can any of you even define woke?

: co-construction unilatérale du wokisme sur le groupe
Steam « Woke Content Detector »

François-Xavier Surinx, doctorant FNRS-FRESH (Université de Liège)

TRIGGER WARNING

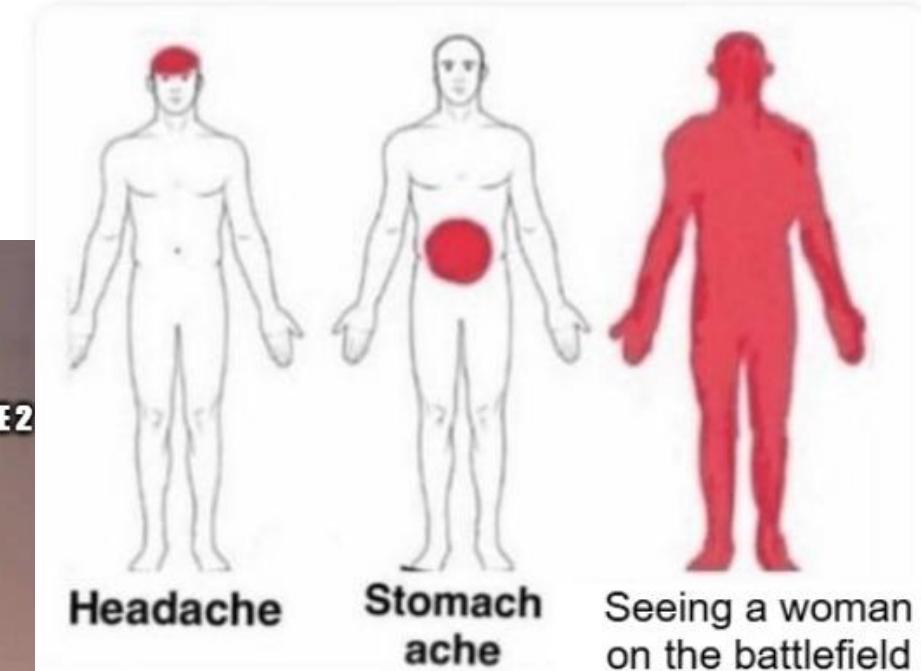

La présente recherche porte notamment sur des discours haineux à l'égard de nombreux individus et communautés.

Les diapositives suivantes contiennent des expressions et images injurieuses.

"Where does it hurt?"

TRIGGER WARNING 2

Positionnement personnel / disclaimer / déclaration de transparence

Je ne suis PAS un spécialiste des questions relatives au wokisme et je m'estimais, de base, peu concerné par le phénomène.

→ Perception « naïve » du terme

Intérêt personnel à l'origine de la recherche : observer comment une communauté en ligne de taille réduite s'empare et définit une étiquette problématique

Woke : étiquette problématique / en crise

- Complexe à définir
- Difficile à stabiliser dans une définition ou des usages
- Pose des problèmes éthiques / moraux

Woke Content Detector (WCD) : groupe problématique / en crise (et en criss)

- Bâti autour d'idéaux à l'éthique discutable
- Sur une plateforme peu adéquate pour l'expression de certaines idées
- Avec un mode de fonctionnement opaque

Objectifs initiaux

1. Observer les éléments entrant dans **les** définitions du wokisme, et sur la base de quel type de critère (uniquement formaliste, remis en contexte, totalement subjectif, etc.) + déterminer ce qu'est un jeu *woke* pour une communauté cherchant à définir le concept
2. Déterminer la provenance de l'autorité interprétative dans la communauté WCD et les modes de régulation de cette autorité (démocratie, autocratie, oligarchie, etc.)

Méthode d'échantillonnage

- Dans un premier temps, aléatoire : récolte et analyse de discussions sur WCD (notamment celles contenant au moins cinq commentaires), jusqu'à saturation des configurations
- Dans un second temps, boule de neige : au fil des recherches, découverte d'autres groupes sur Steam et d'autres plateformes

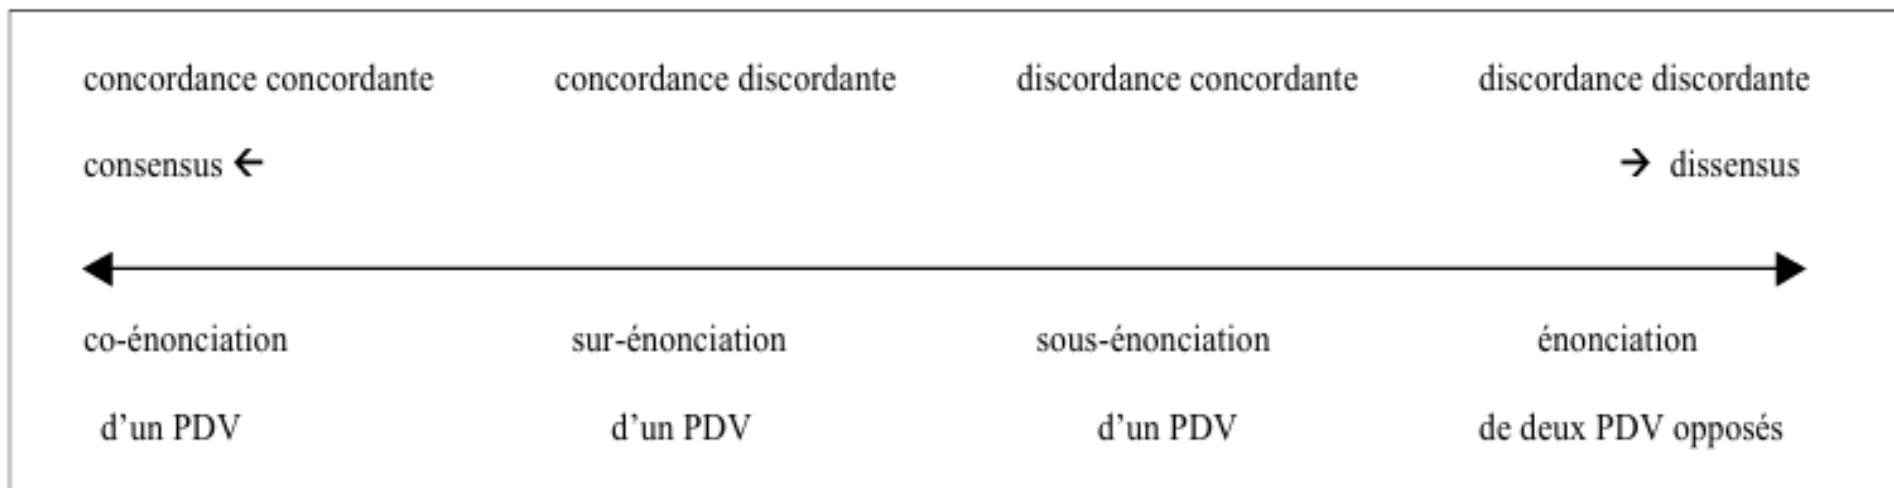

Objectifs finaux

1. Observer les éléments entrant dans **les** définitions du wokisme, et sur la base de quel type de critère (uniquement formaliste, remis en contexte, totalement subjectif, etc.) + déterminer ce qu'est un jeu *woke* pour une communauté
2. Déterminer la provenance de l'autorité interprétative dans la communauté WCD et les modes de régulation de cette autorité (démocratie, autocratie, oligarchie, etc.)
3. + Analyser l'influence des plateformes sur les discours produits par certaines communautés

Méthodologie

Ancrage en sémio-rhétorique et analyse du discours : analyser l'argumentation tout en replaçant les discours dans leur cadre médiatique et culturel

- Analyse des sèmes acceptés, rejetés et discutés pour la notion de (jeu) *woke*
- Analyse de la co-énonciation des intervenants

Caractéristiques formelles et fonctionnement de WCD

- Fondé le 16 mars 2024 aux USA par
› Furin (mystérieusement disparu depuis début mai 2025)
- Aujourd’hui grandement relayé par Wizard Lizard, aka Rusty D Shackleford
- Plus de 3500 membres et environ 10 000 abonnés
- Plus de 500 discussions ouvertes sur *Steam* (entre 0 et plus de 200 réponses)
- Lien mis en évidence vers un *Google Sheet* recensant les jeux évalués

Revendication / méthodologie du créateur

Chaque membre est libre de proposer des jeux qu'il considère *woke* ou non en ouvrant une discussion.

La liste de jeux est mise à jour uniquement par › Furin.

