SHARED PRESERVATION INITIATIVES FOR JOURNALS

PRINCIPLES AND GOALS

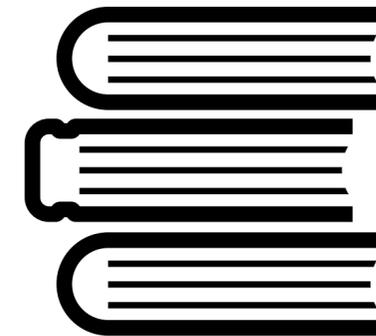

Consolidate collections and discard surpluses to keep only

one collection (*of conservation*)

of each journal in printed form for
all universities

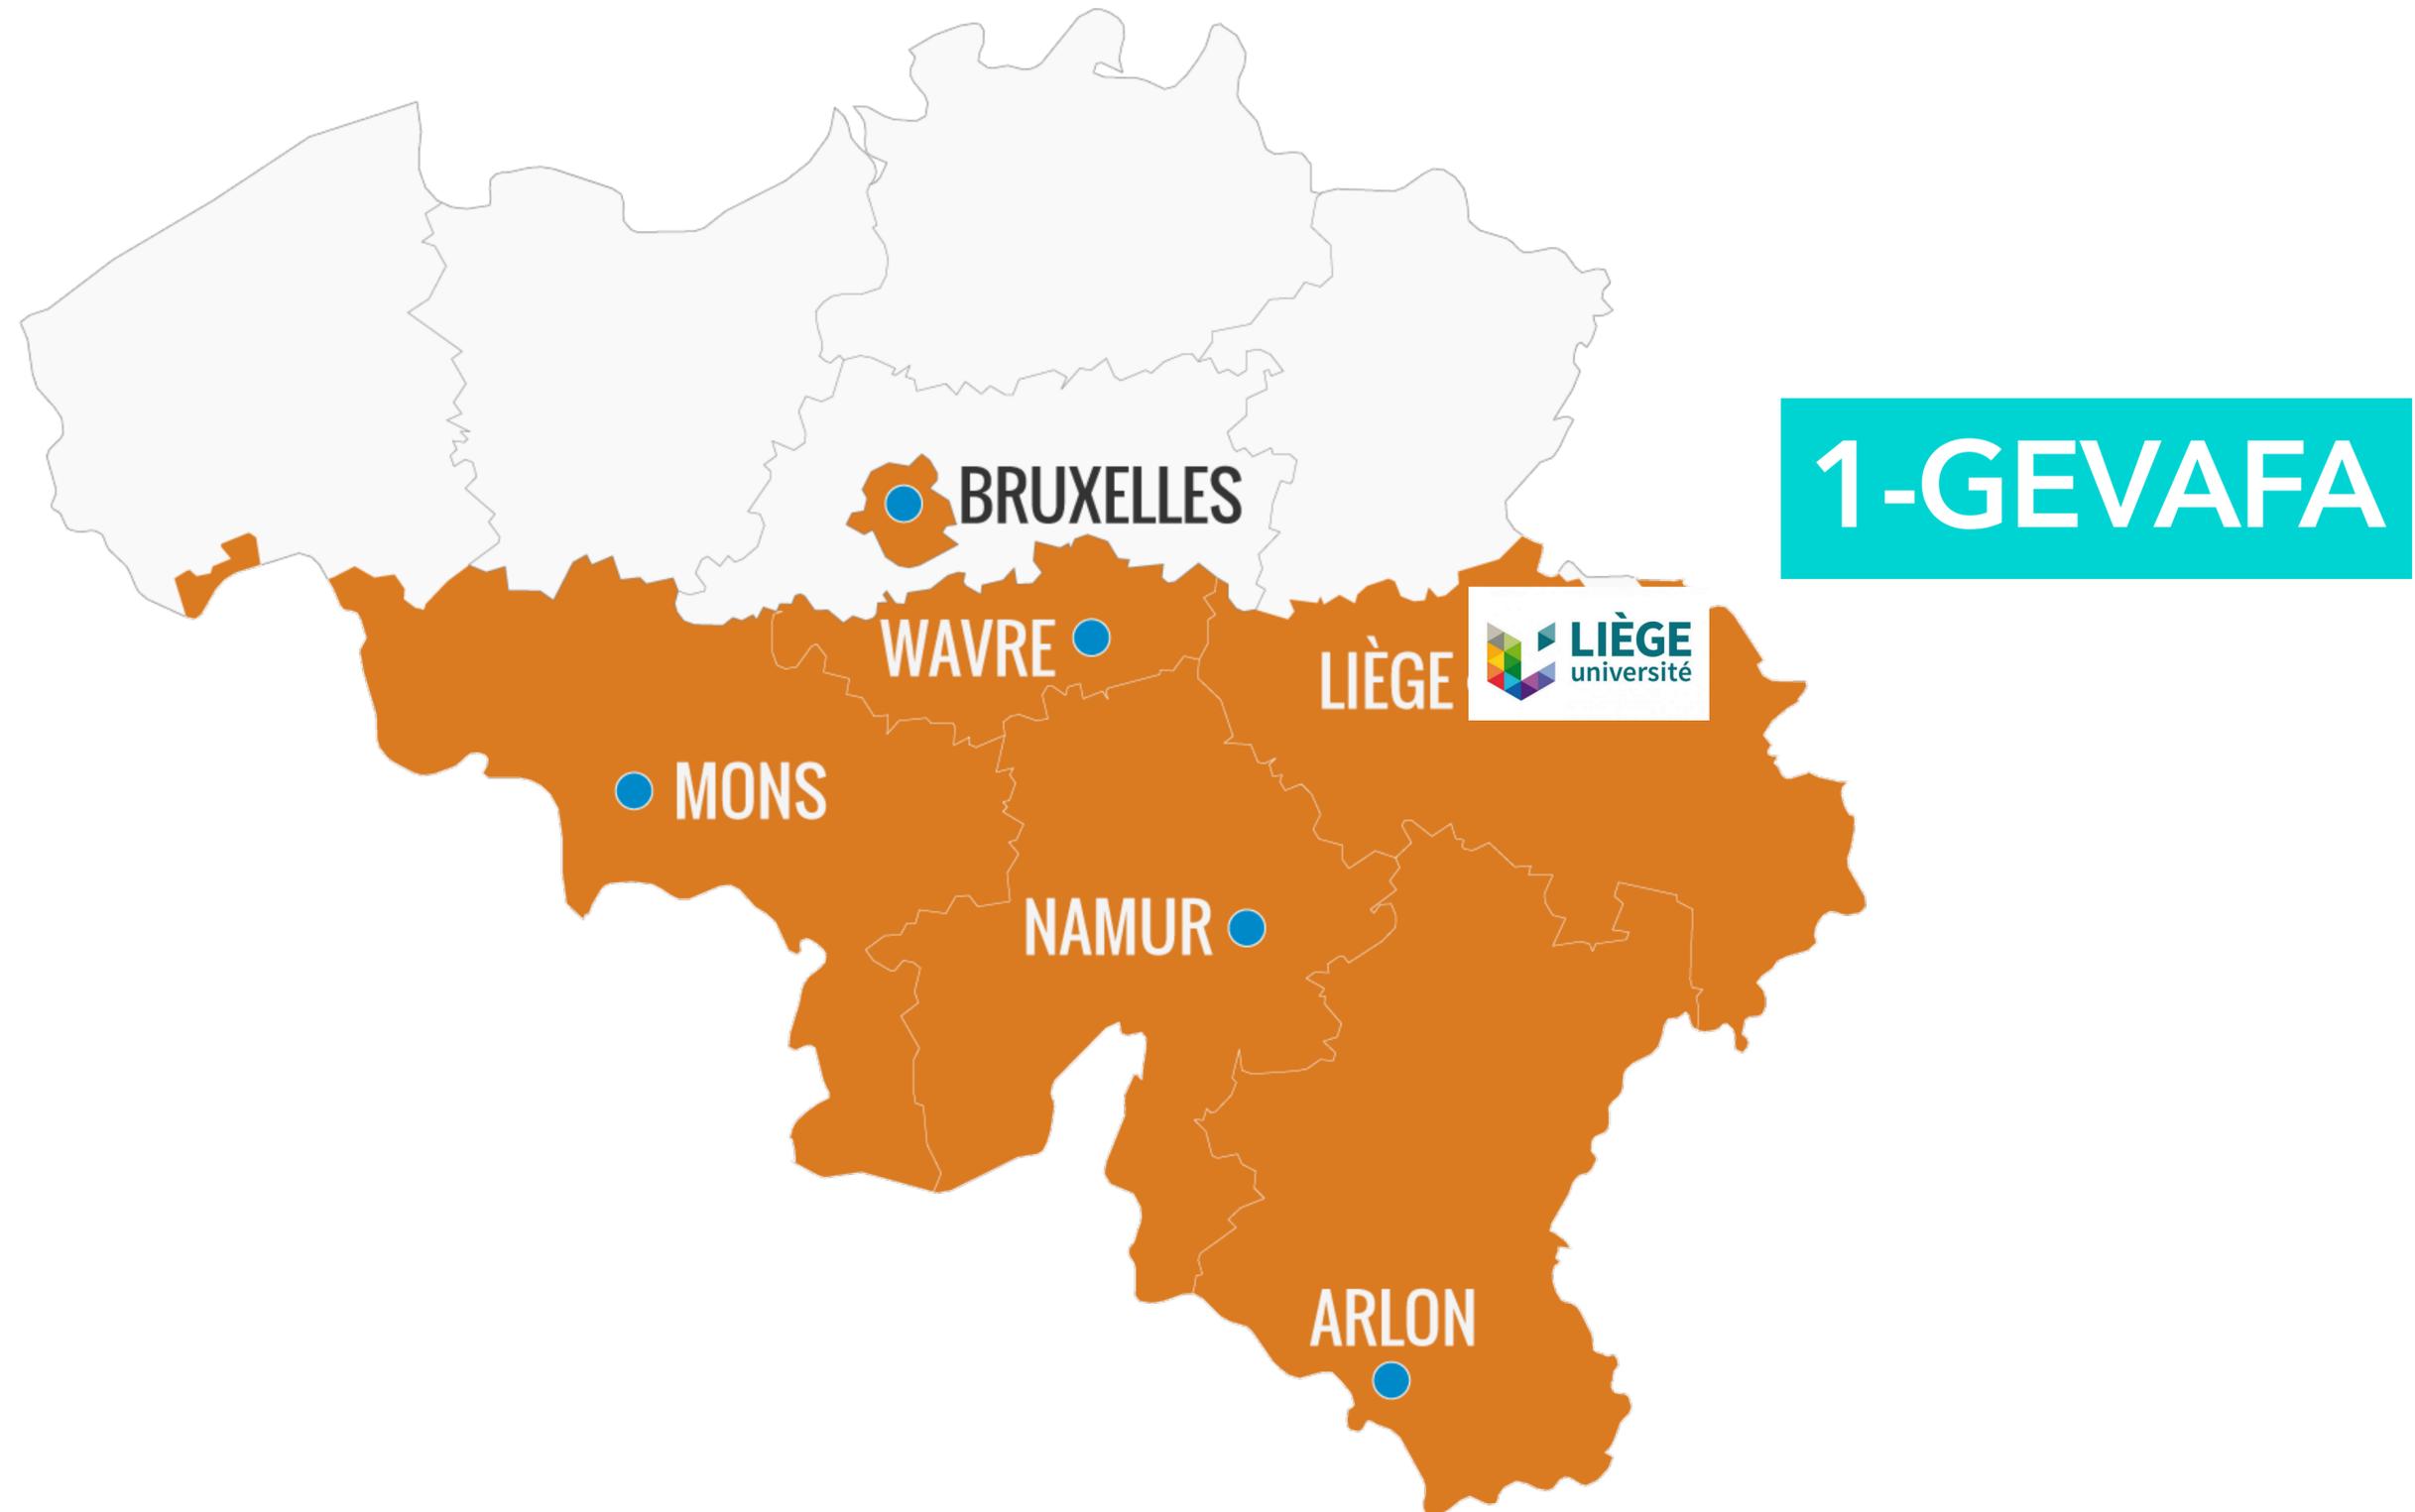

AND
(sometimes)

a second collection (*of consultation*)

if there is no sustainable electronic alternative or not
the same collection at the National Library

Three levels of shared initiatives

1-GEVAFA

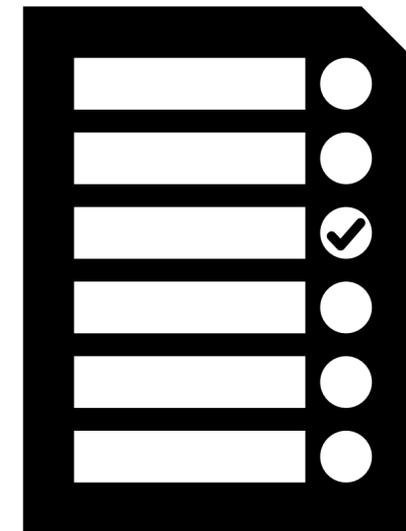

Consolidate collections and discard surpluses to keep only

Inside the University of Liège

one collection (*of conservation*)

