, to give birth, to bring forth)\(^{568}\)

This lemma is relatively common in the database, with a total of 234 attestations. However, only 194 attestations are of verbal forms.\(^{569}\) In table 6.107, the attestations per region are set out for every graphical form of the stem. Note that this is a *3ae inf.* lemma and gemination occurs in the database, therefore the table has been divided in gemination and no gemination. Due to the extremely varied nature of the hieroglyph B3 (𓇧), B4 (𓇪), and their classes, all the classifiers of some form of humanoid with lines beneath it should be considered the same classifier, as the variation between them is rarely intentional.

For additional attestations outside the database, see Plas & Borghouts (1998), p. 131-132.
570 Buck (1935) CT I, p. 106,a, (S1C). The A40 (𓁐) is a corruption of the B1 (𓀭) (form 2). Note that this should be considered one grapheme which functions as a class of B3/B4.
571 Only attested in S1C. Note that this should be considered one grapheme which functions as a class of B3/B4.
572 Buck (1935) CT I, p. 117,a (B3L). Note that this should be considered one grapheme which functions as a class of B3/B4.
573 Buck (1935) CT I, p. 48,a (B6C). Note that this should be considered one grapheme which functions as a class of B3/B4.
574 Buck (1935) CT I, p. 345,c (M4C). Note that this should be considered one grapheme which functions as a class of B3/B4.
575 Note that the B1 (𓀭) and the Z2 (𓀩) should be considered one grapheme which functions as a class of B3/B4.
576 Buck (1938) CT II, p. 400,a (Y1C). Note that the B1 (𓀭) and the two Z2 (𓀩) should be considered one grapheme which functions as a class of B3/B4.
Table 6.107 Graphical forms of the stem of *msi*.

577 Buck (1938) *CT II*, p. 82,b (B3L). The B1 (𓁐) and N33A (𓌮) should be considered one grapheme which functions as a class for B3/B4.

578 Buck (1935) *CT I*, p. 88,b (S12C). The Z3 (𓏪) signs are simply filler strokes.
In this lemma, there are hardly any regional features when all the humanoid classifiers are treated as the same sign. Nonetheless, minor regional preferences seem to occur. For example, in el-Lisht, Gebelein and Aswan (form 11, 14 and 25), there is no attestation of a humanoid classifier or logogram. The use of the humanoid figure as a logogram is only attested in Deir el-Bersha, Meir and Asyut (form 1-10 and 32), whereas Beni Hasan and the Theban area only use it as a classifier (form 12, 13, 19, 20 and 30). The use of the G17 (𓅓) interpretant is only attested in Saqqara (form 31), although it is extremely rare in the Coffin Texts. The reversed direction of the S29 (𓋴) occurs only in Asyut (form 26 and 34), but this is due to the left to right direction of the writing in this witness (S2C), rather than an intentional variation.

Appendix 6.118. msbi (to burn)\textsuperscript{579}

There is only one attestation of this lemma in the database, in a name of a divinity in spell 335.\textsuperscript{580} The attestation occurs in M1NY (see figure 6.11). However, based on another attestation of this name (B1P), it could be possible that the G17 (𓅓) is a corruption of the G1 (𓄿), in which case ssb (see appendix 6.9) should be read. According to van der Molen, there is one other attestation of this lemma in the Coffin Texts in Deir el-Bersha,\textsuperscript{581} where the other witnesses use ssb as well.

Appendix 6.119. msdl (to hate, to dislike)\textsuperscript{582}

In the database there are a total of 27 attestations of this lemma.\textsuperscript{583} In table 6.108, the attestations per region are set out for every graphical form of stem. Note that in the database only imperfective participles are attested, thus every form shows gemination.

<table>
<thead>

</tbody>
</table>

Table 6.108 Graphical forms of the stem of msdl.

\textsuperscript{579} Molen (2000), p. 183.
\textsuperscript{580} Buck (1951) CT IV, p. 272,a.
\textsuperscript{581} Buck (1961) CT VII, p. 288,c (B4L,b).
\textsuperscript{582} Molen (2000), p. 185-186.
\textsuperscript{583} Buck (1935) CT I, p. 9,c, 13,d, 18,g, 22,c, 35,d 39,c, 40,b, 46,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 13.)
In the database, the only noticeable variation occurs with the use of the A2 (𓀁) classifier. However, this does not represent a regional pattern for the Theban area, as this classifier is used outside the database in Saqqara and Deir el-Bersha as well. Therefore, it is unlikely that there are any regional preferences for this lemma.

Appendix 6.120. mki (to guard, to protect)

The lemma mki has only four attestations in the database, from the same phrase of spell 27. In table 6.109, one can see that every region has its own form, although it needs to be noted that one of the attestations from the Theban area (MC105) is a reconstruction.

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td></td>
<td></td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Asyut</td>
<td>1</td>
</tr>
</tbody>
</table>

Although the database suggests distinct variants in the regions, form 1 is used in other regions as well. The use of a D40 (𓁙) classifier after the V31 (𓁓) or V31A (𓁝) is most common in Asyut, but occurs in Deir el-Bersha as well. The use of a A24 (𓀜) classifier is most commonly attested in Deir el-Bersha, but is attested in P.Gard.2 as well, which is assumed to originate from Asyut. However, the use of the A24 classifier is only attested in Deir el-Bersha for coffin decorations.

Appendix 6.121. mtn (to assign)

There are only ten attestations of this lemma in the database, from the same phrase in spell 215. As one can see in table 6.110, the spelling is relatively constant, and the variation rather takes place in the graphical form.

---

584 Buck (1935) CT I, p. 292,d (Sq3C, B10C).
586 Buck (1935) CT I, p. 79,h. For additional attestations outside the database, see Plas & Borghouts (1998), p. 133.
587 Buck (1947) CT III, p. 190,c (S1C, B2Bo).
588 Buck (1954) CT V, p. 315,q.
589 Buck (1956) CT VI, p. 198,d.
590 (Schenkel, 1996, p. 125.
Based on the table, there does not seem to be a regional preference for this lemma. The only clear exception occurs in P.Gard.2, which uses a N31 (𓀐) classifier rather than a Y2 (𓏝). Outside the database there are only three additional attestations of this lemma, which all use the N31 classifier, which is interesting as these are from P.Gard.3 and P.Gard.4. Thus, the use of this classifier might represent a feature of papyri, rather than a regional feature of the Coffin Texts.

Appendix 6.122. *mdw* (to speak)\textsuperscript{594}

This lemma has 217 attestations in the database. However, only 62 attestations represent verbal forms.\textsuperscript{595} In table 6.111, the attestations per region are set out for every graphical form of the stem:

\begin{table}[h]
\begin{tabular}{|l|l|l|}
\hline
*Graphical form stem* & *no.* & *Region* & *Attestations* \\
\hline
1 & Saqqara & 2 & 3

Table 6.111 Graphical forms of the stem of *mdw*. 

In this lemma, the Theban area is the only region where all the interpretants of the S43 (𓌃) were added (form 6), although this might be a feature of the witness (MC105). The absence of the G43 (𓅱) only occurs in Deir el-Bersha and Asyut. In the other regions the sign is constantly included, even though the G43 is used in Deir el-Bersha and Asyut as well. In el-Lisht, there seems to be a preference for using a compact format (form 2 and 8). Form 9 and 16 represent variants where the A2 (𓀁) classifier was replaced by a M17*Z1 group (𓇋𓏤), but as this occurs in Saqqara and Meir, it most likely reflects features of the witnesses (Sq1C, M1C) rather than a regional preference. Therefore, Saqqara does not use any

---

597 Buck (1951) *CT IV*, p. 252,b (Sq1C). The Z1 (𓏤) functions as a classifier, replacing the A2, as this witness prefers to replace the humanoid figures with Z1.

598 Buck (1951) *CT IV*, p. 253,b (M1C) Note that the M17*Z1 (𓇋𓏤) group functions as a classifier, replacing the A2 (𓀁), as this witness dislikes using humanoid figures.
humanoid classifier for this lemma in the database. However, outside the database the A2 is used in Saqqara as well.  

**Appendix 6.123. mds (to be sharp, to be violent)**

In the database there are sixteen attestations of this lemma, although only two are considered verbal forms. As both these attestations are from the Theban area, and considered a substantive by van der Plas & Borghouts, the value of this lemma for regional variation is limited. As one can see in table 6.112, the two attestations have two different forms, based on the classifier and which sign for the phonemogram s is used. Compared to the attestations outside the database, it seems that the O34 (…) is only attested in the Theban area.

<table>
<thead>

<td>2</td>
<td>Theban area</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.112 Graphical forms of the stem of mds.

**Appendix 6.124. mdh (to be invested)**

This lemma has only four attestations, from the same phrase in spell 398. As one can see in table 6.113, there are two forms, which vary based on the position of G17 (𓅓) and the classifier. However, form 1 should not be considered a sign of a regional pattern, as form 2 occurs in Gebelein (G2T) as well. Moreover, the substantive mdh (fillet) which occurs in the same phrase is written as form 2.

---

599 Buck (1938) *CT II*, p. 164.e (Sq3Sq).
601 Buck (1951) *CT IV*, p. 315.e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 135. However, it could be argued that the substantives of Buck (1938) *CT II*, p. 56,a, are actually participles: mds (the sharp/ferocious one).
603 Buck (1954) *CT V*, p. 158,a. Note that this is the only attestation of this lemma in the *Coffin Texts* according to Plas & Borghouts (1998), p. 135.
604 It is the compact writing of G1T, where the I10 (𓆓) and V28 (𓎛) are written next to the G17 (𓅓) in the column, which forced the alternative placement of the classifier.
### Appendix 6.125. *nī* (to rebuff, to drive away)\(^{605}\)

In the database, there is only one attestation of this lemma.\(^{606}\) However, based on the attestations outside the database, it seems that the form (see figure 6.12) is unique for this witness (T1C). However, as there are no other attestations of this lemma from the Theban area in the *Coffin Texts*, it cannot be said if this is a regional preference, or if this is a feature of this witness.

### Appendix 6.126. *nīs* (to call, to reckon, to invoke)\(^{607}\)

In the database there are seven attestations of this lemma, which all come from the same phrase of spell 398.\(^{608}\) As one can see in table 6.114, the graphical form is remarkably stable, as the only variation occurred due to the classifier Y2 (𓏝) instead of the A2 (𓀁). In the database the Y2 classifier is only attested in Meir, but beyond the database the Y2 classifier is attested in Deir el-Bersha as well,\(^{609}\) thus there does not seem to be a clear regional preference for this lemma.

---

\(^{606}\) Buck (1951) *CT IV*, p. 208,c (T1C,a). For additional attestations outside the database, see Plas & Borghouts (1998), p. 149.

Appendix 6.127. *nwd* (to turn aside, to turn back)*610*

There is only one attestation of this lemma in the database, in G1T.611 The graphical form (see figure 6.13) is unique in this witness, although this is most likely due the placement of the W24 (𓊪), which is normally written above the I10 (𓊪). Thus, this compact format could represent a regional feature. Nonetheless, the use of this exact form is only attested in Gebelein, but could be a feature of the witness rather than a regional feature.

Appendix 6.128. *nbi* (to swim)*612*

In the database there are 21 attestations of this lemma.613 In table 6.115, the attestations per region are set out for every graphical form of the stem. Note that this is a 3ae inf. lemma and gemination occurs in the database, therefore the table has been divided in gemination and no gemination. Note that the humanoid classifiers (form 5, 6, 8 and 10) represent the closest similarity to the sign used in the original, rather than being exact representations of the signs.

---

614 One of these attestations (B1Y) is a reconstruction.
615 One of these attestations (T2Be) is a reconstruction.
616 Reconstruction (Sq2C), could be any other spelling as well.
As one can see in the table above, the graphical forms of the lemma *nbi* are remarkably varied. However, there are some minor details that suggest a regional preference. The use of the S12 (𓋞) as a phonemogram is only attested in el-Lisht and Meir,\(^{617}\) although it is more common in Meir. The use of the D40 (𓂡) classifier occurs in Deir el-Bersha and the Theban area (form 13), but is much more common in Deir el-Bersha (form 2, 9, 11 and 14). If the humanoid figures (form 5, 6, 8 and 10) are treated as classes of the same sign, namely a man who is swimming, there is no regional pattern to the use of these classifiers. Otherwise, these different graphemes should be considered unique forms bound to the region where they were attested.

**Appendix 6.129. *nbi* (to be aflame, to be on fire)\(^{618}\)**

This lemma has only three attestations in the database, and all from the same witness (L1NY).\(^{619}\) There are no additional attestations of this lemma in van der Plas & Borghouts. Thus, it is not possible to suggest a regional preference based on this lemma. As one can see in table 6.116, there are two graphical forms in which this lemma occurs, which vary based on the classifier.

---

\(^{617}\) Note that this attestation is based on Buck (1951) *CT IV*, p. 295,b (L1NY), as the support deteriorated since de Buck worked on it. In the more recent image I had access to (see appendix.supports for more detail) this token is now lost. Therefore, I cannot say with certainty if this transcription is correct.

\(^{619}\) Buck (1951) *CT IV*, p. 269,c, 271,b, 272,a.
Table 6.116 Graphical forms of the stem of nbi (to be aflame).

Appendix 6.130. nbs (to burn)

This lemma has only eight attestations in the database. Moreover, there are no additional attestations of this lemma outside the database. In table 6.117, the attestations per region are set out for every graphical form of the stem:

Table 6.117 Graphical forms of the stem of nbs.

For this lemma, there are only minor variation between the regions. The southernmost attestations, Meir and the Theban area, use a Q7 (𓊮) or one of its classes as classifier (form 3 and 4), where the northernmost attestations, Beni Hasan and Deir el-Bersha, do not use a classifier or use a D40 (𓋡) classifier. The use of the V30 (𓎟) as phonemogram is only attested in Deir el-Bersha, as is the use of the O34 (𓊃) instead of the S29 (𓋴). However, there are too few attestations of this lemma to suggest any regional preference with any degree of certainty.

---

621 Buck (1951) CT IV, p. 270b-271b, 272a.
Appendix 6.131. *nf₂* (to exhale, to blow)*623*

In the database there are 79 attestations of this lemma, with the majority of the attestations coming from spell 75. However, only 77 attestations are of verbal forms.624 In table 6.118, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>

Table 6.118 Graphical forms of the stem of *nf₂*.

---

625 Buck (1935) *CT I*, p. 356,a (B6C), the D20 (𓊧) classifier makes this reading most likely.
626 Buck (1935) *CT I*, p. 357,a (M28C), the D20 (𓊧) classifier makes this reading most likely. However, as de Buck did not see this witness himself, it might be a modern error as well.
627 Buck (1935) *CT I*, p. 359-361, d-a (Sq5C). Reconstruction, although there are traces left of the D20.
Although form 9 is the favourite form for this lemma in most witnesses, there are signs of regional preferences. In the database, the use of the A2 (𓀁) classifier only occurs in Aswan, Gebelein and the Theban area. Moreover, the attestation from the Theban area is T3C. As these attestations are considered a group representing a south Egyptian school of artists in the First intermediate period, it seems that the use of the A2 classifier with this lemma is a feature of that school.

The Y2 (𓏝) is only attested in Deir el-Bersha, although all attestations are from the same witness (B1C). Including the attestations outside the database, which do not use the Y2 classifier, it might be better to consider this a feature of the support, rather than a regional preference, even though it does not occur outside Deir el-Bersha in the Coffin Texts, and the use of the Y2 classifier is more commonly used in Deir el-Bersha for the other lemmas as well. The absence of one of the phonemograms (form 1, 2 and 4) is only attested in Deir el-Bersha and Meir.

**Appendix 6.132. nfr (to be beautiful, to be good)**

This lemma is common in the database, as it has 346 attestations. However, most of these are substantives or adjectives, and only seventeen attestations are of verbal forms. In table 6.119, the attestation per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Meir</td>
<td>2</td>
</tr>
<tr>

<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td>4</td>
<td>Gebelein</td>
<td>2</td>
</tr>
<tr>
<td>5</td>
<td>Deir el-Bersha</td>
<td>7</td>
</tr>
<tr>
<td>6</td>
<td>Asyut</td>
<td>1</td>
</tr>
<tr>
<td>7</td>
<td>Theban area</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.119 Graphical forms of the stem of nfr.

The database suggests multiple regional preferences, that sadly cannot be supported when attestations outside the database are included as well. Form 1 is only attested in Meir, but outside the database it is attested in Deir el-Bersha as well. The use of the D21 (𓂋) interpretant only (form 4) is attested in the Theban area and Gebelein, but outside the database it is attested in Deir el-Bersha as well. The use of the Y2 (𓏝) classifier is only attested in Deir el-Bersha, but outside the database it is attested in Asyut as well. Therefore, it seems unlikely that there is any regional preference for this lemma.

<td>Deir el-Bersha</td>
<td>2</td>
<td><img src="image14" alt="Graphical form" /></td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.120 Graphical forms of the stem of *nmi*.

In the database, the addition of the M17 (𓊇) seems only to occur in Deir el-Bersha and Meir. However, outside the database this is attested in Asyut and the Theban area as well. The use of the phono-repeator O5 (𓉕) is only attested in Deir el-Bersha and Asyut, although its use is more common in Deir el-Bersha. However, the different classes of the O5 of form 7 and 9 only occur in Deir el-Bersha. However, outside the database the O5 is used as phonemogram in the Theban area. The use of the D40 (𓉱) classifier is only attested in Deir el-Bersha (form 3 and 6), which is true outside the database as well.

---

636 Buck (1935) *CT I*, p. 137,b (B16C). Could be a corruption, as all the other witnesses have *min* (today) here.
637 Buck (1935) *CT I*, p. 302,c (T1C, T2C); Buck (1951) *CT IV*, p. 352,c, (S1C, S2C).
638 Buck (1956) *CT VI*, p. 414,e.
Appendix 6.134. *nhm* (to rejoice, to shout, to tremble, to quake)\(^{639}\)

In the database there are fifteen attestations, of which fourteen attestations are of verbal forms.\(^{640}\) As one can see in table 6.121, the graphical form of this lemma is remarkably constant:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>
<td>Beni Hasan</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>2</td>
<td>Deir el-Bersha</td>
<td>11</td>
</tr>
<tr>
<td></td>
<td>3</td>
<td>el-Lisht</td>
<td>2</td>
</tr>
</tbody>
</table>

Table 6.121 Graphical forms of the stem of *nhm*.

It is difficult for this lemma to suggest any regional preferences, as the majority of the attestations, including those outside the database are from Deir el-Bersha. Nonetheless, it seems that the use of the D54 (ירת) classifier only occurs in Beni Hasan, although this is the only attestation from Beni Hasan and the only attestation of the D54 for this lemma in the *Coffin Texts*. The attestations from el-Lisht suggest that this region does not use a classifier, but outside the database that is true for Deir el-Bersha as well.\(^{641}\) However, as these are the only attestations from el-Lisht, it might still be a regional preference for el-Lisht, even though the absence of the classifier occurs outside el-Lisht as well.

However, including the attestations outside the database, it seems that this lemma does not occur south of Deir el-Bersha. This is most likely due to the spells in which this lemma occurs rather than an objection to the lemma south of Deir el-Bersha, as the substantive *nhm* (shout) is attested in Asyut.\(^{642}\)

Appendix 6.135. *nHb* (to give, to loan, to bestow)\(^{643}\)

There are fourteen attestations of this lemma in the database.\(^{644}\) In table 6.122, the attestations per region are set out for every graphical form of the stem:

---

\(^{641}\) Buck (1954) *CT V*, p. 349,f (B9C).

\(^{642}\) Buck (1938) *CT II*, p. 279,a (S1C,b). However, this is likely an error for *whm* which is used in the other witnesses, including the S1C,a.

\(^{644}\) Buck (1947) *CT III*, p. 9,b; Buck (1951) *CT IV*, p. 88,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 161.
In the database, there seems to be a clear distinction between Deir el-Bersha and the other regions (form 3). However, this is not true. Form 5 is attested in Saqqara as well, thus the use of the Y2 (𓏝) classifier is not restricted to Deir el-Bersha. Nor is the use of the V28 (𓎛) interpretant, which is attested in Saqqara as well. However, as there are no other attestations for Meir or Asyut beyond the database for this lemma, it cannot be said with certainty if these features occurred Meir and Asyut as well, or if the Y2 and V28 are features of the more northern attestations of this lemma.

Appendix 6.136. nḫm (to take away, to rescue)

There are 128 attestations for the lemma nḫm in the database. In table 6.123, the attestations per region are set out for every graphical form of the stem:

---

645 Buck (1947) CT III, p. 9,b (B3Bo). The F39 (𓄪) classifier is assumed to be an addition due to the similarity of this lemma with nḥb.t (neck).
646 Buck (1938) CT II, p. 53,b (Sq6C).
647 Buck (1938) CT II, p. 53,b (Sq1C).
649 Buck (1935) CT I, p. 15,c, 38,a, 52,a, 370-373,c-a); Buck (1938) CT II, p. 58,b, 88,a, 88,b); Buck (1951) CT IV, p. 295,e, 298-299,a, 303,a, 312,b, 319,e, 321,e; Buck (1954) CT V, p. 121,b, 152,d-e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 161.

</tbody>
</table>

Table 6.123 Graphical forms of the stem of ḫm.

In Gebelein, there seems to be a preference for a compact format, as form 10 and 12-16 are not attested in that region. The addition of the interpretant V28 (𓊬) is only attested in Gebelein and Meir. In Deir el-Bersha the N42 (𓊨) is always attested without any other sign next to it, as the attestations from Deir el-Bersha seem to prefer to use the long format of form 10 and 12-16. In the other regions both the compact and long format are attested.

\[650\] Buck (1935) *CT I*, p. 371c (M-Ann), the V30 (𓊬) is assumed to be a corruption of the N42 (𓊨). However, as de Buck did not see this witness himself, I cannot say if the corruption is modern, or ancient. This might be true for the D34 (𓊬) as well, which could have been a A24 (𓊬) if the script of the original was near hieratic cursive script.
Appendix 6.137. *nhn* (to be young, to be a child)\(^{651}\)

In the database there are only six attestations of this lemma, from the same phrase of spell 8.\(^{652}\) In table 6.124, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1.png" alt="Image" /></td>

<tr>
<td><img src="image5.png" alt="Image" /></td>
<td>3</td>
<td>Theban area</td>
<td>1</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Table 6.124 Graphical forms of the stem of *nhn*.

As one can see in the table above, there does not seem to be any regional preference in the graphical form of the lemma, as nearly every feature occurs in Deir el-Bersha and the Theban area. However, outside the database it seems that Deir el-Bersha prefers to use the G37 (𓀔) over the A17 (𓀒) as classifier.\(^{653}\)

Appendix 6.138. *ns(¯)* (to burn)\(^{654}\)

In the database, there are a total of 66 attestations of this lemma. However, only 44 attestations represent verbal forms.\(^{655}\) In table 6.125, the attestations per region are set out for every graphical form of the stem:

---

\(^{652}\) Buck (1935) *CT I*, p. 24,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 162.

\(^{653}\) Buck (1961) *CT VII*, p. 312,a.

\(^{654}\) Molen (2000), p. 245. Note that in the database this lemma is under *nsr*, but due to the attestations I decided to add it here as *ns(¯)*.

\(^{655}\) Buck (1935) *CT I*, p. 362-363,c, 380-381,b, 395,e, 398,e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 163.

<td></td>
</tr>
</tbody>
</table>

Table 6.125 Graphical forms of the stem of *nsr, ns, nsi*.

The use of *nsi* (form 5) is only attested in Meir. The absence of the N35 interpretant is only attested in the Theban area, although it is most likely due to the negation in this phrase. The absence of the F20 phonemogram occurs only in Deir el-Bersha, although rarely. In Gebelein there is a clear preference for the compact format of form 7, although form 7 represents one of the most common forms of this lemma.

**Appendix 6.139. nsb (to lick, to devour)**

This lemma has nine attestations in the database. In table 6.126, the attestations per region are set out for every graphical form of the stem:

---

656 Buck (1935) *CT I*, p. 398,e (S2C). Reconstruction, might be a different spelling, or not have been written at all.

657 Buck (1935) *CT I*, p. 362,c, (T3C).

659 Buck (1951) *CT IV*, p. 320,a, 320,e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 163.
<table>
<thead>
<tr>

<td>Meir</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>Theban area</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.126 Graphical forms of the stem of *nsb*.

In the database, there is no real variation in the regions. However, it seems that the attestations from Deir el-Bersha prefer to use a long format (form 1 and 4), rather than the more compact format used in the other witnesses. Outside the database, Deir el-Bersha uses compact formats as well. Although it does not occur in the database, the Y2 (𓏝) can be used as classifier, but is only attested in Deir el-Bersha.

**Appendix 6.140. *nš* (to drive away, to expel)**

In the database there are eighteen attestations of this lemma. In table 6.127, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>

</tbody>
</table>

Table 6.127 Graphical forms of the stem of *nš*.

660 Buck (1951) *CT IV*, p. 407 (Sq2C). Both attestations are reconstructions, and might have been spelled differently.
661 Buck (1938) *CT II*, p. 44,h.
664 Buck (1938) *CT II*, p. 278-280,e-b; Buck (1951) *CT IV*, p. 260,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 164.
In the database, the only variation occurs based on the classifiers A24 (𓀝) and V36 (𓎨). It seems that Asyut and Deir el-Bersha can use either classifier, although the V36 is preferred. Outside the database form 2 is used for Gebelein and Aswan as well, which suggests that form 2 is the most common form for this lemma, no matter the region. Meir only uses the A24 classifier, but this seems to be the only attestation in the Coffin Texts, and could therefore be a feature of this witness (M4C) as well.

Appendix 6.141. *nšnî* (to rage, to be furious)

This lemma is relatively common in the database with a total of 71 attestations. However, only 22 attestations are of verbal forms. In table 6.128, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>

<td>4</td>
</tr>
</tbody>
</table>

Table 6.128 Graphical forms of the stem of *nšnî*.

As one can see in the table above, the variation in the graphical form only occurs in the classifier. The use of the D40 (𓀝) classifier is attested in three regions (form 2), although it is remarkable that it does not occur to the south of Deir el-Bersha. The A24 (𓀝) classifier is only attested in the Theban area in the database (form 3), but occurs in Deir el-Bersha as well. The use of the N4 (𓇲) classifier (form 4 and 7) are attested in Meir and the Theban area. Notably, it seems that this is a required Coffin Texts classifier for this lemma in Meir. Although the use of a Sethian animal in the classifier (form 5 and 6) seems to be limited to Saqqara and the Theban area in the database, it occurs in other regions outside the database.

---

665 Buck (1956) *CT VI*, p. 264,j.
667 Buck (1951) *CT IV*, p. 239,c, 242-243,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 164.
668 Buck (1951) *CT IV*, p. 239,c, 243,a (T2Be). Reconstruction, only the first N35 (𓀝) and N37 (𓀝) are visible. It is possible that this witness should only be reconstructed as form 7, which occurs in T1Be (which belongs to the same owner). However, the reconstruction was based on IV,141,a, where only the classifier is visible.
669 Buck (1938) *CT II*, p. 30,f (B1Bo).
670 Buck (1938) *CT II*, p. 340,b (S2P, B4Bo).
Appendix 6.142. *nk* (to copulate)

The lemma *nk* has 65 attestations in the database. In table 6.129, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>
<td>Asyut</td>
<td>9</td>
<td></td>
<td>3</td>
<td>Deir el-Bersha</td>
<td>29</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>Meir</td>
<td>8</td>
</tr>
<tr>
<td></td>
<td>2</td>
<td>Asyut</td>
<td>10</td>
<td></td>
<td>4</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>Meir</td>
<td>8</td>
</tr>
</tbody>
</table>

Table 6.129 Graphical forms of the stem of *nk*.

As one can see in the table above, the variation mostly occurs in the classifier. Form 1 and 2 are only attested in Asyut, while form 3 and 4 are only attested in Deir el-Bersha and Meir, although Deir el-Bersha favours form 3. However, outside the database form 1 is attested in Dendera and P.Gard.3. Thus, it is unlikely that there is a regional preference for this lemma.

Appendix 6.143. *ngg* (to cackle, to screech)

In the database there are nineteen attestations of this lemma. In table 6.130, the attestations per region are set out for every graphical form of the stem. Note that as this is a *2ae gem.* lemma and gemination occurs in the database, the table has been divided in gemination and no gemination. Note as well that *ngn* and *ngi* are considered alternative spellings for this lemma.

---

672 Buck (1938) *CT II*, p. 67,d, 68,d, 68,2*, 70,d, 72,a, 77,b, 78,c, 80,b, 80,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 164.
673 Buck (1951) *CT IV*, p. 72,b (D1C).
674 Buck (1961) *CT VII*, p. 182,f (P.Gard.3).
676 Buck (1935) *CT I*, p. 74,b); Buck (1951) *CT IV*, p. 311,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 165.
For this lemma, there are some features that suggest a regional preference. Form 3 is only attested in Deir el-Bersha, and moreover, only in B3Bo and B4C, which are both witnesses which belong to women. However, as there are no additional attestations of ngn outside the database, it cannot be said whether this is random, or intentional. Moreover, the witness B3C which belongs to the same owner as B4C uses form 5 as well, so the variation might have been random. Form 7 only occurs in the Theban area, but there are no other attestations of ngi in the Coffin Texts, nor is the G41 (𓀱) used as classifier anywhere else, so this might simply reflect a feature of the witness. The attestations from Meir (form 1 and form 9) seem to suggest that the compact format is preferred in this region. However, there are no other attestations from Meir in the Coffin Texts to validate this preference.

Appendix 6.144. *nd* (to consult, to inquire about, to ask)\(^{679}\)

This lemma has a total of 32 attestations in the database.\(^{680}\) In table 6.131, the attestations per region are set out for every graphical form of the stem:

---

677 Buck (1951) *CT IV*, p. 311,a (T1C), the A1 (𓀱) is assumed to be a corruption of the A2 (𓀰).
678 Buck (1951) *CT IV*, p. 311,a (T3Be).

</tr>
</tbody>
</table>

Table 6.131 Graphical forms of the stem of *nd* (to consult).

In the database, the use of the Aa27 (𓀀) without interpretants is only attested in Asyut (form 1). However, outside the database this is additionally attested in Deir el-Bersha. The use of the A24 (𓀜) as classifier is only attested in the Theban area (form 10), but as these attestations are from the same witness (T3C), it might simply represent a feature of this witness, rather than a regional preference. Beni Hasan is the only region in which the A26 (𓀞) is attested as classifier (form 4). However, there are no other attestations of this sign with this lemma in the Coffin Texts, thus it might reflect a unique feature of the witness BH2C, even though this witness uses form 7 as well.

---

681 Buck (1935) *CT I*, p. 332,c (M20C), the A1 (𓀁) is assumed to be a corruption for the A2 (𓀀).
682 Buck (1935) *CT I*, p. 332,c, 333,3* (T3C). Due to the A24 (𓀜) it looks more like *nd* (to protect; see appendix 6.145). However, based on the context and the other witnesses, this lemma seems to be more likely here.
683 Buck (1935) *CT I*, p. 326-328,c-a (T3C), the G17 (𓅓) is considered to be a corruption for a humanoid classifier.
684 Buck (1935) *CT I*, p. 332,c (B1P), the I9 (𓆑) addition should be considered an error, as the lemma *nfD* does not seem to exist, nor does a *n=f* make sense in this position.
685 Buck (1947) *CT III*, p. 154,a (B2Bo, B3Bo).
Appendix 6.145. *nd* (to protect, to save)

The lemma *nd* is relatively common, with a total of 218 attestations in the database. However, only 200 of these attestations are verbal forms. Note that following Griffiths, the attestations of *nd-Hr* (to greet) were encoded under this lemma as well, which provided a large number of the attestations for this lemma. In table 6.132, the attestations per region are set out for every graphical form of the stem:

^694 Note that due to the A2 (𓀁) classifier this could be read as nD (to consult; see 0) as well.

^695 Note that due to the A2 (𓀁) classifier this could be read as nD (to consult; see 0) as well.

^696 Buck (1935) *CT I*, p. 115-116,d-a (B16), the Z11 (𓀐) is assumed to be a corruption of the Aa27 (𓀄).
As one can see in the table above, the graphical form of this lemma is remarkably varied. However, it needs to be noted that the position of the signs under the tail of the I10 (𓆓), for example in form 27 and 31 could be considered a modern interpretation, as in near hieratic cursive script the I10 does not necessarily have a long downwards tail, which is the case in hieroglyphic script. It seems that for this lemma there is a clear preference to not use the interpretant N35 (𓈖) over its inclusion, as only 50 attestations out of the 200 attestations use the interpretant N35. However, it is not unlikely that this is due to the imperative, which commonly gets the i. prefix attached.

Nonetheless, there are some regional features. The attestations from Gebelein and Aswan do not occur without the N35 and I10 as interpretants. Additionally, T3C from the Theban area does not include these interpretants. Thus, there seems to be a preference in the attestations representing the First Intermediate Period southern Egyptian school of artists.

In the database, the use of the A24 (𓀜) classifier is only attested in the Theban area (form 13 and 29). However, outside the database this is attested in Deir el-Bersha and Beni Hasan as well. Therefore, it cannot represent a regional preference.

**Appendix 6.146. n(dm) (to be sweet, to be pleasant)**

In the database, this lemma has 40 attestations, but only 24 of these attestations reflect verbal forms. As one can see in table 6.133, the majority of the attestations are form 3, which is represented in most regions.

---

697 Buck (1954) *CT V*, p. 156,c (T3L), the Z11 (𓁋) is assumed to be a corruption of the Aa27 (𓁋).
700 The A24 (𓀜) of form 20 from Beni Hasan represents a placeholder sign.
701 Buck (1951) *CT IV*, p. 17,l (B2Bo, BH1Ox).
703 Buck (1935) *CT I*, p. 23,a, 23,b, 24,b, 101,c; Buck (1951) *CT IV*, p. 93,j. For additional attestations outside the database, see Plas & Borghouts (1998), p. 170.
### Table 6.133 Graphical forms of the stem of ndm.

<table>
<thead>

</table>

Form 2 only occurs in el-Lisht, as it uses a partial form of the hieroglyph G17 (𓊵). However, this resembles a feature of the witness (L2Li) rather than a regional preference.\(^{704}\) In the database, form 4 is only attested in Deir el-Bersha, but outside the database it is used in Asyut as well.\(^{705}\) Likewise, the use of the Y2 (𓏝) classifier is only attested in Deir el-Bersha in the database, but occurs outside the database in Asyut.\(^{706}\) The use of the M29 (𓇛) in the initial position in a verbal form is only attested in Deir el-Bersha and el-Lisht, which is true outside the database as well.\(^{707}\) However, the use of the M29 in the initial position is rare.

### Appendix 6.147. ndri (to hold fast, to seize, to grasp)\(^{708}\)

The lemma ndri has 29 attestations in the database.\(^{709}\) In table 6.134, the attestations per region are set out for every graphical form of the stem:

---

\(^{704}\) However, the use of partial hieroglyphs for the hieroglyphs of animates is to my knowledge only attested in el-Lisht.