Mise en avant de la possibilité de débattre du classement des jeux et de la définition de wokisme dans les jeux + nécessité d'être cordial en permanence.

Join Our Effort to Identify Whether Games Contain Woke Content

If you disagree with our definition of *Woke* content, or you disagree with our association of that term with one of the above-listed themes, feel free to join and let us know.

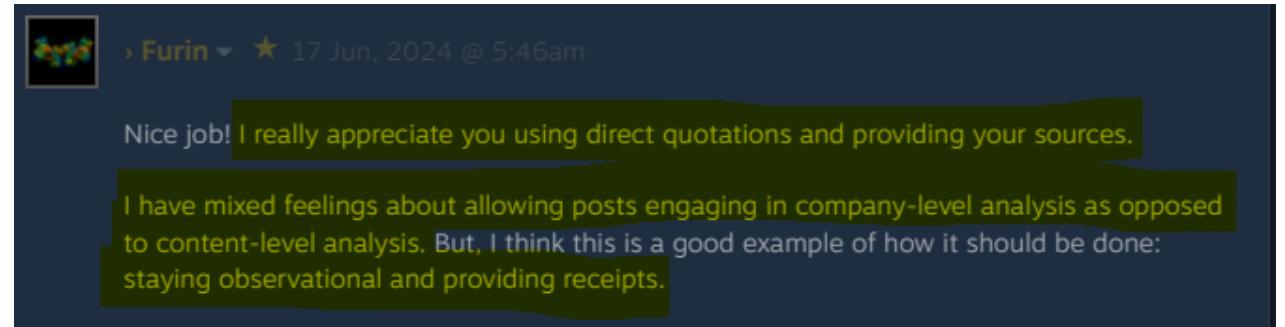

2. We're not trying to make a list of perfectly categorized games. The categories are there to help give you an impression of the degree of political messaging. The most important part of the review is the explanation, as well as any potential Game Discussion that may exist for that particular game. The entire point of having the Game Discussions is for people to debate and discuss the finer points, as well as share their personal experiences with the game.

If you disagree with any of our game reviews or would like more information on a specific game, feel free to join our group and make a discussion post or join in conversation that already exists for a particular game. Make sure to check the discussion posts to see if a conversation already exists for your game of interest.

Revendication / méthodologie du créateur

L'analyse des jeux doit :

- être objective.
→ Demande de justifications émanant des jeux ou des créateurs.
- Demande de justifications « scientifiques » pour prouver les éléments cités (notamment pour les éléments relatifs au DEI et ESG).
- ne porter que sur le contenu des jeux, et pas sur leur origine ou leurs créateurs.
- ne porter que sur leur « wokitude », et pas sur leur qualité.

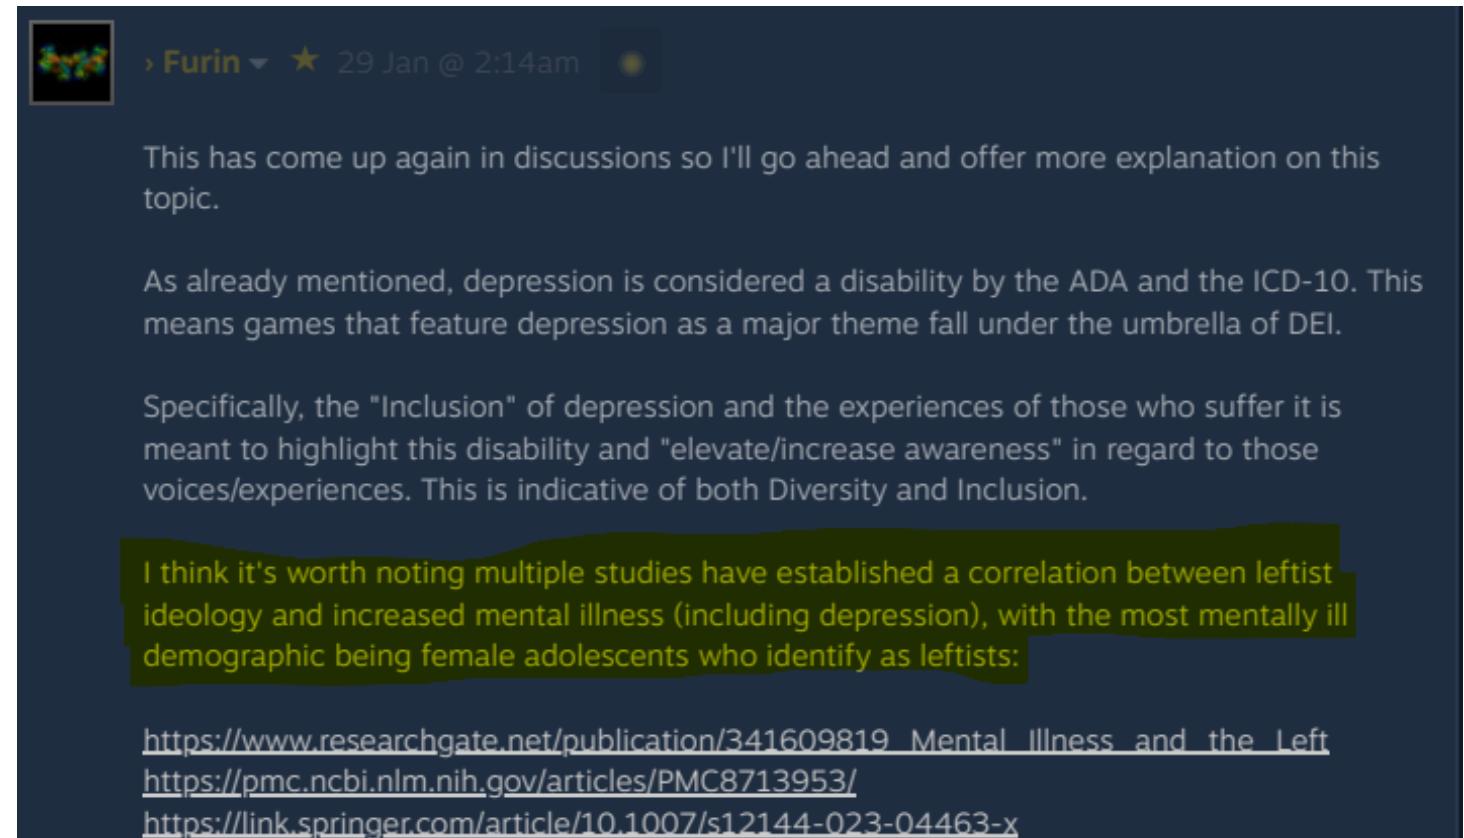

En réponse à un long message (3 pages pdf) ouvrant la discussion « The woke influence in companies. The exemple of Square Enix. »

Revendication / méthodologie du créateur

Exemple de citations multiples pour prouver le lien entre maladie mentale et accointance politique avec la gauche.

Note : La première source est issue d'un pseudo-journal scientifique dirigé par un suprématiste blanc.

Les deux sources suivantes sont légitimes, mais interprétées de manière douteuse.

This has come up again in discussions so I'll go ahead and offer more explanation on this topic.

As already mentioned, depression is considered a disability by the ADA and the ICD-10. This means games that feature depression as a major theme fall under the umbrella of DEI.

Specifically, the "Inclusion" of depression and the experiences of those who suffer it is meant to highlight this disability and "elevate/increase awareness" in regard to those voices/experiences. This is indicative of both Diversity and Inclusion.

I think it's worth noting multiple studies have established a correlation between leftist ideology and increased mental illness (including depression), with the most mentally ill demographic being female adolescents who identify as leftists:

https://www.researchgate.net/publication/341609819_Mental_Illness_and_the_Left
<https://PMC8713953/>
<https://link.springer.com/article/10.1007/s12144-023-04463-x>

Réponse dans la discussion « Help me learn how depression games are woke »

Revendication / méthodologie du créateur

Le but revendiqué de la liste est de permettre à tout un chacun de choisir en âme et conscience les jeux auxquels jouer et d'informer sur la présence ou l'absence de thématiques *woke*.

› Furin ▾ ★ 9 sept. 2024 à 1h24

Uncouth Ruffian a écrit :

My point is that informing users of a game with "gay" in the title having LGBT content is redundant, absurd and servers no purpose besides getting mad at video games you will never play.

We're not getting mad at anything. We're simply pointing out themes in games.

As for this specific game, while the name might certainly be a giveaway in this case, we still try to do our due diligence for all games.

