

# AQUABIO

## Aquaponics for Biocontrol

# A NEW SOLUTION FOR PLANT DISEASE BIOCONTROL with microbial fungicides

### An atypical origin

**AQUAPONICS –**  
A subtle balance between fish, plants, and microorganisms

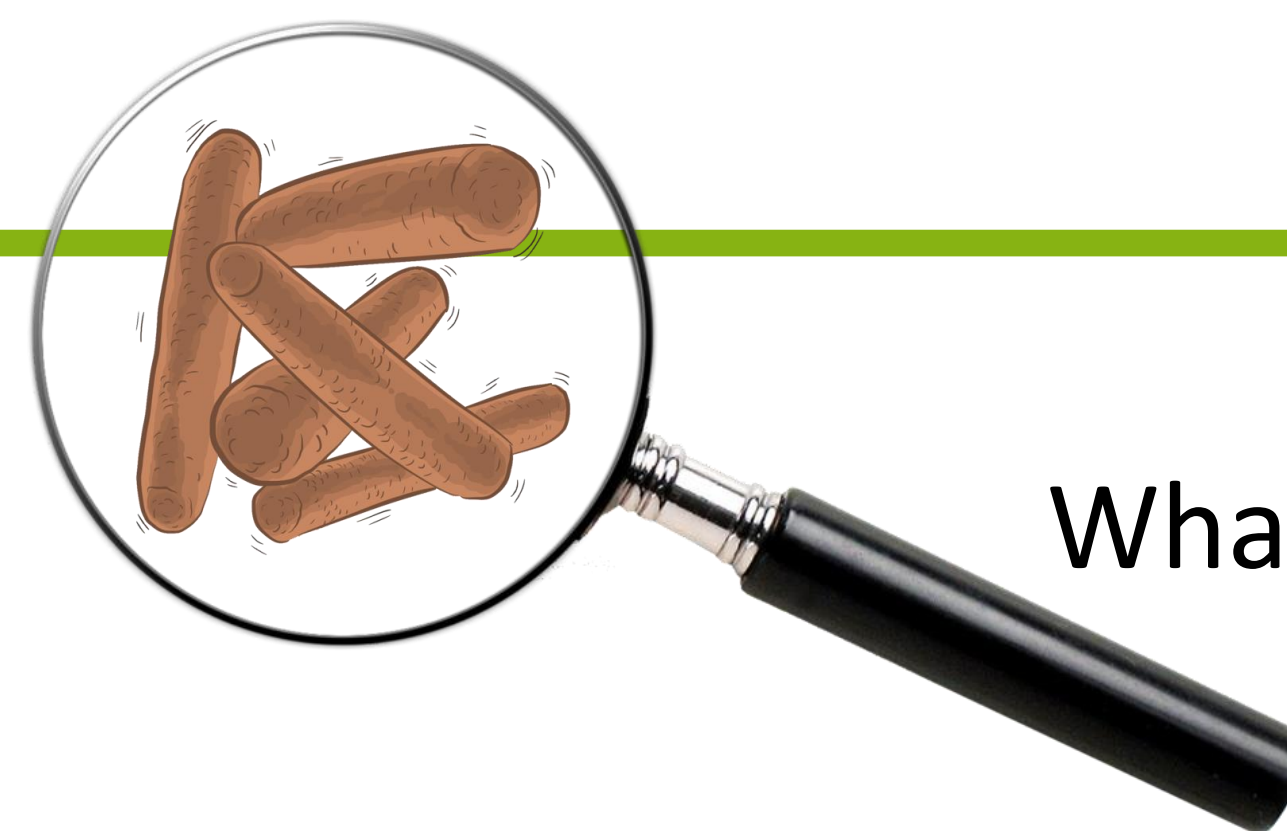

and naturally plant pathogens suppressive

### What microorganism?

New and original in the biocontrol area!

