

## DIGITAL EQUINE CONDITIONING ROUNDS: CONDITIONING FOR PERFORMANCE AND HEALTH

---

Persons involved since long (decades) in equine exercise physiology, sports science and rehabilitation will provide in this webinar series their knowledge and experience on:

1. how to best condition horses for sports and health! Conditioning denotes the process of preparing an athlete for competition to compete at his best avoiding injuries and disease;
2. how to condition horses to reduce the impact of “civilization” diseases and aging in horses like in humans;
3. how to interpret terms and believes in exercise physiology obsolete since long!

**Speakers:** Warwick Bayly, Michael Davis, Kenneth McKeever, Carolien Munsters, Rachel Murray, Kathrin Nankervis, Brian Nielsen, Shannon Pratt-Philipps, and Dominique Votion

Webinars start at 18:00 hours Central Europe Time (CET; Brussels, Berlin, Paris) and end at about 22:00 hours.

The recordings of the webinars will be available for those registering during 6 months after they are designer and stored.

Accreditation by the German Academy for Continuous Veterinary Education (ATF) has been requested!

A Special Issue for articles on the subject has been set-up with the Journal Animals. If interested in submitting your research work, please check [https://www.mdpi.com/journal/animals/special\\_issues/VK19B6UA92](https://www.mdpi.com/journal/animals/special_issues/VK19B6UA92)