We are trying to include as many games on this list as we can. It doesn't matter how "easy" it is to identify the themes or not.

Uncouth Ruffian a écrit :

I've scrolled through multiple reviews of this account and they've listed

Having gay characters

LGBT content

LGBT romance

As reasons for games being woke. So it seems that the logic of these reviews seems to equivocate the two.

Yes. For the sake of informing people about these themes, the mere presence of LGBTQ+ characters and interactions will in some form be mentioned in a game's review.

If it is a minor part of the game, then it will likely be classified as "subtle." If it is a major part of the game, then it will likely be classified as "overt."

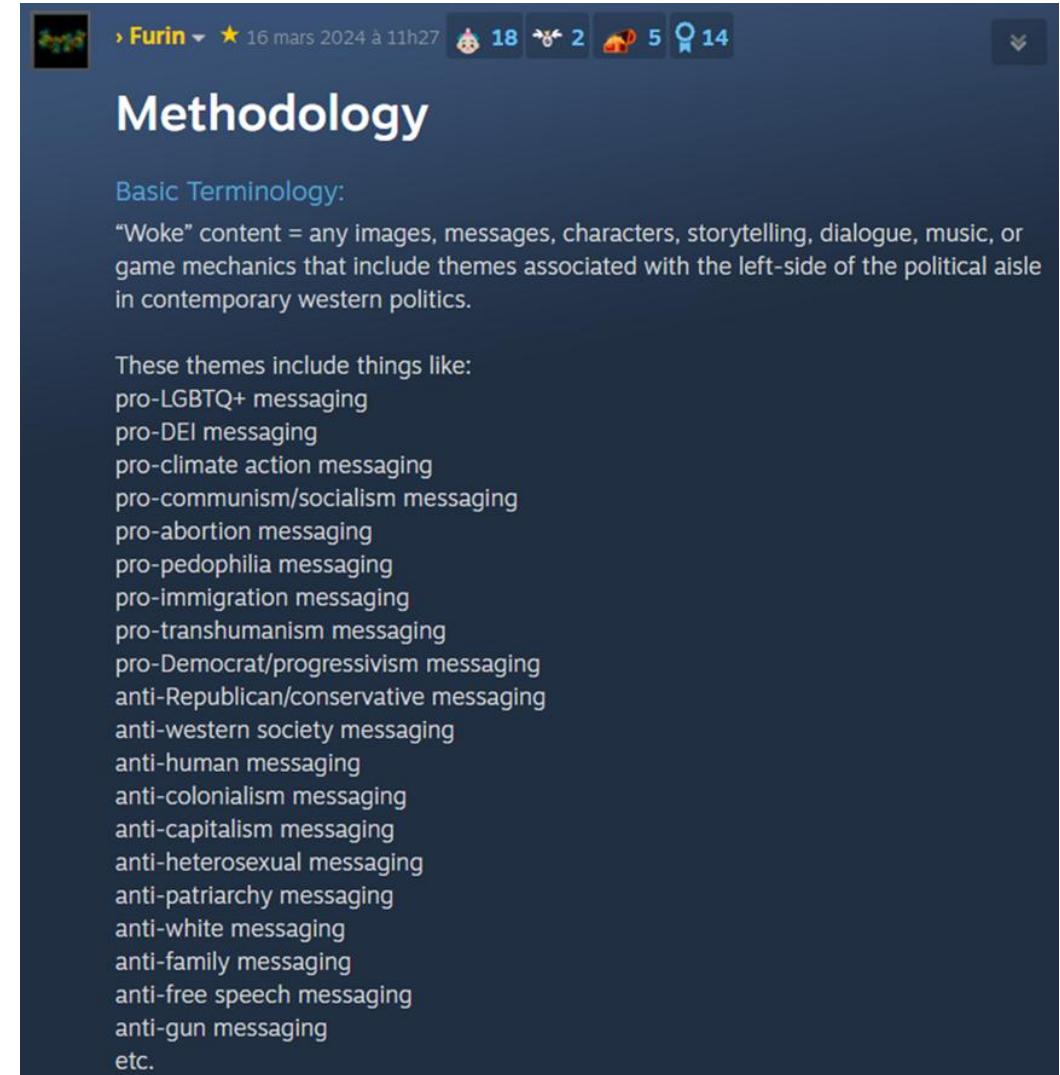

Message tiré de la discussion « *What kind of moron needs a group curator to tell them that a game called "a gay story" contains LGBTQ+ content* »

Qu'est-ce qu'un jeu *woke* ?

- › Furin met en évidence une liste de thématiques *woke*.

D'emblée, définition non fixe : le wokisme se conçoit par l'addition continue de nouveaux sèmes.

- ➔ Concept flottant
- ➔ Logiquement, concept sujet aux questionnements

Furin 16 mars 2024 à 11h27 18 2 5 14

Methodology

Basic Terminology:

“Woke” content = any images, messages, characters, storytelling, dialogue, music, or game mechanics that include themes associated with the left-side of the political aisle in contemporary western politics.

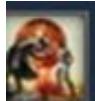

These themes include things like:

- pro-LGBTQ+ messaging
- pro-DEI messaging
- pro-climate action messaging
- pro-communism/socialism messaging
- pro-abortion messaging
- pro-pedophilia messaging
- pro-immigration messaging
- pro-transhumanism messaging
- pro-Democrat/progressivism messaging
- anti-Republican/conservative messaging
- anti-western society messaging
- anti-human messaging
- anti-colonialism messaging
- anti-capitalism messaging
- anti-heterosexual messaging
- anti-patriarchy messaging
- anti-white messaging
- anti-family messaging
- anti-free speech messaging
- anti-gun messaging
- etc.

Qu'est-ce qu'un jeu *woke* ?

Dans les autres discussions, appel à une vision large du phénomène :

- En termes de thématiques
- En termes de « curseur » au sein de ces thématiques

Originally posted by **Bullpup**:

Anyways I think we should be careful not to become as extreme as those we're trying to counter.

We should be become as extreme as necessary to defend our norms. I received Dredge for free and the forced multi-racial cast was totally out of place. The setting is obviously inspired by Lovecraft and 20th century Western civilization so those types of characters do not belong there.

Lordofriva ▾ 12 Jan @ 10:33pm

Please add your feedback here:
https://steamcommunity.com/groups/Woke_Content_Detector/discussions/0/4763207599011890379/

However at this point I think we are pretty much set on our definition, it is purposefully broad.

Maybe consider joining another group as well like "DEI Detected" or "Dei Woke Alert" (they hate us though.) they have less broad definitions than ours here.

Bump.

Armored Core 6 is NOT woke.

Don't bump threads (it's explicitly a violation of Steam's rules and guidelines - See "avoid off-topic content").

I'll let you off with a warning this time. Don't do it again or you'll be banned.

In regard to this game, referring to the player character using they/them pronouns is, by itself, enough for it to be rated as not recommended. Our criteria considers any use of they/them pronouns when referring to someone of what should be a known sex as "overtly pro-LGBTQ+ messaging."

I understand some developers think it "increases immersion." We disagree. We consider it a subversion of sexual dimorphism. It could also be considered "pro-DEI" as well since it inherently implies that men and women are the same and thus equally capable in whatever the player character can do in a particular game.

Message publié sur la discussion « [Armored Core VI Fires Of Rubicon is woke propaganda](#) »

Qu'est-ce qu'un jeu *woke* ?

D'une part, le souci / la défense d'une définition large semble provenir entre autres d'associations courantes entre des phénomènes considérés néfastes et des adversaires identifiés comme des sources de dégénérescence.

- La gauche et les libéraux (fréquemment associés à un *political agenda*)
- Les communistes et marxistes
- BlackRock
- Sweet Baby Inc et autres studios « *woke* » (Ubisoft ou Square Enix)
- Tencent et la Chine en général
- Les sociétés pharmaceutiques et, paradoxalement, le monde scientifique en général

Gequi a écrit :

Kaminoyouni a écrit :

The CCP doing this deliberately as a form of Subversion of Western Media and eventually trying to supplant it, as the "non-woke" alternative.

Sure that outside the game, but any example INSIDE the game? i did not played

Inside the game is not necessarily an overt propaganda, that I've herd of. But given enough time and China gaining more influence over Western Media as it flounders due to the woke, it's bound to happen

as stated before, Tencent, which again is an arm of the CCP is seeking to buy out Ubisoft after their stocks cratered due to the woke, which was pushed for, by Tencent. Meaning the CCP will own Ubisoft's franchises, and that is not a comforting thought.