\(^{705}\) Buck (1938) *CT II*, p. 245,d (S1C,b).

\(^{706}\) Buck (1956) *CT VI*, p. 170,j (S10C).

\(^{707}\) For example, see Buck (1961) *CT VII*, p. 65,q (L1Li), 370,a (B6C).

\(^{709}\) Buck (1935) *CT I*, p. 397,b; Buck (1938) *CT II*, p. 258,a, 393,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 170.

</tbody>
</table>

For this lemma, the major variation occurs in the use of the classifier. In the database, there is a remarkable feature between form 3 and form 4. All the attestations from Deir el-Bersha with form 3\(^{711}\) are from the early period of coffin decoration, whereas the attestations of form 4\(^{712}\) are from the later period of coffin decoration. However, outside the database there is a witness from the later period of coffin decoration (B12C) which uses form 3 as well.\(^{713}\) Nonetheless, the earlier period of coffin decoration in Deir el-Bersha does not use the D40 (𓀠) as classifier, but rather uses a A24 (𓀠) or no classifier at all. The use of form 1 only occurs in Deir el-Bersha, even though it is only attested in B3Bo, even outside the database. Therefore, it should be considered a feature of this witness, rather than a regional feature. There are no clear regional preferences for the other regions, which commonly use form 2-4.

Appendix 6.148. *rwī* (to go away, to depart)\(^{714}\)

In the database there are eleven attestations of this lemma, from the same phrase in spell 75.\(^{715}\) As table 6.135 shows, the only variation is based on the position of the D54 (𓀠). There does not seem to be a regional preference for this lemma, as form 2 is attested outside the database in Asyut as well.\(^{716}\)

\(^{710}\) Buck (1938) *CT II*, p. 258,a (B3Bo), the A19*V1 group (𓀠) should be considered a single grapheme.

\(^{711}\) B1Bo, B4Bo and B6C.

\(^{712}\) B1C, B7C, B2L and B1P, although B7C represents a reconstruction.

\(^{713}\) Buck (1935) *CT I*, p. 181,c (B12C). There are many additional attestations as well.

\(^{716}\) Buck (1947) *CT III*, p. 120,e (S6C), it seems that form 2 only occurs if there is a lack of space available in the column.
Appendix 6.149. *rmni* (to shoulder, to carry, to support)\(^{717}\)

This lemma has seven attestations in the database.\(^{718}\) In table 6.136, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>

</tr>
<tr>
<td></td>
<td></td>
<td>Gebelein</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.135 Graphical forms of the stem of *rwi*.

In the database, the majority of the witnesses and regions use form 1, while there are two additional forms in Meir. Outside the database form 1 is most commonly used form in other regions as well. Form 2 and 3 seem to be unique forms, rather than additional regional features of Meir.

Appendix 6.150. *rnn* (to rejoice, to praise)\(^{720}\)

This lemma has seven attestations in the database, from the same phrase of spell 36.\(^{721}\) Table 6.137 shows that there are only two variations of the lemma in the database, based on the use of the N35 (𓊖) or M22 (𓊐).

---

\(^{718}\) Buck (1954) *CT V*, p. 148,b, 149,a.

\(^{719}\) Buck (1954) *CT V*, p. 149,a (M46C). Not seen by de Buck himself, it might be a modern transcription error.

\(^{721}\) Buck (1935) *CT I*, p. 141,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 183. Note that van der Molen and van der Plas & Borghouts placed this phrase under the lemma *rmn* (to nurse) instead.
It can be suggested that the use of the M22 for this lemma only occurs in Deir el-Bersha, which is true outside the database, even though the use of the N35 is attested in Deir el-Bersha as well.

**Appendix 6.151. ḫ (to know, to learn)**

This is one of the more common lemmas in the database, with a total of 378 attestations. However, only 365 attestations represent verbal forms. In table 6.138, the attestations per region are set out for every witness:

<table>
<thead>

</tbody>
</table>

Table 6.138 Graphical forms of the stem of ḫ.

As table 6.138 shows, the form of this lemma is remarkably constant, with most regions using either form 1 or form 5. Form 2 and form 3 are only attested in one witness (M1NY), where the script allows for the differentiation between the Y1 (-) and the Y2 (―) classifier. In the database it seems that Aswan is only attested with form 1, but outside the database form 5 is attested as well. As el-Lisht only has attestations with form 5, it can be suggested that the addition of the Y2 classifier is a regional feature.

---

723 Buck (1935) *CT I*, p. 17,c, 24,b, 26,a, 104-105,d,119,a, 138,c, 139-140,c-a,140,d-e, 140,g, 334-335,b, 340-341,d, 362-363,b, 394-395,c-a, 394,f, 399,c; Buck (1938) *CT II*, p. 266-267,a, 266-267,b, 266-267,c, 268-269,d, 272-273,a, 273,g-h, 274-275,b, 275,d, 286-287,b, 287-d-g, 390,e, 399,b; Buck (1951) *CT IV*, p. 192-193,a, 196-197,a, 199,a, 218-219,a, 219,b, 221,a, 245,a, 257,b, 262-263,b, 306,b; Buck (1954) *CT V*, p. 154,e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 184-185.
Although form 1 and form 5 both occur in Asyut, there is a clear preference for writing this lemma without the Y2 classifier. This occurs in Beni Hasan as well. On the other hand, in Meir there seems to be a preference to include the Y1/Y2 classifier, although enough attestations without the Y2 classifier exist. This likewise seems to be true in Saqqara. In Deir el-Bersha and the Theban area, one is as likely to find this lemma with or without the Y2 classifier. The compact format of forms 2 and 4 are only attested in Meir, but it is assumed that these do not represent regional features, but are compact due to the available space in the column.

Appendix 6.152. rs (to wake, to watch)726

There are four attestations of this lemma in the database,727 but they all represent functional corruptions of tr-s (its time) which is used in the other regions. As table 6.139 shows, there are distinct forms for el-Lisht and the Theban area. However, outside the database form 2 is used in Deir el-Bersha as well,728 although the witnesses from Deir el-Bersha prefer to add a D5 (𓁺) classifier. In the Theban area the addition of an eye classifier is likewise more common than form 2.729 Form 1 is a unique form that is not repeated in the Coffin Texts, as habitually a T13 (𓌘) or T14 (𓌙) is added.

</tbody>
</table>

Table 6.139 Graphical forms of the stem of rs.

Appendix 6.153. rkrk (to creep)730

In the database there are 3 attestations of this lemma,731 which are the only attestations of this lemma in the Coffin Texts. Table 6.140 shows that there are two graphical forms for this lemma, one for the Theban area, and one for Meir. For this lemma, the Theban area added a D54 (𓂻) classifier, which does not occur in Meir.

---

725 Buck (1951) CT IV, p. 197,b (M57C), 306,b (M1NY).
727 Buck (1951) CT IV, p. 239,c, 241,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 185.
728 Buck (1935) CT I, p. 208,e (B17C).
729 Buck (1935) CT I, p. 282,a, 282,b (T1C, T2C).
731 Buck (1954) CT V, p. 156,b.
Appendix 6.154. *rd* (to grow)

In the database there are seventeen attestations of this lemma, from the same phrase of spell 75. As can be seen in table 6.141, the variation in the graphical form is limited to the classifier.

<table>
<thead>

</tbody>
</table>

Table 6.140 Graphical forms of the stem of *rkrk*.

Form 3 is clearly the common form for this lemma, although the exact form of the M32 (𓇟) can vary lightly. In the database, it seems that the use of the M31 (𓇝) classifier only occurs in Beni Hasan, which is true outside the database as well. Form 2 seems to be a unique form, which only occurs in this phrase. Therefore, this form should not be considered a regional feature of Meir, as the majority of the attestations from Meir use form 3.

Appendix 6.155. *rdi* (to give, to place, to cause)

The lemma *rdi* is the most common lemma in the database, with a total of 970 attestations. In table 6.142, the attestations per region for every graphical form of the stem are set out. As this is an irregular

737 Pap.Berl and P.Gard.2.
738 Buck (1935) *CT I*, p. 104,d (S5C)), the Z1 (.) is simply a filler stroke, as this witness prefers to fill empty spaces in the texts with strokes.
739 Buck (1935) *CT I*, p. 8,c (B2Bo)), the signs are in the wrong order, assumed to be a mistake by the artist.
740 Buck (1938) *CT II*, p. 394-395,c-a (BH1Ox)), I assume the X1 (.) is a corruption for the D21 (—).
Although there is a high variety in the graphical forms of the stem, it needs to be noted that some of the variation is most likely a modern interpretation, as the arms signs which are used can easily overlap when written in near hieratic cursive script. Thus, the arms signs cannot serve as a distinctive marker, unless the original script instead of the hieroglyphic representations is studied.

In general, there are no regional preferences for this lemma, but some minor features are visible. In Meir, it is possible for the imperative to replace the Aa13 (𓀗) with a sign which resembles the U2 (𓌴) sign (form 20 and 21). P.Gard.2 seems to prefer using the X8 (𓏙) for this lemma, even though the D37 (𓂞) occurs as well. Note that this does not support the suggestion that this witness originates from Asyut, as the use of the X8 in Asyut is rare. The long format of form 54 is only attested in the Theban area, although all attestations are from the same witness (T1C).

Appendix 6.156. *ḥ3i* (to come down, to descend, to go aboard)

This lemma is common in the database, with a total of 148 attestations. In table 6.143, one can see the attestations per region for every graphical form of the stem. As this lemma is a *3ae inf.*, the table is separated due to the occurrence of gemination.

---

741 Möller (1909), p. 9, no. 99, 100, 103, 104, 105, 106. However, in some witnesses the separation between the signs is clear, as they use a type 2 or 3a cursive script, see Appendix Supports for more detail.

742 Which falls outside the scope of this work.

745 Buck (1935) *CT I*, p. 9,b, 10,c, 54,c-d, 54,g, 93,b, 103,a, 108,a, 114,a, 116,b, 119,b, 121,b, 135,b, 135,c, 139,a, 145,e; Buck (1938) *CT II*, p. 257,b, 258-259,c-a, 403,a; Buck (1947) *CT III*, p. 23-24,a, 223,k; Buck (1951) *CT IV*, p. 207,c-d, 243,b, 305,b, 323,d; Buck (1954) *CT V*, p. 154,d, 156,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 191 and Gracia Zamacona (2008), p. 785-856.
As one can see in the 112 attestations of form 6, it is the preferred form for this lemma in most regions. Form 9 should be considered he same as form 6, as the variation is due to the preference of the witness (L1Li) to use partial forms for hieroglyphs of animates.

The attestations from Gebelein are the only witnesses that do not use form 6, as these all prefer the compact format of form 3. Gebelein is attested with gemination outside the database as well,\footnote{Buck (1938) \textit{CT II}, p. 29.b.} where it uses a compact form, as the second G1 (𓄿) is placed in front of the D54 (𓄿) in the column. Thus, there seems to be a preference for compact formats in Gebelein. On the other hand, Saqqara and Asyut seem to prefer the long formats (form 6 and 12). In Deir el-Bersha there seems to be a lot of freedom in the graphical form. However, the use of the Y2 (𓏝) classifier only seems to occur in Deir el-Bersha.\footnote{For this lemma only attested in B12C.}

</table>

Table 6.144 Graphical forms of the stem of \textit{h3b}.

Form 1 only occurs in el-Lisht, but is attested in a witness (L1Li) which prefers to use partial versions of hieroglyphs of animates. Therefore, it should not be considered a regional preference, but rather a feature of this witness.\textsuperscript{750} The long format of form 5 is not attested in Asyut or Gebelein in the database. However, outside the database, form 5 is attested for Asyut.\textsuperscript{751} Nonetheless, Gebelein seems to use some sort of compact form for this lemma, although it can vary from form 4. The absence of the D54 (ramids) classifier might seem unique in Meir, but outside the database, it occurs in Deir el-Bersha as well.\textsuperscript{752}

Appendix 6.158. \textit{hbi} (to plough, to tread, to trample)\textsuperscript{753}

In the database, this lemma has only four attestations.\textsuperscript{754} As one can see in table 6.145, there is a clear difference between the attestations from Deir el-Bersha and the Theban area. However, due to the limited number of attestations, it would be assumptive to base regional preferences on these four

\textsuperscript{748} Molen (2000), p. 295.

\textsuperscript{754} Buck (1951) CT IV, p. 305,a, 322,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 192 and Gracia Zamacona (2008), p. 858-860.
attestations alone. Moreover, form 3 is attested in Deir el-Bersha and Asyut outside the database as well.\footnote{Buck (1954) CT V, p. 51,b.} Therefore, there does not seem to be a regional preference for this lemma.

</tbody>
</table>

Table 6.1.45 Graphical forms of the stem of hbi.

**Appendix 6.159. hni (to rejoice)**\footnote{Molen (2000), p. 298-299.}

This lemma has 24 attestations in the database. However, only two attestations are considered verb forms.\footnote{Buck (1947) CT III, p. 179,a, 179,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 193.} Moreover, these two attestations are participles, and could therefore be considered substantives as well. As one can see in table 6.146, there are two different forms, based on the use of the A28 (𓀠) classifier. However, outside the database, it seems that the use of a A28 or A30 (𓀢) classifier is most commonly used for this lemma across all regions.\footnote{For example, Buck (1935) CT I, p. 4-5,e.}

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td><img src="image" alt="Graphical form" /></td>
<td>2</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.1.46 Graphical forms of the stem of hni.

**Appendix 6.160. hrw (to be pleased, to be satisfied)**\footnote{Molen (2000), p. 300.}

In the database there are only five attestations of this lemma, all from the same phrase of spell 25.\footnote{Buck (1935) CT I, p. 76,h. For additional attestations outside the database, see Plas & Borghouts (1998), p. 193.} As table 6.147 shows, there are only three forms which vary based on the classifier:

\footnote{Buck (1954) CT V, p. 51,b.} \footnote{Reconstruction of T1Be, the form is a guess based on the limited space in the lacuna, as form 1 and form 3 would not fit, based on the size of the lacuna given in de Buck.} \footnote{Molen (2000), p. 298-299.} \footnote{Buck (1947) CT III, p. 179,a, 179,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 193.} \footnote{For example, Buck (1935) CT I, p. 4-5,e.} \footnote{Molen (2000), p. 300.} \footnote{Buck (1935) CT I, p. 76,h. For additional attestations outside the database, see Plas & Borghouts (1998), p. 193.}
Based on the database, the use of the A2 (𓀁) classifier only occurs in Deir el-Bersha. Outside the database the A2 classifier is not used in any other region, although Beni Hasan is attested with a humanoid classifier as well,\textsuperscript{762} even though it is not the A2 classifier.

**Appendix 6.161. \textit{hk} (to break)**

This lemma has one attestation in the database,\textsuperscript{763} although it could be considered a corruption of \textit{hks} (to be injured),\textsuperscript{764} which is used in the other witnesses. However, as it is a functional lemma, which suits the phrase, it was not corrected. However, there do not seem to be any additional attestations in the \textit{Coffin Texts}, so this lemma is of limited use for a discussion of regional variation, nor can its form (figure 6.14) be used to suggest a regional preference in Meir for the graphical form.

**Appendix 6.162. \textit{hks} (to damage, to be damaged)\textsuperscript{765}**

In the database, this lemma has a total of five attestations,\textsuperscript{766} all in the same phrase as the sole attestation of \textit{hk} (to break; see 0), as it could be argued that \textit{hks} is a corruption or variant of the lemma \textit{hks} (to be injured; see appendix 6.208). As table 6.148 shows, the form of this lemma is remarkably stable. It could be suggested that Saqqara represents a different form, but it would be assumptive to allocate a regional preference based on one attestation. However, there are no additional attestations of this lemma in the \textit{Coffin Texts} according to van der Plas & Borghouts.\textsuperscript{767} Thus, this lemma is of limited use to discuss regional preferences in the graphical form of the verbal lemmas.

\textsuperscript{762} Buck (1951) \textit{CT IV}, p. 20,g (BH2C).
\textsuperscript{763} Buck (1951) \textit{CT IV}, p. 233,a (M1NY).
\textsuperscript{764} See appendix 6.208.
\textsuperscript{765} Molen (2000), p. 301.
\textsuperscript{766} Buck (1951) \textit{CT IV}, p. 232-233,a.
\textsuperscript{767} Plas & Borghouts (1998), p. 194.
Appendix 6.163. *h3l* (to mourn, to lament, to cry, to screech)

This lemma has a total of 20 attestations in the database, of which eleven attestations are verb forms. As table 6.149 shows, the graphical form for this lemma is remarkably varied.

In the database, the use of the G41 (𓄉) classifier only occurs in Beni Hasan. However, outside the database this classifier is used in Aswan and Gebelein as well. Due to the lack of an G1 (𓄉), it would be possible to read this as *h3l* (to rejoice; see appendix 6.164) as well.

---

769 Buck (1935) *CT I*, p. 73-74,d-a, 74,e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 196.
770 Due to the lack of an G1 (𓄉), it would be possible to read this as *h3l* (to rejoice; see appendix 6.164) as well.
771 Buck (1947) *CT III*, p. 297,i.
Deir el-Bersha (B6C) is attested with the classifier D40 (𓀩). However, this classifier is used in the Theban area as well.\textsuperscript{772} For this lemma, there are no clear signs of a regional preference in the graphical form.

**Appendix 6.164. $h^{	ext{i}}i$ (to rejoice)\textsuperscript{773}**

This lemma has a total of 42 attestations in the database, although only 41 are verb forms.\textsuperscript{774} In table 6.150, one can see the attestations per region for every graphical form of the stem. As this is a 3ae inf. lemma, the table is separated due to the occurrence of gemination.

Table 6.150 Graphical forms of the stem of $h^{	ext{i}}i$.

For this lemma, there are some signs of a regional preference. In Gebelein, only form 1 and 7 are attested. Both these forms use a compact format, which suggests a regional preference for writing compact formats. However, as the attestations come from the same support, it might simply be a feature of the support. On the other hand, the attestations of the Theban area use form 5 and 8. This suggests a regional preference to write this lemma in the long format instead. The use of a Y2 (𓀩) classifier is only attested in Deir el-Bersha in the database.

\textsuperscript{772} Buck (1947) *CT III*, p. 317,l (T2L).

\textsuperscript{774} Buck (1935) *CT I*, p. 83,e, 96,a, 113,d, 121,c, 356-357,c, 357,f, 357,g, 371,d, 371,f, 387,c, 388,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 197-198.
Appendix 6.165. $h^c b$ (to play)$^{775}$

The lemma $h^c b$ has only one attestation in the database. Therefore, it has limited value for a regional study. Beyond the database, the lemma occurs another two times in the Coffin Texts, where one can see that the graphical form (see figure 6.15) is unique to this witness, but that there are other forms used in the Theban area as well. Nonetheless, a compact format for the graphical form seems to be preferred in all regions.

Appendix 6.166. $hwi$ (to strike, to attack)$^{778}$

This lemma has only fourteen attestations in the database, and only four of these reflect verbal forms. In table 6.151, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>

<td>1</td>
</tr>
<tr>
<td>2 Saqqara</td>
<td>1</td>
<td></td>
</tr>
<tr>
<td></td>
<td>3 Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td>4 Theban area</td>
<td>1</td>
<td></td>
</tr>
</tbody>
</table>

Table 6.151 Graphical forms of the stem of $hwi$.

As one can see, the forms are extremely variable, and as form 1 and form 3 are from the same witness (B5C) in the same spell, it seems unlikely that there are any clear regional preferences. Moreover, outside the database it becomes clear that the use of the V28 ($\text{𓎛}$) separate from the striking man hieroglyph (form 2) is not unique to the Theban area, and the Theban area can use forms with form 2 as well.

Appendix 6.167. $hpt$ (to embrace)$^{781}$

In the database, the lemma $hpt$ has 28 attestations. In table 6.152 one can see the attestations per region for every graphical form of the stem:

\[776\] Buck (1951) CT IV, p. 236,e (T1Be). For additional attestations outside the database, see Plas & Borghouts (1998), p. 198.
\[779\] Buck (1935) CT I, p. 61,a; Buck (1951) CT IV, p. 90,l, 92,e, 282,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 200.
\[780\] For example, Buck (1935) CT I, p. 274,e.
According to van der Plas & Borghouts, there is only one more attestation in the Coffin Texts beside the attestations of this table.\textsuperscript{783} However, according to Carrier,\textsuperscript{784} this is actually \textit{shn} (to embrace). In Meir there is a high variety in the forms, although it is the only region where the logogram function of D32 (𓊨) is attested. However, it could be argued that it should be read as \textit{shn} instead. Additionally, the use of a D54 (𓊩) is only attested in Meir. However, as form 6 is attested in nearly every region, it could be argued that there might be some regional variation for this lemma, but that the preference lies with form 6.

Appendix 6.168. \textit{hmi} (to drive back, to repel)

This lemma is only attested once in the database,\textsuperscript{785} where the other witnesses use \textit{nhm} (to take away, to rescue; see appendix 6.136). The graphical form of the lemma is remarkably simple (see figure 6.16). However, this simple form is far from unique, and occurs outside the database in Deir el-Bersha as well,\textsuperscript{786} although a D40 (𓊠) or D54 (𓊩) classifier is often found in Deir el-Bersha as well.\textsuperscript{787} Therefore, this attestation not represent a distinct regional preference.

\textsuperscript{783} Buck (1961) \textit{CT VII}, p. 225,x (P.Gard.2).
\textsuperscript{784} Carrier (2004,c), p. 2142.
\textsuperscript{786} Buck (1954) \textit{CT V}, p. 188,b.
\textsuperscript{787} Buck (1951) \textit{CT IV}, p. 346,b.
Appendix 6.169. ḫmsi (to sit)\textsuperscript{788}

This lemma is common in the database, with a total of 187 attestations.\textsuperscript{789} Note that the humanoid hieroglyphs used in table 6.153 are at best an interpretation, as they represent different classes of A3 (𓀂) or A7 (𓀉), that are extremely varied due to the near hieratic cursive script used in the majority of the witnesses.

For additional attestations outside the database, see Plas & Borghouts (1998), p. 203 and Gracia Zamacona (2008), p. 877-935.
Due to the problem of differentiation of the humanoid hieroglyphs and the high number of forms, it is difficult to suggest any regional preference for this lemma. However, some features do stand out. For example, form 1, 2, 8, 16 and 26 only occur in Asyut. However, these are only attested in two witnesses, S1C and S2C, which belong to the same owner. Moreover, as form 27 and 28 occurs in Asyut as well.

Table 6.153 Graphical forms of the stem of ḫmsi.

790 Buck (1954) CT V, p. 159,e (T3L). Note that it is assumed that the Aa1 (𓊏) is a corruption of the N42 (𓈝).
791 Buck (1935) CT I, p. 21,d, the Q1 (𓊨) is used as this is a feminine participle, due to the phonetic value st, and should not be extracted from the stem, even though it is technically not needed due to the S29 (𓋴).
792 Buck (1935) CT I, p. 331,a (M-Ann), the V30 (𓋴) is assumed to be a corruption of the N42 (𓈝).
(S2C, S10C and S14C), it is clear that form 1, 2, 8, 16, and 26 represent a feature of a pair of supports, rather than a regional preference.  

The attestations from Gebelein (form 12, 32 and 33) show that this region is much more likely to include the interpretants V28 (𓎛) and G17 (𓅓), compared to only a single attestation in the Theban area (form 31). However, the use of these interpretants cannot be considered a feature of the southern attestations, as the attestations from Aswan do not use the V28 and/or G17. Moreover, the G17 is used in Beni Hasan as well (form 19), although form 17 is more commonly used there.

The use of the humanoid figure as a logogram is most common in Asyut, even though it occurs in the Theban area as well (form 10). Moreover, if the suggestion that Y1C originates from Asyut is correct, its attestations would support this placement, even though it could be suggested to originate from the Theban area as well, based on this lemma.

Finally, the use of a Y2 (𓏝) classifier seems to only occur in Deir el-Bersha (form 14 and 24). Moreover, these attestations are dated to the reign of Sesostris II-III, and could therefore represent a regional pattern of this period of coffin decoration in Deir el-Bersha.

Appendix 6.170. ḫn (to provide, to equip)  

This lemma is only attested once in the database, where it is part of a unique phrase of spell 225, which is mostly gone, thus the reading of the lemma is uncertain. Moreover, as one can see in figure 6.17, the stem is only the M2 (𓆰), so it would be possible to read this as ḫn (to travel) as well. As it is uncertain that this is even the right lemma, it cannot be said if there is any regional feature to this graphical form.

Appendix 6.171. ḫnk (to present, to offer)  

In the database, this lemma has only six attestations, which all originate from Meir. In table 6.154, one can see the different graphical forms of this lemma. Based on attestations outside the database, the use of the M2 (𓆰) in this lemma seems to be a feature unique to Meir, even though it can occur without it (form 1).

---

793 Even though these forms are not attested outside Asyut, and the use of the A193 (𓎛) sign might still represent a unique feature from Asyut.
795 B1C, B17C and B2L, see (Willems, 1988, pp. 75-77, although other forms are used in this period as well.
797 Buck (1947) CT III, p. 223,h (B4C). For additional attestations outside the database, see Plas & Borghouts (1998), p. 203-204.
799 Buck (1938) CT II, p. 74,c, 81,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 206.
### Appendix 6.172. ḫri (to be far)\(^{800}\)

There are 22 attestations for this lemma in the database. However, all are from the same phrase of spell 14.\(^{801}\) In table 6.155, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>2</td>
<td>Deir el-Bersha</td>
<td>8</td>
</tr>
<tr>
<td></td>
<td>3</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Theban area</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Asyut</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Theban area</td>
<td>2</td>
</tr>
</tbody>
</table>

Table 6.155 Graphical forms of the stem of ḫri.

In this lemma, the addition of a second classifier beyond the N31 (…) seems only to occur in Deir el-Bersha. In Asyut, there seems to be a preference for the long format of form 5. However, outside the database form 2 occurs as well in Asyut.\(^{802}\) Thus, there only seems to be some preference for an additional classifier in Deir el-Bersha, while the attestations from the Theban area and Asyut cannot be distinguished from Deir el-Bersha.

---

\(^{802}\) Buck (1947) *CT III*, p. 111,c (S2C).
Appendix 6.173. ḫṣi (to turn back, to go to meet)⁸⁰³

There are eight attestations of this lemma in the database.⁸⁰⁴ As one can see in table 6.156, there only one variation due to the use of Y2 (…) classifier:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1.png" alt="Graphical form 1" /></td>
<td>1</td>
<td>el-Lisht</td>
<td>1</td>
</tr>
<tr>
<td><img src="image2.png" alt="Graphical form 2" /></td>
<td>2</td>
<td>el-Lisht</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Deir el-Bersha</td>
<td>6</td>
</tr>
</tbody>
</table>

Table 6.156 Graphical forms of the stem of ḫṣi.

As both regions use form 2, it is unlikely that the sole attestation of the Y2 is a regional preference, as both attestations from el-Lisht are from the same witness (L2L1). Moreover, outside the database the Y2 classifier is used in the Theban area as well.⁸⁰⁵ Nonetheless, the use of any classifier is not attested in the Coffin Texts outside el-Lisht and the Theban area.

Appendix 6.174. ḫṣk (to cut off, to cut out)⁸⁰⁶

This lemma is only attested once in the database,⁸⁰⁷ in an attestation from the Theban area. As it only occurs once, it cannot be used for comparison. However, when attestations outside the database are included, it becomes clear that the form of this attestation (figure 6.18) is used outside the Theban area as well,⁸⁰⁸ thus does not represent a regional preference.

Appendix 6.175. ḫkáz (to rule)⁸⁰⁹

In the database, this lemma has a total of fourteen attestations, even though only one attestations is of a verb form.⁸¹⁰ As there is only one attestation in the database (see figure 6.19), it cannot be said if there is a regional preference. However, based on the attestations outside the database,⁸¹¹ it seems that the use of a G1 (𓄿) interpretant or an Y2 (…) classifier

---

⁸⁰⁵ Buck (1947) CT III, p. 130,c (T18Be).
⁸⁰⁷ Buck (1951) CT IV, p. 300,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 214.
⁸⁰⁸ Buck (1947) CT III, p. 296,a.
⁸¹⁰ Buck (1951) CT IV, p. 93,c, the other attestations are substantives like ḫkáz.t (rulership). For additional attestations outside the database, see Plas & Borghouts (1998), p. 215.
⁸¹¹ For example, Buck (1938) CT II, p. 212,d, or Buck (1947) CT III, p. 285,b (BH3Ox).
are used outside Deir el-Bersha as well, thus there does not seem to be a regional preference for this lemma.\textsuperscript{812}

Appendix 6.176. \textit{hkr} (to be hungry)\textsuperscript{813}

The lemma \textit{hkr} has a total of 41 attestations in the database. However, only 21 attestations represent verbal forms.\textsuperscript{814} In table 6.157, the attestations per region are depicted for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Deir el-Bersha</td>
<td>1\textsuperscript{815}</td>
</tr>

<td>1</td>
</tr>
<tr>
<td>10</td>
<td>Asyut</td>
<td>2</td>
</tr>
</tbody>
</table>

Table 6.157 Graphical forms of the stem of \textit{hkr}.

There do seem to be some regional preferences for this lemma, as the use of the G37 (\textsuperscript{812}𓅪) or Y2 (\textsuperscript{813}𓏝) classifier only occurs in Deir el-Bersha. Although form 4 occurs in Asyut, there seems to be a preference to using the long format of form 8 and 9. However, if P.Gard.2 originates from Asyut,\textsuperscript{816} it is not reflected in the form, as it constantly uses the compact format of form 3 or 4.\textsuperscript{817} Meir does not seem to occur without the A2 (𓀁) classifier, but as there are no other attestations outside the database for Meir in the \textit{Coffin Texts}, this assumption is based on limited data.

\textsuperscript{812} Although it could be argued that Asyut is less likely to use the G1 interpretant.
\textsuperscript{813} Molen (2000), p. 359.
\textsuperscript{814} Buck (1947) \textit{CT III}, p. 19,b, 187,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 215.
\textsuperscript{815} Buck (1947) \textit{CT III}, p. 187,b (B4Bo). In the original, there is a X1 (𓁏) written below the N29 (𓅲), which I took as a marker for the third person feminine stative. However, it could be argued that it is a corruption of a D21 (𓀘) as well.
\textsuperscript{816} Schenkel (1996), p. 125.
\textsuperscript{817} Buck (1947) \textit{CT III}, p. 178,b.
Appendix 6.177. ḫkn (to be joyful, to exult, to praise) 818

This lemma has 49 attestations in the database, but only nineteen attestations are of verb forms. 819 In table 6.158, the attestations per lemma are shown for every graphical form of the stem:

Table 6.158 Graphical forms of the stem of ḫkn.

For this lemma, there are some features that can be considered a regional preference, as the use of a D39 (𓊅) or W24 (𓏌) is only attested in the Theban area in the database. However, outside the database, there seems to be an attestation of the D39 in Deir el-Bersha as well. 820 There is no difference between Deir el-Bersha and Meir, and due to the script used in the witness (B1P), the D38 (𓊅) of form 2 could be read as any other arm as well. The use of D36 (𓊅) seems to only occur in el-Lisht (L3Li), but as the cursive script of L3Li is supposed to be close to hieratic, and the original was not seen by de Buck himself, it is possible that it is a modern misinterpretation of another sign of an arm.

Appendix 6.178. ḥtp (to be content, to be at rest) 821

This lemma is relatively common in the database, with a total of 264 attestations. However, only 124 attestations are of verb forms. 822 As one can see in table 6.159, the graphical form of the stem is remarkably constant, with two main versions, form 2 and form 4, which are a compact format and a long format for the same spelling.

Table 6.159 Graphical forms of the stem of *htp*.

Even though form 2 and 4 both occur in most regions, there are some regional preferences. In Asyut, only form 4 is attested, thus it seems that this region prefers the long format for this lemma. el-Lisht is the opposite, as it prefers the compact format (form 2). Even though both forms occur, Beni Hasan and Meir seem to prefer the compact format over the long format, while the opposite is true for Deir el-Bersha and the Theban area. Only in Saqqara seems the use of form 2 and 4 to be even. The use of the Y2 (𓏝) classifier is rare, and is only attested in Deir el-Bersha and Meir.

Appendix 6.179. *htm* (to perish, to quench, to be destroyed)\(^{823}\)

In the database, this lemma has 108 attestations. However, only 92 of these attestations represent verbal forms.\(^{824}\) In table 6.160, the attestations per region are set out for every graphical form of the stem. Note that the variation in the duck hieroglyphs might be a modern adaptation, rather than a variation in the original text.\(^{825}\) Thus, the protruding feather on the G38 (𓅬) should not necessarily be considered an important variation.\(^{826}\)

\(^{825}\) Especially when the witnesses with near hieratic cursive script are concerned.

\(^{826}\) For example, form 2 and form 3 should be considered similar, as they are both attested in B1L, which uses a near hieratic cursive script in which the variation is not really visible for this sign.

829 Buck (1935) *CT I*, p. 21,a (T1L). The V13 (…) is assumed to be a corruption of the U15 (…).
As one can see in table 6.160 above, there is a high number of variations in the form of this lemma, as there are nearly half as many variations in the graphical form as there are attestations. Although attested once in Asyut as well (form 4), in Deir el-Bersha it is possible that the V28 (𓎛) is not written. The use of the partial version of the G17 (𓅓) in form 6 and 43 occurs only in el-Lisht, although it occurs in one witness (L2Li) only. However, as the full forms of birds are used in el-Lisht as well (form 23), it would be assumptive to consider it a regional preference to use partial hieroglyphs for hieroglyphs of animates.

The addition of the D35 (𓎊) seems to only occur in Deir el-Bersha or Asyut (form 7, 25, 29 and 37). In the same vein, the A2 (𓀁) classifier is only attested in Deir el-Bersha and Asyut (form 29 and 35). The use of the A24 (𓀜) classifier is currently only attested in Meir. There do not seem to be any other clear regional preferences for this lemma, as for example form 1 and form 31 represent a unique feature of one support (B2Bo), rather than a regional preference.