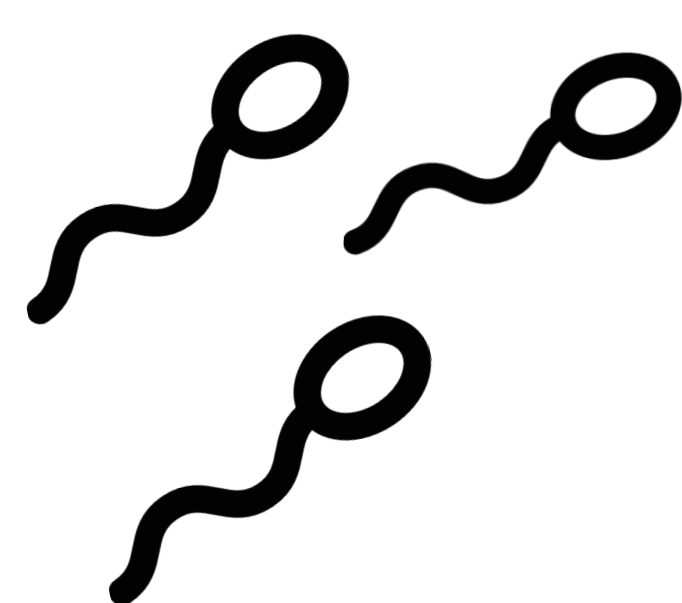

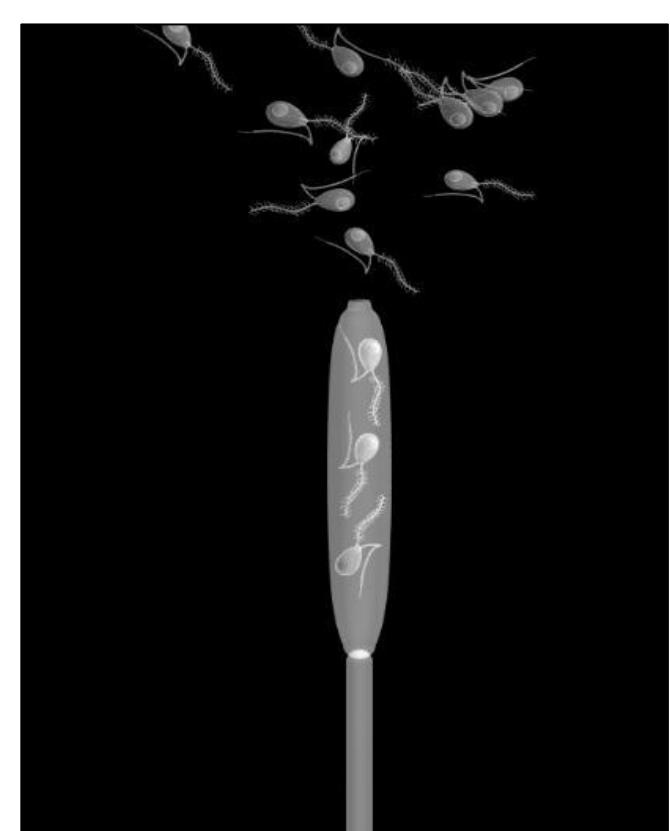

What a bacteria!