Dernière modification de Kaminoyouni; 8 déc. 2024 à 10h00 #4

China is foremost among them, had you given the videos I linked a watch it's said they've funded ESG/DEI initiatives to the tune of about 4.56 Trillion Dollars estimated.

And no, it IS an attempt undermine/destabilize. Keeping mind China bans all LGBT/DEI themes out of their media and censors it in imported western media(or even japanese media, probably), while they're pushing for it in all other areas of the world. #7

I still disagree with including it, I kinda get where he's coming from in regards to the COVID vax though. Blindly trusting science is pushed by the woke crowds. I'm not sure why CRISPR would strictly be leftist, they tend to be against eugenics. There must be a better term we could use.

That doesn't really answer me though. It seems to boil down to him saying he has it as a criteria because the left advocate it not on a moral basis in and of itself. I would love a more in depth explanation, see where the line is drawn, you know?

Since making that post, I've thought more about this and have a new perspective:

I would argue the body modifications made by members of the LGBTQ+ community, be they trans or those who identify as "non-human" wanting to more closely resemble certain animals or fictional creatures, absolutely qualifies as transhumanist.

Furthermore, prominent voices of the WEF, such as Yuval Harari and Klaus Schwab, actively advocate on behalf of putting chips into people's bodies to monitor compliance with health requirements (such as the covid "vax" requirement).

D'ailleurs, une certaine victimisation apparaît dans les discours des membres les plus « engagés ».

› Furin ▾ ★ 9 Aug, 2024 @ 3:41pm

I'll go ahead and change the review to informational since you disagree.

I get where you're coming from. As I said, I have mixed feelings about this.

I named this group "Woke Content Detector" because I want it to focus on content-level analysis. There are already other groups doing company-level analysis (such as Shitlisting Service).

My view is, the moment you start targeting these people over comments they make on social media or elsewhere outside their games, you might as well stop watching all American TV shows and movies, and stop playing nearly all video games.

Most of the people who make these things are left-wingers or left-leaning normies (just look at the politics of the states they come from – such as California). You can thank the American educational system for that (particularly universities).

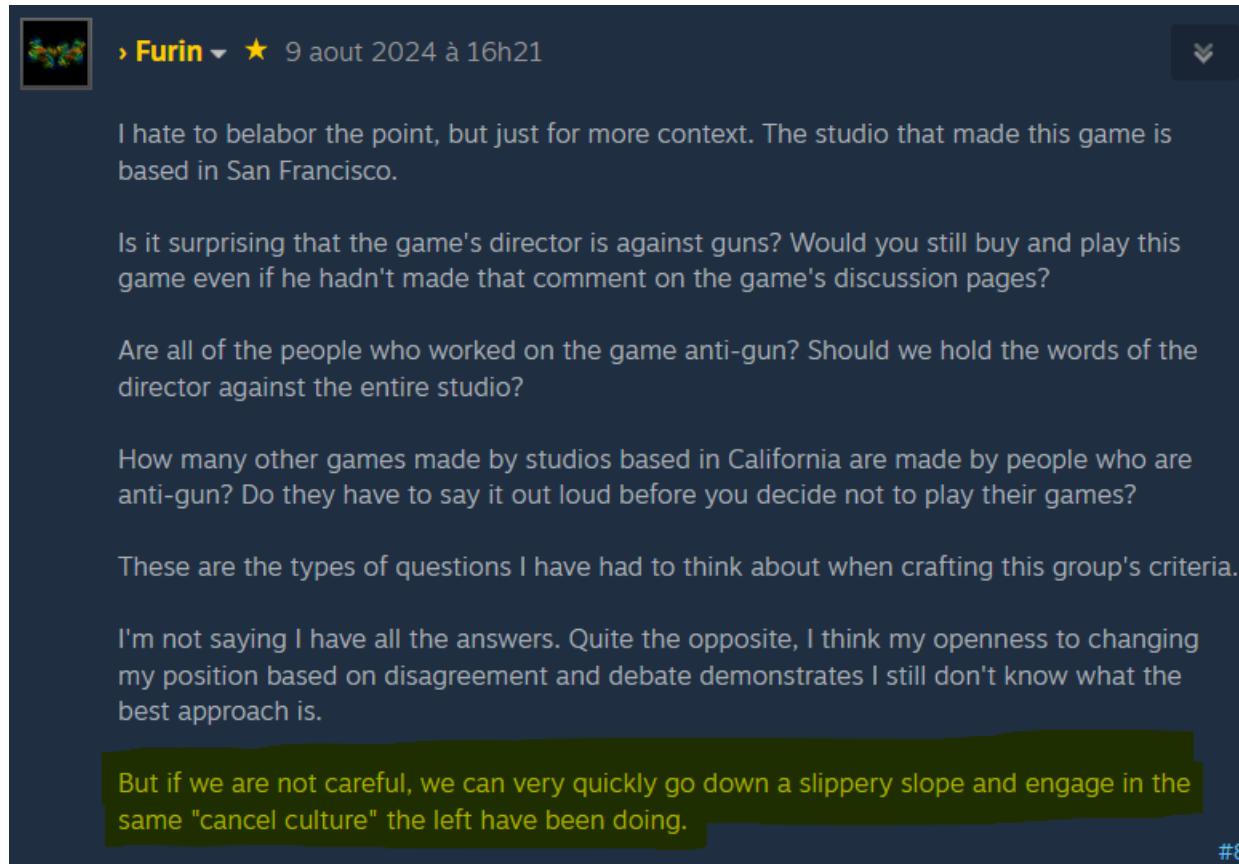

We seek to take a more nuanced view of things than simply engaging in a knee-jerk "reverse cancel culture" reaction.

That said, I don't see the harm in changing this game to informational so I'll go ahead and do so.

Extrait de la discussion « *Subnautica* »

Qu'est-ce qu'un jeu *woke* ?

› Furin ▾ ★ 9 aout 2024 à 16h21

I hate to belabor the point, but just for more context. The studio that made this game is based in San Francisco.

Is it surprising that the game's director is against guns? Would you still buy and play this game even if he hadn't made that comment on the game's discussion pages?

Are all of the people who worked on the game anti-gun? Should we hold the words of the director against the entire studio?

How many other games made by studios based in California are made by people who are anti-gun? Do they have to say it out loud before you decide not to play their games?

These are the types of questions I have had to think about when crafting this group's criteria.

I'm not saying I have all the answers. Quite the opposite, I think my openness to changing my position based on disagreement and debate demonstrates I still don't know what the best approach is.

But if we are not careful, we can very quickly go down a slippery slope and engage in the same "cancel culture" the left have been doing.

Qu'est-ce qu'un jeu *woke* ?

D'autre part, la définition apparaît large car soumise à extension par contraste / négation

→ Est *woke* une œuvre qui montre des éléments ne correspondant pas à une vision très restrictive et homogène de la société

> Furin 13 Jan at 6:26pm

DAVE THE DIVER

In this game, the sushi chef, Bancho, is Black.

Here's some demographic data to illustrate how improbable this is:

According to Zippia, Black sushi chefs account for 7.4% of all sushi chefs in the US.
<https://www.zippia.com/sushi-chef-jobs/demographics/>

While I couldn't find any ethnic data on sushi chefs in Japan, permanent residents of foreign nationality make up ~2.4% of the total population.