Appendix 6.180. ḥḏ (to be white, to be bright)\textsuperscript{830}

This lemma has 35 attestations in the database, even though the majority are adjectives or substantives. Only elven of the attestations are verbal forms.\textsuperscript{831} Table 6.161 shows the attestations per regions for every graphical form of the stem:

\begin{table}[h]
\centering
\begin{tabular}{|c|c|c|c|c|c|c|}
\hline
Graphical form stem no. & Region & Attestations & Graphical form stem & no. & Region & Attestations \\
\hline
19 & Meir & 1 & 41 & Deir el-Bersha & 6 & Meir \\
 & & & & & 2 & Theban area \\
20 & Deir el-Bersha & 2 & 42 & Theban area & 1 & \\
 & Meir & 2 & & & & \\
21 & Deir el-Bersha & 1 & 43 & el-Lisht & 1 & \\
 & & & & & & \\
22 & Meir & 1 & & & & \\
\hline
\end{tabular}
\caption{Graphical forms of the stem of ḥḏ.}
\end{table}

\textsuperscript{830} Molen (2000), p. 367-368.
\textsuperscript{831} Buck (1947) \textit{CT III}, p. 18,c; Buck (1951) \textit{CT IV}, p. 296,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 218.
Based on this table, the use of the V28 (𓎛) seems obligatory for verb forms of this lemma outside of Deir el-Bersha. However, for adjectives and substantives this is not the case. For the verbal forms of this lemma, form 1 seems to be unique in Deir el-Bersha.

### Appendix 6.181. ḫḏi (to destroy)\(^\text{832}\)

In the database, there are a total of fifteen attestations of this lemma.\(^\text{833}\) In table 6.162, the attestations per region are set out for every graphical form:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

For this lemma, any variation based on the arms is considered of less importance. Even though not all the witnesses missing the D43 (𝙋) sign use a near hieratic cursive script, in which the difference between the D43 and the other arms can be lost,\(^{842}\) it can be assumed that for the witnesses with a more hieroglyphic script the change is due to the precursor text, rather than an intentional variation. In the database, the absence of any arm hieroglyph is only attested in Meir and the Theban area. However, outside the database it occurs in other regions as well.\(^{843}\) The absence of the Aa1 (asInstanceOf) phonemogram is in the database only attested in Deir el-Bersha (form 8), but occurs outside the database in the Theban area as well.\(^{844}\) Based on the database, one could suggest that in el-Lisht the G43 (𓂤) is always added, while in Beni Hasan it is always left out. However, although this is true for Beni Hasan, this is not true for el-Lisht.\(^{845}\) Finally, the Y2 (𓏝) classifier is in the database only attested in Meir (form 6), but the Y2 classifier occurs outside the database in Deir el-Bersha as well.\(^{846}\) Thus, with the exception of Beni Hasan, it seems unlikely that there is a regional preference in this lemma.

Appendix 6.184. ḫw̓ ỉ (to reduce, to deduct, to hush)\(^{847}\)

In the database, there are 33 attestations of this lemma. However, only sixteen attestations represent verbal forms.\(^{848}\) As table 6.165 shows, there are only three graphical forms for this lemma. Form 1 is

In the database, it seems that the Z9 classifier only occurs in the Theban area. However, outside the database, the Z9 classifier is attested in other regions as well.\textsuperscript{851} The use of the A21 classifier is only attested in Deir el-Bersha, which is true outside the database as well,\textsuperscript{852} although it seems to only occur in B2Bo and B3Bo, which are part of an assemblage. In the database the A58 classifier is only attested in Deir el-Bersha, but outside the database it occurs in Asyut as well.\textsuperscript{853} However, the use of the D40 classifier is only attested in Deir el-Bersha. In the database, it seems that the O34 classifier is only used in Deir el-Bersha, but it occurs in Meir and the Theban area as well.\textsuperscript{854} Finally, in Gebelein it is possible to use a G37 classifier, although there is only one attestation of its use.\textsuperscript{855}

**Appendix 6.186. \textit{hpi} (to travel, to depart, to encounter)\textsuperscript{856}**

This lemma has 62 attestations in the database, although only 48 represent verbal forms.\textsuperscript{857} In table 6.167, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>

Table 6.167 Graphical forms of the stem of \textit{hpi}.

\textsuperscript{851} Buck (1935) \textit{CT I}, p. 268,f (B10C); Buck (1951) \textit{CT IV}, p. 337,b (M7C, M8C); Buck (1956) \textit{CT VI}, p. 268,u (G1T).
\textsuperscript{852} Note that B2Bo uses form 3 as well, see Buck (1954) \textit{CT V}, p. 292,c (B2Bo), but if the transcription in de Buck is correct, it could explain how form 2 and 7 came to be.
\textsuperscript{853} Buck (1938) \textit{CT II}, p. 49,c, (S1C).
\textsuperscript{854} Buck (1951) \textit{CT IV}, p. 337,b (M7C, M8C, T1Be, T2Be).
\textsuperscript{855} Buck (1938) \textit{CT II}, p. 49,c, (G2T).
\textsuperscript{856} Molen (2000), p. 380.
\textsuperscript{857} Buck (1935) \textit{CT I}, p. 115,b, 121,a, 145,c; Buck (1938) \textit{CT II}, p. 280-281,d; Buck (1951) \textit{CT IV}, p. 289,b; Buck (1954) \textit{CT V}, p. 146,b, 147,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 224 and Gracia Zaamacona (2008), p. 1022-1027.
\textsuperscript{858} Buck (1954) \textit{CT V}, p. 146,b (G1T). I assume the X1 classifier is an error.
In this lemma, most of the regions use form 7 or any of its graphical variants. However, form 9-11 are only attested in Deir el-Bersha, which is true outside the database as well. The Y2 (𓏝) classifier is only attested in Beni Hasan and the Theban area, and does not occur again with this lemma outside the database.\footnote{Molen (2000), p. 380, calls these attestations an incomplete writing for ypr, which is used in the other witnesses that have the phrase IV.388-389,b.}

Appendix 6.187. hpr (to come to be, to become)\footnote{Molen (2000), p. 380-381.}

This is a common lemma in the database, with 920 attestations. However, only 827 attestations represent verbal forms.\footnote{Buck (1935) CT I, p. 12, d, 73, b, 314, a, 314-315, b, 316-317, a, 316, b, 316-317, c, 318-319, b, 318-319, c, 320-321, a, 324-325, a, 326-327, b, 328-329, b, 330, b, 332, b, 332, c, 334-335, a, 334-335, b, 334-335, c, 336-337, a, 336, b, 338-341, d-a, 342-343, b, 350-353, c-a, 372-373, c, 374-375, c-d, 374-375, d, 377, a, 384, a, 385, a, 387, a, 388, b, 389, b, 397, a, 400, a 402-403, e-a; Buck (1938) CT II, p. 268-271, f-c, 276-277, c, 278-279, c, 280-281, c, 282-283, b, 284-285, b, 284-285, c, 284-287, e-a, 396, b, 398, e-f, 400, a; Buck (1951) CT IV, p. 184-185, b, 188-189, a, 188, b, 228-229, b, 280-281, a, 288-289, b, 309, a, 310, a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 224.}

This is a common lemma in the database, with 920 attestations. However, only 827 attestations represent verbal forms.\footnote{Buck (1935) CT I, p. 324, a (B1P). This witness habitually writes hpr with two D21 (𓊪) signs, see form 8 as well. I assume that the precursor text used the L1 (𓆣) with an D21 interpretant. This witness prefers not to use the L1 however, thus the artist replaced every L1 with the Aa1-Q3-D21 group (𓊪𓊪𓊪), but forgot to remove the D21 interpretant.} In table 6.168, the attestations per region are set out for every graphical form of the stem:

</tbody>
</table>

Table 6.168 Graphical forms of the stem of ḫpr.

For this lemma, Aswan and Gebelein are only attested with the L1 (𓆣) in the initial position, where the other regions both use the L1 in the initial position (form 16-20) and the phonetic spelling of the lemma. However, in Deir el-Bersha it is more likely that the lemma is written phonetically, rather than with the L1 in the initial position. The other regions have the opposite, preferring the initial L1 over the phonetic spelling. The use of the O1 (𓉐) phonemogram is only attested in Deir el-Bersha.

For this lemma, there are some forms that are only attested in one region. Form 14 is only attested in Meir, while form 17 is only attested in Gebelein. Note that this lemma is only written in a long format in Asyut (form 10, 12, 13, 16 and 19).

---

863 Buck (1938) *CT II*, p. 280, c (B4L). The second D21 (𓋇) is assumed to be an error, automatically added after writing the L1 (𓆣).
864 All from B1P.
865 Form 19, the only form with L1 in the initial position has 41 attestations, whereas the phonetic spelling has 272 attestations.
In Deir el-Bersha, forms both with the L1 and without the L1 occur, but over time it becomes clear that although the L1 is used in both periods of coffin decoration in Deir el-Bersha, the L1 becomes less popular. In the early period of coffin decoration, the L1 is used in 33% of the attestations, whereas in the later period this is reduced to only 8%.

Thus, although the borders are fuzzy, there are some regional preference for this lemma.

Appendix 6.188. ḫps (to acquire strength)

There are only ten attestations in the database, which represent all the attestations of this lemma in the Coffin Texts. In table 6.169, the attestations per region are set out for every graphical form of the stem. For this lemma, the only variation occurs in Deir el-Bersha, while form 3 seems to be the common form, used in both regions. However, there are too few attestations to suggest specific regional preferences.

<table>

<td></td>
<td>Theban area</td>
<td>2</td>
</tr>
</tbody>
</table>

Table 6.169 Graphical forms of the stem of ḫps.

Appendix 6.189. ḫf (to seize, to grasp)

In the database this lemma has 30 attestations, although only ten represent verbal forms. In table 6.170, the attestations per region are set out for every graphical form of the stem. Note that form 2-4 have an additional D36 ( ), as these forms are a sḏm=f.

---

866 For the early period of coffin decoration there are 38 attestations with the L1 and 79 attestations without the L1.
867 For the later period of coffin decoration there are only 15 attestations with the L1 and 181 attestations without the L1.
869 Buck (1935) CT I, p. 42,b.
871 Buck (1935) CT I, p. 398,a; Buck (1951) CT IV, p. 184,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 225.
In the database, the D49 (𓀁) classifier is only attested in Deir el-Bersha. However, outside the database this classifier is attested in Meir as well. It seems as if Asyut and the Theban area only use this lemma without a classifier, but outside the database both regions use a D40 (𓂡) classifier as well.

Appendix 6.190. 𓅕m (to not know, to be ignorant)

The lemma 𓅕m has 21 attestations in the database, although only 20 represent verbal forms. In table 6.171, the attestations per region are set out for every graphical form of the stem:

For this lemma, form 3 is the preferred form for all the regions. However, in the database it seems that the A2 (𓀁) classifier is only attested in Deir el-Bersha, while it occurs in Asyut and the Theban area as well. The compact format of form 1 is only attested in Deir el-Bersha in the database, but occurs outside the database in Gebelein as well. Thus, there does not seem to be a regional preference for this lemma.

---

872 Buck (1951) CT IV, p. 184,d (B3C). Reconstructed based on the suggestion of de Buck (note 4*-6*), could be something else as well.

<td>Asyut</td>
<td>1</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Table 6.172 Graphical forms of the stem of *hn*.

In this lemma, the A24 (𓀜) classifier is only attested in Deir el-Bersha, in the witnesses from the earlier period of coffin decoration (B2Bo, B4Bo). The D54 (𓀧) classifier is only attested in Deir el-Bersha as well. Asyut on the other hand is the only region where the I3 (𓆊) classifier is used. The absence of a classifier, or the use of the D40 (𓀕) is attested in both regions.

Appendix 6.192. *hni* (to play music)\(^{883}\)

There are five attestations of this lemma in the database, from the same phrase in spell 7.\(^{884}\) In table 6.173, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>

<td>1</td>
</tr>
</tbody>
</table>

Table 6.173 Graphical forms of the stem of *hni*.

---

\(^{880}\) Buck (1935) *CT I*, p. 280-281.e.

\(^{882}\) Buck (1938) *CT II*, p. 281, e (S1C,b). I assume the I9 (𓆑) is an error for the N35 (𓀧).

\(^{884}\) Buck (1935) *CT I*, p. 23,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 228.
In the database, form 1 is only attested in the Theban area, but it occurs outside the database in Meir as well.\textsuperscript{885} For this lemma, Asyut seems to prefer to not use a humanoid classifier, which is true outside the database as well.\textsuperscript{886} Form 2 is unique to Deir el-Bersha, but as the attestations are from B2Bo and B3Bo belong to the same assemblage, it might be a feature of these witnesses, rather than a regional feature.\textsuperscript{887}

\textbf{Appendix 6.193. \( \textit{hn}\textit{p} \) (to snatch, to steal)\textsuperscript{888}}

There are fourteen attestations of this lemma in the database.\textsuperscript{889} In table 6.174, the attestations per region are set out for every graphical form of the stem. Note that form 2 and form 3 should be considered to be the same, as the variation between the D37 (…) and D40 (…) here is due to the script, rather than an intentional variation.

\begin{table}[h]
\centering
\begin{tabular}{|c|c|c|c|c|c|}
\hline
\textbf{Graphical form stem} & \textbf{no.} & \textbf{Region} & \textbf{Attestations} & \textbf{Graphical form stem} & \textbf{no.} & \textbf{Region} & \textbf{Attestations} \\
\hline
\includegraphics[width=0.1\textwidth]{fig1.png} & 1 & Meir & 1 & \includegraphics[width=0.1\textwidth]{fig2.png} & 3 & Saqqara & 1 \\
\includegraphics[width=0.1\textwidth]{fig3.png} & 2 & Theban area & 1 & \includegraphics[width=0.1\textwidth]{fig4.png} & 4 & Asyut & 5 \\
\includegraphics[width=0.1\textwidth]{fig5.png} & Deir el-Bersha & 2 & Meir & 2 & Theban area & 2 \\
\includegraphics[width=0.1\textwidth]{fig6.png} & & & & & & & \\
\hline
\end{tabular}
\caption{Table 6.174 Graphical forms of the stem of \( \textit{hn}\textit{p} \).}
\end{table}

The use of the A24 (\%) classifier is only attested in Meir, which is true outside the database as well, although form 1 is rare. In the database it seems that the D54 (\;) classifier is only attested in Asyut, but it occurs in other regions as well.\textsuperscript{890} Moreover, although the database suggests that form 4 is the only form used in Asyut, other classifiers can be used in Asyut as well.\textsuperscript{891} Nonetheless, form 3 is the preferred form for this lemma in most regions.

\textbf{Appendix 6.194. \( \textit{hn}\textit{r} \) (to restrain)\textsuperscript{892}}

There are only seven attestations of this lemma in the database, from the same phrase in spell 23.\textsuperscript{893} In table 6.175, the attestations per region are set out for every graphical form of the stem:

\begin{table}[h]
\centering
\begin{tabular}{|c|c|c|c|c|c|}
\hline
\textbf{Graphical form stem} & \textbf{no.} & \textbf{Region} & \textbf{Attestations} & \textbf{Graphical form stem} & \textbf{no.} & \textbf{Region} & \textbf{Attestations} \\
\hline

\textsuperscript{892} Molen (2000), p. 394.
\textsuperscript{893} Buck (1935) CT I, p. 70,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 228.
Table 6.175 Graphical forms of the stem of ḫmr.

In the database it seems that form 3 only occurs in Deir el-Bersha, but outside the database it occurs in Asyut\(^{995}\) and the Theban area as well.\(^{896}\) The use of the V1 (𓊳) classifier is only attested in the Theban area in the database, but occurs in Asyut as well.\(^{897}\) Both within and outside the database, form 2 is only attested in Beni Hasan.

Appendix 6.195. ḫns (to travel, to traverse)\(^{898}\)

This lemma has eleven attestations in the database.\(^{899}\) In table 6.176, the attestations per region are set out for every graphical form of the stem:

Table 6.176 Graphical forms of the stem of ḫns.

---

\(^{894}\) Buck (1935) *CT I*, p. 70, b (BH5C). I assume the *r* weakened into an *i*, which is why the M17 (𓊳) is used instead of the D21 (𓊳). See Peust (1999), p. 140.

\(^{895}\) Buck (1938) *CT II*, p. 232, a (S2C,d). Note that de Buck transcribed an D20 (𓊳) instead of a U31 (𓊳), as these signs are nearly identical in cursive script. See Möller (1909), p. 8, 46, no. 98, 491.

\(^{896}\) Buck (1961) *CT VII*, p. 18, z (T3C).

\(^{897}\) Buck (1938) *CT II*, p. 357, a (S2P).

\(^{900}\) Buck (1935) *CT I*, p. 395, c (M23C). Reconstruction, could be any other form as well.
In the database, the addition of the D32 (𓂘) is only attested in Deir el-Bersha. However, outside the database it occurs in other regions as well. The D40 (𓂡) classifier is only attested in Deir el-Bersha (form 3 and 6), which is true outside the database as well. Asyut seems to only occur with a O35 (𓊄) and without a classifier, but form 1 is attested in Asyut as well. The use of the S29 (𓋴) instead of an O34 (𓊃) is only attested in Deir el-Bersha and Meir, but occurs outside the database in Saqqara as well.

Appendix 6.196. hnti (to be in front of)

The lemma hnti has eight attestations in the database, from the same phrase in spell 11. In table 6.177, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Image" /></td>
<td>1</td>
<td>Deir el-Bersha</td>
<td>2</td>
</tr>
<tr>
<td><img src="image2" alt="Image" /></td>
<td>2</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td><img src="image3" alt="Image" /></td>
<td>3</td>
<td>Deir el-Bersha</td>
<td>3</td>
</tr>
<tr>
<td><img src="image4" alt="Image" /></td>
<td></td>
<td>Theban area</td>
<td>2</td>
</tr>
</tbody>
</table>

Table 6.177 Graphical forms of the stem of hnti.

In the database the absence of the P1 (𓂞) classifier only occurs in Deir el-Bersha. However, outside the database this occurs in the other regions, which all use form 2. Form 1 on the other hand only occurs in Deir el-Bersha, and is not attested anywhere else in the Coffin Texts.

Appendix 6.197. hr (to fall)

The lemma hr has 34 attestations in the database. In table 6.178, the attestations per region are set out for every graphical form of the stem:

901 Buck (1935) CT I, p. 277,b (T1C); Buck (1951) CT IV, p. 35,e (Sq6C); Buck (1956) CT VI, p. 196,s (P.Gard.2).
902 Buck (1947) CT III, p. 191,a (S2C). Note that in form 4, see Buck (1935) CT I, p. 393,i (S2C) the O35 (𓊄) is damaged, thus it is possible that this should be read as form 1 as well.
903 Buck (1951) CT IV, p. 35,c (Sq6C).
905 Buck (1935) CT I, p. 37,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 229-230 and Gracia Zamacona (2008), p. 1044-1045. Note however that Gracia Zamacona placed this phrase under hnti (to sail upstream) instead.
906 Buck (1938) CT II, p. 178,a (P.Gard.2); Buck (1951) CT IV, p. 118,d (S1P); Buck (1956) CT VI, p. 267,m (G1T), 396,p (T1L).
908 Buck (1935) CT I, p. 40,a, 140,g; Buck (1951) CT IV, p. 87,n, 91,o-p, 305,a, 322,d; Buck (1954) CT V, p. 120-121,c-a, 133,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 230-231 and Gracia Zamacona (2008), p. 1061-1089.
<table>

</tr>
</tbody>
</table>

Table 6.178 Graphical forms of the stem of ḫr.

In the database, the use of the A15 as logogram is only attested in Meir. However, outside the database it is attested in Saqqara and the Theban area as well. Form 3 is only attested in Deir el-Bersha in the database, but occurs in the Theban area as well. The use of the D54 as classifier is only attested in el-Lisht and Meir in the database, but it occurs in Saqqara and Deir el-Bersha as well. The use of the Y2 (𓆆) classifier is in the database only attested in el-Lisht, but occurs outside the database in Deir el-Bersha as well. Nonetheless, form 4 is the preferred form for this lemma in most regions. However, it needs to be noted that in Deir el-Bersha it is possible to use a D40 (𓆆) classifier as well.

Appendix 6.198. ḫsf (to drive away, to oppose, to repel)

This lemma has 63 attestations in the database, but only 38 represent verbal forms. In table 6.179, the attestations per region are set out for every graphical form of the stem:

---

909 Buck (1951) *CT IV*, p. 8,g (T1L, Sq6C).
910 Buck (1954) *CT V*, p. 76,c (T1Be).

</tbody>
</table>

Table 6.179 Graphical forms of the stem of ḫṣf (to drive away).

There does not seem to be a regional preference for this lemma, as nearly every feature occurs in multiple regions. Although the D40 (…) is only attested in Deir el-Bersha (form 11), the use of the D36 (…) in Meir (form 8) makes it unlikely to be a regional preference, as the different arms can look similar in near hieratic cursive script.⁹¹⁶ Although it seems in the database that the A24 (𓀜) classifier is not attested in Asyut, it occurs there as well.⁹¹⁷ Additionally, it seems in the database that Asyut always includes the I9 (𓆑) interpretant, which is not true.⁹¹⁸ The use of the U35 (تحضير) in the initial position seems to be only attested in Deir el-Bersha (form 14), but occurs in the Theban area as well.⁹¹⁹

---

⁹¹⁷ Buck (1947) CT III, p. 341,e (S2C).
⁹¹⁸ Buck (1947) CT III, p. 348,9 (S1C,a-b).
Appendix 6.199. *hsf* (to draw near, to approach, to meet, to answer)

There are 23 attestations of this lemma in the database, but only eight attestations represent verbal forms. In table 6.180, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>
<td>Deir el-Bersha</td>
<td>1</td>

<tr>
<td></td>
<td>2</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>3</td>
<td>Deir el-Bersha</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>5</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>4</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.180 Graphical forms of the stem of *hsf* (to draw near).

In the database, it seems as if the only variation occurs in Deir el-Bersha. However, the D54 (*s*) classifier is attested in Saqqara, the use of the U35 (*+*) in the initial position is attested in Asyut, Gebelein and Aswan, and the A24 (*%) classifier is attested in Asyut. However, the A30 (*%) classifier seems to only occur in Deir el-Bersha, although de Buck considers it an error, most likely for the A24 classifier. Thus, it could be argued that there is no regional preference in this lemma.

Appendix 6.200. *hsfi* (to travel upstream)

There are seven attestations of this lemma in the database, from the same phrase of spell 398. In table 6.181, the attestations per region are set out for every graphical form of the stem:

---

922 Buck (1935) *CT I*, p. 284,b (Sq3C).
923 Buck (1938) *CT II*, p. 21,b (G1T, A1C), 252,f (S2C,d).
924 Buck (1938) *CT II*, p. 252,f (S1C,a, S2C,d).
925 Buck (1935) *CT I*, p. 113,d (B2Bo).
Appendix 6.201. *ḥsr* (to drive away, to dispel)\(^\text{932}\)

There are 49 attestations of this lemma in the database, but only 43 attestations represent verbal forms.\(^\text{933}\) In table 6.182, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>

\(^{931}\) Buck (1954) *CT V*, p. 378,e (B1C).

\(^{933}\) Buck (1935) *CT I*, p. 59,b, 63,c; Buck (1938) *CT II*, p. 259;b; Buck (1951) *CT IV*, p. 208,c, 208-209,d, 256-257,c.

\(^{934}\) Buck (1951) *CT IV*, p. 209,d (L3Li). I assume the D21 (…) was lost, but should be reconstructed.

\(^{935}\) Buck (1951) *CT IV*, p. 208,c (Sq4Sq). I assume this is an incorrect spelling of *ḥsr*. 
In this lemma, the variation in the arm classifiers should be considered a variation due to the script used in the witnesses, rather than an intentional variation. Form 3 is clearly the preferred form of this lemma in all the regions. However, the inclusion of the A60 (𓁅) or the V29 (𓎝) classifier is only attested in Meir (form 5-6). There are no additional features which represents a regional preference.

Appendix 6.202. ḫṭi (to retire, to retreat, to turn back)

There are nineteen attestations of this lemma in the database. In table 6.183, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>

<td>1</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Table 6.184 Graphical forms of the stem of htm.

In this lemma, the D40 (𓊙) classifier is only attested in Deir el-Bersha (form 9), which is true outside the database as well. In the database it seems that Asyut only uses the long format for this lemma (form 8,

\textsuperscript{940} Buck (1938) CT II, p. 127,f (S1C, G2T).

\textsuperscript{941} Molen (2000), p. 413-414.

\textsuperscript{942} Buck (1935) CT I, p. 352-353,d; Buck (1938) CT II, p. 91,b; Buck (1954) CT V, p. 155,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 233-234.

\textsuperscript{943} Buck (1954) CT V, p. 155,c (T3L) Note that the S19 (𓊙) is written in the hieratic form.
12), but outside the database a compact format is used as well, although the long format is much more common in Asyut. The S19 is only attested in the Theban area, although form 11 is the only attestation of the S19 in the Coffin Texts, so it might be better to read this hieratic sign as a S20 instead. There are no other variations in this lemma that represent a regional preference.

Appendix 6.204. *ḥḥt* (to turn back, to drive away)

There is only one attestation of this lemma in the database, from the Theban area. The graphical form used in this witness (see figure 6.20) represents an unique form of this lemma, as all the other attestations in the Coffin Texts do not include a D54 in the middle of the word, and habitually use two M3 instead of only one. However, this variation might be due to an error, rather than an intention. This attestation is a variation of the other witnesses in this phrase (IV,270-271), which all use ḫḥi (to retire; see appendix 6.202) instead. It could be argued that this attestation is simply a mistake in which the m in front of the first ḫḥ was lost, in which case m-ḥḥt ḫḥ, which is used in the other witnesses, should be read here instead.

Appendix 6.205. *ḫdi* (to travel downstream)

This lemma has only seven attestations in the database, from the same phrase of spell 398. As table 6.185 shows, the only exception to form 2 occurs in Gebelein, which uses an F32 instead of the Aa1 to write ḫ. Based on the other attestations, this form is unique, as all other attestations of this lemma in the Coffin Texts use form 2. Thus, there is no regional preference for this lemma, as form 1 needs to be understood as an exception, rather than the rule in Gebelein.

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Graphical form" /></td>

</tr>
</tbody>
</table>

Table 6.185 Graphical forms of the stem of *ḫdi*.

---

944 Buck (1951) *CT IV*, p. 106,d (S2P).
947 For example, see Buck (1938) *CT II*, p. 13,d (G1T).
948 This might be the reason why Gracia Zamacona did not include this phrase in his work.
951 For Deir el-Bersha and Asyut, see Buck (1935) *CT I*, p. 184,g and Buck (1938) *CT II*, p. 150,c (S1C).
Appendix 6.206. *lni* (to row, to convey by boat)*\textsuperscript{952}*

There are 22 attestations of this lemma in the database.\textsuperscript{953} In table 6.186, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Deir el-Bersha</td>
<td>2</td>
</tr>
<tr>
<td>2</td>
<td>el-Lisht</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>Deir el-Bersha</td>
<td>11</td>
</tr>
<tr>
<td></td>
<td>Asyut</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>Theban area</td>
<td>2</td>
</tr>
<tr>
<td>3</td>
<td>Deir el-Bersha</td>
<td>2</td>
</tr>
</tbody>
</table>

In the database, the only variation occurs in Deir el-Bersha itself, as all other regions use form 2. However, outside the database the D40 (𓀢) classifier is attested in Asyut as well.\textsuperscript{954} The use of the N18 (𓈀) is only attested in Deir el-Bersha (form 4-5). Outside the database, there is some additional variation in the other regions as well. In multiple regions it is possible to leave out the classifier,\textsuperscript{955} or to use the F26 (𓀩) phonemogram instead of the D33 (𓂙).\textsuperscript{956} Note that it is possible to use the D33B (𓀩) as classifier in Asyut as well. However, form 2 remains the preferred form in all regions.

Appendix 6.207. *lnm* (to join, to enfold)*\textsuperscript{957}*

This lemma has 55 attestations in the database.\textsuperscript{958} In table 6.187, the attestations per region are set out for every graphical form of the stem:

---

Table 6.187 Graphical forms of the stem of ḫmn.

Form 1 is in the database only attested in Deir el-Bersha. However, outside the database it is attested in el-Lisht and the Theban area as well. The use of classifiers is only attested in Deir el-Bersha and Meir, which is true outside the database as well. Although the A2 (𓀁) classifier is attested in both regions, it is more likely to occur in Deir el-Bersha. The D40 (𓀵) classifier is only attested in Meir, but is rare. The Y2 (𓏝) classifier is only attested in Deir el-Bersha.

Table 6.188 Graphical forms of the stem of *hks.*

As table 6.169 shows, this lemma is highly varied. However, some regional features occur. In the Theban area it is possible to replace the F32 (…) with an Aa1 («). Moreover, the Theban area is the only region where the classifier can be left out (form 1 and 6). In Meir it is possible to replace the G37 (𓅪) classifier with an Y2 (𓏝) classifier. In Deir el-Bersha the G37 can be replaced with a D5 (𓁺), referring to *hks.t,* the injured eye of Horus. The use of the O34 (𓄃) instead of the S29 (𓋴) is only attested in Saqqara, while in Deir el-Bersha the S29 can be left out (form 4). Nonetheless, form 9 seems to represent the common form for this lemma. However, it is not unlikely that due to the lack of additional attestations the perceived variations are only features of the witnesses, rather than regional features, as every form except for form 9 is only attested once.

\textsuperscript{960} Molen (2000), p. 429.
\textsuperscript{961} Buck (1951) CT IV, p. 232-233.a.
### Appendix 6.209. $s^3w$ (to guard, to watch over, to beware)\textsuperscript{963}

In the database, there are 143 attestations of this lemma. However, only 105 attestations represent verbal forms.\textsuperscript{964} In table 6.189, the attestations per region are set out for every graphical form of the stem. As this is a $3ae$ inf. lemma, the table is separated due to the occurrence of gemination.

</table>
In general, there are no clear signs of regional preferences for this lemma, but there are a few rare features that could be considered regional. The use of the D40 (𓀲) or the Y2 (𓏝) classifier is only attested in Deir el-Bersha. The use of the S25 (𓋮) occurs only in the Theban area, but all attestations are from T3C. Therefore, it should be considered a feature of the witness, rather than a regional preference.

Appendix 6.210. *s3wî* (to lengthen)\(^967\)

This lemma has only one attestation in the database. The form used in B5C (see figure 6.21) represents a unique variant, as there are no other attestations in the Coffin Texts with the Y2 (𓏝) classifier. However, the same graphical form without the Y2 is attested in Asyut\(^969\) and Deir el-Bersha,\(^970\) even though in Deir el-Bersha the long format of the same spelling occurs as well.

Appendix 6.211. *s3m* (to burn up)\(^971\)

This lemma has 21 attestations in the database. In table 6.190, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>

Table 6.189 Graphical forms of the stem of *s3wî*.

---

\(^965\) Buck (1938) *CT II*, p. 84,b (B3L). The D54 (𓀲) is assumed to be an error.

\(^966\) De Buck considers it a corruption of the near hieratic cursive form of the A47 (𓀲), see Buck (1935) *CT I*, p. 365,2*.

\(^968\) Buck (1951) *CT IV*, p. 90,k (B5C). For additional attestations outside the database, see Plas & Borghouts (1998), p. 242. Note that I consider the compound *s3wî-ib* part of this lemma.

\(^969\) Buck (1947) *CT III*, p. 157,b (S1C).

\(^970\) Buck (1961) *CT VII*, p. 385,b (B44Bo, B2Bo).

\(^972\) Buck (1951) *CT IV*, p. 262-263,a, 263,c. There are no additional attestations in the Coffin Texts according to Plas & Borghouts (1998), p. 242.
Table 6.190 Graphical forms of the stem of ssm.

Form 1 is only attested in Meir and the Theban area, which could imply that the use of the O34 (𓊃) is more likely in the southern attestations. The use of the Aa17 (𓊃) phonemogram is only attested in Meir. The use of the U1 (𓊃) phonemogram is attested in Beni Hasan and the Theban area.

Appendix 6.212. s3k (to pull together, to gather together)

In the database there are 27 attestations of this lemma. In table 6.191, the attestations per region are set out for every graphical form of the stem:

---

<table>
<thead>
<tr>

</table>

Table 6.191 Graphical forms of the stem of ss$k$.

In the database it seems that the use of the Y2 (𓊭) classifier only occurs in Deir el-Bersha and Meir, but outside the database it occurs in el-Lisht and Aswan as well, which makes it unlikely that the use of the Y2 classifier is a regional feature. In the database the use of the D40 (𓊬) classifier seems to only

---

975 Buck (1954) *CT V*, p. 123,a (M4C). Reconstruction, could be any other form. For example, form 1, which occurs in this witness as well.

976 Buck (1954) *CT V*, p. 123,a (M46C). Note that this witness was not seen by de Buck, and it is not unlikely that the X1 (𓊬) is a modern error for a N29 (𓊬) and the I3 (𓊥) a modern error for I5 (𓊬).

977 Buck (1947) *CT III*, p. 64,g (L1Li).

occur in Meir, but outside the database it is attested in the Theban area as well. Finally, in the database the absence of the I5 (𓆌) is only attested in Deir el-Bersha, but outside the database it occurs in the Theban area and Aswan as well. Therefore, there does not seem to be a regional preference for this lemma.

Appendix 6.213. sît (to damage, to cheat, to mutilate)

In the database there are eight attestations of this lemma, although only seven represent verbal forms. In table 6.192, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>

<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>4</td>
<td>Theban area</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>5</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.192 Graphical forms of the stem of sît.

In this lemma the classifier does not occur in Asyut. The Theban area is the only region which uses the long format. The D57 (𓆌) classifier only occurs in Deir el-Bersha. However, as these are the only attestations of this lemma in the Coffin Texts, there is a reasonable chance that these variations are random, instead of a regional preference.

---

979 Buck (1947) CT III, p. 295,d (T3C).
982 Buck (1935) CT I, p. 403-404,c-a. There are no additional attestations according to Plas & Borghouts (1998), p. 244.
983 Buck (1935) CT I, p. 403-404,c-a (B1P). I assume that the S29 (𓇠) and M17 (𓇡) switched positions, and that this should be considered the same as form 2.
Appendix 6.214. *sip* (to inspect, to examine, to allot)*984*

In the database there are 40 attestations of this lemma, but only three represent verbal forms.*985* In table 6.193 it is clear that the only variation is based on the position of the S29 (𓋴). Form 1 occurs in Deir el-Bersha as well,*986* while form 2 is only attested in Deir el-Bersha. However, it only occurs in B1Bo, thus should be considered a feature of the support, rather than a regional feature.

<table>

</tbody>
</table>

Table 6.193 Graphical forms of the stem of *sip*.

Appendix 6.215. *sidi* (to make impotent, to reduce to order)*987*

This lemma has only fifteen attestations in the database, from the same phrase of spell 75.*988* In table 6.194, the attestations per region are set out for every graphical form of the stem. Note that there are no clear distinguishing features for this lemma that suggest a regional variation, as the use of the D21 (𓋴) in form 6 is considered an error, instead of an intentional variation.

Table 6.195 Graphical forms of the stem of *sām*.

---

\(^{991}\) Buck (1935) *CT I*, p. 320,b (B6C). Perfective participle instead of the imperfective participle, as there is no gemination.

