

Cancer treatment by light ion radiation therapy

CAN BELGIUM PLAY A ROLE?

Organizing members

Prof. Wilfried De Neve, Chief Radiotherapist U-Gent
Prof. Guy Storme, Chief Radiotherapist VUB
Prof. Walter Van den Bogaert, Chief Radiotherapist KUL
Prof. Dr. Yolande Lievens, radiation oncology KUL
Prof Paul Van Houtte, Chief Radiotherapist, Bordet / ULB
Prof. Pierre Scalliet, Chief Radiotherapist UCL
Prof. Jean-Marie Deneufbourg, Chief Radiotherapist ULg
Foundation against Cancer, Foundation of public interest

CONGRESS BOOK

CANCER TREATMENT BY LIGHT ION RADIATION THERAPY
CAN BELGIUM PLAY A ROLE?

Brussels

Friday March 18th, 2005

Table of contents

| | |
|---|-----------|
| Part I: General introduction | 3 |
| Prof. W. De Neve, U-Gent; Prof. G. Storme, VUB; Prof. W. Van den Bogaert, KUL; Prof. Y. Lievens, KUL; Prof. P. Van Houtte, Bordet / ULB; Prof. P. Scalliet, UCL; Prof. J-M. Deneufbourg, ULg; Dr. D. Vander Steichel, Foundation against Cancer; Mr. P. Jacquet de Haveskercke, Foundation against Cancer | |
| Part II : White paper | 8 |
| Prof. W. De Neve, Ghent University | |
| Part III : Technical Sheet | 35 |
| Foundation against Cancer | |
| Part IV : Abstracts | 39 |
| ▪ The evolution of radiation therapy in Belgium and the present limitations | 40 |
| <i>Prof. M. Mareel, Ghent University</i> | |
| ▪ Further evolution of radiation therapy using light ions | 42 |
| <i>Prof. A. Brahme, Karolinska Institute, Stockholm</i> | |
| ▪ Rationale for the GSI-Darmstadt pilot project and the building of a clinical proton and carbon ion treatment facility at the University Hospital of Heidelberg | 43 |
| <i>Prof. J. Debus, University of Heidelberg</i> | |
| ▪ Economical aspect of the clinical and carbon ion treatment facility at the University Hospital of Heidelberg | 44 |
| <i>Economist U. Goebel, University Hospital of Heidelberg</i> | |
| ▪ Clinical needs and concept of a Belgian hadron therapy project | 45 |
| <i>Prof. P. Scalliet, Catholic University of Louvain</i> | |
| ▪ Myths and facts of cancer treatment costs | 49 |
| <i>Prof. Y. Lievens, Katholieke Universiteit Leuven</i> | |
| ▪ A possible road map for a Belgian Hadron Therapy Center (BHTC) | 53 |
| <i>Prof. W. De Neve, Ghent University</i> | |
| Part V : Next steps | 57 |
| Foundation against Cancer | |
| Part VI : Addendum – An example of development of Light Ion Therapy at the Karolinska Hospital and Institute | 59 |
| H. Svensson, U. Ringborg, I. Näslund & A. Brahme | |