<https://www.stat.go.jp/english/data/nenkan/73nenkan/1431-02.html>

<https://www.e-stat.go.jp/stat-search/files?page=1&layout=datalist&toukei=00250012&tstat=000001018034&cycle=1&year=2008&month=24101212&tclass1=000001060399&tclass2val=0>

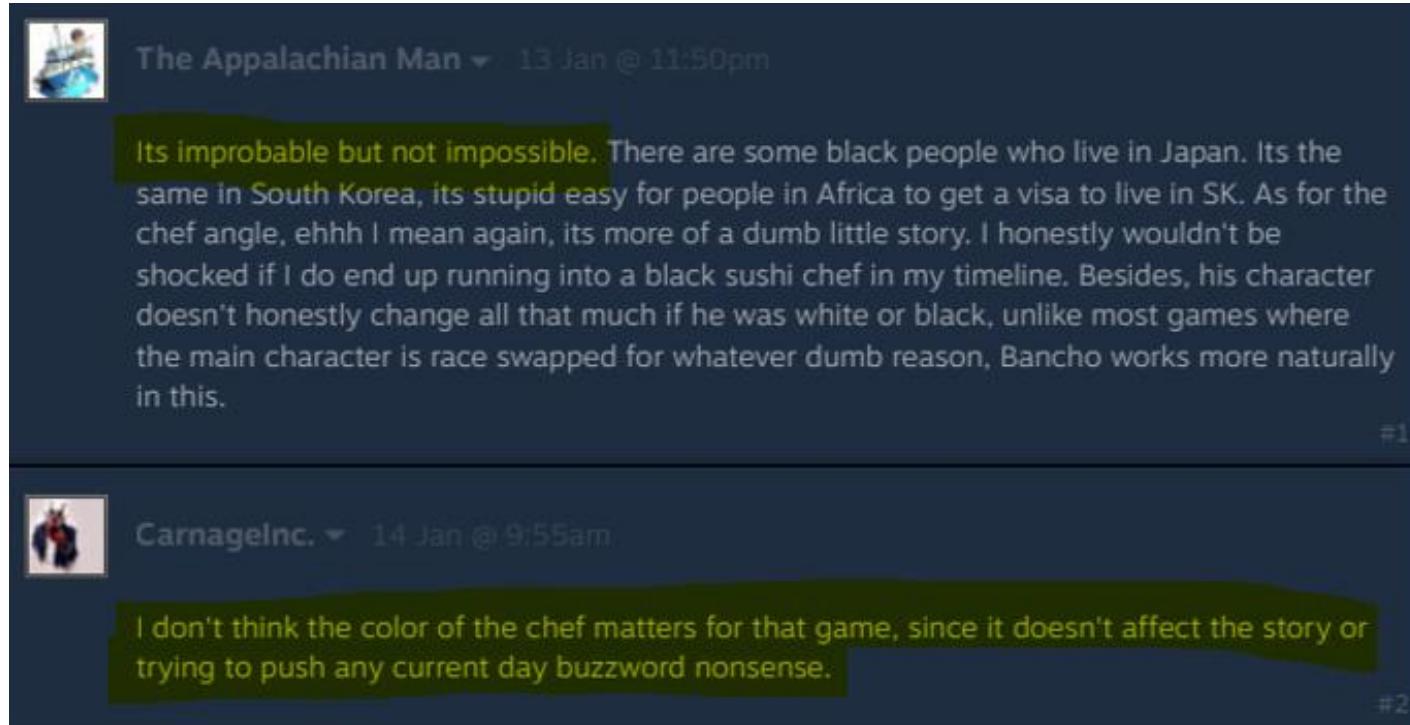

The number is even smaller when you reduce it to places where Black people might come from (people from other Asian countries account for ~2% all by themselves). This means Black people realistically account for less than ~0.4% of all permanent residents of foreign nationality in Japan.

Last edited by Furin: 13 Jan at 6:28pm

Qu'est-ce qu'un jeu *woke* ?

A noter, plusieurs acceptations plus modérées apparaissent.

Souvent se pose la question de savoir si un élément du jeu relève du tokenisme (forcer le DEI) ou s'il s'agit d'un ajout sans arrière-pensée / justifié par le lore.

The Appalachian Man ▾ 13 Jan @ 11:50pm

Its improbable but not impossible. There are some black people who live in Japan. Its the same in South Korea, its stupid easy for people in Africa to get a visa to live in SK. As for the chef angle, ehhh I mean again, its more of a dumb little story. I honestly wouldn't be shocked if I do end up running into a black sushi chef in my timeline. Besides, his character doesn't honestly change all that much if he was white or black, unlike most games where the main character is race swapped for whatever dumb reason. Bancho works more naturally in this.

#1

CarnageInc. ▾ 14 Jan @ 9:55am

I don't think the color of the chef matters for that game, since it doesn't affect the story or trying to push any current day buzzword nonsense.

Qu'est-ce qu'un jeu *woke* ?

Omori pose la question de l'inclusion de la représentation des maladies mentales au sein du spectre *woke*.

› Furin ▾ ★ 11 Feb @ 8:30am

This game's story revolves around depression, mental illness, and suicide.

Additionally, the player character is a Hikikomori (shut-in).

For context, according to surveys from Japan's Cabinet Office, there are somewhere around 1 million Hikikomori living in Japan:
<https://www.nippon.com/en/japan-data/h00463/survey-findings-suggest-japan-has-more-than-1-million-hikikomori.html>

With a population well over 123 million, that means Hikikomori account for less than 1% of the Japanese population.

Therefore, this game will be added as not recommended.

Last edited by › Furin; 11 Feb @ 8:39am

Qu'est-ce qu'un jeu *woke* ?

Geometry Dash est étiqueté comme *woke* en prévention des contenus publiés par les joueurs.

ShoneChello 3 Dec, 2024 @ 12:13am

What rating should Geometry Dash get?

GEOMETRY DASH
Jump and fly your way through danger in this rhythm-based action platformer!

4.99€ [Buy on Steam](#)

I think this is an interesting case that may require discussion.

As far as I'm aware, the official levels contain no woke content whatsoever. However, this game has a level editor that allows players to create and publish levels for others to play. Due to the nature of player-made content, it's inevitable that some custom levels would contain woke content.

Since this game is practically built with custom levels in mind, the review that it gets could have ramifications for future reviews of games that are based around custom content.

Considering the above, what rating should it get?

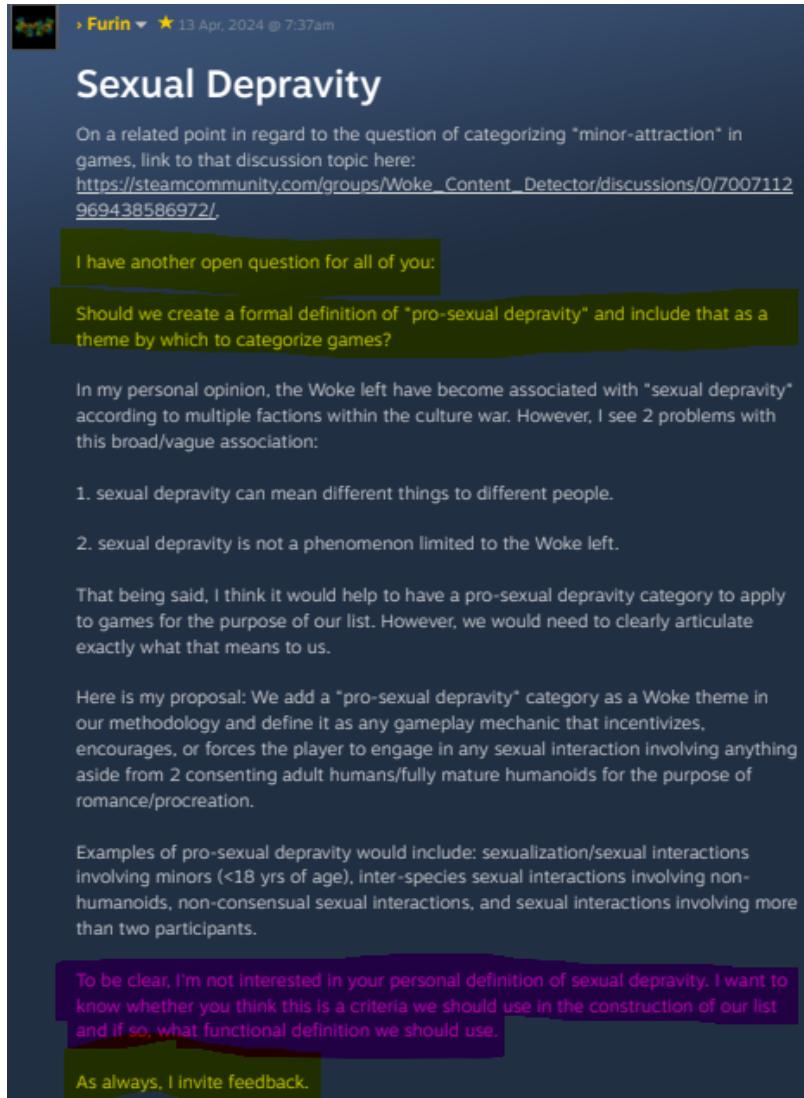

Quand définit-on le wokisme sur WCD ?

Contrairement à beaucoup d'étiquettes (notamment génériques) accolées à des œuvres, l'appartenance des jeux à l'étiquette « *woke* » est activement discutée.

- ➔ Etiquette instable
- ➔ Accord très partiel sur son attribution à certaines œuvres

Qui définit le wokisme sur WCD ?