\(^{993}\) Buck (1947) *CT III*, p. 236-237,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 245.
In the database, there are some features that can be considered regional. The use of the Y2 (𓏝) classifier is only attested in Deir el-Bersha, which is true outside the database as well. The F20 (𓄓) classifier is only attested in the Theban area, but as all attestations belong to T1Be and T2Be, which belong to the same owner, it might be a preference of these witnesses, rather than a regional feature. The use of the D40 (𓂡) classifier seems to be unique to Meir. However, there are no other attestations from Meir for this lemma in the Coffin Texts, nor any other attestation of the D40 classifier. In the database Asyut seem to have a preference to habitually include the A2 (𓀁) classifier. However, outside the database the N35A (𓈗) occurs as well, even though the use of the A2 classifier remains the preference in Asyut.

**Appendix 6.217. sꜣnḥ (to cause to live, to nourish)**

This lemma has 25 attestations in the database. As table 6.196 shows, the graphical form of sꜣnḥ is remarkably stable. It is unlikely that there are any regional features for this lemma, as form 1 occurs in the Theban area as well. Additionally, the direction of the S29 (𓋴) in form 2 is only due to the direction of writing in the witness (S1C), instead of an intentional variation.

Table 6.196 Graphical forms of the stem of sꜣnḥ.

**Appendix 6.218. sꜣr (to cause to come near, to cause to ascend)**

The lemma sꜣr has 38 attestations in the database. In table 6.197, the attestations per region are set out for every graphical form of the stem:

---

994 Buck (1956) *CT VI*, p. 406,n (S10C).
997 Buck (1947) *CT III*, p. 300,b (T3C).
999 Buck (1935) *CT I*, p. 72,c, 104-105,c, 358-359,b; Buck (1951) *CT IV*, p. 90,j. For additional attestations outside the database, see Plas & Borghouts (1998), p. 244, under the lemma sꜣr.
| Graphical form stem | no. | Region      | Attestations | | Graphical form stem | no. | Region     | Attestations |
|---------------------|-----|-------------|--------------|---------------------|-----|-------------|--------------|
|                     | 1   | el-Lisht    | 1            |                     | 9   | Theban area | 1            |
|                     |     | Deir el-Bersha | 2           |                     |     |             |              |
|                     |     | Meir        | 5            |                     |     |             |              |
|                     | 2   | Asyut       | 1            |                     | 10  | Asyut       | 1            |
|                     |     |             |              | 1000                |     |             |              |
|                     | 3   | Deir el-Bersha | 1           |                     | 11  | Beni Hasan | 1            |
|                     |     |             |              |                     |     | Asyut       | 1            |
|                     | 4   | Asyut       | 1            |                     | 12  | Deir el-Bersha | 9           |
|                     |     |             |              |                     |     | Meir        | 2            |
|                     |     |             |              |                     |     | Asyut       | 1            |
|                     | 5   | Deir el-Bersha | 1           |                     | 13  | Deir el-Bersha | 3           |
|                     |     |             |              |                     |     |             |              |
|                     | 6   | Theban area | 1            |                     | 14  | Deir el-Bersha | 1           |
|                     |     |             |              |                     |     |             |              |
|                     | 7   | Asyut       | 2            |                     | 15  | Deir el-Bersha | 1            |
|                     |     |             |              |                     |     |             | 1001         |
|                     | 8   | Deir el-Bersha | 1           |                     | 16  | Theban area | 1            |
|                     |     |             |              |                     |     |             | 1002         |

Table 6.197 Graphical forms of the stem of sṝr.

In the database the sṝr form of this lemma is only attested in the Theban area (form 9). However, outside the database sṝr occurs in other regions as well.\(^{1003}\) Form 3 is in the database only attested in Deir el-Bersha, but outside the database in el-Lisht as well,\(^ {1004}\) thus the use of the O34 (…) cannot be considered a regional feature. The use of the Y2 (…) as classifier is only attested in Deir el-Bersha for text written on the coffins, as it does occur outside the database in P.Gard.2 and P.Gard.3,\(^ {1005}\) although these attestations use the sṝ form of this lemma.

---

\(^{1000}\) Buck (1935) CT I, p. 104,c (S12C), the Z1 (…) strokes are simply filler.
\(^{1001}\) Buck (1935) CT I, p. 72,c, (B6C). Due to the N31 (…) classifier, I assume that the second D36 (…) is a corruption of the D21 (…).
\(^{1002}\) Buck (1935) CT I, p. 358,b (T3C). Considered a \(s\text{dmn}\text{m}f\), hence the duplication of the D21 (…).
\(^{1003}\) Buck (1947) CT III, p. 143,f (S2C, B2Be).
\(^{1004}\) Buck (1956) CT VI, p. 322,q (L1Li).
\(^{1005}\) Buck (1961) CT VII, p. 204,k.
### Appendix 6.219. *sˁḥ* (to ennoble, to be noble)\(^{1006}\)

In the database there are 37 attestations of this lemma. However, one attestation is an adjective, thus only 36 attestations represent verbal forms.\(^{1007}\) In table 6.198, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>

</tbody>
</table>

Table 6.198 Graphical forms of the stem of *sˁḥ*.

---

\(^{1007}\) Buck (1935) *CT I*, p. 20,c, 104,c, 111,a, 143,a, 370-371,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 245-246.

\(^{1008}\) Buck (1935) *CT I*, p. 20,c (T1L). Based on I,20,b, I assume that the artist forgot to add a V28 (𓎛).
For this lemma there are some features that could be considered regional. The use of the Y2 (𓏝) classifier is only attested in the Theban area and Deir el-Bersha. In the database the use of the Y2 classifier is much more common in the Theban area, but outside the database it is clearly quite common in Deir el-Bersha as well.\(^{1009}\) However, the use of the Z5 (𓏴) or Z9 (𓏵) classifier is only attested in the Theban area.

Although the E31 (𓃶) and its classes are often attested in multiple regions, it seems that in Asyut the addition is constant, including in attestations outside the database. Although not attested in the database, P.Gard.2 uses the E31 constantly as well with this lemma,\(^{1010}\) which could support the suggestion that this papyrus originates from Asyut.\(^{1011}\) On the other hand, based on the database it could be suggested that there is a preference in el-Lisht to only use the S20 (𓏵) as classifier. However, outside the database S28 (𓏴) and the absence of a classifier are attested in el-Lisht as well.\(^{1012}\)

**Appendix 6.220. sʻḥz (to cause to fight)\(^{1013}\)**

There are two attestations of this lemma in the database, from the same phrase in spell 335, from Meir.\(^{1014}\) However, there does not seem to be any other attestation of this lemma in the *Coffin Texts* according to van der Molen and van der Plas & Borghouts. Moreover, the graphical form of these two attestations (see table 6.199) varies only in the position of the S29 (𓏵). Due to the lack of additional attestations it is not possible to suggest that this represent a regional feature. However, based on the habitual graphical form of ḥz (to fight; see appendix 6.46), it seems unlikely that if this lemma occurs in other regions, it would be distinct.

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Graphical form" /></td>
<td>1</td>
<td>Meir</td>
<td>1</td>
</tr>
<tr>
<td><img src="image2" alt="Graphical form" /></td>
<td>2</td>
<td>Meir</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.199 Graphical forms of the stem of sʻḥz.

**Appendix 6.221. sʻḥc (to erect, to set up)\(^{1015}\)**

There are seventeen attestations of this lemma in the database, from the same phrase in spell 154.\(^{1016}\) In table 6.200, the attestations per region are set out for every graphical form of the stem:

---

\(^{1010}\) For example, see Buck (1961) *CT VII*, p. 237,v, 237,i.

\(^{1012}\) Buck (1961) *CT VII*, p. 64,m, 66,j (L1Li).

\(^{1014}\) Buck (1951) *CT IV*, p. 195,d.

\(^{1016}\) Buck (1938) *CT II*, p. 278-281,e-b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 246.
The only major variation between Deir el-Bersha and Asyut are form 2 and form 4 in the database. Here, the use of the D54 (𓎉) as classifier is only attested in Deir el-Bersha. However, outside the database the D54 classifier is attested in Meir as well. Nonetheless, the use of the D54 classifier is not attested in any other region. Form 4 cannot be considered a regional preference, as the witnesses S1C,b and S1Tü write the text from left to right, thus the opposite direction of the S29 (𓎆) is most likely due to the different writing direction, rather than an intentional variation.

Appendix 6.222. sḫ ḫ (to cause to enter)

This lemma only has four attestations in the database. As table 6.201 shows, every attestation has its own graphical form. Although the database suggests that the D54 (𓎉) classifier is not used in Deir el-Bersha, it is used there outside the database. The absence of the G35 (𓎈) seems to only occur in Deir el-Bersha.

---

1017 Buck (1951) CT IV, p. 355,e (M7C, M8C).
1019 Buck (1938) CT II, p. 92,e; Buck (1951) CT IV, p. 290-291,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 246.
1020 Buck (1935) CT I, p. 147,c (B4L).
Appendix 6.223. *sw3l (to pass)*\textsuperscript{1021}

There are only seventeen attestations in the database,\textsuperscript{1022} even though this lemma is relatively common in the *Coffin Texts*.\textsuperscript{1023} In table 6.202, the attestations per region are set out for every graphical form of the stem. With the exception of the use of the Z9 (.), which only occurs in Deir el-Bersha,\textsuperscript{1024} there does not seem to be any regional preference for this lemma.

Table 6.203 Graphical forms of the stem of *sw3d*.

In the database, the use of the D46 (𓋂) instead of the I10 (𓋂) is only attested in Deir el-Bersha (form 10), which is true outside the database as well. Likewise, all the attestations in Asyut are written with a V4 (𓋂), both within and outside of the database.\(^\text{1027}\) Moreover, the use of the V4 is only attested in Beni Hasan, Deir el-Bersha, Asyut and Meir. Thus, it could be argued that the use of the V4 only occurs to the

\(^\text{1027}\) There is one attestation, Buck (1954) *CT V*, p. 226,k (52C) which might be form 3 or 6 instead, but as the M13 (𓋂) is damaged, it could be a V4 (𓋂) as well.
north of Asyut, as it is not attested in the Theban area and further to the south. The addition of the Y2 (⟨⟩) classifier is only attested in Deir el-Bersha and Meir, which is true outside the database as well. Note that outside the database, the use of an M14 (⟨⟩) in this lemma is only attested in el-Lisht.1028

Appendix 6.225.  𝑠𝑤⟨⟩ (to cleanse, to purify)1029

In the database there are 40 attestations of this lemma.1030 In table 6.204, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>

</tbody>
</table>

Table 6.204 Graphical forms of the stem of 𝑠𝑤⟨⟩.

1028 Buck (1947) *CT III*, p. 72,d (L1Li).
1030 Buck (1935) *CT I*, p. 62,c, 144,b; Buck (1951) *CT IV*, p. 212-213,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 247.
1031 Buck (1951) *CT IV*, p. 212,b (Sq4Sqq). Note that I took the double N35 (⟨⟩) as an incomplete N35A (⟨⟩) classifier, as the column ends after the two N35 signs. However, it would be possible to read this as a *sdȝm. n·f* as well.
In the database, only in Saqqara is a humanoid hieroglyph used (form 1), but outside the database this occurs in Asyut\textsuperscript{1032} and Beni Hasan as well.\textsuperscript{1033} The absence of any classifier (form 2) is only attested in el-Lisht and Deir el-Bersha, but occurs outside the database in the Theban area as well.\textsuperscript{1034} The use of a completely phonetic spelling of the lemma (form 9) only occurs only in Beni Hasan, which is true outside the database as well.\textsuperscript{1035} However, the other regions do include some of the interpretants. In the database, the G43 (𓋴) interpretant is only attested in Meir and the Theban area, but occurs outside the database in Asyut as well.\textsuperscript{1036} The use of the D36 (𓊃) interpretant is only attested in Meir, but occurs outside the database in Deir el-Bersha as well.\textsuperscript{1037} Finally, the D58 (𓋵) interpretant is only attested in Deir el-Bersha and the Theban area. Note that although it does not occur in the database, it is possible in Deir el-Bersha to replace the S29 (𓋴) with the O34 (𓊃).

Appendix 6.226. \textit{swr} (to drink)\textsuperscript{1038}

In the database there are fourteen attestations of this lemma.\textsuperscript{1039} As table 6.205 shows, the graphical form of this lemma is remarkably constant:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>![Graph]</td>
<td>1</td>

<tr>
<td>![Graph]</td>
<td>3</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.205 Graphical forms of the stem of \textit{swr}.

In general, form 1 is the preferred form for this lemma in all the regions. However, the N35A (𓋴) and Y2 (𓊃) classifier are only attested in Deir el-Bersha, which is true outside the database as well. However, there are some additional classifiers used for this lemma outside the database. In Saqqara, it is possible to use a D40 (𓊃) classifier.\textsuperscript{1040} Moreover, in Deir el-Bersha, Saqqara and the Theban area it is possible to

\textsuperscript{1032} Buck (1947) \textit{CT Ill}, p. 334,f (S1C).
\textsuperscript{1033} Buck (1956) \textit{CT VI}, p. 121,f (BH1Ox).
\textsuperscript{1034} Buck (1947) \textit{CT Ill}, p. 299,b (T3C).
\textsuperscript{1035} See Buck (1956) \textit{CT VI}, p. 121,f (BH2C).
\textsuperscript{1036} Buck (1947) \textit{CT Ill}, p. 334,f (S1C).
\textsuperscript{1037} Buck (1935) \textit{CT I}, p. 147,b (B3Bo).
\textsuperscript{1039} Buck (1935) \textit{CT I}, p. 59,d; Buck (1947) \textit{CT Ill}, p. 175,c, 236,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 247.
\textsuperscript{1040} Buck (1935) \textit{CT I}, p. 293,d (Sq6C).
us the A116 (𓊴) classifier as well. Additionally, the A115 (𓊵) classifier is attested in Beni Hasan. Finally, it is possible in multiple regions to not write a classifier at all.

Appendix 6.227. swd (to hand over, to bequeath, to pass on)

There is only one attestation of this lemma in the database, from Deir el-Bersha. The form used in B1Y (see figure 6.22) is used in Asyut as well. However, there is a long format of figure 6.22 attested in Asyut as well. Moreover, it is possible in el-Lisht and Asyut to leave out the G43 (𓅱). Beyond these variations, the spelling of this lemma is remarkably stable.

Appendix 6.228. swdš (to make whole, to heal)

There are twelve attestations of this lemma in the database. As table 6.206 shows, the graphical form of this lemma can be remarkably varied:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>1</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td>2</td>
<td>1</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td>3</td>
<td>1</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
</tbody>
</table>

1041 Buck (1935) CT I, p. 293, d (Sq3C, T9C); Buck (1947) CT III, p. 126, i (B1Bo).
1042 Buck (1947) CT III, p. 126, i (BH3Ox).
1043 Buck (1947) CT III, p. 154, c (S1C); Buck (1947) CT III, p. 259, e (B15C).
1045 Buck (1951) CT IV, p. 210, a (B1Y). For additional attestations outside the database, see Plas & Borghouts (1998), p. 248.
1046 Buck (1947) CT III, p. 363, b (S1C, a).
1047 Buck (1947) CT III, p. 363, b (S1C, c).
1048 Buck (1947) CT III, p. 363, b (S3C); Buck (1956) CT VI, p. 323, c (L1Li).
In the database, it seems that the Y2 (𓏝) classifier is only used in Deir el-Bersha, but outside the database it is attested in Meir, the Theban area, Gebelein and Aswan as well.\textsuperscript{1051} Note that the $s(w)q\ddot{s}$ spelling of this lemma\textsuperscript{1052} does not only occur in Deir el-Bersha (form 5) and Meir (form 4), but is attested in Asyut and the Theban area as well.\textsuperscript{1053} Thus, there does not seem to be a regional preference for this lemma.

Appendix 6.229. \textit{sbi} (to go, to travel, to send, to conduct)\textsuperscript{1054}

The lemma \textit{sbi} has 40 attestations in the database.\textsuperscript{1055} In table 6.207, the attestations per region are set out for every graphical form of the stem. Note that this is a \textit{3ae inf}. lemma and gemination occurs in the database, therefore the table has been divided in gemination and no gemination.

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>No gemination</td>
<td></td>
<td></td>

</tr>
</thead>
<tbody>
<tr>
<td>No gemination</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td>Gemination</td>
<td></td>
<td></td>
</tr>
<tr>
<td>8</td>
<td>Deir el-Bersha</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Meir</td>
<td>4</td>
</tr>
</tbody>
</table>

\textsuperscript{1051} Buck (1947) \textit{CT III}, p. 321,h (T3C, G1T, A1C); Buck (1956) \textit{CT VI}, p. 175,d (M9C).

\textsuperscript{1052} Note that it is usually only context or the other witnesses with the same phrase that can distinguish these attestations from $g\ddot{s}$ (to travel; see Appendix 6.300).

\textsuperscript{1053} Buck (1947) \textit{CT III}, p. 327.b; Buck (1956) \textit{CT VI}, p. 261,i (T2Be).

In this lemma, the use of the D₅₄ (𓊖) classifier is only attested in Meir and Deir el-Bersha. However, outside the database the D₅₄ classifier is used in Saqqara and the Theban area as well. ¹⁰⁵⁶ In the database Gebelein and Aswan only use form 1 when the lemma does not geminate. However, outside the database forms with a D₅₈ (𓃀) interpretant occur in these two regions as well. ¹⁰⁵⁷ Thus, there is no meaningful variation in this lemma that suggests a regional preference.