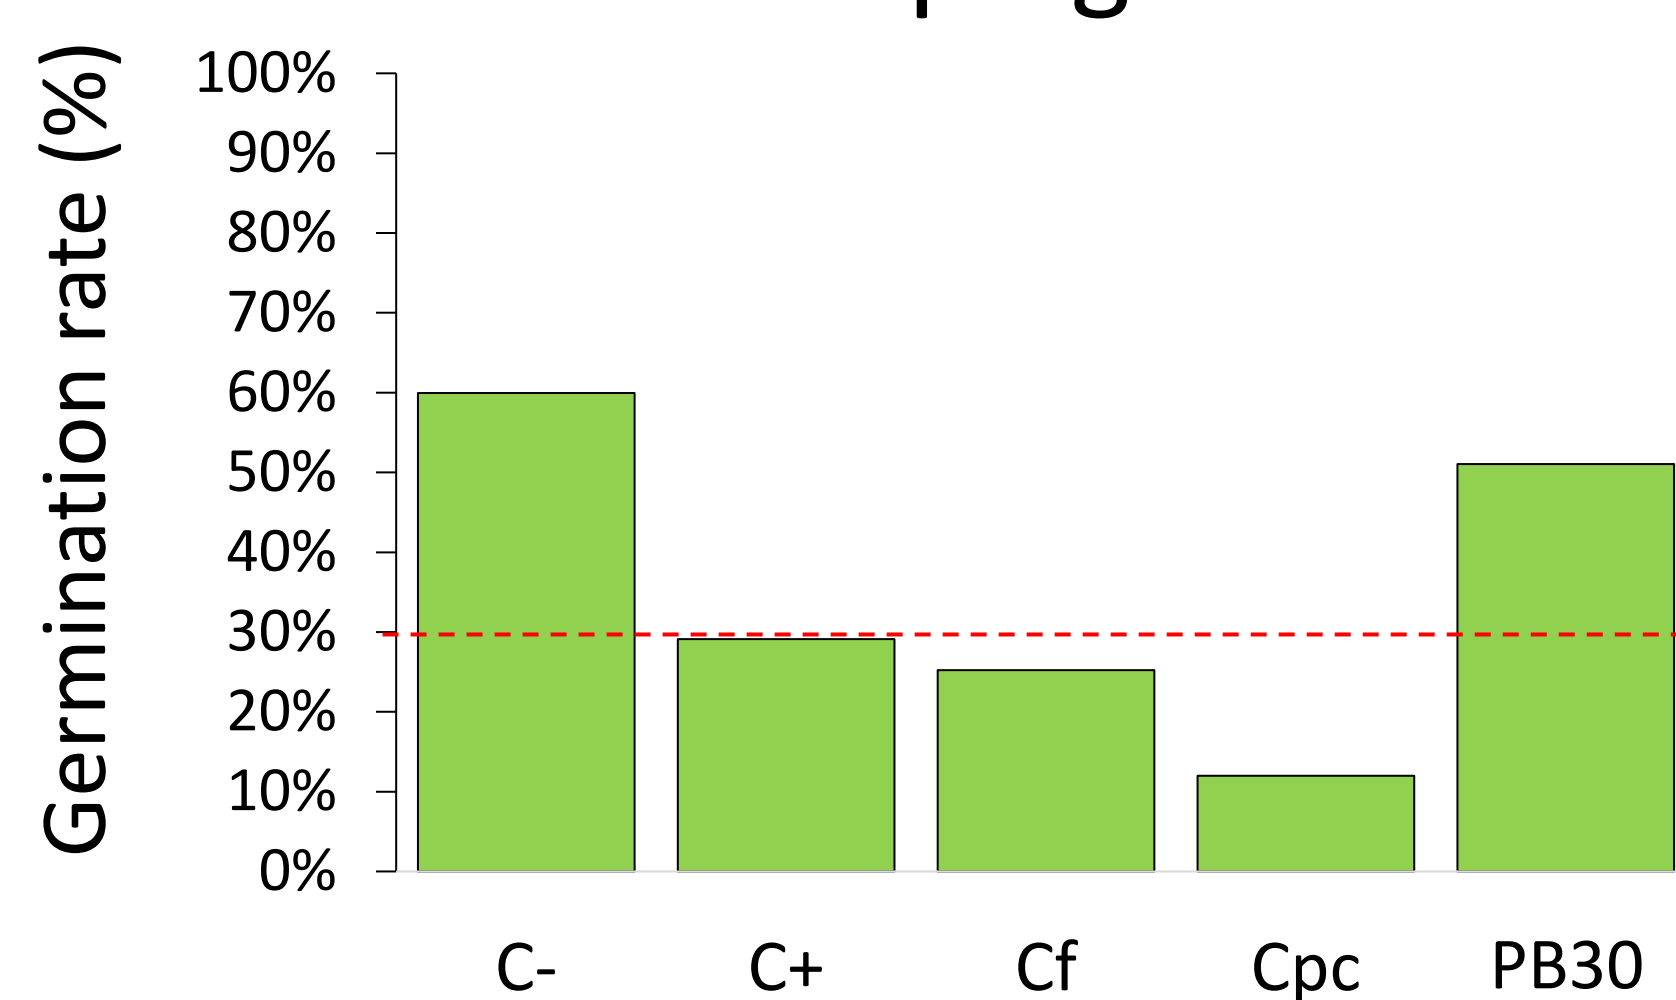

### For soil & soilless use

### For soil-borne & oomycetes pathogens

Damping-off

Root disease