La promesse d'une discussion démocratique est rabâchée, mais largement niée par Furin en définitive.

The screenshot shows a Steam community discussion post. The post is titled "Sexual Depravity" and is made by a user named "Furin" on April 13, 2024, at 7:37am. The post discusses the categorization of "minor-attraction" in games and links to a related discussion topic. The author poses a question: "Should we create a formal definition of *pro-sexual depravity* and include that as a theme by which to categorize games?". The author then expresses their personal opinion, noting that the Woke left are associated with sexual depravity and identifying two problems with this broad/vague association. The author proposes adding a "pro-sexual depravity" category to the Woke theme methodology, defining it as any gameplay mechanic that incentivizes, encourages, or forces the player to engage in sexual interaction involving minors, non-humanoids, or non-consensual interactions. Examples of pro-sexual depravity are given, including sexualization, inter-species interactions, and non-consensual interactions. The author asks for feedback on whether this criteria should be used in the construction of their list and what functional definition should be used. The post concludes with a request for feedback.

Furin 13 Apr, 2024 @ 7:37am

Sexual Depravity

On a related point in regard to the question of categorizing "minor-attraction" in games, link to that discussion topic here:
https://steamcommunity.com/groups/Woke_Content_Detector/discussions/0/7007112969438586972/

I have another open question for all of you:

Should we create a formal definition of *pro-sexual depravity* and include that as a theme by which to categorize games?

In my personal opinion, the Woke left have become associated with "sexual depravity" according to multiple factions within the culture war. However, I see 2 problems with this broad/vague association:

1. sexual depravity can mean different things to different people.
2. sexual depravity is not a phenomenon limited to the Woke left.

That being said, I think it would help to have a pro-sexual depravity category to apply to games for the purpose of our list. However, we would need to clearly articulate exactly what that means to us.

Here is my proposal: We add a "pro-sexual depravity" category as a Woke theme in our methodology and define it as any gameplay mechanic that incentivizes, encourages, or forces the player to engage in any sexual interaction involving anything aside from 2 consenting adult humans/fully mature humanoids for the purpose of romance/procreation.

Examples of pro-sexual depravity would include: sexualization/sexual interactions involving minors (<18 yrs of age), inter-species sexual interactions involving non-humanoids, non-consensual sexual interactions, and sexual interactions involving more than two participants.

To be clear, I'm not interested in your personal definition of sexual depravity. I want to know whether you think this is a criteria we should use in the construction of our list and if so, what functional definition we should use.

As always, I invite feedback.

Qui définit le wokisme sur WCD ?

L'effacement des messages de trolls est constant (mais de nombreuses traces subsistent dans les citations).

D'autres messages trop en contradiction avec l'objectif assigné au groupe sont également supprimés.

Originally posted by [Swaggy](#):

And regardless of your criteria, you can't label Rimworld the same as Overwatch or Dustborn, because anyone who has played these games will realize they are simply the complete opposite of each other, and the list can only be wrong if it does not put them on the far opposite of the spectrum.

Different games all having the "not recommended" rating does not mean they are all equal. What it means is the messaging contained within them is all considered "overt." In other words, those games have messaging that has crossed the threshold from "subtle" into "overt." Since I've had to address this point so many times at this point, I have now included this as a clarifying point in our methodology.

Originally posted by [Swaggy](#):

What probably happened is that the developer initially promised Kickstarter supporters to let them add their own custom backstory as a reward once the game is completed. Then, one of the supporters suggested this bio, and as this point the dev can't refuse the bio without causing a huge controversy, and it would be insane to take the risk for something that won't be seen by more than 0.1% people anyway. There are a lot of such unusual character backstories in Rimworld, it doesn't mean the game is pro-incest pro-satan or pro-xyz just because one supported was allowed to add their story into one of the thousands possible backstories.

The point is, for these Kickstarter campaigns, the developer(s) can refuse to include any and all politically partisan messages if they wanted. Instead, they choose to acquiesce to a very vocal group of left-wing people wanting to have their ideology pushed everywhere it possibly can.

No one forced them to do this (as far as we are aware). They chose to include this.

Malgré les réponses de Furin, les messages de Swaggy au sujet de *Rimworld* ont ensuite été supprimés (probablement trop tièdes).

Qui définit le wokisme sur WCD ?

Les messages plus modérés ou avec une acception moins large du wokisme sont niés (absence de réponse) ou bottés en touche.

The burden of proof is on you. You need to be the one to provide evidence in support of your position. Making claims and telling me to "look it up" is to engage in the burden of proof fallacy.

Réponse de › Furin à un commentaire qui insiste sur le fait que la présence de femmes sur le champ de bataille dans *Warhammer 40K : Space Marine 2* n'est pas *woke*, mais renvoie à un rôle réel des femmes dans les conflits armés.

Qui définit le wokisme sur WCD ?

Certains messages laissent entrevoir des usages plus fins de la liste, mais ils demeurent minoritaires et leur avis est peu pris en compte.

Who is stopping you from buying any game that is being reviewed in this group? You're being given a curation and info about certain games. What you do with your money and how you spend it, is up to you..

So many of you are overly dramatic and retarded here, it's hilarious and insane.

#14

Patola [Linux] ▾ 31 Jan @ 12:08pm

Oh, come on. No one is "stopping me", of course. I'm just saying that some details of the "wokeness" do not concern me as much as pronouns, race fights, lgbt pushing and toxic feminism. And apart from that I'm (probably) not avoiding games flagged as woke.

#15

Qui définit le wokisme sur WCD ?

- › Furin possède plusieurs rôles informels : meneur, décideur, gardien du temple, guide révéré
- ➔ En définitive, il impose à la fois sa vision du jeu *woke* et son classement des jeux.

Apple Scout 727 a écrit :
Let me start off by saying I love Far Cry 5. I don't agree with the agenda of the game but it's still fun.

As for the bad, let's start with this.

It seems like it has anti-Christian propaganda.

It's also full of girl bosses.

Then there's Nick Rye's wife Kim. She has an unmistakable SJW haircut and constantly tells Nick their having a daughter and not the son he's always wanted.

I'll try and write some more later.

bro is mad that game made fun of him in a game where all political parties are made fun of lmao. were you not paying attention to what you were playing?

I'm just voicing my opinion on the content in the game. It's not a smart idea to use that overused bro quote on someone for voicing their opinion. I can't wait to see what the owner of Woke Content Detector has to say about this game.

Première conclusion : une définition et une liste unilatérales

Le fonctionnement du groupe (sa manière de discuter et de définir le wokisme et ce qu'est un jeu *woke*) ressort à deux organisations politiques particulières.

Théocratie : dévotion à une idée intouchable, sacrée et fondamentalement indicible

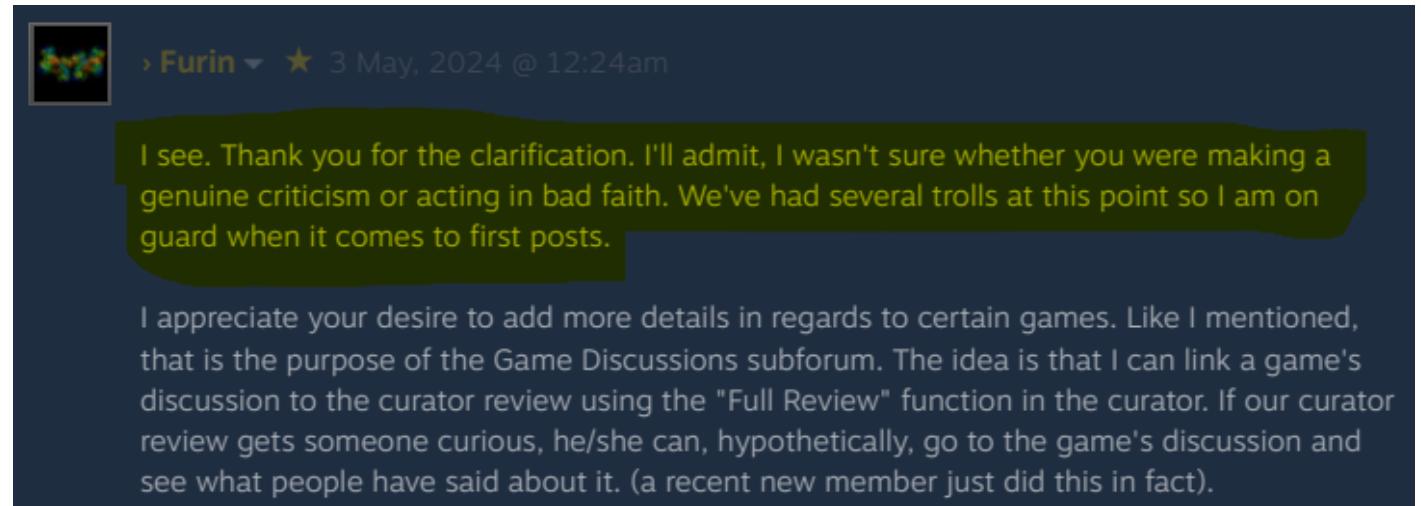

Despotisme éclairé : concentration du pouvoir dans les mains d'un individu relayé par quelques seconds sans pouvoir exécutif + confiance extrême accordée aux décisions du *leader* (ou défiance et exclusion / sortie du groupe)