**Appendix 6.230. spi (to remain, to leave, to leave out)¹⁰⁵⁸**

In the database there are eight attestations of this lemma. ¹⁰⁵⁹ In table 6.208, the attestations per region are set out for every graphical form of the stem. Form 2 is the only variation for this lemma in the database, and both attestations come from B₄C. Although the D₄₀ (𓊐) classifier is only attested in Deir el-Bersha, it seems to be restricted to B₄C alone. Form 1 is commonly used in all regions outside the database.

```
<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>
<td>el-Lisht</td>
<td>1</td>

¹⁰⁵⁶ Buck (1947) *CT III*, p. 112,k (T1C), 356,a (Sq6C).
¹⁰⁵⁷ Buck (1961) *CT VII*, p. 135,i.
¹⁰⁵⁹ Buck (1935) *CT I*, p. 139,b; Buck (1947) *CT III*, p. 223,i. For additional attestations outside the database, see Plas & Borghouts (1998), p. 250. Note that van der Plas & Borghouts consider this lemma a noun.
Appendix 6.231. *spi* (to bind together)\textsuperscript{1060}

This lemma has ten attestations in the database, from the same phrase of spell 398.\textsuperscript{1061} In table 6.209, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>
<td>Meir</td>
<td>2</td>

<td>Aswan</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>4</td>
<td>Meir</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.209 Graphical forms of the stem of *spi* (to bind together).

For this lemma, there does not seem to be a clear regional pattern, as this lemma habitually uses form 1-3 in most other regions, or even a long format of the same spelling.\textsuperscript{1062} In the database the addition of the O50 (𓊗) only occurs in Meir, but outside the database it is attested in Deir el-Bersha as well.\textsuperscript{1063} Outside the database the use of the V1 (𓊘) as classifier is attested in the Theban area and Deir el-Bersha.\textsuperscript{1064}

Appendix 6.232. *spr* (to arrive at, to reach)\textsuperscript{1065}

In the database there are 30 attestations of this lemma, which all occur in the same phrase of spell 335.\textsuperscript{1066} In table 6.210, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

In this lemma, the use of the P1 (𓊛) as classifier only occurs in the Theban area and Saqqara (form 5 and 7). However, this use is unique, as it does not occur anywhere else in the Coffin Texts for this lemma. Although it is most likely meaningless, it is remarkable that the use of the P1 classifier only occurs when the S29 (𓊳) is used. In el-Lisht and Beni Hasan, the O34 (𓋴) is used instead of the S29, although in el-Lisht the F42 (𓊺) is used as phonogram as well (form 1),\(^{1067}\) while in Beni Hasan form 2 is attested as well.\(^{1068}\) In a similar manner as el-Lisht, Meir uses either a O34, or uses the F42 as a phonogram. However, there is a lack of attestations from Meir outside the database. In the database, the absence of the F42 only occurs in Saqqara (form 7), but outside the database it is possible in Deir el-Bersha to leave the F42 out as well.\(^{1069}\)

Appendix 6.233. spH (to lasso)\(^{1070}\)

The lemma spH has 25 attestations in the database. However, only ten attestations represent verbal forms,\(^{1071}\) as the word spH (lasso) was encoded under this lemma as well. In table 6.211, the attestations per region are set out for every graphical form of the stem:

\(^{1067}\) Buck (1956) *CT VI*, p. 323,z (L1Li).
\(^{1068}\) Buck (1947) *CT III*, p. 331,a (BH4C).
\(^{1069}\) Buck (1935) *CT I*, p. 206,a (B16C, B17C, B1Y).
\(^{1071}\) Buck (1938) *CT II*, p. 400,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 251.
### Graphical forms of the stem of *spH*

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Beni Hasan</td>
<td>1</td>
</tr>
<tr>

<td>1</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>Asyut</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>Unknown (Y1C)</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.211 Graphical forms of the stem of *spH*.

In the database the only variation that occurs is in the graphical form, as the spelling is identical for all attestations. In the database it seems that Asyut only uses the long format (form 5), but outside the database form 3 and 4 are used in Asyut as well. Moreover, form 5 is used in Deir el-Bersha as well. As there are no additional attestations for Beni Hasan, the Theban area and Gebelein, it would be possible to suggest that these regions prefer a compact format (form 1-2). However, these forms could just as well be features of the witnesses, rather than a regional preference. Thus, it seems unlikely that there is a regional preference in the graphical form of this lemma.

### Appendix 6.234. *spd* (to be sharp, to make sharp)*

In the database there are nineteen attestations of this lemma, but only seventeen represent verbal forms. In table 6.212, the attestations per region are set out for every graphical form of the stem:

---

1072 Buck (1956) *CT VI*, p. 179,c (S1C, S2C).
1073 Buck (1956) *CT VI*, p. 289,e (B1Bo).
1075 Buck (1938) *CT II*, p. 72,b-c; Buck (1951) *CT IV*, p. 89,m, 91,i, 303,a, 303,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 251.
In the database, form 1 is only attested in Meir. However, this form is attested outside the database in Deir el-Bersha as well.\textsuperscript{1076} The D40 (_proba) and Y2 (_proba) classifier are only attested in Deir el-Bersha. In Asyut, the M44 (_proba) is only used as a phonemogram (form 5-8), not as a phono-repeater (form 2-4). In el-Lisht the M44 is only used as a phono-repeater.

Appendix 6.235. \textit{sf\textdegree} (to hate)\textsuperscript{1077}

This lemma has three attestations of this lemma, from the same phrase of spell 30.\textsuperscript{1078} It could be argued that these attestations are corruptions, as the other witnesses use \textit{sd\textdegree} (to tremble) in this phrase. Both the Theban area and Asyut use the same graphical form (see figure 6.23), which occurs outside the database in Deir el-Bersha as well.\textsuperscript{1079} Therefore, this form cannot be considered a regional preference.

Appendix 6.236. \textit{sfl} (to loosen, to release, to be released)\textsuperscript{1080}

The lemma \textit{sfl} has 31 attestations in the database.\textsuperscript{1081} In table 6.213, the attestations per region are set out for every graphical form of the stem:

\begin{table}[h]
\centering
\begin{tabular}{|c|c|c|c|c|c|}
\hline
Graphical form stem & no. & Region & Attestations & Graphical form stem & no. & Region & Attestations \\

\hline
\end{tabular}
\caption{Graphical forms of the stem of \textit{spd}.}
\end{table}

\textsuperscript{1076} Buck (1935) \textit{CT I}, p. 194,e (B13C).
\textsuperscript{1077} Molen (2000), p. 486.
\textsuperscript{1078} Buck (1935) \textit{CT I}, p. 90,d (T1L,a-b, S2C). For additional attestations outside the database, see Plas & Borghouts (1998), p. 252.
\textsuperscript{1079} Buck (1961) \textit{CT VII}, p. 293,c (B3C, B2L).
\textsuperscript{1080} Molen (2000), p. 486-487.
For this lemma, there is no clear regional preferences, as nearly all features are attested in multiple regions. Although Deir el-Bersha seems to prefer to use a V1 (𓊪) classifier (form 3, 5, 6, 10 and 12), there are attestations from Deir el-Bersha without it as well (form 4, 7, 8 and 13). Moreover, the V1 classifier is used in Asyut as well (form 11). The D54 (𓊱) classifier is attested in the Theban area (form 1 and 9), but Asyut as well (form 11). In the database, the D40 (𓊬) classifier is only attested in Deir el-Bersha, which is true outside the database as well, although the use of the D40 classifier is rare for this lemma.

Appendix 6.237. **sf₉** (to be unseen, to be invisible)**

In the database this lemma has 49 attestations. Note that all attestations in the *Coffin Texts* are participles, as the lemma only occurs in the compound *sf₉-irw* (invisible of shape). In table 6.214, the attestations per region are set out for every graphical form of the stem:

---

1082 Buck (1947) *CT III*, p. 217,a (T1Be). I assume this is an incorrect writing for *sfḥ*.
1084 Buck (1935) *CT I*, p. 316-317,b, 318-319,a, 405,b; Buck (1938) *CT II*, p. 57-58,d-a, 86,d, 87,d, 88,a, 90,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 252.

</table>

Table 6.214 Graphical forms of the stem of $sfg$.

There are features in this lemma that can be considered a regional preference. The use of an D4 (𓁹) or D5 (𓁺) classifier is only attested in Meir. The use of the F51 (𓄼) classifier is only attested in Gebelein and Aswan, which represent the southernmost attestation of this lemma. However, form 3 is attested in Gebelein as well, suggesting a preference for a compact format. The Y2 (𓏝) classifier is only attested in Deir el-Bersha.

The other regions use either form 3 or form 9. The database suggests that the Theban area prefers to use the long format of form 9, but outside the database form 3 is attested as well. Beni Hasan seems to prefer the long format as well, but as there are no additional attestations of this lemma in the Coffin Texts for Beni Hasan, it would be assumptive to suggest that this is a regional preference based on one attestation. Although both the long and compact format is attested in Asyut (form 4 and 9), it seems that the preference lies with the long format.

**Appendix 6.238. sm3 (to unite, to join, to partake)**

In the database there are 35 attestations of this lemma, but only 26 represent verbal forms. In table 6.215, the attestations per region are set out for every graphical form of the stem:

---

1085 Buck (1938) *CT II*, p. 87,d (B1L). The V12 (𓁹) is a placeholder for an unclear sign, which might be an unfinished eye according to de Buck.

1086 Buck (1938) *CT II*, p. 63,f (T1Be).

</tbody>
</table>

Table 6.215 Graphical forms of the stem of smA (to unite).

Form 9 only occurs in Saqqara, but most likely is an error in the witness (Sq10C), as it is not repeated in the Coffin Texts. Based on the database, it can be suggested that in Asyut and Meir the G1 (𓄿) interpretant is never added. However, outside the database this is not true for Asyut. In Asyut the O34 (𓊃) phonemogram is always included inside and outside the database. The use of the Y2 (𓏝) classifier is only attested in Deir el-Bersha.

Appendix 6.239. sm3 (to slay, to destroy)

There are ten attestations of this lemma in the database. In table 6.216, the attestations per region are set out for every graphical form of the stem:

---

1089 Buck (1947) CT III, p. 7,a (Sq10C). Note that de Buck transcribed a F36 (𓄥) here, although in his notes (3*) he states that it is written as the hieratic Aa20 (𓆮).
1090 Unless de Buck repeated the correction of an Aa20 (𓆮) into a F36 (𓄥) without mentioning it.
1091 Buck (1947) CT III, p. 44,b (S10C).
1093 Buck (1935) CT I, p. 52,a); Buck (1951) CT IV, p. 263,a, 263,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 253.
Table 6.216 Graphical forms of the stem of *sm3* (to slay).

For this lemma, the attestations from Meir always include the G1 (𓄿) interpretant in the database, but outside the database the lemma occurs without the G1 interpretant as well.\(^{1095}\) However, it is the only region in which a form without the U1 (𓌳) is possible (form 8), although this form is rare in the Coffin Texts. The only and only use of the E1 (𓃒) classifier in the Coffin Texts is attested in Deir el-Bersha. In the database the A24 (𓀜) classifier only occurs in Deir el-Bersha and Meir, but it is attested in Asyut outside the database as well.\(^{1096}\) However, the A24 classifier does not seem to occur in the Theban area.

**Appendix 6.240. *sm3* (to put to order, to correct, to cause to be true)\(^{1097}\)**

There are 15 attestations of this lemma in the database.\(^{1098}\) In table 6.217, the attestations per region are set out for every graphical form of the stem. Note that form 5 and form 6 should be considered to be the same, as the N20 (𓄿) and Aa11 (𓌳) can look remarkably similar to each other in cursive script.

---

\(^{1094}\) Buck (1935) *CT I*, p. 52,a, (B1P). Due to the E1 (𓃒) classifier, it is possible to read this as *sm3* (wild bull) as well.

\(^{1095}\) Buck (1956) *CT VI*, p. 261,i (M2NY).

\(^{1096}\) Buck (1938) *CT II*, p. 213,b.

\(^{1098}\) Buck (1935) *CT I*, p. 1,a, 22,b, 136-137,d-a; Buck (1951) *CT IV*, p. 91,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 254.
Both within and outside of the database, the use of the D54 (𓁊) classifier is only attested in Deir el-Bersha. In the database, the use of the Y2 (𓏝) classifier is only attested in Deir el-Bersha and el-Lisht, but occurs outside the database in Asyut, the Theban area and Saqqara as well.¹⁰⁹ There are no other features that could be considered a regional preference.

Appendix 6.241. *smz*-ٍ*hrw* (to justify, to make triumphant)¹¹⁰⁰

This lemma was added as a separate lemma, even though it is technically a sub-lemma of *sms* (to put to order; see appendix 6.240). In the database there were only three attestations of this lemma,¹¹⁰¹ which occurred in two graphical forms (see table 6.218). Note that in both these cases it would be possible to read the *hrw* separately from the *sms*. As the use of the A2 (𓀁) classifier is attested in other regions¹¹⁰² and the P8-G43 (𓊤𓅱) form is attested in other regions as well,¹¹⁰³ it is unlikely that a regional preference exists for this lemma.

¹⁰⁹ Buck (1954) *CT V*, p. 96,d (Sq1C, T1C, T1Be); Buck (1956) *CT VI*, p. 248,h (S10C,b).
¹¹⁰² Buck (1951) *CT IV*, p. 94,d (B5C).
¹¹⁰³ Buck (1951) *CT IV*, p. 331,a (B1L).

Table 6.218 Graphical forms of the stem of *sms*-hrw.

Appendix 6.242. *smi* (to report, to complain)\textsuperscript{1104}

There are only three attestations of this lemma in the database.\textsuperscript{1105} Based on the only visible forms (see table 6.219), there is no regional preference as both forms occur in Meir. Moreover, the use of the A2 (𓀁) classifier and Y2 (𓏝) classifier is attested in Deir el-Bersha as well.\textsuperscript{1106} However, the combination of the A2 and Y2 classifier (form 1) is only attested in Meir, even though this is the only attestation of this form in the Coffin Texts.

</table>

Table 6.219 Graphical forms of the stem of *smi*.

Appendix 6.243. *smn* (to make firm, to establish, to cause to endure)\textsuperscript{1108}

In the database there are 44 attestations of this lemma.\textsuperscript{1109} In table 6.220, the attestations per region are set out for every graphical form of the stem:

---

\textsuperscript{1104} Molen (2000), p. 494.

\textsuperscript{1105} Buck (1951) *CT IV*, p. 253,d-f, 307,e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 254.

\textsuperscript{1106} Buck (1951) *CT IV*, p. 344,g (B1Y, B1L, B3L).

\textsuperscript{1107} Buck (1951) *CT IV*, p. 407, 307,e (Sq2C). Reconstruction, it might have been something completely different here.

\textsuperscript{1108} Molen (2000), p. 495.

\textsuperscript{1109} Buck (1935) *CT I*, p. 29-30,c-a, 58,a, 140,c, 393-394,e-a; Buck (1938) *CT II*, p. 92,a; Buck (1947) *CT III*, p. 14,a; Buck (1951) *CT IV*, p. 87,d, 87,k, 88,c, 91,s, 93,g. For additional attestations outside the database, see Plas & Borghouts (1998), p. 254 and Gracia Zamacona (2008), p. 1238-1240.
Table 6.220 Graphical forms of the stem of *smn*.

For most of the regions, there is no clear regional preference, as both form 3 and 7 are most commonly attested. In the database, the use of the O34 (𓊃) instead of the S29 (𓋴) is only attested in Deir el-Bersha. This is true outside the database as well. Gebelein and el-Lisht seem to prefer the compact format of form 3, but as there are no additional attestations from Gebelein or el-Lisht for this lemma, it might be a feature of the supports (G1T and L2Li), rather than a regional preference.

Appendix 6.244. *smḥi* (to cause to forget)\(^{1110}\)

There are eight attestations of this lemma in the database, although only one represents a verbal form.\(^{1111}\) The form used in B1C (see figure 6.24) is unique, as the attestations outside the database use either an A2 (𓀁) classifier or a G37 (𓏿) classifier.\(^{1112}\) Thus, it seems that the Y2 (𓏝) classifier only occurs in Deir el-Bersha for this lemma.

Appendix 6.245. *smḥ* (to forget)\(^{1113}\)

This lemma has seven attestations in the database, from the same phrase of spell 398.\(^{1114}\) In table 6.221, the attestations per region are set out for every graphical form of the stem:

---

\(^{1110}\) Molen (2000), p. 496.

\(^{1111}\) Buck (1947) *CT III*, p. 22,b (B1C). For additional attestations outside the database, see Plas & Borghouts (1998), p. 255.

\(^{1112}\) Buck (1938) *CT II*, p. 95,g (G2T, S1C); Buck (1954) *CT V*, p. 333,q (B3L).

\(^{1114}\) Buck (1954) *CT V*, p. 150,a.
As form 2, 3 and 4 occur in at least two regions, it seems unlikely that there is a clear regional preference for this lemma. However, as there are no other attestations from Gebelein and the Theban area in the *Coffin Texts*, it could be argued that Gebelein prefers a compact format (form 1 and 3), whereas the Theban area prefers a long format (form 4).

**Appendix 6.246. smsi (to deliver, to cause to be born)**

In the database there are ten attestations for this lemma, from the same phrase of spell 162. In table 6.222, the attestations per region are set out for every graphical form of the stem:

---

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Theban area</td>
<td>1</td>

<td>1</td>
</tr>
<tr>
<td></td>
<td>Unknown (Y1C)</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.222 Graphical forms of the stem of *smsi*.

In the database it seems that the use of a S29 (𓃠) interpretant only occurs in the southern attestations of this lemma (form 1 and 2). However, this is not true, as it occurs in Deir el-Bersha as well. Thus, there does not seem to be a distinct regional preference for this lemma.

---

1116 Buck (1938) *CT II*, p. 399,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 255.
1117 Buck (1956) *CT VI*, p. 311,j (B1Bo).
Appendix 6.247. *smt* (to hear, to overhear)\textsuperscript{1118}

In the database there are eighteen attestations of this lemma.\textsuperscript{1119} In table 6.223, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>

</tr>
<tr>
<td>6</td>
<td>Asyut</td>
<td>2</td>
<td></td>
<td>12</td>
<td>Asyut</td>
<td>1</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.223 Graphical forms of the stem of *smt*.

As table 6.223 shows, this lemma can be extremely varied in its form. In the database the D52 (𓁄) phonemogram is only attested in Deir el-Bersha and Meir. However, outside the database it is attested

\textsuperscript{1119} Buck (1935) *CT I*, p. 47,b; Buck (1947) *CT III*, p. 13,b, 14,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 255, although they consider these attestations the substantive *smt.t* (spy), while I consider them participles, although the use of the B1 (𓁇) and A40 (𓀭) classifier would support a substantive reading as well.
\textsuperscript{1120} Buck (1947) *CT III*, p. 14,a (M2C). I have no idea what the F34 (𓁁) is doing here, or if it is even a F34.
\textsuperscript{1121} Buck (1947) *CT III*, p. 13,b (S2C). Note that this could be read as *sqmt.t* as well.
\textsuperscript{1122} Buck (1947) *CT III*, p. 13,b (B4Bo). Note that this could be read as *sqmt.t* as well.
in Asyut as well.\textsuperscript{1123} Thus, there does not seem to be a distinct regional feature for this lemma, as form 11 comes from an uncertain section,\textsuperscript{1124} which might not be this lemma. Therefore, the Y2 (…) classifier should not be considered a feature of Deir el-Bersha.

**Appendix 6.248. \textit{sn} (to open)\textsuperscript{1125}**

The lemma \textit{sn} has 56 attestations in the database.\textsuperscript{1126} In table 6.224, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>

Table 6.224 Graphical forms of the stem of \textit{sn}.

As table 6.224 shows, form 4 is clearly the preferred form used in all the regions. Any variation in the database is only attested in Deir el-Bersha and the Theban area. However, form 2 is attested outside the database in Gebelein and Asyut,\textsuperscript{1128} which therefore cannot be considered a regional preference. The use of the D40 (…) classifier is only attested in the Deir el-Bersha and the Theban area, which is true outside the database as well. However, it is much more likely to be used in Deir el-Bersha than in the Theban area.

\textsuperscript{1123} Buck (1961) \textit{CT VII}, p. 101,r (S10C).
\textsuperscript{1124} Buck (1935) \textit{CT I}, p. 47,b (B6C).
\textsuperscript{1125} Molen (2000), p. 499.
\textsuperscript{1126} Buck (1935) \textit{CT I}, p. 11,b, 75,c, 75,e-f, 75,h; Buck (1938) \textit{CT II}, p. 84,c, 392,c; Buck (1947) \textit{CT III}, p. 214-215,c, 215,f-g, 215-219,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 255-256.
\textsuperscript{1127} Buck (1947) \textit{CT III}, p. 219,c (T1Be). Reconstruction, only the D36 (…) is visible. Note that it is not unlikely that due the script used in this witness that the D36 should be read as a D40 (…) instead, as form 6.
\textsuperscript{1128} Buck (1938) \textit{CT II}, p. 120,e (G2T); Buck (1951) \textit{CT IV}, p. 152,h (S1C,b).
Appendix 6.249. *sni* (to pass, to pass by, to surpass)\(^{1129}\)

There are only five attestations of this lemma in the database.\(^{1130}\) In table 6.225, the attestations per region are set out for every graphical form of the stem. Note that form 2-4 represent gemination. In the database, it seems that the witnesses from Meir prefer to include a T22 (𓌢) phonemogram in the form. However, outside the database this is attested in Asyut and the Theban area as well.\(^{1131}\)

Table 6.225 Graphical forms of the stem of *sni* (to pass).

Appendix 6.250. *sni* (to cut off)\(^{1132}\)

There is only one attestation in the database for this lemma.\(^{1133}\) The form used in T3C (see figure 6.25) represent one of the common forms for this lemma.\(^{1134}\) Thus, there does not seem to be a clear regional preference for this lemma, although there might be some regional preference based on the classifiers used outside the database.\(^{1135}\)

Appendix 6.251. *snr* (to rejoice)\(^{1136}\)

In the database there are only three attestations of this lemma, from the same phrase in spell 75.\(^{1137}\) Moreover, these seem to be the only attestations of this lemma in the *Coffin Texts*. Additionally, the attestations are all from witnesses that are dated between Sesostris II and Sesostris III (B1C, B2L, B1P), which suggests it is a change which only occurred for that specific group of witnesses, as the other witnesses use *h3i* or *sH3i* instead. There are three graphical forms of this lemma, see table 6.226. However, it could be argued that the humanoid classifier of form 2 should actually be read separately, as B1C uses *hUw* (the chaos gods) after *snr*. As there are no other attestations, it is possible that this lemma is region and period specific.

\(^{1131}\) Buck (1951) *CT IV*, p. 353, d (S1C, S2C, T1C).

\(^{1133}\) Buck (1935) *CT I*, p. 401, c (T3C). For additional attestations outside the database, see Plas & Borghouts (1998), p. 256.

\(^{1134}\) See Buck (1947) *CT III*, p. 292, h (A1C) and Buck (1954) *CT V*, p. 322, c (B2L).

\(^{1135}\) Buck (1954) *CT V*, p. 42, b (B1C) uses an Y2 (𓌢) classifier which seems to be rare outside Deir el-Bersha.

\(^{1137}\) Buck (1935) *CT I*, p. 356, c. According to Plas & Borghouts (1998), p. 257, there are no additional attestations of this lemma in the database.
Graphical form stem  no.  Region  

1  Deir el-Bersha  1
2  Deir el-Bersha  1
3  Deir el-Bersha  1

Table 6.226 Graphical forms of the stem of snw.

Appendix 6.252. *snwr* (to cause to tremble)\(^{1138}\)

In the database, there are 29 attestations of this lemma,\(^{1139}\) which represent all attestations of this lemma in the *Coffin Texts*.\(^{1140}\) In table 6.227, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>

<td>2</td>
</tr>
</tbody>
</table>

\(^{1139}\) Buck (1935) *CT I*, p. 104-105.b, 120.f.
As one can see in table 6.227, the graphical form for this lemma is highly variable, as there are 22 forms for 29 attestations. Note that although a distinction was made between the U19 (〜) and U20 (〜), this is a modern distinction, as in near hieratic cursive script it is often difficult to differentiate between the two graphemes.

Nonetheless, some features can be considered to be regional. The D54 (𓆲), G38 (𓅬) and Y2 (𓏝) classifiers are only attested in Deir el-Bersha. The use of the K13 (𓆢) instead of the K1 (𓆡) is rare, and only occurs in Asyut and Deir el-Bersha. Additionally, the O34 (𓊃) is used in el-Lisht, instead of the S29 (𓏴). Moreover, the witness (L2Li) replaced the G43 (𓅱) with a partial form of the grapheme, as this witness prefers to use partial hieroglyphs for the hieroglyphs of animates.  

---

1141 Buck (1935) *CT I*, p. 104b (S12C)), the strokes are decorative.
Appendix 6.253. *snb* (to be healthy)\(^{1142}\)

There is one attestation of this lemma in the database.\(^{1143}\) The form used in B3Bo (see figure 6.26) represents a common graphical form for this lemma, that occurs in other regions as well.\(^{1144}\) Thus, it seems unlikely that there is a regional preference for this lemma.

Appendix 6.254. *snhm* (to prevent)\(^{1145}\)

There are five attestations in the database, from the same phrase of spell 17.\(^{1146}\) In table 6.228, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>

<td>1</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Table 6.228 Graphical forms of the stem of *snhm*.

As table 6.228 shows, every attestation has its own graphical form. Moreover, outside the database there is only one additional attestation from the Theban area,\(^{1147}\) which uses a different form as well. Based on these two attestations from the Theban area, it would be possible to suggest that the A24 (𓀜) classifier only occur in Deir el-Bersha. However, it is unlikely that this lemma will have a clear regional preference, as in total there are only eight attestations in the *Coffin Texts* for this lemma.

\(^{1143}\) Buck (1947) *CT III*, p. 7,b (B3Bo). For additional attestations outside the database, see Plas & Borghouts (1998), p. 257.

\(^{1144}\) Buck (1938) *CT II*, p. 342,a (S2P); Buck (1956) *CT VI*, p. 259,p (T1L).

\(^{1146}\) Buck (1935) *CT I*, p. 52,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 258.

Appendix 6.255. *snsn* (to be brotherly, to be friendly)*1148*

In the database there are twelve attestations of this lemma, from the same phrase of spell 75.*1149* In table 6.229, the attestations per region are set out for the graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>

</tbody>
</table>

Table 6.229 Graphical forms of the stem of *snsn*.

In the database it seems that Gebelein does not use a classifier or the D20 (𓊑) phono-repeater. However, outside the database the D20 occurs in Gebelein as well.*1150* The use of the Y2 (𓏝) classifier is only attested in Deir el-Bersha. The Theban area seems to prefer a long format (form 7) for this lemma, but as there are no additional attestations for this lemma from the Theban area, it cannot be said if this is a regional preference, or if this is a feature of the support.

---

*1149* Buck (1935) *CT I*, p. 389,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 258.
*1150* Buck (1951) *CT IV*, p. 179,j (G1T).
Appendix 6.256. *snš/sšn* (to unstop)\(^{1151}\)

There are seventeen attestations of this lemma in the database, although only thirteen attestations represent verbal forms.\(^{1152}\) Note however that these attestations represent the divinity ‘she who unstops’, which was taken as a participle, although it could be argued that this is a substantive instead. In table 6.230, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>

<td></td>
<td></td>
<td>Asyut</td>
<td>2</td>
</tr>
</tbody>
</table>

Table 6.230 Graphical forms of the stem of *snš/sšn*.

In this lemma, there are a few features that could suggest a regional preference. The F21 (𓄔) classifier is not attested in Asyut (form 4 and 6), and constantly occurs in Meir (form 3 and 5). The use of the O34 (𓊃) instead of the S29 (𓋴) is only attested in Deir el-Bersha.

Appendix 6.257. *snk* (to suckle)\(^{1153}\)

This lemma has nine attestations in the database, from the same phrase in spell 6.\(^{1154}\) In table 6.231, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>

<td>1</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Table 6.231 Graphical forms of the stem of *snk*.

\(^{1152}\) Buck (1947) *CT III*, p. 13,b, 14,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 267, added under *sšn/snš*.

\(^{1154}\) Buck (1935) *CT I*, p. 17,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 259.
In this lemma, there are some features that could be considered a regional preference. Both within and outside of the database, the Y2 (𓏝) classifier only occurs in Deir el-Bersha. The T22 (𓌢) phonemogram is only attested in Asyut, and this seems to be the only attestation for this lemma in the Coffin Texts. In the database it seems that the D40 (𓂡) classifier only occurs in Deir el Bersha (form 4), but outside the database the D40 classifier is attested in Asyut as well.\textsuperscript{1155} Outside the database there are two additional classifiers that are used, B5 (𓁔)\textsuperscript{1156} and D27 (𓂑).\textsuperscript{1157} However, as both occur in multiple regions, it should not be considered a regional preference.

**Appendix 6.258. snkn (to injure, to damage)\textsuperscript{1158}**

There are only seven attestations of this lemma in the database.\textsuperscript{1159} Based on van der Plas & Borghouts, there are no additional attestations of this lemma in the Coffin Texts.\textsuperscript{1160} In table 6.232, the attestations per region are set out for every graphical form of the stem.

<table>
<thead>
<tr>
<th>Graphical form stem</th>

<td>5</td>
<td>Deir el-Bersha</td>
<td>3</td>
</tr>
</tbody>
</table>

Table 6.232 Graphical forms of the stem of snkn.

As these are the only attestations of this lemma, it is possible to suggest some regional preferences. In Deir el-Bersha there is a preference to use the D57 (𓂿) classifier (form 5), which is the classifier used in Meir (form 5) as well. However, Asyut seems to prefer to use the D56 (𓂛) classifier. However, form 2 and 4 belong to the same witness, so it is possible that this is a feature of the support, rather than a regional preference. Only in Meir is a form without a classifier attested (form 3). The compact format of form 1 is only attested in Meir, as the other regions seem to prefer a long format.

\textsuperscript{1155} Buck (1947) *CT III*, p. 360,c (S1C,a). Note that it is possible to read the D40 (𓂡) as a D36 (𓂛) here as well, but the use of an arm as classifier is certain.

\textsuperscript{1156} Buck (1935) *CT I*, p. 281,a (T9C); Buck (1951) *CT IV*, p. 350,a (B2Bo, B4Bo).

Table 6.233 Graphical forms of the stem of *sn*d.

In this lemma, there are some features that can be considered regional. Both within and outside of the database, the D40 (𓀱) classifier and the Y2 (𓀺) classifier are only attested in Deir el-Bersha. The use of the D46 (𓀲) phonemogram/interpretant is only attested in Deir el-Bersha, but occurs outside the database in el-Lisht as well.\textsuperscript{1163} In the database, the Aa27 (𓀳) phonemogram is only attested in Deir el-Bersha and Asyut (form 8 and 9). However, outside the database, the Aa27 phonemogram is attested in Saqqara and Dendera as well.\textsuperscript{1164} The use of a T22 (𓀵) phonemogram is unique in Deir el-Bersha and not

\textsuperscript{1161} Molen (2000), p. 516-517.

\textsuperscript{1162} Buck (1935) *CT I*, p. 348-351,e-a, 386,a; Buck (1938) *CT II*, p. 70,b; Buck (1951) *CT IV*, p. 91,o-p, 320,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 259.

\textsuperscript{1163} Buck (1961) *CT VII*, p. 64,s (L1Li).

\textsuperscript{1164} Buck (1951) *CT IV*, p. 35,l (Sq6C), 72,d (D1C).
repeated in the *Coffin Texts*. In the database, Gebelein only occurs with form 1, but outside the database form 3 is attested for Gebelein as well.\(^{1165}\) In Meir, only form 1 and form 3 are attested, but it seems that there is a preference for form 3.

**Appendix 6.260. sn\(dm\) (to make sweet, to ease, to make content)\(^{1166}\)**

There are fifteen attestations of this lemma in the database, from the same phrase in spell 32.\(^{1167}\) In table 6.234, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>

</tbody>
</table>

Table 6.234 Graphical forms of the stem of sn\(dm\).

In the database, the only clear variation occurs in Asyut, which is the only region where the Y2 (𓊪) classifier is used and where the G17 (𓅓) can be left out (form 2 and 3). However, outside the database this is not the case, as the Y2 classifier is attested in Gebelein and the Theban area.\(^{1168}\) Moreover, in the Theban area the G17 can be absent as well.\(^{1169}\) Thus, it seems unlikely that there is a regional preference for this lemma.

**Appendix 6.261. sr (to foretell, to make known)\(^{1170}\)**

In the database there are 34 attestations of this lemma.\(^{1171}\) In table 6.235, the attestations per region are set out for every graphical form of the stem. Note that there is an issue with the E27 (𓊪) in this lemma, as this sign looks more like a E20 (𓊪) in multiple witnesses. However, following the transcription of de Buck, the E27 was used when an animal was written for this lemma.

\(^{1165}\) Buck (1951) *CT IV*, p. 180,v (G1T).
\(^{1167}\) Buck (1935) *CT I*, p. 100-101,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 259.
\(^{1168}\) Buck (1947) *CT III*, p. 311,d (G1T, T1Be).
\(^{1169}\) Buck (1947) *CT III*, p. 311,d (T1Be).
\(^{1171}\) Buck (1935) *CT I*, p. 120,e, 140,g, 320-323,d-a, 404-405,c-a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 260.
In Deir el-Bersha, the use of the D54 (𓊃) classifier relatively common. However, it is rarely attested in Meir (form 16) and the Theban area as well.\textsuperscript{1172} On the other hand, the use of the Y2 (𓏝) classifier is only attested in Deir el-Bersha (form 7), as is the use of the O34 (𓊃) instead of the S29 (𓊃). In the database it seems that the A2 (𓊃) classifier is only attested in Deir el-Bersha and Meir (form 5, 9, 15 and 16). However, outside the database the A2 classifier is used in Asyut\textsuperscript{1173} and the Theban area as well.\textsuperscript{1174} In general, most regions use form 4, 8 or 13 for this lemma.

\textsuperscript{1174} Buck (1954) \textit{CT V}, p. 176,l (T1C).
Appendix 6.262. \textit{sri} (to rule, to command)\textsuperscript{1175}

This lemma has 34 attestations in the database, but only nineteen attestations represent verbal forms,\textsuperscript{1176} as \textit{sr} (magistrate, nobleman) was encoded under this lemma as well. In table 6.236, the attestations per region are set out for every graphical form of the stem. As this lemma is a \textit{3ae inf.} lemma and gemination occurs, the table has been separated in gemination and no gemination.

\begin{longtable}{|c|c|c|c|c|c|c|c|c|}
\hline
\textbf{Graphical form stem} & \textbf{no.} & \textbf{Region} & \textbf{Attestations} & \textbf{Graphical form stem} & \textbf{no.} & \textbf{Region} & \textbf{Attestations} \\
\hline
\textit{No gemination} & & & & \textit{No gemination} & & & \\
\includegraphics[width=0.05\textwidth]{ref2} & 1 & Deir el-Bersha & 1 & \includegraphics[width=0.05\textwidth]{ref2} & 2 & Deir el-Bersha & 1 \\
\textit{Gemination} & & & & \textit{Gemination} & & & \\
\includegraphics[width=0.05\textwidth]{ref2} & 3 & Asyut & 1 & \includegraphics[width=0.05\textwidth]{ref2} & 6 & Asyut & 1 \\
\includegraphics[width=0.05\textwidth]{ref2} & 4 & Beni Hasan & 1 & \includegraphics[width=0.05\textwidth]{ref2} & 7 & Deir el-Bersha & 1 \\
\includegraphics[width=0.05\textwidth]{ref2} & 5 & Deir el-Bersha & 1 & & & & \\
\includegraphics[width=0.05\textwidth]{ref2} & & & & & & & \\
\includegraphics[width=0.05\textwidth]{ref2} & & & & & & & \\
\includegraphics[width=0.05\textwidth]{ref2} & & & & & & & \\
\includegraphics[width=0.05\textwidth]{ref2} & & & & & & & \\
\hline
\end{longtable}

The use of the A21 (𓀙) as logogram (form 3) only occurs in Asyut, but does not seem to occur again in the \textit{Coffin Texts}. In Deir el-Bersha, it is possible to add an Y2 (𓀙) classifier or replace the A21 classifier with an Y2 classifier, which is true outside the database as well. Outside the database this lemma can be written in Gebelein without the A21 classifier as well,\textsuperscript{1177} although even in Gebelein the absence of the classifier is rare. The use of the O34 (𓊃) instead of the S29 (𓋴) is only attested in Deir el-Bersha.

Appendix 6.263. \textit{srd} (to plant, to make grow)\textsuperscript{1178}

In the database there are 20 attestations of this lemma.\textsuperscript{1179} In table 6.237, the attestations per region are set out for every graphical form of the stem:

\begin{longtable}{|c|c|c|c|c|c|c|c|}
\hline
\textbf{Graphical form stem} & \textbf{no.} & \textbf{Region} & \textbf{Attestations} & \textbf{Graphical form stem} & \textbf{no.} & \textbf{Region} & \textbf{Attestations} \\
\hline

\includegraphics[width=0.05\textwidth]{ref2} & & & & & & & \\
\includegraphics[width=0.05\textwidth]{ref2} & & & & & & & \\
\includegraphics[width=0.05\textwidth]{ref2} & & & & & & & \\
\includegraphics[width=0.05\textwidth]{ref2} & & & & & & & \\
\hline
\end{longtable}

\textsuperscript{1175} Molen (2000), p. 518-519.
\textsuperscript{1176} Buck (1935) \textit{CT I}, p. 324-325,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 260.
\textsuperscript{1177} Buck (1956) \textit{CT VI}, p. 182,e (G2T).
\textsuperscript{1178} Molen (2000), p. 523.
\textsuperscript{1179} Buck (1935) \textit{CT I}, p. 17,b; Buck (1938) \textit{CT II}, p. 398,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 260.
Graphical form stem no. Region Attestations

1 Beni Hasan 1
Deir el-Bersha 2
Meir 2
Gebelein 1

2 Beni Hasan 1

3 Theban area 1

4 Deir el-Bersha 7
Asyut 2
Theban area 1

5 Unknown (Y1C) 1

6 Deir el-Bersha 1

Table 6.237 Graphical forms of the stem of *srd*.

For this lemma, the majority of the attestations in the *Coffin Texts* use either form 1 or form 4. However, even though Beni Hasan uses form 1 as well, the M31 (𓇝) classifier is only attested in Beni Hasan, in the same manner as *rd* (to grow; see appendix 6.154). Based on the database, it could be suggested that Asyut prefers the long format of form 4. However, outside the database, the compact format of form 1 is attested in Asyut as well.\(^{1180}\) Outside the database it is possible in Deir el-Bersha for the M32 (𓊳) classifier to be replaced by the D40 (𓊳) classifier.\(^{1181}\)

**Appendix 6.264. *shši* (to cause to descend)\(^ {1182}\)**

This lemma has only one attestation in the database,\(^ {1183}\) in a phrase where all other witnesses use *hsI* (to descend; see appendix 6.156) instead.\(^ {1184}\) The form used for this lemma (see figure 6.27) is relatively uncommon, as most other witnesses prefer to use a O34 (𓊳) over the S29 (𓊳), or prefer to use a compact format instead. However, figure 6.27 occurs in Deir el-Bersha as well.\(^ {1185}\) Therefore, there does not seem to be clear signs for a regional preference for this lemma.