[Maccarthysme : chasse aux sorcières, méfiance absolue vis-à-vis de toute idée légèrement divergente + exclusion/réduction au silence des opposants]

Une cordialité de façade

Le groupe affiche des règles de discussion assez strictes :

- Pas d'injures ou d'arguments *ad hominem* (y compris contre les studios et créateurs)
- Le *trolling* est systématiquement réprouvé (effacement des messages et exclusion du profil)
- ➔ Les rares écarts relevés sont assez modérés, et une forte cordialité est de mise, même avec les *trolls* ou les personnes visiblement opposées au projet.

Furin • 3 May, 2024 @ 12:24am

I see. Thank you for the clarification. I'll admit, I wasn't sure whether you were making a genuine criticism or acting in bad faith. We've had several trolls at this point so I am on guard when it comes to first posts.

I appreciate your desire to add more details in regards to certain games. Like I mentioned, that is the purpose of the Game Discussions subforum. The idea is that I can link a game's discussion to the curator review using the "Full Review" function in the curator. If our curator review gets someone curious, he/she can, hypothetically, go to the game's discussion and see what people have said about it. (a recent new member just did this in fact).

Réponse à un commentaire explicitant un désaccord avec la méthodologie du groupe, sur la discussion « Crusades Lack Nuance, Sometimes Heretics Are Fantastic »

Une cordialité de façade

La revendication démocratique et respectueuse semble surtout guidée par la peur de sanctions infligées par la plateforme (en comparaison avec d'autres groupes).

No shit, obviously and naturally I would've preferred it to be that way as well. I didn't intend or planned to get it on with Furin so hard, but, here we are now. As I've already said it several times over by now: *this entire thread shouldn't have been made to begin with*. But it was.
:OhNoBlue:

Kawayol, you've failed to follow my instructions and you've failed to set a good example for others members of the group - something I expect of any officer in this group.

I've stripped you of your admin position for the time being. I didn't want to do this but you seem incapable of containing yourself.

This is Steam. Not RPGHQ. Go there if you want to post these things. Otherwise, you risk our entire group's ability to exist on this platform by continuing to post such inflammatory things (in regard to your post before this one - which I have deleted).

Their Hatred

Can we get a discussion category for the haters who come in to post about how stupid this group is and how we are all brainwashed right-wing lunatics?

Showing 1-2 of 2 comments:

↳ Furin ▾ ★ 17 Jan @ 9:36pm

No. That will likely get this group shut down.

If you see a troll post or suspect someone is trolling, report the post and one of the admins will deal with it.

Please do not engage with trolls in inflammatory ways.

Ghannon ▾ 17 Jan @ 9:50pm

Eh, you're probably right.

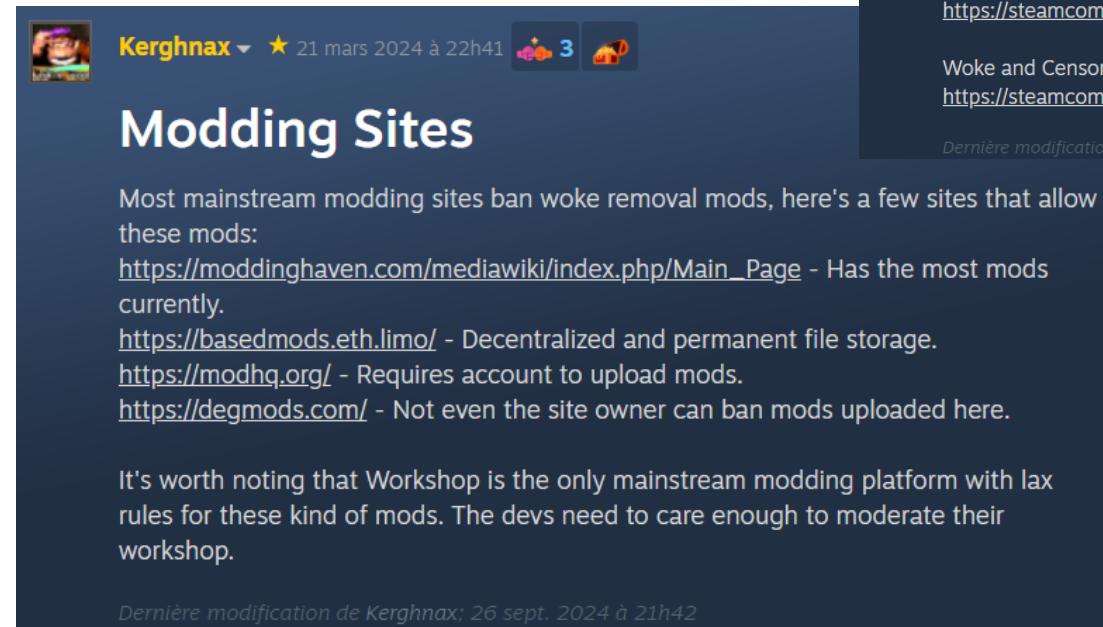

Sad to see so much censorship from a privately traded company. We might even see more, depending on how Gabe Newell decides to handle the ADL and their puppet, Congressman Mark Warner.

Lien avec d'autres groupes/pages

WCD est autosuffisant, au sens où il ne dépend pas d'une autre plateforme ou d'un groupe tiers pour exister (sauf pour le renvoi vers des « preuves »).

Toutefois, de nombreux liens existent avec d'autres groupes aux idées proches, avec parfois des discussions intergroupes.

Modding Sites

Most mainstream modding sites ban woke removal mods, here's a few sites that allow these mods:

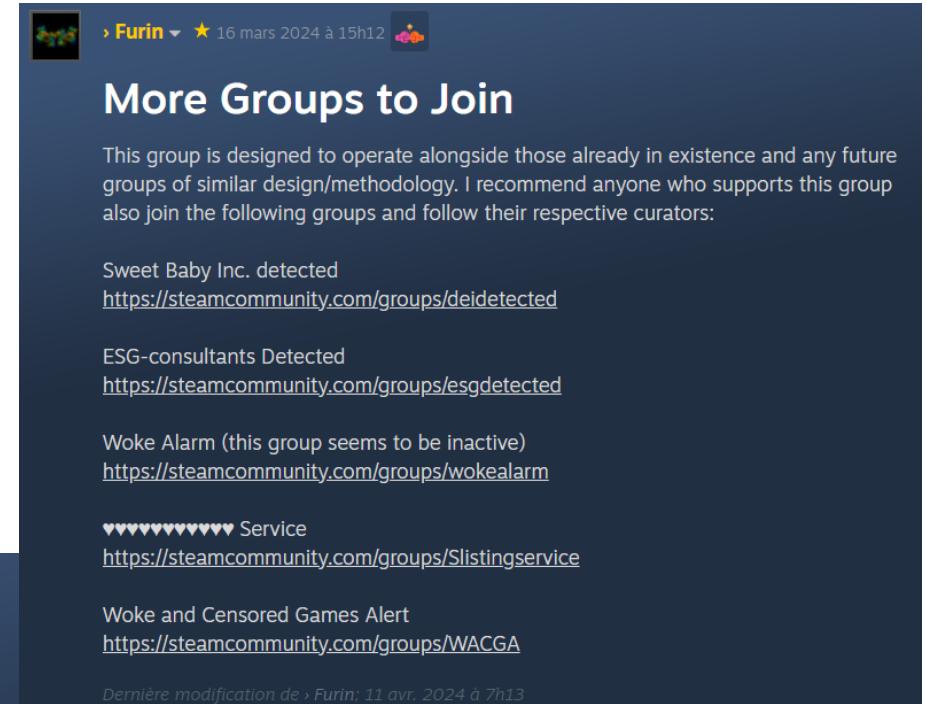

https://moddinghaven.com/mediawiki/index.php/Main_Page - Has the most mods currently.

<https://basedmods.eth.limo/> - Decentralized and permanent file storage.

<https://modhq.org/> - Requires account to upload mods.

<https://degmods.com/> - Not even the site owner can ban mods uploaded here.

It's worth noting that Workshop is the only mainstream modding platform with lax rules for these kind of mods. The devs need to care enough to moderate their workshop.

Sweet Baby Inc Detected (groupe Steam)

Une page proche est souvent citée comme principale responsable du Gamergate 2.0.

Sweet Baby Inc Detected (serveur Discord)

Serveur *Discord* oblige, le groupe possède également un code de conduite strict, qui contraste fortement avec l'objectif réel du groupe.

Server Rules:

1. We Follow Discord's ToS & Guidelines

We do not accept or condone anything that violates the Terms and Guidelines. Report bad actors to Moderators or Administrators ASAP.
<https://discord.com/terms>
<https://discord.com/guidelines>

2. Respect Everyone

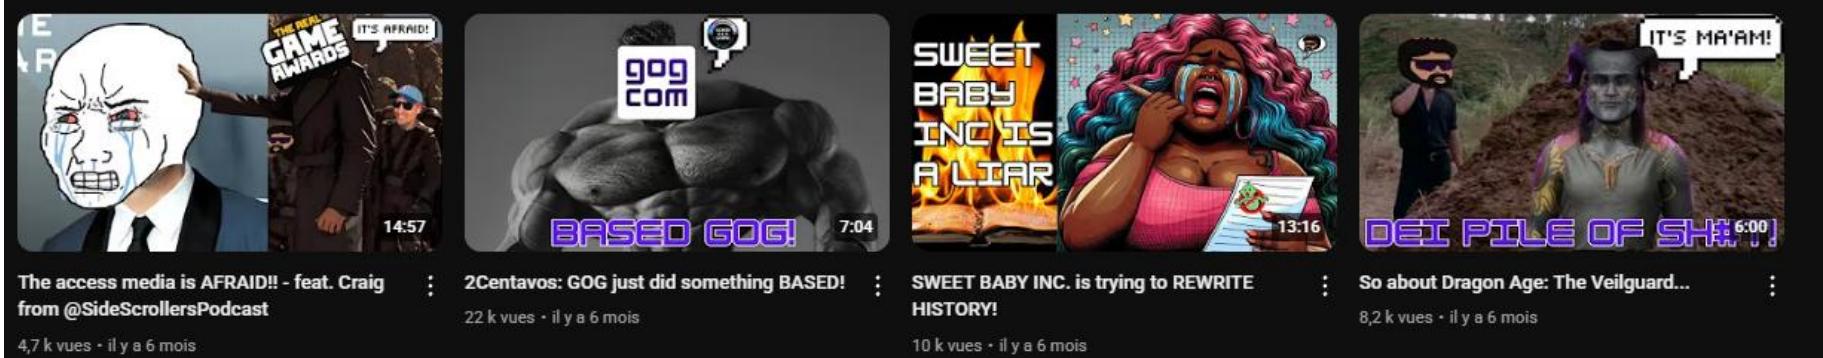

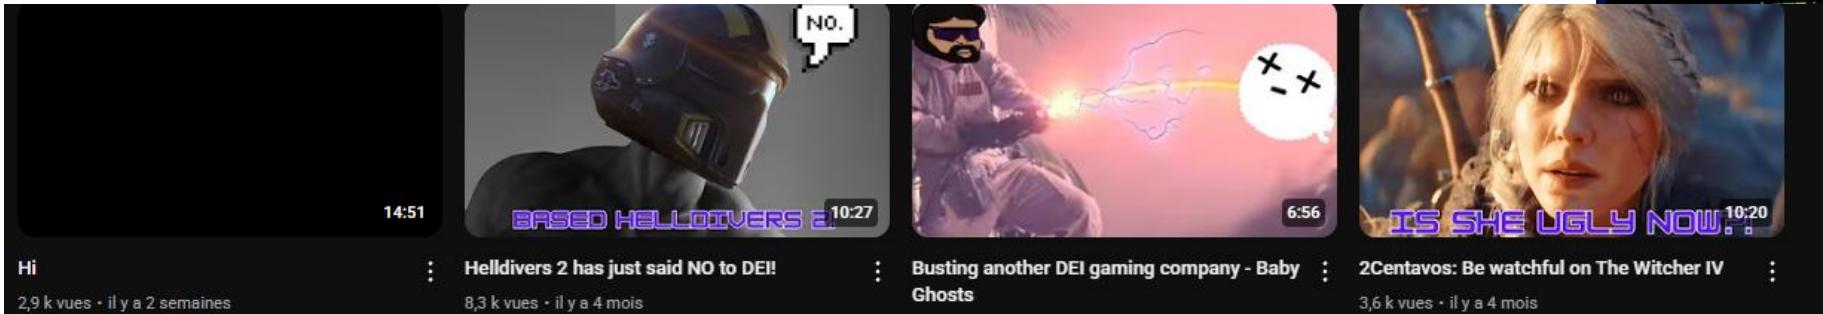

DO NOT harass any developers or journalists on or off the server.

You are required to treat everyone with civility.
Avoid insults, name-calling and toxicity.
Don't start drama or trouble, including in Voice Channels.
If you have a problem with someone, contact a Moderator.
If you have a problem with Moderators, contact an Administrator.

3. No Hateful Posts

No Racist, Sexist, Homophobic, Transphobic, Anti-Semitic, Islamophobic posts.
Or any bigoted posts and memes targeting an identity or any religion.
As well as no posts calling for or depicting violence.
This extends to your avatar, name and About Me.
This is not what the server is about and they are not tolerated here.
Don't try to bypass the word filter if it's blocked.
It will be deleted and it's punishable or Bannable.

Ok, a few short questions, before I answer in detail. Yes/no probably should suffice.

I, Demograph, prefer incestuous marriage. Am I woke?
Modern day American citizen prefers incestuous marriage. Is s/he woke?
Pharaohs preferred incestuous marriages. Were they woke?
Bill Clinton got extramarital blowjob. Can he be regarded woke because of that?
A modern person got extramarital blowjob. Can he be regarded woke because of that?
Julius Caesar got extramarital blowjob from Cleopatra. Can he be regarded woke because of that?
Julius Caesar got blowjob from his male slave. Can he be regarded woke because of that?
I think that I have a right to alter my body if I consider it dysfunctional. Am I woke?
I think that I have a right to alter my body for aesthetic reasons. Am I woke?

Yes. As I understand it (someone more knowledgeable may feel free to correct me), Frankfurt School was born out of TRVE continental commies being frustrated that the peasants stubbornly refused to revolt under the material conditions of the day. So they decided to find, and push, other reasons for the peasants to revolt. Racial, cultural and political identity were chosen.

On top of what DemoGraph said, another catalyst was the realization by the Marxist intelligentsia that they had lost the plot after Khrushchev exposed Stalin's crimes, followed up by the double-whammy of Mao's fuckups and Khmer Rouge atrocities. It's no coincidence that leftist identity politics started to gain traction and spawn subversive counter-cultures in the 1960s and 70s.

It's difficult to hold the moral high-ground and sneer at the capitalist pigs when they can simply point out that communism had managed to kill more people than both world wars combined during peacetime.

This forced the Marxists to invent a new grift, which required them to find out a new fissure point to use to rouse the rabble, and they settled on identity politics - gender, race, ethnicity, faith - and began telling people that the majority (usually White and Christian) were the true oppressors, the new bourgeoisie, and that the forever dispossessed need to rise up and seize what was owned to them and demand reparations.

Basically, the US made a grave mistake by not killing every Jew and commie they found within their borders.

Conclusion / résumé

Conclusion / résumé

1. L'étiquette « *woke* » demeure flottante dans l'absolu, car chacun en a une vision différente et plus ou moins sensible. Sur WCD, elle se radicalise et se stabilise sous la mainmise d'une poignée de « *prêcheurs zélotes* ».
2. Les discussions, faussement démocratiques, ne laissent filtrer que les discours en accord avec une vision extrême du *wokisme*.
3. Les communautés anti-*woke*, hostiles à toute dérision, sont interconnectées et résilientes face aux incursions des pro-*woke* et aux discours plus modérés. Les individus naviguent dans ce microcosme et s'adaptent aux contraintes des plateformes.