---

\(^{1180}\) Buck (1938) *CT II*, p. 352,a (S1C).

\(^{1181}\) Buck (1938) *CT II*, p. 352,a (B1L).

\(^{1183}\) Buck (1938) *CT II*, p. 403,a (Y1C). For additional attestations outside the database, see Plas & Borghouts (1998), p. 261.

\(^{1184}\) Note that based on Buck (1938) *CT II*, p. 402,d (B6C), it could be argued that the S29 (𓊳) does not belong to *shši*, but is rather a suffix pronoun after the *wiš* (bark).

\(^{1185}\) Buck (1956) *CT VI*, p. 302,l (B1Bo).
Appendix 6.265. *sheri* (to acclaim)\(^{1186}\)

In the database, there are sixteen attestations of this lemma.\(^{1187}\) As table 6.238 shows, there is barely any variation in the spelling, although some variation in the graphical form exists.

<table>

</table>

Table 6.238 Graphical forms of the stem of *sheri*.

For this lemma, it seems that Meir and Gebelein prefer the compact format of form 1, where Asyut and the Theban area prefer the long format of form 3. For Aswan and Deir el-Bersha, there does not seem to be a preference of one form over the other. However, a compact format is attested outside the database for Asyut and Theban area.\(^{1188}\) Thus, there seems to be a graphical preference for form 1 only for Gebelein and Meir, as there are no other attestations for this lemma from Gebelein and Meir in the *Coffin Texts*.

Appendix 6.266. *shir* (to remove, to drive away, to cause to escape)\(^{1189}\)

In the database there are 27 attestations of this lemma.\(^{1190}\) In table 6.239, the attestations per region are set out for every graphical form of the stem:

---

\(^{1188}\) Buck (1954) *CT V*, p. 169,b (51C); Buck (1956) *CT VI*, p. 411,b. However, as this phrase is written as a line, it could still be considered the long format as well.

Table 6.239 Graphical forms of the stem of shri.

Although this lemma is varied in its form, there are only a few variations that represent a regional preference. In the database it seems that Deir el-Bersha always includes the N31 (𓇹) classifier with this lemma. However, outside the database it occurs without the N31 classifier as well,\(^{1192}\) although this seems to be an exception to the rule. Additionally, the D54 (𓊮) classifier is only attested in Deir el-Bersha

\(^{1191}\) Buck (1951) *CT IV*, p. 211,a (BH1Br). Due to the classifiers I assumed it was an incorrect spelling for shri.

\(^{1192}\) Buck (1961) *CT VII*, p. 39,l (B810C).
(form 12). The Y2 (—you) classifier is only attested in el-Lisht and Meir, but is only optional in both regions.1193

Appendix 6.267. sḥṣî (to meet)

The lemma sḥṣî has ten attestations in the database, from the same phrase of spell 32.1194 As table 6.240 shows, the graphical form is relatively stable. The only variation takes place within Deir el-Bersha, as the Theban area uses form 2. As there are no additional attestations of this lemma in the Coffin Texts, it is uncertain if form 1 and 3 represent unique forms, or if these might be used by other regions as well.

Table 6.240 Graphical forms of the stem of sḥṣî.

Appendix 6.268. sḥtp (to pacify, to satisfy, to cause to be plentiful)1195

The lemma sḥtp has 48 attestations in the database.1196 In table 6.241, the attestations per region are set out for every graphical form of the stem:

1193 See form 1, 2, 3, 8 and 11 for Meir and Buck (1961) *CT VII*, p. 2,q (L2Li) for el-Lisht.
1194 Buck (1935) *CT I*, p. 108,b. Not attested in van der Molen or van der Plas & Borghouts. It seems to be the only attestation of this lemma in the Coffin Texts, see Gracia Zamacona (2008), p. 1249.
1196 Buck (1935) *CT I*, p. 348-349,c, 350-351,b; Buck (1947) *CT III*, p. 188,c; Buck (1951) *CT IV*, p. 260,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 261-262.

</table>

Table 6.241 Graphical forms of the stem of sHtp.

In the database, the Theban area seems to prefer a long format (form 11 and 13). However, outside the database, the compact format of form 6 is attested as well.\footnote{1197}{Buck (1935) CT I, p. 348,c (B1C). As the owner to which this participle reflects to is masculine, I assumed the X1 (𓏏) and Q3 (𓊪) were written in the wrong order. However, it could theoretically be read as an infinitive as well.} Asyut seems to prefer the long format as well (form 10, 13, 14 and 15), but is attested with form 3 outside the database.\footnote{1198}{Buck (1935) CT I, p. 351,b (M-Ann). Not seen by de Buck himself, it is possible that the Y1 (𓏛) should be read as an Y2 (𓏝) instead.} The use of the X4 (𓏒) classifier occurs only in Asyut, but only when the ‘to cause to be plentiful’ function is used. In Gebelein there is a preference for a compact format for this lemma. In Aswan there is slightly more freedom in\footnote{1199}{Buck (1935) CT I, p. 300,a (T1C).}\footnote{1200}{Buck (1938) CT II, p. 318,c (S3P).}
the position of the S29 (𓋴), but the X1 (𓏏) and Q3 (𓊪) signs are constantly written next to each other in the column (form 7 and 12). The other regions do not have a clear distinction, although the use of the O34 (…) instead of the S29 is only attested in Deir el-Bersha.

Appendix 6.269. šḥm (to destroy, to cause to stop)\textsuperscript{1201}

There are only four attestations of this lemma in the database.\textsuperscript{1202} As table 6.242 shows, every attestation has its own distinct graphical form. Based on the attestations outside the database there does not seem to be any regional preference as the graphical form can be remarkably varied. However, the use of the G41 (𓅯) is not attested in Deir el-Bersha.

\begin{table}[h]
\centering
\begin{tabular}{|c|c|c|c|c|c|}
\hline

\hline
\end{tabular}
\caption{Graphical forms of the stem of šḥm.}
\end{table}

Appendix 6.270. šḥd (to make bright, to illuminate, to shine)\textsuperscript{1203}

This lemma has 22 attestations in the database, but only 20 attestations represent verbal forms.\textsuperscript{1204} In table 6.243, the attestations per region are set out for every graphical form of the stem:

\textsuperscript{1202} Buck (1935) CT I, p. 21,a, 31,c; Buck (1951) CT IV, p. 285,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 262.
\textsuperscript{1203} Molen (2000), p. 528.
\textsuperscript{1204} Buck (1951) CT IV, p. 296-297,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 262.
In the database, the classifier of form 2 is only attested in Meir. However, as this classifier occurs in Deir el-Bersha for the lemma *ḥd* (to be bright; see table 6.161, form 1) as well, it cannot be considered a regional feature. The use of the T4 (𓌋) only occurs in Beni Hasan (form 4), but as there are no other attestations for this lemma from this region, it might be a feature of the witness (BH1Br), rather than a regional preference.

Appendix 6.271. *šḥī* (to hit, to chop off, to grasp)

In the database, there are only three attestations of this lemma, from the same phrase of spell 24, all from Deir el-Bersha. As table 6.244 shows, there are only two graphical forms for this lemma, which vary based on the classifier. Outside the database this lemma can occur in Deir el-Bersha with an A24 (𓊔) classifier as well. Note that this lemma seemingly only occurs in witnesses from Deir el-Bersha.

---

1205 Buck (1951) *CT IV*, p. 297,c (M57C), this variation from form 3 only occurred as the column ended after the I10 (𓊔) otherwise I assume it would be the same as form 3.

1206 Molen (2000), p. 528. Note that van der Molen has *šḥī* (to chop off) as a separate lemma.

1207 Buck (1935) *CT I*, p. 74,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 262.

1208 Buck (1951) *CT IV*, p. 55,j (B3L).

1209 There might be an attestation in Asyut, see Buck (1954) *CT V*, p. 169,d (S1C). However, as the word is damaged, includes an G43 (𓅱) and the other witness from Meir uses *šḥt*-, it is not unlikely that this is something else.
Appendix 6.272. *ṣḥ3* (to call to mind, to remember)\textsuperscript{1210}

There are eight attestations of this lemma in the database, although only six of these are verbal forms.\textsuperscript{1211} In table 6.245, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Deir el-Bersha</td>
<td>3</td>
</tr>
<tr>
<td>2</td>
<td>el-Lisht</td>
<td>1</td>
</tr>
<tr>
<td>3</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td>4</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.245 Graphical forms of the stem of *ṣḥ3*.

Form 2 is only attested in el-Lisht, but this should be considered a feature of the support, rather than a feature of el-Lisht, as L2Li prefers to write partial hieroglyphs for the hieroglyphs of animates. Moreover, the absence of a classifier is attested in Deir el-Bersha as well.\textsuperscript{1212} Outside the database the Y2 (𓏝) classifier is used for this lemma in multiple regions as well.\textsuperscript{1213} Thus, it seems unlikely that there is a regional preference for this lemma.

Appendix 6.273. *ṣḥpi* (to conduct, to bring)\textsuperscript{1214}

There are only two attestations of this lemma in the database, from the same phrase in spell 6.\textsuperscript{1215} Although attested in two regions, Deir el-Bersha and the Theban area, there is only one graphical form used for this lemma in the database (see figure 6.28). Based on the attestations outside the database, it seems that this form is preferred in Asyut as well.\textsuperscript{1216} However, in Deir el-Bersha a compact format is possible as well,\textsuperscript{1217} which seems to be the preferred format in Meir.\textsuperscript{1218}

For additional attestations outside the database, see Plas & Borghouts (1998), p. 263-264.

\textsuperscript{1221} All from the same witness (T2Be).
Table 6.246 Graphical forms of the stem of *sxm*.

In general, it seems that nearly every region prefers form 16 for this lemma. However, the D40 (𓀪) and the Y2 (𓏝) classifier are only attested in Deir el-Bersha. The A24 (𓀚) classifier is attested both in Deir el-Bersha and the Theban area. Aswan is the only region where this lemma is attested without the S42 (𓌂). Form 2 and 3, where the S42 is used as a phono-repeater, is only attested in the Theban area. The clustering of the S29 (𓋴), Aa1 (𓁵) and S42 signs in forms 4-6 only occur in the Theban area, although form 4 and 5 occur only in the witness T2Be, and form 6 only occurs in T9C. Thus, these represent features of the supports, rather than a regional feature.
Appendix 6.275. *ṣḥn* (to embrace, to enclose)\textsuperscript{1222}

This lemma has eight attestations in the database.\textsuperscript{1223} In table 6.247, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>

<td>1</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Table 6.247 Graphical forms of the stem of *ṣḥn*.

In the database, it seems that form 6 only occurs in Asyut. Contrastingly, outside the database it becomes clear that this is one of the common forms of this lemma,\textsuperscript{1224} beside form 3. In Asyut, it only occurs with form 6\textsuperscript{1225} or without a classifier,\textsuperscript{1226} the lemma does not occur with the D32 (𓊣) classifier. This seems to be true for Gebelein as well.\textsuperscript{1227} Form 4 seems to only occur in Beni Hasan, while form 3 is attested in this region as well.\textsuperscript{1228} The use of the D28 (𓊖) instead of the D32 classifier is only attested in the later period of coffin decoration in Deir el-Bersha (form 1 and 2), but does not occur outside spell 75. Thus, the D28 could be read as the substantive *ḥt* here as well, instead of a classifier.\textsuperscript{1229}

Appendix 6.276. *ṣḥnti* (to advance, to promote)\textsuperscript{1230}

There are three attestations of this lemma in the database, from the same witness (B5C) in spell 313.\textsuperscript{1231} Table 6.248 shows the two graphical forms which are used in this witness. Based on the other attestations in the *Coffin Texts*, it is clear that these two forms are unique, as the other attestations and

<tr>
<td></td>
<td></td>
<td>Deir el-Bersha</td>
<td>2</td>
</tr>
</tbody>
</table>

Table 6.249 Graphical forms of the stem of šfr.

In the database, it is only attested in Deir el-Bersha that the S29 (𓋴) can be replaced by an O34 (𓊃). However, outside the database this occurs in el-Lisht as well. It is possible in Deir el-Bersha to use the D40 (𓊛) classifier, which is true outside the database as well. However, the arm classifier in form 4 could

---

1232 Buck (1935) *CT I*, p. 152,c (B3Bo); Buck (1956) *CT VI*, p. 218,d (S1C), 239,m (T1C,b).
1233 Buck (1935) *CT I*, p. 152,c (B2Bo); Buck (1938) *CT II*, p. 223,d); Buck (1956) *CT VI*, p. 239,m (T1C,a).
1235 Buck (1935) *CT I*, p. 39,c, 40,a, 59,b; Buck (1951) *CT IV*, p. 90,l, 91,c, 211,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 265.
1236 Buck (1951) *CT IV*, p. 49,r (L1Li).
be similar, as the D36 (𓊩) and D40 can look similar in near hieratic cursive script. This would mean that the arm classifier can be used in the Theban area as well. Note that outside the database it is possible in Deir el-Bersha to use a Y2 (𓏝) classifier as well. In the database, it seems that Asyut prefers the long format of form 3. Outside the database the compact format of form 2 is attested in Asyut as well.

Appendix 6.278. **sḥt (to trap, to weave)**

This lemma has 36 attestations in the database. However, only nine attestations represent verbal forms. In table 6.250, the attestations per region are set out for every graphical form of the stem. Note that the variation in the classes of the T26 (𓌦) should be considered less important, because due to script types used in the different witnesses, the exact form of this hieroglyph can be highly varied.

</tbody>
</table>

Table 6.250 Graphical forms of the stem of sḥt.

In the database, it seems that Meir, the Theban area and Gebelein prefer a compact format (form 1), where Asyut prefers a long format (form 3). As there are no additional attestations from Meir and Gebelein and Asyut in the Coffin Texts, it cannot be said if this is true, or if this is a feature of the witness. However, the long format is used in the Theban area as well. Thus, due to a lack of additional attestations, and the fact that Deir el-Bersha has the long format and short format as well, it seems unlikely that there is a regional preference for this lemma.

---

1237 Which is used in T3Be, the attestation of form 4. See Möller (1909), p. 9, no. 99 and 105.
1238 Buck (1938) *CT II*, p. 32,a (B2L).
1241 Buck (1938) *CT II*, p. 400,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 265.
1242 Buck (1935) *CT I*, p. 293,i (T1C).
1243 There are two attestations from Saqqara outside the database as well, which both use the long format. See Buck (1935) *CT I*, p. 293,i (Sq3C, Sq6C).
Appendix 6.279. shd (to be upside down)\textsuperscript{1244}

Even though this lemma is relatively common in the \textit{Coffin Texts}, there are only six attestations in the database, from the same phrase of spell 21.\textsuperscript{1245} As table 6.251 shows, there are only two graphical forms for this lemma in the database, which vary based on the addition of the A29 (𓀡) classifier. Based on the database it seems unlikely that there are any regional preferences for this lemma.

<table>
<thead>
<tr>
<th>Graphical form stem</th>

<td>3</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Theban area</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.251 Graphical forms of the stem of shd.

Appendix 6.280. shdḥḏ (to be upside down)\textsuperscript{1246}

There are only three attestations from the Theban area in the database for this lemma.\textsuperscript{1247} These three attestations share the same graphical form (see figure 6.29), which represents one of the common forms of this lemma in most regions. However, in these attestations, there is one additional feature that is not repeated for the attestations outside the database, which is the addition of a \textit{i}. Thus, this could be considered a regional feature. However, this could be due to the date of these witnesses (T9C, T1L) as well, as they are both dated to the reign of Mentuhotep II.

Appendix 6.281. ss(w)n (to destroy)\textsuperscript{1248}

In the database, there are seven attestations of this lemma, from the same phrase in spell 75.\textsuperscript{1249} In table 6.252, the attestations per region are set out for every graphical form of the stem:

\textsuperscript{1244} Molen (2000), p. 544.
\textsuperscript{1246} Molen (2000), p. 544.
\textsuperscript{1247} Buck (1935) \textit{CT I}, p. 1,a (T1L), 60,b (T1L, T9C). For additional attestations outside the database, see Plas & Borghouts (1998), p. 265 and Gracia Zamacona (2008), p. 2171-1276.
\textsuperscript{1248} Molen (2000), p. 546.
\textsuperscript{1249} Buck (1935) \textit{CT I}, p. 401,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 266.
Based on all attestations in the *Coffin Texts*, it seems that all regions, except for Deir el-Bersha, prefer to use form 1.\textsuperscript{1252} The use of the E34 (𓊃) or T11 (𓌕) is only attested in Deir el-Bersha. Moreover, the use of the T11 seems to only occur in the later period of coffin decoration. However, this is based on form 3 and 4 alone (B2L, B1P), as it not attested outside the database. Additionally, the use of the D54 (𓂻) and D40 (𓂡) classifier is only attested in Deir el-Bersha as well, although these classifiers do not occur outside the database.

**Appendix 6.282. \textit{sS} (to write)\textsuperscript{1253}**

The lemma \textit{sS} is only attested twelve times in the database.\textsuperscript{1254} As table 6.253 shows, the graphical form of this lemma is remarkably stable. Thus, it seems unlikely that there is any regional preference for this lemma.

---

\textsuperscript{1250} Buck (1935) *CT I*, p. 401,c (B2L), I assume this to be an error in which the position of the O34 (𓊃) and N35 (𓌕) were reversed.

\textsuperscript{1251} Buck (1935) *CT I*, p. 401,c (B7C) is a reconstruction, based on B1C.

\textsuperscript{1252} Form 1 is attested in Deir el-Bersha once, see Buck (1951) *CT IV*, p. 18,f (B2Bo). For the other regions, see Buck (1938) *CT II*, p. 252,e (S1C,a) and Buck (1956) *CT VI*, p. 276,x (G1T).

\textsuperscript{1253} Molen (2000), p. 549.

\textsuperscript{1254} Buck (1951) *CT IV*, p. 310,a, 411/236,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 266.
Appendix 6.283. $sSP$ (to be bright, to make bright)$^{1257}$

This lemma has 25 attestations in the database, but only six attestations represent verbal forms.$^{1258}$ As table 6.254 shows, all the attestations of this lemma in the database are from Deir el-Bersha, although with remarkable variation in the graphical form. Even so, the use of the O34 (__) instead of the S29 (𓊃) is only attested in Deir el-Bersha. Additionally, the use of the D40 (__) classifier is only attested in Deir el-Bersha as well, although rare in the Coffin Texts for this lemma.

Table 6.254 Graphical forms of the stem of $sSP$.

---

$^{1255}$ Buck (1951) CT IV, p. 310,a (M1NY). In this witness it is possible to distinguish between the Y1 (__) and the Y2 (𓊃).

$^{1256}$ Buck (1951) CT IV, p. 407/310,a (Sq2C). Reconstructed, it could be form 2 as well.

$^{1258}$ Buck (1935) CT I, p. 18,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 267.
Appendix 6.284. *šm* (to lead, to guide, to conduct)\textsuperscript{1259}

In the database there are 50 attestations of this lemma, although only 34 attestations represent verbal forms.\textsuperscript{1260} In table 6.255, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>

</table>

Table 6.255 Graphical forms of the stem of *šm*.

If one discounts the reconstruction of form 6 in Meir and form 10 in Saqqara, it could be argued that the use of the T32 (𓊦) phonemogram instead of the T31 (𓊧) phonemogram only occurs in Asyut and the Theban area. However, outside the database the T32 phonemogram is attested in el-Lisht as well.\textsuperscript{1263}

\textsuperscript{1259} Molen (2000), p. 552.

\textsuperscript{1260} Buck (1935) *CT I*, p. 51,b, 76,j; Buck (1947) *CT III*, p. 10,a, 14,a; Buck (1954) *CT V*, p. 319,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 267.

\textsuperscript{1261} Buck (1954) *CT V*, p. 407/319,c (Sq2C). Reconstruction, the spelling is a guess.

\textsuperscript{1262} Buck (1951) *CT IV*, p. 319,c (M1NY). Reconstructed, but reading seems likely based on the traces of the S29 (𓊦) and the Y1 (𓏛). Note that in this support it is possible to distinguish between the Y1 and the Y2 (𓏝). The T32 (𓊦) is a guess however.

\textsuperscript{1263} Buck (1947) *CT III*, p. 195,j (L1Li).
There does not seem to be a regional preference for this lemma in the *Coffin Texts*, as the only clear features, the use of the D54 (𓊮) and Y2 (𓈩) classifiers, are attested in multiple regions. Moreover, although the database suggests that the compact formats of form 1-6 are only attested in Saqqara, Deir el-Bersha and Meir, outside the database it is used in Asyut, Gebelein and Aswan as well.\textsuperscript{1264}

**Appendix 6.285. sšt3 (to make secret, to be hidden)\textsuperscript{1265}**

In the database, this lemma has only four attestations, of which only three are verbal forms.\textsuperscript{1266} As table 6.256 shows, every attestation has its own form. Based on the attestations outside the database, the forms do not represent regional preferences as the distinguishing features are attested in other regions as well. For example, the Y2 (𓈩) classifier is attested in Deir el-Bersha, as is the use of the O34 (𓊃) instead of the S29 (𓊭).

\begin{table}
\begin{tabular}{l|c|c}

\end{tabular}
\caption{Table 6.256 Graphical forms of the stem of sšt3.}
\end{table}

**Appendix 6.286. sšs3 (to make high, to exalt)\textsuperscript{1269}**

This lemma has eight attestations in the database, from the same phrase of spell 75.\textsuperscript{1270} In table 6.257, the attestations per region are set out for every graphical form of the stem:

\begin{table}
\begin{tabular}{l|c|c}
<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Asyut</td>
<td>1</td>
</tr>
<tr>
<td>2</td>
<td>Meir</td>
<td>1\textsuperscript{1268}</td>
</tr>
<tr>

<td>Theban area</td>
<td>1</td>
</tr>
</tbody>
</table>
\end{tabular}
\caption{Table 6.257 Graphical forms of the stem of sšs3.}
\end{table}

\textsuperscript{1264} For example, see Buck (1938) *CT II*, p. 138,f (SqC, G1T, G2T, A1C).
\textsuperscript{1265} Molen (2000), p. 557-558.
\textsuperscript{1266} Buck (1938) *CT II*, p. 73,a; Buck (1951) *CT IV*, p. 298-299,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 268.
\textsuperscript{1267} Buck (1938) *CT II*, p. 335,b.
\textsuperscript{1268} Buck (1951) *CT IV*, p. 298,a (M4C). The reading of the G37 (𓊮) is uncertain, it might be a poorly made G1 (𓊭) as well.
\textsuperscript{1269} Molen (2000), p. 559.
\textsuperscript{1270} Buck (1935) *CT I*, p. 404,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 268.
In this lemma, the only variation occurs in Deir el-Bersha, with form 1 only occurring in witnesses from the later period of coffin decoration.\(^{1271}\) The use of the Y2 (𓀤) classifier occurs in earlier witnesses from Deir el-Bersha as well.\(^{1272}\) Notably, the absence of the A28 (𓀱) classifier (form 1) does not occur in the earlier period of coffin decoration in Deir el-Bersha, nor does it occur in any other region, which all use form 2 and 3, or another graphical form of the same spelling.\(^{1273}\)

**Appendix 6.287. \textit{skbb} (to cool, to calm, to extinguish)\(^{1274}\)**

The lemma \textit{skbb} has seventeen attestations in the database, from the same phrase of spell 75.\(^{1275}\) As table 6.258 shows, the graphical form for this lemma is highly variable, as there are fifteen separate forms for seventeen witnesses.

Table 6.258 Graphical forms of the stem of *skbb*.

In this lemma, the use of the W16 (𓎁) or its classes (form 7, 8 and 11) are only attested in Deir el-Bersha, which is true outside the database as well. In the database, it could be suggested that the Theban area prefers the long format of form 14, but outside the database a compact format is attested in the Theban area.\(^{1279}\) The long format additionally occurs in Deir el-Bersha.\(^{1280}\) In Asyut, the W15 (𓎄) classifier is always used, while the N35A (𓎊) classifier is never added. However, as there are no other attestations for this lemma in Asyut, and both witnesses (S1C and S2C) belong to the same owner, this might be a feature of the supports, rather than a regional preference. In the database, only Meir can be written without a classifier, but outside the database that is attested in Deir el-Bersha as well.\(^{1281}\) The other regions seem to always include the W15 or N35A classifier.

\(^{1276}\) Buck (1935) *CT I*, p. 379,b (M23C, M28). Both attestations are damaged, so it is possible that that more was written, although the size of the lacuna in both witnesses is small.

\(^{1277}\) Buck (1935) *CT I*, p. 378,b (B7C). Completely lost, it could have been written as any other form as well.

\(^{1278}\) Buck (1935) *CT I*, p. 378,b (S1C). I consider the additional S29 (𓎊) an error, and the direction of the S29 is due to the left to right writing direction of S1C.

\(^{1279}\) Buck (1947) *CT III*, p. 322,c (T3C). Note that this is the same witness as form 14.

\(^{1280}\) Buck (1956) *CT VI*, p. 153,l (B1Bo).

\(^{1281}\) Buck (1956) *CT VI*, p. 115,b (B5Bo,b).
Appendix 6.288. *skr* (to strike)\textsuperscript{1282}

There are only three attestations of this lemma in the database, all from Deir el-Bersha and the same phrase of spell 24.\textsuperscript{1283} Note that the lemma is relatively common in the *Coffin Texts*, and that the low number of attestations is only due to the spells which were chosen for encoding. In the database there are two graphical forms, see table 6.259. Both these forms should not be considered regional preferences, as they occur in other regions as well.\textsuperscript{1284} Outside the database there do not seem to be any regional preferences as well, as graphical variants of form 1 and 2 occur in multiple regions, and the use of the Aa7 (\(\text{𓋴}\)) classifier is attested in multiple regions as well.\textsuperscript{1285}

<table>

\textsuperscript{1282} Molen (2000), p. 559-560.
\textsuperscript{1283} Buck (1935) *CT I*, p. 74,g). For additional attestations outside the database, see Plas & Borghouts (1998), p. 268-269.
\textsuperscript{1284} Form 1, see Buck (1938) *CT II*, p. 341,a (S2P). Form 2, see Buck (1938) *CT II*, p. 49,d (G2T, M22C).
\textsuperscript{1285} Buck (1935) *CT I*, p. 290,g (T1C, T9C); Buck (1938) *CT II*, p. 341,a, 343,a (B1L).
\textsuperscript{1287} Buck (1935) *CT I*, p. 78,h, 321,b, 328-329,b, 340-341,d, 380-383,d-a; Buck (1938) *CT II*, p. 403,a, 404,b, 404,c; Buck (1951) *CT IV*, p. 296-297,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 269 and Gracia Zamacona (2008), p. 1280-1289.
\textsuperscript{1288} Buck (1935) *CT I*, p. 380-382,d-a (S1C). I consider the second S29 (\(\text{𓋴}\)) an error for the Aa28 (\(\text{𓋴}\)).
In the database, the D54 (𓀵) classifier occurs only in Meir. However, outside the database the D54 classifier is attested in el-Lisht as well.\textsuperscript{1289} In el-Lisht, the Theban area and Aswan the N33 (𓀵) is not used in the database. Although this is true for Aswan outside the database as well, it is not true for el-Lisht\textsuperscript{1292} and the Theban area.\textsuperscript{1293} Beni Hasan is only attested with the N33 (form 10), but as there are no other attestations from Beni Hasan with this lemma in the Coffin Texts, it cannot be stated if this is a regional feature.

\textsuperscript{1289} Buck (1935) \textit{CT I}, p. 321,b (A1C). The addition of the A24 (𓀵) classifier seems a remnant of the lemma which is used by the other witnesses, \textit{sidt} (see appendix 6.215). In near hieratic cursive script, the M17 (𓀵) and Aa28 (𓀵) can easily overlap (see Möller (1909), p. 27, 46, no. 282 and 488), which most likely explains the variation here, although it is remarkable that both the classifiers for \textit{skdd} and \textit{sidd} were used here.

\textsuperscript{1290} Buck (1951) \textit{CT IV}, p. 297,a, (M57C). Note that Gracia Zamacona (2008), p. 1290 considers this a separate lemma.

\textsuperscript{1291} Buck (1947) \textit{CT III}, p. 263,c (L1Li).

\textsuperscript{1292} Buck (1947) \textit{CT III}, p. 263,c (L1Li).

\textsuperscript{1293} Buck (1947) \textit{CT III}, p. 320,h (T3C).
Appendix 6.290. *ski* (to perish, to destroy, to pass)\textsuperscript{1294}

In the database there are 38 attestations of this lemma.\textsuperscript{1295} In table 6.261, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>

<td></td>
</tr>
</tbody>
</table>

Table 6.261 Graphical forms of the stem of *ski*.

In this lemma, there are a few features which could be considered regional, although the variation is generally limited to Deir el-Bersha. In the database, the N14 (\(\text{ *}\)) phono-repeater (form 1, 6 and 9) is only used in Deir el-Bersha and the Theban area. However, outside the database the N14 is attested in Saqqara\textsuperscript{1296} and P.Gard.3 as well.\textsuperscript{1297} For Deir el-Bersha, it seems that the use of the N14 only occurs in the early period of coffin decoration in Deir el-Bersha, but outside the database it is attested in the later period of coffin decoration as well.\textsuperscript{1298} The D40 (\(\text{…}\)) classifier is only attested in Deir el-Bersha in the database (form 4). However, outside the database it occurs in Asyut as well,\textsuperscript{1299} even though it is more common in Deir el-Bersha. The addition of a T20 () only occurs in Deir el-Bersha (form 6), but seems to be a unique feature in B4C which is not repeated. The use of a G37 (\(\text{…}\)) classifier is only attested in Deir el-Bersha (form 5), but as it only occurs in B5C, it should be considered a feature of this witness, rather than a regional preference.

\textsuperscript{1294} Molen (2000), p. 563-564, van der Molen considers *ski* (to perish, to destroy) and *ski* (to pass) separate lemmas.

\textsuperscript{1295} Buck (1935) *CT I*, p. 30,c, 31,b, 31,c; Buck (1951) *CT IV*, p. 93,p, 93,q, 311,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 269, note that *ski* (to perish, to destroy) and *ski* (to pass) are separate lemmas.

\textsuperscript{1296} Buck (1954) *CT V*, p. 81,c (Sq1C).

\textsuperscript{1297} Buck (1961) *CT VII*, p. 171,u-v.

\textsuperscript{1298} Buck (1956) *CT VI*, p. 326,u (B15C).

\textsuperscript{1299} Buck (1947) *CT III*, p. 371,a (S3C).
Appendix 6.291. *sgr* (to silence)\textsuperscript{1300}

There are 34 attestations of this lemma in the database, of which 31 represent verbal forms.\textsuperscript{1301} In table 6.262, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>

</tbody>
</table>

Table 6.262 Graphical forms of the stem of *sgr*.

For this lemma, there are a few signs of a regional preference. The A2 (𓀁) classifier is constantly added in Asyut (form 2, 3 and 7), which is true outside the database as well. The use of form 8 is only attested in Beni Hasan, but as there are no other attestations for this lemma from Beni Hasan in the *Coffin Texts*, it cannot be stated with certainty if this is a regional preference, or a feature of the support. Except for the problematic form 11, the Y2 (𓏝) classifier is only used in Deir el-Bersha. Moreover, this classifier is only attested in witnesses which belong to the later period of coffin decoration in Deir el-Bersha.\textsuperscript{1304} The A69

\textsuperscript{1300} Molen (2000), p. 568.

\textsuperscript{1301} Buck (1935) *CT I*, p. 320-321,b, 378-379,c, 405,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 270.

\textsuperscript{1302} Buck (1935) *CT I*, p. 405,b (T3C). Assumed to be a variant of *sgr*. However, as all other witnesses use *sfg* here (as it is the *sfg*-irw construction, it is possible that T3C simply left out the I9 (…) instead of the D21 (…). However, as shown in appendix 6.237, T3C normally does not add a Y2 (…) classifier to *sfg*.

\textsuperscript{1303} Buck (1935) *CT I*, p. 320,b (B3C). Although this spelling would suggest the lemma *gr* (to be silent), based on the other witnesses and the structure of the phrase I considered the loss of the *s* more likely. Moreover, as *gr* is the start of a new column, it is not unlikely that the artist missed a sign. However, reading *gr* is possible here: *ss.t-hd-htp* *tn gr n-f pt sidd n-f ts.wy* (This *ss.t-hd-htp*, the sky is silent for him, the lands are reduced to order for him).

(𓄝) classifier is only attested in Deir el-Bersha (form 9), but occurs only in B1Bo, including attestations outside the database, and represents a feature of this support, rather than a regional preference.

Appendix 6.292. sti (to shoot, to pour, to thrust)

This lemma has 24 attestations in the database. In Table 6.263, the attestations per region are set out for every graphical form of the stem. Note that this is a 3ae inf. lemma and gemination occurs, therefore the table has been separated in gemination and no gemination.

Table 6.263 Graphical forms of the stem of sti (to shoot).

In the database, only Meir uses the F29 (𓄝) as a logogram. However, outside the database this occurs in P.Gard.2 as well, although this witness includes a S29 (𓄞) interpretant. In Deir el-Bersha the V13 (𓄢) can be added and the V1 (𓄭) can be included as classifier (form 11). Outside the database, the V13 occurs only in Deir el-Bersha, although the V1 classifier seems not to reoccur in the Coffin Texts. In Asyut the

</tbody>
</table>

Table 6.264 Graphical forms of the stem of \textit{stī} (to burn).

In the database, Deir el-Bersha is the only region which adds the V13 (𓋕), which is true outside the database as well.\footnote{Buck (1947) \textit{CT III}, p. 305,d (G1T).} In the database it seems that the D40 (𓋕) classifier only occurs in Asyut and Deir el-Bersha. However, outside the database it occurs in Gebelein as well,\footnote{Buck (1935) \textit{CT I}, p. 250,d (B10C,c). The classifier makes this reading certain.} which makes it unlikely that this could be considered a regional feature. In the Theban area and in Y1C there is no classifier written. However, as there is no other attestation of this lemma from these regions, it is possible that this is simply a feature of the supports.

**Appendix 6.294. \textit{stī3} (to inflame)\footnote{Buck (1938) \textit{CT II}, p. 73,a.}**

There are seven attestations of this lemma in the database,\footnote{See Plas & Borghouts (1998), p. 270.} which are the only attestations of this lemma in the \textit{Coffin Texts}.\footnote{See Molen (2000), p. 571-572.} In table 6.265, the attestations per region are set out for every graphical form of the stem. Note that with the exception of form 3, all the other attestations are a \textit{sdjmm=f}, which is the reason the G1 (𓄿) is geminating.

\begin{itemize}
\item \footnote{See Buck (1938) \textit{CT II}, p. 343,a (S1C, S2P, S3P).}
\item \footnote{Molen (2000), p. 570.}

\item \footnote{Buck (1938) \textit{CT II}, p. 73,a.}
\end{itemize}
Table 6.265 Graphical forms of the stem of stA.

As these are the only attestations of this lemma, the variation might be unique to the witnesses, rather than a true regional feature. Nonetheless, the use of the O34 (𓊃) instead of the S29 (𓋴) is only attested in Deir el-Bersha. Asyut is the only region in which there is no classifier (form 4). Regrettably, there are no features which could distinguish Deir el-Bersha and Meir from each other.

Appendix 6.295. stbn (to hasten)\textsuperscript{1319}

In the database there are only seven attestations of this lemma,\textsuperscript{1320} which are the only attestations of this lemma in the Coffin Texts.\textsuperscript{1321} In table 6.266, the attestations per region are set out for every graphical form of the stem. Based on this table, it seems that in the Theban area the D54 (𓊷) classifier can be left out, and that Beni Hasan prefers to use a compact format (form 2) over a long format (form 3 or 4). However, due to the lack of additional attestations, these might be features of the supports, rather than regional preferences.

Table 6.266 Graphical forms of the stem of stbn.

Table 6.267 Graphical forms of the stem of stj.

\textsuperscript{1327} Buck (1935) *CT I*, p. 364,c, 366,b (M3C). Due to the other witnesses, I placed this with this lemma, I assume the U15 (... is a corruption of the phallus.

\textsuperscript{1328} Buck (1935) *CT I*, p. 367,b (M-Ann). Due to the other witnesses, I placed this with this lemma, I assume the U15 (... is a corruption of the phallus.

\textsuperscript{1329} Buck (1935) *CT I*, p. 366,b (M20C). Due to the other witnesses, I placed this with this lemma, I assume the U15 (... is a corruption of the phallus.
In this lemma, Gebelein and Aswan use their own form for *sți*, which is written as *snT* (form 1 and 2). This seems to represent a southern Egyptian form of this lemma, that does not occur north of Gebelein in the *Coffin Texts*. The classifiers D40 (𓊳) and N35A (𓊳) are only attested in Deir el-Bersha, which is true outside the database as well. In Asyut there is a preference to write this lemma in the long form (form 8, 9, 28, 29), and the phallus is constantly included as a classifier. This is true outside the database as well. The addition of an U15 (𓊳) occurs only in Meir. However, it is not clear if this is a correct transcription, or if this should be read as a different sign altogether.

Appendix 6.297. *sțsi* (to cause to raise)\textsuperscript{1331}

In the database there is only one attestation of this lemma from Asyut.\textsuperscript{1332} The form used in this witness (see figure 6.30) is a common form for this lemma, although Deir el-Bersha is likely to add a D40 (𓊳) classifier.\textsuperscript{1333} In Asyut it is possible to leave the U39 (𓊳) classifier out,\textsuperscript{1334} whereas Gebelein and Aswan replace the U39 classifier with a T14 (𓊳) instead.\textsuperscript{1335}

Appendix 6.298. *sdʒ* (to tremble)\textsuperscript{1336}

The lemma *sdʒ* has 41 attestations in the database.\textsuperscript{1337} In table 6.268, the attestations per region are set out for every graphical form of the stem. In the same manner as appendix 6.179, the variation due to the protruding feather of the G38 (𓅬) should not be considered important. Therefore, form 5 and 7 and form 8 and 10 should be considered to be the same.

\textsuperscript{1335} Buck (1951) *CT IV*, p. 173,c (G1T, A1C).

\textsuperscript{1336} Molen (2000), p. 586.

\textsuperscript{1337} Buck (1935) *CT I*, p. 14,c, 48,b, 90-91,d, 118,c-d, 138,b; Buck (1954) *CT V*, p. 156,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 272-273.
In the database, only el-Lisht and Beni Hasan use the O34 (𓊃) instead of the S29 (𓋴). This could suggest a regional variation of the northern attestations of this lemma. However, the S29 is used in Saqqara, and the O34 additionally occurs in Deir el-Bersha, which makes it less likely to be a feature of the northern regions. The attestations from Asyut only occur in the long format of form 8 in the database. Outside the database, the compact format is attested in Asyut as well, but overall the long format still seems to be preferred. The A24 (𓀜) classifier is only attested in Meir in the database, but occurs outside the database in Asyut as well. However, this could still represent a regional feature of the southern section of Middle Egypt. The G33 (𓅥) is used in multiple regions, albeit rarely, and the phonemogram function of form 1 is only attested in Deir el-Bersha.

Appendix 6.299. **sd** (to break)**

There is only one attestation in the database, even though the lemma is relatively common in the Coffin Texts. However, the form of this attestation (see figure 6.31) is a variation, as the majority of the other witnesses use *srd* (to plant) in this phrase, thus this attestation might simply be a corruption of the *srd*, as B1P did not write the D21 (𓊃) as well, although still using a M32 (𓐍) classifier. Moreover, this could be a modern corruption, as de

Table 6.269 Graphical forms of the stem of $s\text{d}3$.

$^{1348}$ Buck (1935) CT I, p. 12,a, 86-87,b, 89,c, 109,b, 113,e; Buck (1938) CT II, p. 402,c, 403,d; Buck (1947) CT III, p. 240-241,b; Buck (1951) CT IV, p. 226,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 273 and Gracia Zamacona (2008), p. 1296-1308.

$^{1349}$ Buck (1951) CT IV, p. 92,m (B5C), the D54 (𓆓) is a reconstruction based on the size of the lacuna, thus might not have been there.
Although the use of the D54 (𓋚) classifier (form 1, 4, 5, 7, 9, 10, 11, 13 and 14) and the Y2 (𓋝) classifier (form 2, 6, 7, 9 and 14) cannot be considered a regional preference, the combination seems to be the most prevalent in Asyut (form 7 and 14). However, this should be considered a feature of a witness, as all the attestations come from S2C. Moreover, outside the database the use of both the D54 and Y2 classifier is attested in Deir el-Bersha as well. Therefore, it cannot be considered a regional preference.

The P1 (𓊛) classifier (form 8) is only attested in the Theban area, but only in T1Be and T2Be, which belong to the same owner. It is possible the classifier was used here to clarify that the movement is intended to be done specifically by boat. However, there are no additional attestations of the P1 classifier for this lemma outside the database, nor of T1Be and T2Be, thus it is more likely a feature of these two witnesses, instead of a regional feature, even though it is not attested outside the Theban area.

Form 10 is only attested in el-Lisht, but should not be considered a regional feature, as this witness (L2Li) prefers to write partial hieroglyphs for the hieroglyphs of animates.

Appendix 6.301. 𓋝m (to hear, to listen)

The lemma 𓋝m has 100 attestations in the database. In table 6.270, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>

---

1350 Buck (1938) CT II, p. 41.e.
1351 However, this tendency is only attested in L1Li and L2Li, which belong to the same owner, and could still be considered a feature of el-Lisht, as it is not attested in other regions.
1353 Buck (1935) CT I, p. 28,c, 106-107,d-a, 121,f, 143-144,d-a, 322-323,c, 327,b, 372-373,b, 389,a; Buck (1938) CT II, p. 57,c, 87,b, 90,d; Buck (1947) CT III, p. 13,b, 14,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 274.

3283
Table 6.270 Graphical forms of the stem of *sDm*.

In the database, the use of the A2 (𓀁) classifier (form 7) is only attested in Meir. However, outside the database it is attested in the Theban area as well.\footnote{Buck (1935) *CT I*, p. 372,b (S2C). Based on the other versions, *sDm* seems more likely here than *sDm* (to paint).} The Y2 (𓏝) classifier is only attested in Deir el-Bersha (form 3), which additionally seems to be true outside the database. In the database el-Lisht only has an attestation which uses the F21 (𓄔) in the initial position (form 1). However, there are no other attestations from el-Lisht for this lemma, thus it is possible the lemma *sDm* only occurs in el-Lisht with the F21 in the initial position.

There are no other features in this lemma that can be considered regionally conditioned, as nearly every feature of the graphical form is attested in more than one region.

Appendix 6.302. *sDr* (to lie down, to rest, to spent the night)\footnote{Molen (2000), p. 594-595.}

The lemma *sDr* has thirteen attestations in the database.\footnote{Buck (1938) *CT II*, p. 390,c, 390,e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 274 and Gracia Zamacona (2008), p. 1309-1321.} In table 6.271, the attestations per region are set out for every graphical form of the stem:

\footnote{Buck (1935) *CT I*, p. 143-144,d-a (B6C), one of the rare attestations of a *sDm*-f.}
There seems to be a high level of variation based on the classifiers, but if one considers the cursive script used in the witnesses, it can simply be assumed that the classifier groups of form 3, 6, 7 and 8 should be read as A55 (𓁀) instead. In the database, it seems that Deir el-Bersha and Asyut prefer to use only the long format for this lemma. However, outside the database the compact format occurs for these regions as well. However, in Asyut the long format is more common than the compact format.

The absence of a classifier (form 1) is in the database only attested in Beni Hasan, but occurs outside the database in Deir el-Bersha as well. Gebelein and Aswan seem to prefer to use a compact format (form 3 and 4), which is true outside the database as well. Moreover, these regions can use the A55 as a logogram as well.

Appendix 6.303. 𓁀𓁀 (to begin)

In the database there is only one attestation of this lemma from Beni Hasan. The form used in Beni Hasan (see figure 6.32) cannot be considered a regional variant, as it is attested

---

1359 Buck (1938) CT II, p. 233,c (S2P); Buck (1954) CT V, p. 53,b (B6C).
1360 Buck (1951) CT IV, p. 41,c (B9C).
1361 Buck (1938) CT II, p. 111,e (G2T); Buck (1947) CT III, p. 164,d (G1T, A1C).
1363 Buck (1951) CT IV, p. 187,d-f (BH1Br). For additional attestations outside the database, see Plas & Borghouts (1998), p. 276.
in Deir el-Bersha as well.\footnote{Buck (1956) \textit{CT VI}, p. 343, o (B3L).} However, there is another attestation in Deir el-Bersha that does not include the G1 (𓄊) interpretant.\footnote{Buck (1961) \textit{CT VII}, p. 116, i (B6Bo).}

**Appendix 6.304. \s\s (to travel, to go, to tread on)**\footnote{Molen (2000), p. 602-603.}

This lemma has only one attestation in the database,\footnote{Buck (1951) \textit{CT IV}, p. 88, f (B5C).} even though it is common in the \textit{Coffin Texts}.\footnote{See Plas & Borghouts (1998), p. 276 and Gracia Zamacona (2008), p. 1325-1340.} The graphical form used in B5C (see figure 6.33) is one of the two common forms used in Deir el-Bersha, as both the O34 (𓊃) and S29 (𓋴) are used. However, there do not seem to be any other attestations outside Deir el-Bersha which use the O34 phonemogram.

**Appendix 6.305. \s (to cut, to cut off)**\footnote{Molen (2000), p. 604.}

In the database there are nine attestations of this lemma.\footnote{Buck (1935) \textit{CT I}, p. 72, b); Buck (1951) \textit{CT IV}, p. 209, e-g. For additional attestations outside the database, see Plas & Borghouts (1998), p. 277.} Although attested in Beni Hasan, Deir el-Bersha and the Theban area, there is no variation in the graphical form (see figure 6.34). Thus, based on the database there is no regional preference for the form of this lemma. In general, this is true outside the database as well, although in Beni Hasan it is possible to replace the T30 (𓌪) classifier with a F37 (𓄦) instead.\footnote{Buck (1947) \textit{CT III}, p. 9, a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 278.}

**Appendix 6.306. \sw (to be empty, to lack)**\footnote{Molen (2000), p. 607.}

There are thirteen attestations of this lemma in the database, from the same phrase in spell 165.\footnote{Buck (1954) \textit{CT V}, p. 62, a, 62, b (BH3C).} In table 6.272, the attestations per region are set out for every graphical form of the stem:

\begin{table}[h]
\centering
\begin{tabular}{|c|c|c|c|c|}
\hline
Graphical Form & Region A & Region B & Region C & Region D \\
\hline
\text{G1} & 10 & 20 & 30 & 40 \\
\text{G2} & 11 & 21 & 31 & 41 \\
\text{G3} & 12 & 22 & 32 & 42 \\
\hline
\end{tabular}
\caption{Table showing the distribution of the lemma in the database.}
\end{table}
In the database, the H6 (𓆄) is only used in Saqqara, as the other attestations use the H6A (𓆅) instead. However, outside the database the H6 occurs in Deir el-Bersha as well.\textsuperscript{1374} Meir and Saqqara are only attested without the N37 (𓆆) interpretant in the database, but outside the database it is used in Saqqara.\textsuperscript{1375} There are no additional attestations from Meir for this lemma to verify the absence of the N37, although it is remarkable that in ṣw (to ascend, see appendix 6.307), the attestations from Meir are only attested with a N37 interpretant.

Appendix 6.307. ṣw (to ascend, to be raised up)\textsuperscript{1376}

This lemma has sixteen attestations in the database, from the same phrase in spell 75.\textsuperscript{1377} In table 6.273, the attestations per region are set out for every graphical form of the stem:

\begin{table}
\begin{tabular}{|l|l|l|}
\hline
Graphical form stem & no. & Region & Attestations \\
\hline
\includegraphics[width=0.1\textwidth]{graph1} & 1 & Deir el-Bersha & 2 \\
\includegraphics[width=0.1\textwidth]{graph2} & 2 & Asyut & 1 \\
\includegraphics[width=0.1\textwidth]{graph3} & 3 & Deir el-Bersha & 1 \\
\includegraphics[width=0.1\textwidth]{graph4} & 4 & Deir el-Bersha & 1 \\
\hline
\end{tabular}
\end{table}

\begin{table}
\begin{tabular}{|l|l|l|}
\hline
Graphical form stem & no. & Region & Attestations \\
\hline
\includegraphics[width=0.1\textwidth]{graph1} & 5 & Beni Hasan & 1 \\
\includegraphics[width=0.1\textwidth]{graph2} & 6 & Deir el-Bersha & 1 \\
\includegraphics[width=0.1\textwidth]{graph3} & 7 & Theban area & 1 \\
\hline
\end{tabular}
\end{table}

\begin{table}
\begin{tabular}{|l|l|l|}
\hline
Graphical form stem & no. & Region & Attestations \\
\hline
\includegraphics[width=0.1\textwidth]{graph1} & 4 & Deir el-Bersha & 1 \\
\includegraphics[width=0.1\textwidth]{graph2} & 5 & Deir el-Bersha & 5 \\
\includegraphics[width=0.1\textwidth]{graph3} & 6 & Asyut & 1 \\
\includegraphics[width=0.1\textwidth]{graph4} & 7 & Meir & 1 \\
\hline
\end{tabular}
\end{table}

\textsuperscript{1374} Buck (1956) CT VI, p. 294,a (B1Bo).
\textsuperscript{1375} Buck (1961) CT VII, p. 54,a (Sq6C).
\textsuperscript{1376} Molen (2000), p. 610-611.
\textsuperscript{1377} Buck (1935) CT I, p. 342-343,c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 278 and Gracia Zamacona (2008), p. 1341-1342. Note that van der Plas & Borghouts placed this phrase under ṣwi (to be empty) instead.
In the database, it seems as if Asyut does not use the N37 (𓁄) interpretant. However, outside the database the N37 interpretant is attested in Asyut. In Beni Hasan, Meir and the Theban area, the N37 interpretant is always included. However, as there are no other attestations of this lemma in these regions, it might not be a regional feature. In the Theban area and Asyut, there seems to be a preference of using the H6A (𓀁) over the H6 (𓀂), whereas in Meir and Beni Hasan the H6 is preferred. It seems that nearly all forms are possible in Deir el-Bersha, although the N37 is more likely to be left out. This is true outside the database as well.

Appendix 6.308. 𓁁pt (to be angry)

The lemma 𓁁pt has seven attestations in the database, from the same phrase of spell 398. In table 6.274, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Graphical form 1" /></td>
<td>1</td>
<td>Gebelein</td>
<td>1</td>
<td><img src="image2" alt="Graphical form 4" /></td>
<td>4</td>
<td>Meir</td>
<td>1</td>
</tr>
<tr>
<td><img src="image1" alt="Graphical form 2" /></td>

</tr>
<tr>
<td><img src="image1" alt="Graphical form 3" /></td>
<td>3</td>
<td>Gebelein</td>
<td>1</td>
<td><img src="image2" alt="Graphical form 6" /></td>
<td>6</td>
<td>Aswan</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.274 Graphical forms of the stem of 𓁁pt.

There are some features in this lemma that could be considered regional. However, it needs to be noted that the distinction between the fishes might be modern, as in near hieratic cursive script the fishes can look similar. In Gebelein and Aswan, the A2 (𓀁) classifier is never used. In the Theban area, the A2 classifier is used, but there are no additional attestations in the Coffin Texts for the Theban area, Gebelein and Aswan. Meir can occur both with and without the A2 classifier, which is true for Deir el-Bersha and Asyut as well. Note that in Deir el-Bersha an Y2 (𓀄) classifier can be used as well.

Table 6.275 Graphical forms of the stem of šm.

Even though Asyut is only attested with form 3 in the database, outside the database form 4 occurs in Asyut as well.\textsuperscript{1388} As the use of the G17 (⟨⟩), D54 (𓂻) or both occurs in most regions, it is unlikely that there is a regional preference for this lemma.

Appendix 6.310. šms (to follow, to attend, to serve)\textsuperscript{1389}

The lemma šms has 107 attestations in the database, but only 34 attestations represent verbal forms,\textsuperscript{1390} as the substantive šms.\textit{w} (following) was encoded under this lemma. In table 6.276, the attestations per region are set out for every graphical form of the stem:

\textsuperscript{1386} Molen (2000), p. 616-617.

\(^\text{1396}\) Buck (1935) *CT I*, p. 188,b (B12C, B13C, B1Y).

\(^\text{1397}\) Buck (1951) *CT IV*, p. 8,c (Sq6C, Sq3C). Note that these forms show gemination.

\(^\text{1398}\) Buck (1935) *CT I*, p. 188,b (B10C,b).
Appendix 6.312. $\overline{\text{nT}}$ (to revile, to oppose, to punish)$^{1399}$

This lemma has 29 attestations in the database, although only six represent verbal forms.$^{1400}$ As table 6.278 shows, there are only attestations from Deir el-Bersha for this lemma. As there are no other regions, the database cannot be used to suggest regional preferences. However, outside the database this lemma is attested in Asyut as well,$^{1401}$ where the D54 (𓆉) and Y2 (𓏝) classifiers are not used.

---

$^{1400}$ Buck (1935) CT I, p. 46,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 281.  
$^{1401}$ Buck (1938) CT II, p. 231,b.  
$^{1403}$ Buck (1935) CT I, p. 10,b, 11,e, 71-72,h-a, 141,a, 143,c, 387,b; Buck (1938) CT II, p. 257,d, 278-279,b; Buck (1947) CT III, p. 175,a, 183,b, 213,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 282-283.
For this lemma, there does not seem to be a regional preference, as most features are attested in multiple regions. Although the arm classifiers are attested in multiple regions, they are more likely to occur in Deir el-Bersha, even though the arm classifier can be left out in this region as well. The use of the phonetic spelling of this lemma (form 3 and 4) are rare, but occur in other regions as well.\textsuperscript{1404}

Appendix 6.314. \textit{štr} (to be secret, to be hidden)\textsuperscript{1405}

There are 60 attestations of this lemma in the database, but only sixteen represent verbal forms.\textsuperscript{1406} In table 6.280, the attestations per region are set out for every graphical form of the stem:

\begin{table}[h!]
\centering
\begin{tabular}{|c|c|c|c|c|}
\hline
\textbf{Graphical form stem} & \textbf{Region} & \textbf{Attestations} & \textbf{Graphical form stem} & \textbf{Region} & \textbf{Attestations} \\
\hline
1 & Beni Hasan & 1 & 9 & Saqqara & 1 \\
1 & Deir el-Bersha & 5 & 9 & Saqqara & 19 \\
1 & Theban area & 4 & 10 & Meir & 2 \\
1 & Gebelein & 1 & 10 & Asyut & 3 \\
1 & Papyrus (P.Gard.2) & 2 & 10 & Theban area & 4 \\
2 & Deir el-Bersha & 1 & 11 & el-Lisht & 1 \\
2 & Meir & 1 & 11 & Deir el-Bersha & 2 \\
3 & Saqqara & 1 & 12 & Deir el-Bersha & 7 \\
3 & Deir el-Bersha & 2 & 13 & Deir el-Bersha & 1 \\
4 & Deir el-Bersha & 1 & 14 & Deir el-Bersha & 3 \\
4 & Asyut & 3 & 14 & Asyut & 3 \\
4 & Unknown (Y1C) & 2 & & & \\
5 & Deir el-Bersha & 1 & 15 & Deir el-Bersha & 1 \\
5 & Deir el-Bersha & 2 & & & \\
6 & Deir el-Bersha & 3 & & & \\
6 & Asyut & 2 & & & \\
6 & Unknown (Y1C) & 1 & & & \\
7 & Deir el-Bersha & 2 & & & \\
8 & Deir el-Bersha & 1 & & & \\
\hline
\end{tabular}
\caption{Graphical forms of the stem of \textit{šsp}.}
\end{table}

\textsuperscript{1404} For example, see Buck (1947) \textit{CT III}, p. 389,a (S2C,a).

\textsuperscript{1405} Molen (2000), p. 635-636.

\textsuperscript{1406} Buck (1951) \textit{CT IV}, p. 298-299,a, 412/268,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 283. Note that this specific phrase is under \textit{šttr}\textit{ɪr(i)w}.
In the database, it could be suggested that Deir el-Bersha only uses a long format (form 5, 6 and 8), but outside the database a compact format is used in Deir el-Bersha as well. In the database, only in Deir el-Bersha is the G1 (𓄿) interpretant left out, but outside the database it occurs in the Theban area as well. Thus, it seems unlikely that this lemma has any regional preferences in the verbal forms.

Appendix 6.3.15. šdî (to take, to take away, to remove, to dig out)

In the database there are 72 attestations of this lemma. In table 6.281, the attestations per region are set out for every graphical form of the stem. Note that this is a 3ae inf. lemma and gemination occurs in the database, therefore the table has been divided in gemination and no gemination. Although some variation exists in the use of an arm as classifier, there does not seem to be any regional preference for this lemma as it is remarkably constant in its form.

Table 6.280 Graphical forms of the stem of štṣ.

1407 Buck (1951) CT IV, p. 299,a, (M1NY). One of the few witnesses in which the distinction between the Y1 (𓊧) and Y2 (𓊨) can be made.
1409 Buck (1961) CT VII, p. 24,i (T1Be).
1410 As the majority of attestations of this lemma are adjectives or substantives, which might have some regional features.
1411 Molen (2000), p. 638-640. Note that I encoded šdî (to take, to take away) and šdî (to dig out) under the same lemma, as I consider digging a variation of taking away.
1412 Buck (1935) CT I, p. 19-20,d-a, 76,b; Buck (1938) CT II, p. 91,d, 92,d, 403-404,e-a; Buck (1954) CT V, p. 124,b, 124,c, 150,c, 159,d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 284.
Appendix 6.316. šdi (to nurture, to bring up)\textsuperscript{1413}

This lemma has nine attestations in the database, from the same phrase in spell 16.\textsuperscript{1414} As table 6.282 shows, there is no visual distinction between this lemma and šdi (to take; see appendix 6.315). There does not seem to be a clear regional distinction for this lemma, although it seems that Asyut only occurs without the D40 (𓀠) classifier.\textsuperscript{1415} The Theban area is only attested with the D40 classifier in the database, but there are no other attestations outside the database to verify this. Note however that in the lemma šdi (to take) form 1 does occur in the Theban area.

\begin{table}

\caption{Table 6.281 Graphical forms of the stem of šdi (to take).}
\end{table}

Appendix 6.317. ƙ3i (to be tall, to be high)\textsuperscript{1416}

There are 22 attestations of this lemma in the database. However, only sixteen of these attestations represent verbal forms.\textsuperscript{1417} In table 6.283, one can see that there are only four graphical forms for this lemma, which vary based on the classifier A28 (𓀠), Y2 (𓀝) or the absence of a classifier.

\begin{table}
\centering
\begin{tabular}{ccc}
\hline
\textbf{Graphical} & \textbf{no.} & \textbf{Region} & \textbf{Attestations} \\

\end{tabular}
\caption{Table 6.282 Graphical forms of the stem of ƙ3i (to nurture).}
\end{table}

\textsuperscript{1414} Buck (1935) CT I, p. 48,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 284.
\textsuperscript{1415} See Buck (1951) CT IV, p. 169,d (SIC,a-b, S2C) as well.
\textsuperscript{1417} Buck (1938) CT II, p. 68,a, 71,a, 77,c; Buck (1951) CT IV, p. 88,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 287 and Gracia Zamacona (2008), p. 1407-1426.

3294
In the database, form 1, 2 and 4 are only attested in Deir el-Bersha. Outside the database there seems to be a preference for using A28 as classifier in nearly any other witness, although form 1 occurs in other regions as well.\footnote{Buck (1938) \textit{CT II}, p. 146,c (P.Gard.2); Buck (1947) \textit{CT III}, p. 314,a (T1Be); Buck (1951) \textit{CT IV}, p. 32,c (Sq3C).} The use of the Y2 classifier is not attested outside Deir el-Bersha in the \textit{Coffin Texts}, although it needs to be noted that the attestations with the Y2 classifier are all from the later period of coffin decoration in Deir el-Bersha.\footnote{B1C, B5C and B2L.}

**Appendix 6.318. \textit{km3} (to throw, to create, to wrestle)\footnote{Molen (2000), p. 652-653. Note that in van der Molen and in the database the lemma \textit{km3} (to create) and \textit{km3} (to throw, to wrestle) were kept separately, but are combined here.}**

This lemma has a total of 122 attestations in the database.\footnote{Buck (1935) \textit{CT I}, p. 336-339,c-a, 338-341,d-a, 344-345,a-b, 360-363,c-a, 393,g, 394,b; Buck (1951) \textit{CT IV}, p. 88,i, 91,h, 190-191,a; Buck (1954) \textit{CT V}, p. 128,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 288-289.} In table 6.284, the attestations per region are set out for every graphical form of the stem:

Table 6.284 Graphical forms of the stem of *kmś*.

Although there are 36 different graphical forms for this lemma, there are no real regional preferences, as nearly every feature of the form is attested in at least two regions. The use of form 9 is only attested in Gebelein and Aswan, as the other witnesses in this phrase use only the T14 (𓌙) as classifier. However, form 9 is only attested in this phrase, as it classifies the function wrestling. The use of the T14 as phonemogram without interpretants (form 36) is only attested in Meir,\(^{1426}\) but it seems that the reduced writing is due to the limited amount of space in the column, rather than a regional variation. In form 27 and 28 the T14 was replaced by M17A (𓌙), although that might simply be due to the script, instead of an intentional variation, as it occurs in the Theban area and el-Lisht.

\(^{1425}\) Buck (1951) *CT IV*, p. 191,a (BH1Br). Assumed to be an incorrect writing of *kmś*.

\(^{1426}\) Buck (1954) *CT V*, p. 128,a (M5C), the other attestation is from M4C, where it is reconstructed based on M5C.
Appendix 6.319. *kni* (to damage, to injure)\(^{1427}\)

There is only one attestation of this lemma in the database,\(^{1428}\) from the Theban area, in a phrase which only occurs in this witness. The form used in T1C,b (see figure 6.35) is unique for this lemma. Although the A24 (𓀜) occurs in other attestations as well,\(^{1429}\) the combination of the Z9 (𓏴) and A24 only occurs in this witness. However, as there are no additional attestations of this lemma from the Theban area, it cannot be said if this is a feature of the witness, or a regional preference.

Appendix 6.320. *kni* (to embrace)\(^{1430}\)

In the database there is only one attestation for this lemma, from Meir.\(^{1431}\) It is a unique variation in this phrase, as the other witnesses use *hpt* (to embrace; see appendix 6.167). The form used in Meir (see figure 6.36) represents the common spelling of this lemma, although the other attestations of this lemma outside the database seem to prefer a long format,\(^{1432}\) rather than figure 6.36 where the M17 (𓀞) and D32 (𓂘) are written beside each other in the column. Note that outside the database the attestations from Asyut are more likely to not include the M17.\(^{1433}\)

Appendix 6.321. *krs* (to bury)\(^{1434}\)

In the database there are eight attestations of this lemma, but only three represent verbal forms.\(^{1435}\) As can be seen in table 6.285, every graphical form is unique, but only due to the variability in the classes of the signs, as in general the same five signs are used, in the same graphical form.\(^{1436}\) As the variation is based on classes of signs, it would be assumptive to consider any of these classes a regional preference. Moreover, the general structure of form 1-3 occurs in other regions as well.\(^{1437}\)

---

\(^{1428}\) Buck (1951) *CT IV*, p. 325,c (T1C,b). For additional attestations outside the database, see Plas & Borghouts (1998), p. 289.

\(^{1429}\) Buck (1961) *CT VII*, p. 378,c.

\(^{1431}\) Buck (1951) *CT IV*, p. 279,d (M1NY). For additional attestations outside the database, see Plas & Borghouts (1998), p. 289.

\(^{1432}\) Buck (1956) *CT VI*, p. 54,h (B1Bo); Buck (1961) *CT VII*, p. 132,m (A1C).

\(^{1433}\) Buck (1956) *CT VI*, p. 54,h (S1C); Buck (1961) *CT VII*, p. 205,r (P.Gard.2). Note that this is based on the suggestion that P.Gard.2 originates from Asyut. See Schenkel (1996), p. 125.

\(^{1435}\) Buck (1938) *CT II*, p. 273,g-h; Buck (1951) *CT IV*, p. 315,f. For additional attestations outside the database, see Plas & Borghouts (1998), p. 289.

\(^{1436}\) In form 2, see Buck (1938) *CT II*, p. 273,g-h (S1C,b), the direction of the S29 (𓋴) is changed, but this is more likely due to the fact that this witness is written from left to right, as form 1 comes from the same support.

\(^{1437}\) Buck (1935) *CT I*, p. 183,e (B10C,b-c, B12C).
Appendix 6.322. *ḳsn* (to be difficult)*\(^{1438}\)

There are ten attestations in the database for this lemma, which come from the same phrase of spell 8.\(^{1439}\) In table 6.286, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td>2</td>
<td>Deir el-Bersha</td>
<td>2</td>
</tr>
<tr>
<td>3</td>
<td>Asyut</td>
<td>1</td>
</tr>
<tr>
<td>4</td>
<td>Theban area</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.286 Graphical forms of the stem of *ḳsn*.

In the database there are no regional features that distinguishes one region from another. However, outside the database it becomes clear that form 3 is the preferred form of Asyut,\(^{1440}\) although there are no clear preferred forms for any of the other regions.

Appendix 6.323. *ḳd* (to build)*\(^{1441}\)

This lemma has 30 attestations in the database.\(^{1442}\) In table 6.287, the attestations per region are set out for every graphical form of the stem. Note that in the table the A35 (𓀨) is often a placeholder for one of its classes.

---

\(^{1440}\) Buck (1938) *CT II*, p. 150,i (S1C); Buck (1954) *CT V*, p. 172,a (S1C). Note that V.172,a is technically not form 3, as the text is written as a line. However, the spelling of the stem is still exactly that of form 3.

Table 6.287 Graphical forms of the stem of *kd*.

The use of A35 as a logogram is only attested in Deir el-Bersha and Aswan in the database, but occurs outside the database in Asyut as well.\textsuperscript{1444} In the database, the W24 (\textsuperscript{ \textcircled{1} }) phono-repeater is only used in Asyut. Outside the database it occurs in Deir el-Bersha as well,\textsuperscript{1445} but it is a rare variant, as this witness (B1Bo) habitually uses form 4 or 10. The use of a Y2 (\textsuperscript{ \textcircled{1} }) classifier is in the database only attested in Deir el-Bersha, but occurs outside the database in Asyut as well.\textsuperscript{1446} The use of a D40 (\textsuperscript{ \textcircled{1} }) classifier is only attested in Deir el-Bersha. The use of the O36 (\textsuperscript{ \textcircled{1} }) classifier is in the database only attested in Gebelein, in G1T, but occurs outside the database in Asyut as well.\textsuperscript{1447} However, it does not seem that the O36 is a regional feature for Gebelein or G1T, as form 4 is attested as well.\textsuperscript{1448} Beni Hasan seems to prefer the long format of form 10, but as there are no other attestations from Beni Hasan for this lemma, it might simply be a feature of the witness.

---

\textsuperscript{1443} Buck (1938) *CT II*, p. 271,d (M38C). Not seen by de Buck himself, and he suggest that the M17 (\textsuperscript{ \textcircled{1} }) should be read as a Aa28 (\textsuperscript{ \textcircled{1} }), the Aa1 (\textsuperscript{ \textcircled{1} }) as a N33 (\textsuperscript{ \textcircled{1} }) and the Y2 (\textsuperscript{ \textcircled{1} }) should be read as a D46 (\textsuperscript{ \textcircled{1} }), see note 5*. However, I currently cannot say if the error is modern or ancient (although I assume modern).

\textsuperscript{1444} Buck (1951) *CT IV*, p. 119,g (S1C).

\textsuperscript{1445} Buck (1965) *CT VI*, p. 170,g (B1Bo).

\textsuperscript{1446} Buck (1956) *CT VI*, p. 170,g (S10C), although it is rare in Asyut.

\textsuperscript{1447} Buck (1956) *CT VI*, p. 61,h (S1C).

\textsuperscript{1448} Buck (1951) *CT IV*, p. 182,p (G1T).
Appendix 6.324. \textit{k3} (to say)\textsuperscript{1449} 

In the database, there are only nine attestations of this lemma, all from the same phrase of spell 30,\textsuperscript{1450} and only attested in Deir el-Bersha. Moreover, there is no variation in the form (see figure 6.37). However, even outside the database there is no variation in this form, even in other regions.\textsuperscript{1451} Therefore, this lemma is of limited use for the discussion of regional preferences in the graphical form.

Appendix 6.325. \textit{kfi} (to uncover, to remove)\textsuperscript{1452} 

This lemma has a total of 23 attestations in the database.\textsuperscript{1453} In table 6.288, the attestations per region are set out for every graphical form of the stem. Note that the variation between form 2 and form 4 only occurred due to the orientation of the V31 (\textsuperscript{1454}), which varies due the opposite orientation of the text in S2C,a in regard to the other witnesses with spell 94.

\begin{table}[h]
\centering
\begin{tabular}{|c|c|c|}
\hline
\textbf{Graphical form stem} & \textbf{no.} & \textbf{Region} & \textbf{Attestations} \\
\hline
\includegraphics[width=0.2\textwidth]{figure637} & 1 & Deir el-Bersha & 1\textsuperscript{1454} \\
\hline
\includegraphics[width=0.2\textwidth]{figure637} & 2 & Asyut & 2 \\
\hline
\includegraphics[width=0.2\textwidth]{figure637} & 3 & el-Lisht & 1 \\
\hline
\end{tabular}
\end{table}

As one can see in the table, form 4 is most commonly used across the regions. Form 3 from el-Lisht should not represent a regional preference, as it only occurs in L2Li, which commonly replaces the hieroglyphs of animates with partial hieroglyphs. The use of the D40 (\textsuperscript{1455}) classifier seems to be unique in Deir el-Bersha in the database. However, the arm is used as classifier in Gebelein as well.\textsuperscript{1455}

\textsuperscript{1449} Molen (2000), p. 662.
\textsuperscript{1450} Buck (1935) \textit{CT I}, p. 94.c. For additional attestations outside the database, see Plas & Borghouts (1998), p. 291.
\textsuperscript{1451} Buck (1938) \textit{CT II}, p. 359.d.
\textsuperscript{1452} Molen (2000), p. 672.
\textsuperscript{1453} Buck (1935) \textit{CT I}, p. 141,g; Buck (1938) \textit{CT II}, p. 69-70,c-a, 70,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 294.
\textsuperscript{1454} The use of the F40 (\textsuperscript{1448}) is considered a corruption, rather than an intentional variation. See Buck (1935) \textit{CT I}, p. 141,2*.
\textsuperscript{1455} Buck (1954) \textit{CT V}, p. 13,e (G1T), although this witness used the D41 (\textsuperscript{1456}) here.
Appendix 6.326. *ksi* (to bow down, to bend down)*\textsuperscript{1456}

The lemma *ksi* has nineteen attestations in the database.\textsuperscript{1457} It needs to be noted that all these attestations are from spell 398, and therefore in the database the lemma is only attested in Meir, the Theban area, Gebelein and Aswan. In table 6.289, the attestations per witness are set out for every graphical form of the stem. Note that this is a 3ae inf. lemma and gemination occurs in the database, therefore the table has been divided in gemination and no gemination.

| Gemination          | 10  | Meir    | 1            |

Table 6.289 Graphical forms of the stem of *ksi*.

In the database, it seems that the attestations from Aswan are most liberal in what classifier (form 1,2 and 6). However, outside the database, the classifiers can be remarkably varied as well.\textsuperscript{1458} In the database the attestations from Gebelein only occur with the A19 (𓀗). However, there is an attestation outside the database of a class of A16 (𓀓) in Gebelein as well.\textsuperscript{1459} The use of the V31 (𓎡) over the V31A (𓎢) seems to only occur in Aswan and Gebelein (form 1 and 2), although it is most likely not a regional preference, as the form with V31A occurs in Aswan and Gebelein as well (form 6 and 7).

\textsuperscript{1456} Molen (2000), p. 675-676.
\textsuperscript{1457} Buck (1954) *CT V*, p. 130,b, 153,a, 153,b, 160,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 295 and Gracia Zamacona (2008), p. 1430-1435.
\textsuperscript{1458} Buck (1935) *CT I*, p. 273,b, T1C and Sq3C use A16 (𓀓) as well, and T9C uses A26 (𓀞). \textsuperscript{1459} Buck (1961) *CT VII*, p. 138,a (G1T).
Appendix 6.327. *gmi* (to find, to discover)\textsuperscript{1460}

In the database, there are 25 attestations of this lemma.\textsuperscript{1461} As table 6.290 shows, the graphical form of this lemma is extremely constant:

<table>
<thead>
<tr>

<td>2</td>
</tr>
</tbody>
</table>

Table 6.290 Graphical forms of the stem of *gmi*.

In this lemma, there is no clear sign of regional preferences. However, it is remarkable that only the northern attestations of this lemma do not include the interpretant G17 (𓊠). However, as Saqqara and el-Lisht have attestations with the G17 as well, it is not the sole form used. Moreover, outside the database, the use of form 1 is attested in P.Gard.2 as well.\textsuperscript{1462} As all attestations of form 1 occur as a *ṣdm.n-f*, it might reflect a feature of the *ṣdm.n-f*, rather than a regional preference.

Appendix 6.328. *gr* (to be silent, to be quiet)\textsuperscript{1463}

In the database, there are a total of 23 attestations of the lemma *gr*, however, only nineteen of these are used as a verb form.\textsuperscript{1464} As table 6.291 shows, the main variation lies in the use of a classifier.

\textsuperscript{1461} Buck (1951) *CT IV*, p. 88,h, 278-279,b; Buck (1954) *CT V*, p. 153,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 298.
\textsuperscript{1462} Buck (1938) *CT II*, p. 178,d.
\textsuperscript{1463} Molen (2000), p. 689-690.
\textsuperscript{1464} Buck (1935) *CT I*, p. 330-331,c, 332,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 298.

</tr>
</tbody>
</table>

Table 6.291 Graphical forms of the stem of *gr*.

It is clear that form 3, which uses the A2 (𓀁) classifier, is the preferred form to write this lemma in all the regions. However, especially Deir el-Bersha can leave out the classifier, or use a Y2 (𓏝) classifier instead. However, the absence of the classifier is not unique in Deir el-Bersha, as it is attested outside the database in the Theban area and Saqqara as well.\textsuperscript{1465} On the other hand, Meir is the only region where the A1 (𓀀) classifier is used instead of the A2 classifier.\textsuperscript{1466}

Appendix 6.329. *twr* (to show respect to)\textsuperscript{1467}

This lemma has fourteen attestations in the database, from the same phrase in spell 75.\textsuperscript{1468} In table 6.292, the attestations per region are set out for every graphical form of the stem:

Graphical form stem | no. | Region | Attestations |
<table>
<thead>
<tr>
<th></th>

</tbody>
</table>

Table 6.292 Graphical forms of the stem of *twr*.

\textsuperscript{1465} Buck (1935) *CT I*, p. 298.g (T9C and Sq3C).
\textsuperscript{1466} Although this might be due to the modern interpretation of the script, rather than an intentional variation, as the position of the arm might imply both A1 (𓀀) and A2 (𓀁), in which case de Buck needed to make a choice.
\textsuperscript{1467} Molen (2000), p. 712.
\textsuperscript{1468} Buck (1935) *CT I*, p. 385.d. For additional attestations outside the database, see Plas & Borghouts (1998), p. 304.
\textsuperscript{1469} Buck (1935) *CT I*, p. 385.d (S1C). I assume the A1 (𓀀) is an error, as S2C, which belongs to the same owner, uses an A4 (𓀃) instead.
The use of the Y2 (𓏝) classifier is only attested in Deir el-Bersha, specifically in the witnesses of the later period of coffin decoration. This is true outside the database as well. The D40 (𓀡) classifier is only attested in Meir, although there does not seem to be an additional attestation of the D40 classifier in the Coffin Texts. In Gebelein, there seems to be a preference to not include a classifier (form 1), but as there are no other attestations of this lemma from Gebelein, it might simply be a feature of the support. Finally, the A30 (𓀢) classifier is only attested in Meir (form 4), but outside the database it is attested in Deir el-Bersha as well.\(^{1470}\) However, this might simply be an interpretation of de Buck, as in near hieratic cursive script, which is used in these witnesses (MSC and B3C), it is nearly impossible to differentiate between the A30 and the A4 (𓀢).\(^{1471}\)

Appendix 6.330. \textit{twt} (to be fair, to be full, to be complete)\(^{1472}\)

There are nineteen attestations for this lemma in the database.\(^{1473}\) In table 6.293, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>

</tbody>
</table>

Table 6.293 Graphical forms of the stem of \textit{twt}.

Based on the database, there does not seem to be a regional preference. Even though outside the database a G43 (𓅱) and A53 (𓀾) can be added, this occurs in multiple regions as well.\(^{1474}\) However, form 1 seems to only occur in Asyut.

Appendix 6.331. \textit{tm} (negative verb)\(^{1475}\)

In the database this lemma has 80 attestations.\(^{1476}\) In table 6.294, the attestations per region are set out for every graphical form of the stem. Note that due to the irregular form of the imperative, this has been

\(^{1470}\) Buck (1947) \textit{CT III}, p. 54,f (B3C).

\(^{1471}\) Möller (1909), p. 1, 3, no. 2 and 38.

\(^{1473}\) Buck (1935) \textit{CT I}, p. 76,g, 96,a, 96-97,d, 98-99,c, 100,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 304. Note that due to the tabular format in spell 31 the attestations of this lemma are higher in the database, as some phrases were read multiple times, but only written once.

\(^{1474}\) Buck (1935) \textit{CT I}, p. 261,a; Buck (1938) \textit{CT II}, p. 114,d (S1C, G2T), 117,a (BH3C).

\(^{1476}\) Buck (1935) \textit{CT I}, p. 1,a, 44,d, 71,d, 332-333,c, 397,b, 398-399,c-a, 404,b; Buck (1938) \textit{CT II}, p. 259,b, 259,c, 272-273,a; Buck (1947) \textit{CT III}, p. 175,b, 175,c; Buck (1954) \textit{CT V}, p. 152,d-e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 306-307.
separated from the other form. Additionally, form 10-13 represent the entries from II,272-273,a, which all geminate.\footnote{Due to the verb bs which follows, reading this lemma seems most likely. Moreover, B4Bo and S2C included the D35 (…) in its graphical form as well, which would be out of place in a lemma without a negative meaning.}

</table>

Table 6.294 Graphical forms of the stem of \(\text{tm}\) (negative verb).

In the database it seems that only in Beni Hasan and Deir el-Bersha the X1 (.) interpretant can be left out (form 5, 7 and 10). However, this occurs outside the database in Gebelein as well.\footnote{Buck (1938) \textit{CT II}, p. 129,h (G2T).} In the database, the \textit{im} imperative (form 3 and 4) are only attested in Meir, but outside the database this occurs in Deir el-Bersha as well. Thus, it seems unlikely that there is a regional preference in this lemma.

\footnote{Buck (1947) \textit{CT III}, p. 175,b, 175,c (M22C). Both attestations are reconstructions, and could be something else entirely.}
Appendix 6.332. *tm* (to complete, to seize, to end)\(^{1480}\)

In the database there are 50 attestations of this lemma. However, only eleven attestations represent verbal forms.\(^{1481}\) As table 6.295 shows, there are only two graphical forms in the database. As a form without the X1 ( ) interpretant is attested in the Theban area as well,\(^{1482}\) it seems unlikely that there is a regional preference for this lemma.

Table 6.295 Graphical forms of the stem of *tm* (to complete, to end).

Appendix 6.333. *tši* (to take, to seize)\(^{1484}\)

This lemma has nine attestations in the database.\(^{1485}\) In table 6.296, the attestations per region are set out for every graphical form of the stem. For this lemma, there does not seem to be any regional preference, as the use of the D36 (...) instead of the D40 (...) classifier is attested outside the database in Asyut as well.\(^{1486}\) For the attestations outside the database without gemination, form 1 seems to be the preferred format.\(^{1487}\)

\(^{1480}\) Molen (2000), p. 727, 734-735. Note that van der Molen separated *tm* (to complete) and *tm* (to seize, to end) in separate lemmas, but I read this as one lemma.

\(^{1481}\) Buck (1935) *CT I*, p. 21,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 307. Note that van der Plas & Borghouts consider *tm* (to complete) and *tm* (to seize, to end) two separate lemmas.

\(^{1482}\) Buck (1935) *CT I*, p. 312,h (T1C, T9C).

\(^{1483}\) Buck (1935) *CT I*, p. 21,a (B2Bo). Could theoretically be read as *tm* (negative verb), see appendix 6.331.

\(^{1485}\) Buck (1951) *CT IV*, p. 319,e, 320,e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 311.

\(^{1486}\) Buck (1947) *CT III*, p. 133,d (S1C).

\(^{1487}\) Buck (1947) *CT III*, p. 133,d (T2Be); Buck (1956) *CT VI*, p. 1,k (B2L, B1P).
### Appendix 6.334. *ts* (to tie, to knot, to knit together)\(^{1490}\)

There are 74 attestations of this lemma in the database, but only 66 attestations represent verbal forms.\(^{1491}\) In table 6.297, the attestations per region are set out for every graphical form of the stem:

<table>

</table>

\(^{1488}\) Buck (1951) *CT IV*, p. 319,e (T2Be). Variation, as this is the only attestation in the database that does not geminate, as the other witnesses use an imperfective participle here.

\(^{1489}\) Buck (1951) *CT IV*, p. 407 (Sq2C). Both attestations are reconstructions, based on the other witnesses.

\(^{1491}\) Buck (1935) *CT I*, p. 14,d, 58-59,e-a, 140,b, 316,a, 318-319,b, 336-337,a, 336,b, 393,d; Buck (1951) *CT IV*, p. 91,g, 91,o-p, 93,b; Buck (1954) *CT V*, p. 122,e. For additional attestations outside the database, see Plas & Borghouts (1998), p. 314.

\(^{1492}\) Buck (1935) *CT I*, p. 319,b (M-Ann), I assume the O34 (...) and Y2 (...) were accidentally switched, but I cannot say if it is a modern corruption, or if it occurred on the original as well, as de Buck did not see this witness himself.
Form 1 is only attested in Aswan in the database, but occurs outside the database in Asyut as well.\(^{1493}\) In the database the V1 (\(\ddot{i}\)) classifier only occurs in Deir el-Bersha, but occurs outside the database in other regions as well.\(^{1494}\) However, the use of an D37 (\(\dddot{i}\)) or D40 (\(\dddot{u}\)) classifier (form 5 and 10) are only attested in Deir el-Bersha. In the database it seems that in Asyut the S24 (\(\dddot{u}\)) is only used in the initial position, although outside the database form 7 is attested as well.\(^{1495}\) Thus, there does not seem to be a clear regional preference for this lemma.

Appendix 6.335. \(\text{t}s\ddot{i}\) (to raise, to lift up)\(^{1496}\)

This lemma is relatively common in the database, with a total of 129 attestations.\(^{1497}\) In table 6.298, the attestations per region are set out for every graphical form of the stem. Note that as this is a 3ae inf. lemma, and gemination occurs, the table is separated in no gemination and gemination. Additionally, there are multiple classes of the U39 (\(\ddot{i}\)) used in this lemma, which should only be considered graphical variants of the same sign, as even in hieroglyphic script this sign can be extremely varied.

</table>

\(^{1498}\) Buck (1954) CT V, p. 122,e (T3L), 122,1*) the M17 (𓂀) is assumed to be a corruption of a U39 (𓀧), which is habitually used in this witness.
If the variation in the U39 is discounted, there does not seem to be any clear sign of a regional preference for this lemma, as nearly every feature is attested in multiple regions. However, it seems in the database that Asyut, Gebelein and Aswan do not use the U39 or any of its classes, but rather use T14 (𓌙) in that position, or leave the U39 out altogether. Outside the database, this is only true for Gebelein, as classes of U39 are attested in Asyut and Aswan.  

Appendix 6.336. *dw₃* (to praise, to worship)  

In the database, the lemma *dw₃* has eighteen attestations, although only seventeen are verbal forms.  

As one can see in table 6.299, the graphical form can be remarkably varied. Note that form one is most likely a corruption of form 3, in which the V4 (𓌙) was lost.

---

1499 Buck (1938) *CT II*, p. 210,b (S1P); Buck (1947) *CT III*, p. 298,g (A1C).  
1501 Buck (1935) *CT I*, p. 53,f,g, 136,b-c, 321,b; Buck (1951) *CT IV*, p. 248-249,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 318.
Based on the attestations from the database, there seems to be a clear preference in Deir el-Bersha to spell the lemma phonetically, rather than use the N14 (𓀃) as a phonemogram. Although form 5 occurs once in Deir el-Bersha, it is clearly the exception, rather than the rule. However, outside the database, the other regions use the spelling with the D46 (𓀧) and V4 as well, even though they are more likely to use the N14 as phonemogram than Deir el-Bersha.

Form 6 only occurs in el-Lisht, but reflect the tendency of this witness (L2Li) to use partial hieroglyphs when hieroglyphs of animates are used. Thus, this should not be considered a pattern of el-Lisht. Based on the table, one could suggest that the use of the A4 (𓀃) is unique to Meir, but beyond the database, the same use occurs in Gebelein as well.

Appendix 6.337. \textit{dwn} (to stretch out, to be stretched out)

In the database, this lemma has only three attestations. Moreover, one of these attestations seems to be an error (T9C), and the other two attestations are reconstructions (MC105 and T1L). Thus, for the database, the only certain graphical form is from the witness T9C (see figure 6.38). It is not possible to suggest any regional preference based on the database, but outside the database it is clear that the V1 (𓀳) is not a feature which only occurs in the Theban area.

Appendix 6.338. \textit{dbn} (to go round, to encircle)

This lemma is attested eleven times in the database. In table 6.300, the attestations per region are set out for every graphical forms of the stem:

\begin{itemize}
  \item \textbf{Buck (1938) CT II, p. 118,i.}
  \item Although to my current knowledge the constant use of partial versions of hieroglyphs of animates in the CT only occurs in el-Lisht.
  \item \textbf{Buck (1951) CT IV, p. 179,j. However, the graphical form is different.}
  \item \textbf{Molen (2000), p. 785-786.}
  \item \textbf{Buck (1935) CT I, p. 56,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 318 and Gracia Zamacona (2008), p. 1453.}
  \item There is a N35 (𓁃) too many, and it would not be possible to read a \textit{sdmm}-f here. However, as the D46 (𓀧) was written in another column, it is possible that the artist got confused, and added the extra N35 for certainty.
  \item \textbf{Buck (1935) CT I, p. 264,a (B1Y).}
  \item \textbf{Molen (2000), p. 788-789.}
  \item \textbf{Buck (1951) CT IV, p. 253,d-f, 307,d; Buck (1954) CT V, p. 139,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 318 and Gracia Zamacona (2008), p. 1454-1469.}
\end{itemize}

Table 6.300 Graphical forms of the stem of *dbn*.

For this lemma, the only real variation occurs in the attestations from Meir, which can have a reduced form (4 and 6), where the F46 (𓄲) and F48 (𓄶) are used without interpretants. However, the fully spelled out forms (1 and 2) also occur. Outside the database, there are instances of a reduced form in Deir el-Bersha, although not to the extent as form 4 and 6, as there is a N35 (𓄰) interpretant or D54 (𓂻) classifier attached. Thus, the use form 4 and 6 seems to be unique in Meir.

**Appendix 6.339. *dbḥ* (to ask for, to beg, to demand)**

In the database, this lemma is attested ten times, in the same phrase of spell 162. As table 6.301 shows, the form is relatively constant, and the majority of the variation occurs in the classifiers.

Table 6.301 Graphical forms of the stem of *dbḥ*.

---

1511 Note that these could be read as *phr* (to turn, to go around, to envelop; see appendix 6.91) as well.
1512 Buck (1938) *CT II*, p. 385,c (B9C); Buck (1947) *CT III*, p. 290,c (B1C,b).
1514 Buck (1938) *CT II*, p. 401-402,c-a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 319.
For this lemma, there are signs of a regional preference in the graphical form, based on the use of F18 (𓄑). In Deir el-Bersha and Meir, this hieroglyph is constantly written before the D58-V28 (𓎛) group, including in attestations outside the database. On the other hand, Gebelein places it behind the D58-V28 group. Even though the attestations in the database suggest that this pattern might apply to the northern attestations versus the southern attestations, this is not true. In Aswan, the F18 is written before the D58-V28 group. Another attestation from Beni Hasan has the F18 after the group, even though it is more up north than Deir el-Bersha. Thus, for Deir el-Bersha and Gebelein there is a clear preference in the placement of the F18, where the other regions are attested with both placement options for the F18.

Appendix 6.340. *dm* (to be sharp, to pierce, to penetrate)\(^{1516}\)

This lemma is only six times attested in the database, in the same phrase of spell 75.\(^{1517}\) As one can see in table 6.302, the spelling of the lemma is identical, with only a minor variation in the position of the T30 (𓌪) in Gebelein. This lemma is of limited use for regional variation, as the graphical form does not seem to vary beyond form 1 outside the database. However, form 2 is not attested outside the database, or is there another attestation of this lemma from Gebelein.

</table>

Table 6.302 Graphical forms of the stem of *dm* (to be sharp).

Appendix 6.341. *dm* (to pronounce, to proclaim)\(^{1518}\)

In the database, this lemma is only attested in Gebelein and Aswan, in the same phrase in spell 75.\(^{1519}\) However, it needs to be noted that van der Plas & Borghouts consider these attestations to belong to *dm* (to be sharp) instead.\(^{1520}\) As table 6.303 shows, the graphical form of the regions varies, but only in the position of the T30 (𓌪) classifier. Note that the form in Gebelein is identical to form 2 in lemma *dm* (to be sharp).\(^{1521}\) Based on the attestations outside the database for this lemma, the preferred form

---

\(^{1515}\) Buck (1954) CT V, p. 48,b (A1C), although it could be argued that it is written between, rather than in front of or behind.

\(^{1519}\) Buck (1935) CT I, p. 355,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 319.

\(^{1520}\) See appendix 6.340.

seems to be form 1, although in Meir the T30 classifier can be replaced with an A26 (𓀞) classifier as well.\textsuperscript{1522} Nonetheless, form 2 seems to only occur in Gebelein.

Table 6.304 Graphical forms of the stem of \textit{dmD}.

\textsuperscript{1522} Buck (1954) \textit{CT V}, p. 207,k.

\textsuperscript{1523} Molen (2000), p. 795.

\textsuperscript{1524} Buck (1935) \textit{CT I}, p. 340,c, 352-353,c, 354-355,a, 376-377,a); Buck (1954) \textit{CT V}, p. 124,c). For additional attestations outside the database, see Plas & Borghouts (1998), p. 320.

\textsuperscript{1525} Note that three of these attestations are from M6C, which were all reconstructed. The form is therefore a guess, and could be nearly any other form as well.
In this lemma, there are some variations that suggest a regional preference. In form 1 and 2, the S23 (𓋬) is used as a classifier, where all other forms use it as a logogram.\textsuperscript{1526} The use of S23 as a classifier seems to be a unique feature of Meir, even though nearly every other form is attested in Meir as well.

Form 9 is one of the more common forms, and represents an interesting feature, as the attestations from the Theban area are both from T3C. As the attestations from Aswan (A1C) and most of the attestations for Gebelein use form 9 as well,\textsuperscript{1527} it is possible to suggest that for the southern Egyptian First Intermediate Period school of artists there was a preferred form for this lemma.\textsuperscript{1528}

Although the exact form can vary, there seems to be a preference in Deir el-Bersha to include the Y2 (𓏝) classifier for every attestation. Based on the database alone, it seems that Asyut has a clear preference for form 6, as no other form is attested. However, form 9 is attested outside the database in Asyut as well.\textsuperscript{1529}

\textbf{Appendix 6.343. \textit{dn} (to kill, to cut off)}\textsuperscript{1530}

In the database, this lemma is only attested fourteen times, in the same phrase of spell 335.\textsuperscript{1531} In table 6.305 the attestations per regions are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1.png" alt="Image" /></td>
<td>1</td>

<td>Meir</td>
<td>1</td>
</tr>
<tr>
<td><img src="image4.png" alt="Image" /></td>
<td>4</td>
<td>Saqqara</td>
<td>2</td>
</tr>
<tr>
<td><img src="image5.png" alt="Image" /></td>
<td>5</td>
<td>Deir el-Bersha</td>
<td>1\textsuperscript{1532}</td>
</tr>
</tbody>
</table>

Table 6.305 Graphical forms of the stem of \textit{dn}.

Based on this table, one could suggest that Meir exclusively uses A24 (𓀜) or D36 (𓀝) classifiers, and habitually a T30 (𓌪) classifier, whereas the majority of attestations only use a T30 classifier. Additionally, in the attestations outside the database, the only classifier used is T30, thus the use of A24 or D36 classifier for this lemma seems to only occur in Meir.

\textsuperscript{1526} Note that for me a logogram can occur with or without interpretants.
\textsuperscript{1527} Buck (1954) \textit{CT V}, p. 124,c (G1T) is the only exception, as it uses form 3.
\textsuperscript{1529} Buck (1947) \textit{CT III}, p. 29,b.
\textsuperscript{1530} Molen (2000), p. 797-798.
\textsuperscript{1531} Buck (1951) \textit{CT IV}, p. 301,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 320.
\textsuperscript{1532} Note that this form could be read as the lemma \textit{ḏn} (to thresh) as well, which is not attested in the \textit{Coffin Texts}.
Appendix 6.344. dns (to be heavy, to be weighty)\textsuperscript{1533}

In the database, the lemma \textit{dns} in only attested once in spell 75.\textsuperscript{1534} Based on van der Molen, it seems to be a unique attestation, which does not occur anywhere else. The lack of a classifier (see figure 6.39), and the fact that this lemma is unique in a phrase where the other witnesses use the lemma \textit{iri}, as a \textit{sdm.n=f}, it is possible that the D46 (…) is simply a corruption, or the lemma \textit{rdi} or \textit{wdi}.

Appendix 6.345. dr (to expel, to subdue, to drive out)\textsuperscript{1535}

In the database, this lemma is relatively common, with a total of 182 attestations.\textsuperscript{1536} As table 6.306 shows, the variation in the graphical form is due to the classifier or lack thereof.

</table>

Table 6.306 Graphical forms of the stem of \textit{dr}.

In this table, one can see that form 2 is most commonly used. Form 6 is the most common form of the graphical forms which use a classifier. Although there are no unique forms for any specific region, there are still some regional preferences. Even though form 2 is used in every attested region, it is the only attested form for Asyut, Gebelein and Aswan. Thus, it could be argued that these regions prefer not to add a classifier with this lemma. However, this is not true for Asyut, as it is attested with a A24 (⃒) classifier outside the database as well.\textsuperscript{1539}

\textsuperscript{1533} Molen (2000), p. 799.

\textsuperscript{1534} Buck (1935) \textit{CT I}, p. 345,b (M28C).

\textsuperscript{1535} Molen (2000), p. 800-801.

\textsuperscript{1536} Buck (1935) \textit{CT I}, p. 17,a, 90-91,a 104-105,a, 117,c, 119,c, 120,e, 121,e, 136-137,d-a, 137,c, 144,c, 392,b, 400,c, 401,b; Buck (1951) \textit{CT IV}, p. 208-209,c, 256-257,c, 319,b; Buck (1954) \textit{CT V}, p. 157,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 320-321.

\textsuperscript{1537} Assumed to be a corruption in which the D46 (…) was lost. See Buck (1935) \textit{CT I}, p. 91,a (B12C,b).

\textsuperscript{1538} Buck (1935) \textit{CT I}, p. 17,a (B1P). Note that due to the script of this witness, it is nearly impossible to differentiate between the D37 (…) and the D40 (…). See Möller (1909), p. 9, no. 103, 105.

\textsuperscript{1539} Buck (1938) \textit{CT II}, p. 137,a (S1C).
The sole attestation from Beni Hasan could be a representation of a regional preference for using the D40 (𓊕) classifier. However, outside the database form 2 is used in Beni Hasan as well.\textsuperscript{1540} Saqqara and el-Lisht are the only attestations which use the D36 (𓊕) as classifier. However, this might represent a feature of the script used in these witnesses, rather than an intentional choice.\textsuperscript{1541} This would make form 4-5 and form 7 the same as form 6, and thus should not be considered a feature on which a regional preference can be based, beside the use of an arm classifier.

Appendix 6.346. \textit{drp} (to feed, to offer, to present)\textsuperscript{1542}

In the database, this lemma is only attested eight times, from the same phrase from spell 22.\textsuperscript{1543} In table 6.307, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Graphical form" /></td>
<td>1</td>
<td>Theban area</td>
<td>1</td>
<td><img src="image2" alt="Graphical form" /></td>
<td>3</td>
<td>Theban area</td>
<td>1</td>
</tr>
<tr>
<td><img src="image3" alt="Graphical form" /></td>
<td>2</td>
<td>Beni Hasan</td>
<td>1</td>
<td><img src="image4" alt="Graphical form" /></td>
<td>4</td>
<td>Deir el-Bersha</td>
<td>4</td>
</tr>
<tr>
<td><img src="image5" alt="Graphical form" /></td>
<td></td>
<td>Teban area</td>
<td>1</td>
<td><img src="image6" alt="Graphical form" /></td>
<td></td>
<td>Theban area</td>
<td>1</td>
</tr>
</tbody>
</table>

Table 6.307 Graphical forms of the stem of \textit{drp}.

As is often the case with the signs for the arms, it cannot be said with certainty if the use of D37 (𓊗) or D38 (𓊘) is a modern correction of signs which do not have a clear differentiation in the cursive script used in the witnesses.\textsuperscript{1544} Thus, it would be assumptive to suggest a regional preference based on this. The use of the W23 (𓏋) classifier is only attested in the Theban area in the database, but outside the database the classifier is attested in Deir el-Bersha as well.\textsuperscript{1545} Thus, it is unlikely that there is any regional preference for this lemma.

---

\textsuperscript{1540} Buck (1938) \textit{CT II}, p. 116,r (BH3C).

\textsuperscript{1541} As in near hieratic cursive script the signs of the arms can be difficult to differentiate. See Möller (1909), p. 9, no. 99, 100, 103, 105, 106.

\textsuperscript{1542} Molen (2000), p. 802.

\textsuperscript{1543} Buck (1935) \textit{CT I}, p. 63-64,d-a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 321.

\textsuperscript{1544} See Möller (1909), p. 9, no. 99, 100, 103, 105, 106.

\textsuperscript{1545} Buck (1947) \textit{CT III}, p. 284,b (B2L,a). Note that the classifiers of B2L,b and B2L,c both vary from each other as well, which might imply that the variation was intentional, as this support has three witnesses of spell 228.
Appendix 6.347. *dhn* (to appoint, to fix, to promote)\textsuperscript{1546}

This lemma is only attested once in the database,\textsuperscript{1547} which is additionally the only attestation of this lemma in the *Coffin Texts*,\textsuperscript{1548} where it occurs in a unique phrase which only occurs in T1C,b. The graphical form of the stem is visible in figure 6.40. As it is only attested once, it is of limited use for the discussion of regional variation.

Appendix 6.348. *dšr* (to be red, to become red)

This lemma has 54 attestations in the database, but only two of these are actual verb forms.\textsuperscript{1549} Both these verb forms are only attested in Meir (M1C, M54C), and there is no variation in the spelling or graphical form (see figure 6.41). In van der Molen the lemma *dšr* is only attested as an adjective or noun,\textsuperscript{1550} which is indeed the habitual use of this lemma, as this attestation is a participle in the *nfr*-\textit{Hr} construction. Based on the two attestations from the same region, it cannot be said if there is any regional preference for this lemma, when used as a verbal form.

Appendix 6.349. *dši* (to extend, to stretch out, to turn to, to oppose)\textsuperscript{1551}

In the database, the lemma *dši* is attested 27 times.\textsuperscript{1552} Note that due to form 3 and 8 (see table 6.308), one could easily mistake this lemma for *dši* (to cross; see appendix 6.350), in which case only context can be used to differentiate between the two lemmas.

\textsuperscript{1546} Molen (2000), p. 802.
\textsuperscript{1547} Buck (1951) *CT IV*, p. 318,d-e (T1C,b).
\textsuperscript{1549} Buck (1951) *CT IV*, p. 270,a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 321. Note that most of these attestations are adjectives or substantives.
\textsuperscript{1550} Molen (2000), p. 805.
\textsuperscript{1552} Buck (1935) *CT I*, p. 74,c, 109,b; Buck (1938) *CT II*, p. 272-275,c-a. For additional attestations outside the database, see Plas & Borghouts (1998), p. 323.
Although Deir el-Bersha is overrepresented for this lemma, with 21 of the 27 attestations, there is a unique feature in the spelling, namely the use of the P1 (𓊛) classifier, which only occurs in Deir el-Bersha. However, outside the database the P1 classifier is attested in Asyut, Meir, Theban area and Gebelein as well. The D40 (𓁄) and D54 (𓁅) classifier are only attested in Deir el-Bersha, which is true outside the database as well, although rare. Form 10 only occurs in el-Lisht, as it uses only the head of the G1 (𓄚) as interpretant. However, this is a feature of the witness L2Li, rather than a regional preference. Finally, Asyut seems to prefer a compact format (form 2 and 4) for writing this lemma. However, outside the database the long format is attested as well.

Appendix 6.350. *d3il* (to cross, to ferry)\textsuperscript{1555}

This lemma is relatively common in the database, with a total of 64 attestations. However, only 59 attestations represent verbal forms,\textsuperscript{1556} as the substantive *d3 i* (ferry boat) was encoded under this lemma.\textsuperscript{1557} Note that it might be difficult to differentiate this lemma from *d3 i* (to extend; see appendix 6.349), as the differentiation can only be made based on the classifier or context. Moreover, due to the graphical form of *w d3* (to be hale, to be uninjured; see appendix 6.77) and *w d3* (to proceed, to go in procession; see appendix 6.78), it can be difficult to differentiate this lemma when a *w* is added in the prospective or in a participle,\textsuperscript{1558} in which only context and the other witnesses with the same phrase can give clarity. Nonetheless, table 6.309 shows the attestations per region for every graphical form of the stem:

\textsuperscript{1553} Buck (1951) *CT IV*, p. 139,a (S1P); Buck (1954) *CT V*, p. 172,g (M2NY,a, M5C,a); Buck (1956) *CT VI*, p. 276,m (G1T), 277,m (TT319).
\textsuperscript{1554} Buck (1947) *CT III*, p. 391,e (S1C, S2C,b).
\textsuperscript{1555} Molen (2000), p. 814-815.
\textsuperscript{1556} Buck (1935) *CT I*, p. 46,e, 53,d; Buck (1938) *CT II*, p. 76,a, 82-83,d-a, 83,1*, 83,b, 273-275,c-a, 402,c, 403,d; Buck (1951) *CT IV*, p. 218-219,a, 220-221,b 226-227,a, 246-247,a, 326,c-d; Buck (1954) *CT V*, p. 159,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 323 and Gracia Zamacona (2008), p. 1479-1509.
\textsuperscript{1557} As the substantive can be considered a participle (that which ferries). However, it is not my intention to state that the substantive developed from the verb, or vice-versa.
\textsuperscript{1558} As these attestations can write *w d3* as U29*G43 (𓊛).

Table 6.309 Graphical forms of the stem of *dsî* (to cross).

As table 6.309 shows, form 3 and form 9 are the most commonly used, as these represent this lemma most clearly, due to the P1 (𓊛) classifier. However, even though these are two graphical forms of the same spelling, it is clear that the distinction between the two matters, as the attestations from Aswan and Gebelein only use the compact format of form 3. As the witnesses from Aswan (A1C) and Gebelein (G1T, G2T) are considered to both originate from the same First Intermediate Period school of artists of southern Egypt,\(^{1559}\) it could suggest that this school prefers to write a compact format for this lemma.

Although the majority of the regions have at least one attestation with the P1 classifier, this is not the case for Saqqara and el-Lisht. Although the absence of a classifier, or the use of a different classifier is not unique, based on the attestations in the database, one could suggest that the northern attestations of this lemma preferred not to write the P1 classifier, but did not use a classifier, or used the D54 (𓊿) or Y2 (𓏝) classifier instead. However, this is not the case, as the use of the P1 classifier is attested in these regions as well.\(^{1560}\)

\(^{1560}\) See for example Buck (1938) *CT II*, p. 163.g (Sq3C, Sq4C).
Appendix 6.351. ḏwî (to be bad, to be evil)

This lemma is 77 times attested in the database, although only six attestations represent a verb form.\(^{1561}\)

As one can see in table 6.310, there are only two graphical forms, due to the addition of the G37 (♀-) classifier in form 2.

<table>

Table 6.310 Graphical forms of the stem of ḏwî.

Even though this table suggest that the use of the G37 classifier only occurs in Deir el-Bersha, this is not true, as it occurs in the Theban area as well.\(^{1562}\) Thus, there does not seem to be a regional preference for this lemma.

Appendix 6.352. ḏr (to search out, to seek)\(^{1563}\)

In the database, this lemma is attested eighteen times, in the same phrase from spell 75.\(^{1564}\) Table 6.311 shows the attestations per region, set out for every graphical form of the stem:

<table>

</tbody>
</table>

\(^{1562}\) Buck (1935) *CT I*, p. 46,d (T2C).

In Meir, there does seem to be a preference to include the D54 (𓀄) classifier, or no classifiers at all. Although attested once, Meir seems to prefer the exclusion of the T14 (𓀁) classifier. Note that a distinction was made between form 3 and form 6, based on the position of the D21 (𓀃) in comparison to the I10 (𓀆). However, this was based more on de Buck than the originals, as in the near hieratic cursive script of A1C and G1T, the tail of the I10 stays more or less horizontal, which is not reflected in the standardised hieroglyphs. However, this would not be the case for witnesses that are more on the hieroglyphic side of cursive script. If form 3 and 6 are considered the same for A1C and G1T, it is interesting to see that this groups them together with the attestation of the Theban area (T3C), as these should be considered a group. Thus, they seem to prefer the same graphical form for this lemma, even though the form is not unique to this group of coffins.

Appendix 6.353. ḏb3 (to adorn, to provide, to clothe)

In the database, the lemma ḏb3 is attested eleven times, in the same phrase from spell 7. In table 6.312, the attestations per region are set out for every graphical form of the stem:

---

A unique spelling, where it seems that the T14 (𓀁) was replaced by a V28 (𓂂). However, in comparison to the other attestations of the V28, this one is remarkably larger, so might represent another sign. See Buck (1935) CT I, p. 322,b (B1P), 323,1*. Buck (1935) CT I, p. 322,b (B6C), assumed to be a corruption, as the lemma ḏm combined with the A24 (𓀃) classifier does not make any sense here. Based on pictures of the original. Images of G1T were provided to me by the Museo Egizio, Turin. For A1C, see Willems (1996), pl. 33. Fischer (1976), p. 41 (fig. 4), type 2-3a, although type 2 is technically not cursive script. Willems (1988), p. 110. Note that the suggestion of grouping A1C, G1T and T3C together originates from Derchain (1952), p. 361. Molen (2000), p. 827. Buck (1935) CT I, p. 20,b. For additional attestations outside the database, see Plas & Borghouts (1998), p. 325.
In this lemma, the form is relatively stable, and there does not seem to be any regional preference in the spelling or graphical form. Although the single attestation from Asyut suggest that there might be a preference for not excluding the D46 (𓎬) interpretant, outside the database the D46 interpretant is used in Asyut as well.\footnote{1572}

**Appendix 6.354. \textit{dnd} (to rage, to be angry)\textsuperscript{1573}**

This lemma is attested 24 times in the database.\footnote{1574} As table 6.313 shows, the majority of the variation is based on the classifier. However, there is an issue with the use of the F2 (𓊧) and F5 (𓊳) classifiers, as these are distinct in hieroglyphic script, but less so in near hieratic cursive script.\footnote{1575} Thus, it is possible that the separation between the two classifiers was a modern distinction.

---

Table 6.313 Graphical forms of the stem of ḏnd.

One remarkable feature is the use of the entire bull as classifier in Beni Hasan, as any other region only writes the head or the head and foreleg of the animal. However, as there are no other attestations from Beni Hasan in the Coffin Texts, it is difficult to say if this represents a regional preference, or if it is a peculiarity of the support (BH2C). The use of the A24 (𓀜) and D40 (𓂡) classifier seems to occur only in to Deir el-Bersha and Asyut, while the use of the Y2 (𓏝) classifier seems to only occur in Deir el-Bersha and Meir, which is true outside the database as well.

Appendix 6.355. ḏndn (to chastise)\textsuperscript{1576}

In the database, the lemma ḏndn is attested eight times.\textsuperscript{1577} However, of these attestations only one did not originate from Deir el-Bersha, which makes the lemma less useful for discussions of regional conditioned variation. In table 6.314, the attestations per region are set out for every graphical form of the stem:

\textsuperscript{1576} Molen (2000), p. 837.  
\textsuperscript{1577} Buck (1935) CT I, p. 49,b, 50-51,c-a; Buck (1951) CT IV, p. 90,l. For additional attestations outside the database, see Plas & Borghouts (1998), p. 326.
For this lemma, there is a distinct variation between Deir el-Bersha and the Theban area, due to the use of D46 (𓄏) instead of I10 (𓊏) in MC105. However, additional attestations from the Theban area seem to be lacking for this lemma. Thus, this might be unique to this witness, rather than a regional preference.

Based the attestations in the database, it would be possible to suggest that the use of A24 (𓀜) classifier only occurs in the earlier period of coffin decoration in Deir el-Bersha. However, outside the database, B10C, which belongs to the later period of coffin decoration, uses the A24 classifier as well. Therefore, it cannot be considered a preference depending on the period of coffin decoration.

Appendix 6.356. *dr* (to hinder, to put an end to, to remove)

This lemma is rare in the database, with a total of six attestations. In table 6.315, the attestations per region are set out for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Graphical form 1" /></td>
<td>1</td>
<td>Beni Hasan (BH1Br)</td>
<td>1</td>
</tr>
<tr>
<td><img src="image2" alt="Graphical form 2" /></td>
<td>2</td>
<td>Meir (T2Be)</td>
<td>1</td>
</tr>
<tr>
<td><img src="image3" alt="Graphical form 3" /></td>
<td>3</td>
<td>Theban area</td>
<td>2</td>
</tr>
</tbody>
</table>

Table 6.315 Graphical forms of the stem of *dr*.

As table 6.315 shows, the Theban area uses all the forms of this lemma. In comparison to table 6.306 in *dr* (to expel; see appendix 6.345), the witness from Beni Hasan (BH1Br) did not use a classifier. However, as was shown with lemma *dr*, this is most likely a feature of the witness, rather than a regional preference. Meir uses a classifier, but as this represents one witness only, it is unlikely that the use of classifiers with this lemma is a regional preference. Although form 3 suggest a region specific pattern, both attestations come from the same witness (T2Be), and should be considered a feature of this witness, as form 2 occurs in this witness as well. Thus, it is unlikely that this lemma will provide a regional preference.

---

1578 Form 3 is only attested in B2Bo, B3Bo and B4Bo.
1579 Buck (1935) *CT I*, p. 188.d (B10C,b).
1580 Molen (2000), p. 844-845. Note that van der Molen and van der Plas & Borghouts allocate this lemma to *dr* (to expel), see appendix 6.345.
1581 Buck (1951) *CT IV*, p. 209,c, 256-257,c, 319,b.
1582 Moreover, compared with lemma *dr*, the absence of a classifier would be just as likely.
Appendix 6.357. *dd* (to say, to speak) and *dd-mdw* (to recite)\(^\text{1583}\)

In the database, these lemmas were treated as separate entries, but as *dd-mdw* is technically a compound of *dd* and *mdw*, which does not show clear signs that it is a distinct unit in the Coffin Texts, they will be treated together. The lemma *dd* is attested 404 times\(^\text{1584}\) in the database as a verb form,\(^\text{1585}\) while *dd-mdw* was attested 37 times.\(^\text{1586}\) In table 6.316, the attestations per region are set out for every graphical form:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>

Table 6.316 Graphical forms of the stem of *dd* and *dd-mdw*.

\(^{1584}\) Buck (1935) *CT I*, p. 24,b, 28,c, 32,b, 33,b, 34,b, 34,c, 36,c, 52,d-e, 73,b, 83,g, 88-89,a, 92-93,c, 96,a, 110,b,114,b, 114,c, 119,c, 121,c, 121,g, 139-140,c-a, 322,b 330-331,c, 332-333,b, 363,g, 382-384,d-a, 385,b, 387,a; Buck (1938) *CT II*, p. 225,b, 276-279,d-a, 278-279,d, 283,a, 399,b; Buck (1947) *CT III*, p. 22,d, 181,b, 181,d, 232-233,b; Buck (1951) *CT IV*, p. 92,k, 93,g, 185,a, 187,d-f, 193,a, 193,d-f, 194-195,a, 247,a, 266-267,c, 269,e, 269,h, 271,e, 271,g, 272,b, 281,d, 286-287,c-d, 302,b, 325,e, 325,f-g, 326,a-b, 326,g, 326,g, 326,j; Buck (1954) *CT V*, p. 157,b, 159,f. For additional attestations outside the database, see Plas & Borghouts (1998), p. 329-330.

\(^{1585}\) There are two attestations in M-Ann Buck (1935) *CT I*, p. 349,d, 351,b and one in MSC Buck (1935) *CT I*, p. 331,c, where the lemma was used as a substantive.

\(^{1586}\) Buck (1935) *CT I*, p. 1,a, 11,f, 19,b, 40,d, 83,b, 83,d, 83,j, 89,a 399,d; Buck (1938) *CT II*, p. 255,b; Buck (1947) *CT III*, p. 212,a; Buck (1951) *CT IV*, p. 184-185,a, 196,b, 198,b, 199,d, 204,b, 213,c-d, 214,b, 218,b, 222,c, 228,c, 238,d, 246,b, 252,a, 276,b, 286,a, 304,a, 315,a, 317,c, 319,d, 320,e, 325,b; Buck (1954) *CT V*, p. 157,b, 159,f. For additional attestations outside the database, see Plas & Borghouts (1998), p. 330.

\(^{1587}\) Buck (1935) *CT I*, p. 88,a (S5C). Note that the Z1 (𓏤) represents a filler stroke here.

\(^{1588}\) Buck (1935) *CT I*, p. 333,b, the I9 (𓆑) is assumed to be a corruption of a I10 (𓆓). However, as de Buck did not see the original himself, it cannot be said if the corruption was modern or ancient.

\(^{1589}\) Buck (1935) *CT I*, p. 88,a (S12C). Note that the Z2 (𓏥) represents a group of filler strokes here.

\(^{1590}\) Retrograde writing of form 7.

\(^{1591}\) P.Gard.2 and Pap.Berl.
For these two lemmas, there are no real regional preferences, as the majority of the attestations are either form 4 or form 7. However, the use of form 1 only seems to occur in Beni Hasan and Deir el-Bersha, although in general the form without the D46 (𓊞) is rare.\textsuperscript{1592} For \textit{qdd-mdw}, form 8 does not represent a meaningful variant, as it is simply a retrograde writing of form 7, and the witness (MC105) uses both forms.

\textbf{Appendix 6.358. \textit{ddh} (to shut up, to imprison)}\textsuperscript{1593}

In the database this lemma is rare, with a total of six attestations.\textsuperscript{1594} Based on van der Plas & Borghouts,\textsuperscript{1595} there are no additional attestations of this lemma in the \textit{Coffin Texts}. Table 6.317 shows the attestations per region for every graphical form of the stem:

<table>
<thead>
<tr>
<th>Graphical form stem</th>
<th>no.</th>
<th>Region</th>
<th>Attestations</th>
</tr>
</thead>
<tbody>
<tr>
<td>\includegraphics[width=0.5\textwidth]{form1}</td>
<td>1</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td>\includegraphics[width=0.5\textwidth]{form2}</td>
<td>2</td>
<td>Deir el-Bersha</td>
<td>1</td>
</tr>
<tr>
<td>\includegraphics[width=0.5\textwidth]{form3}</td>
<td>3</td>
<td>Deir el-Bersha</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Theban area</td>
<td>2</td>
</tr>
</tbody>
</table>

Table 6.317 Graphical forms of the stem of \textit{ddh}.

As one can see in table 6.317, there are no clear regional preferences for this lemma, as the variation occurs only within Deir el-Bersha. Form one (B1P) is most likely a corruption, in which the D46 (𓊞) was lost, while form 2 represents change in position for the V28-A24 (𓎛𓀜) group in comparison to form 3. However, it is possible that the Theban area prefers the long format of form 3 for this lemma.

\textsuperscript{1592} As it has three attestations, versus 396 attestations of form 4.
\textsuperscript{1593} Molen (2000), p. 868.
\textsuperscript{1594} Buck (1935) \textit{CT I}, p. 70,b-c.
\textsuperscript{1595} Plas & Borghouts (1998), p. 331.
Appendix 7. Stemma graphs of the *Coffin Texts*

The following appendix provides the stemma graphs from Jürgens and Rößler-Köhler which were used in the discussion of the spells in chapter 3 and 4. Note that only the stemma graphs have been included in this appendix, and that this appendix only serves as a collected reference of these stemma graphs, not to provide any discussion or explanation regarding these stemma graphs.

For any additional information, see the original publications.