of each journal in printed form for
all universities

Based on a conservation plan

1-GEVAFA

15 thematic libraries with different collections

Human sciences

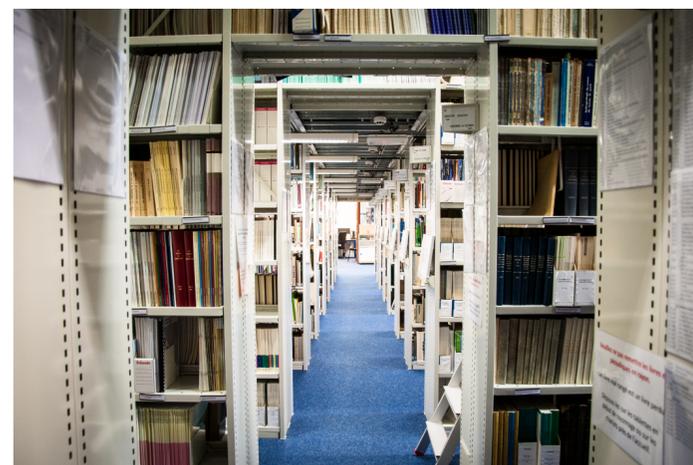

- ▶ Philosophy
- ▶ Law
- ▶ Architecture
- ▶ Social sciences
- ▶ Management

Sciences and Technics

- ▶ Sciences
- ▶ Applied sciences
- ▶ Agronomy

Health sciences

- ▶ Medicine
- ▶ Veterinary Medicine
- ▶ Psychology

Six french-speaking universities of Belgium working together

2-CPP

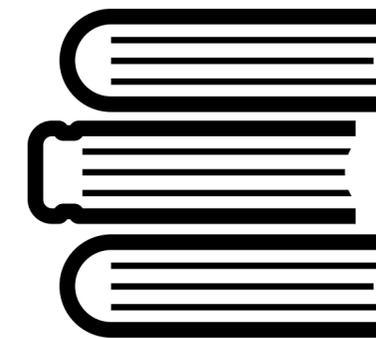

Consolidate collections and discard surpluses to keep only

one collection (*of conservation*)

of each journal in printed form for
all universities

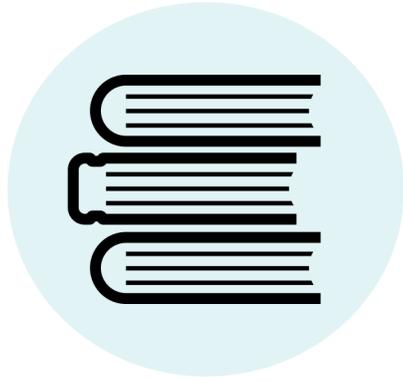

AND
(sometimes)

a second collection (*of consultation*)

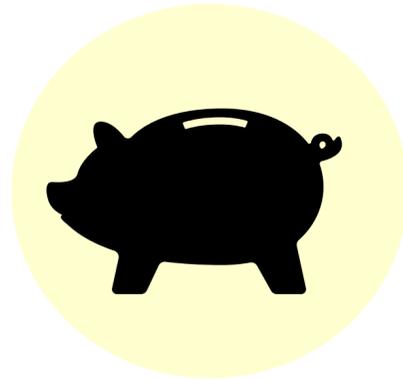

if there is no sustainable electronic alternative or not
the same collection at the National Library

2021-2022

Sciences and technology

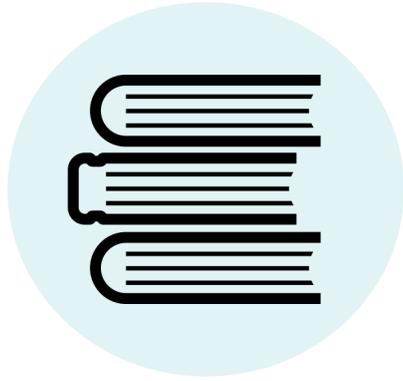

2017-...

Psychology and education

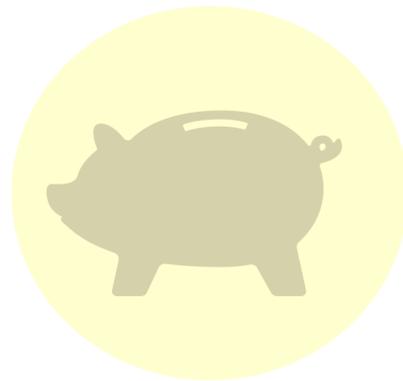

2022-...

Started actively in 2024
Will probably end in 2026
+ - one thousand titles

Econom

2010-2019

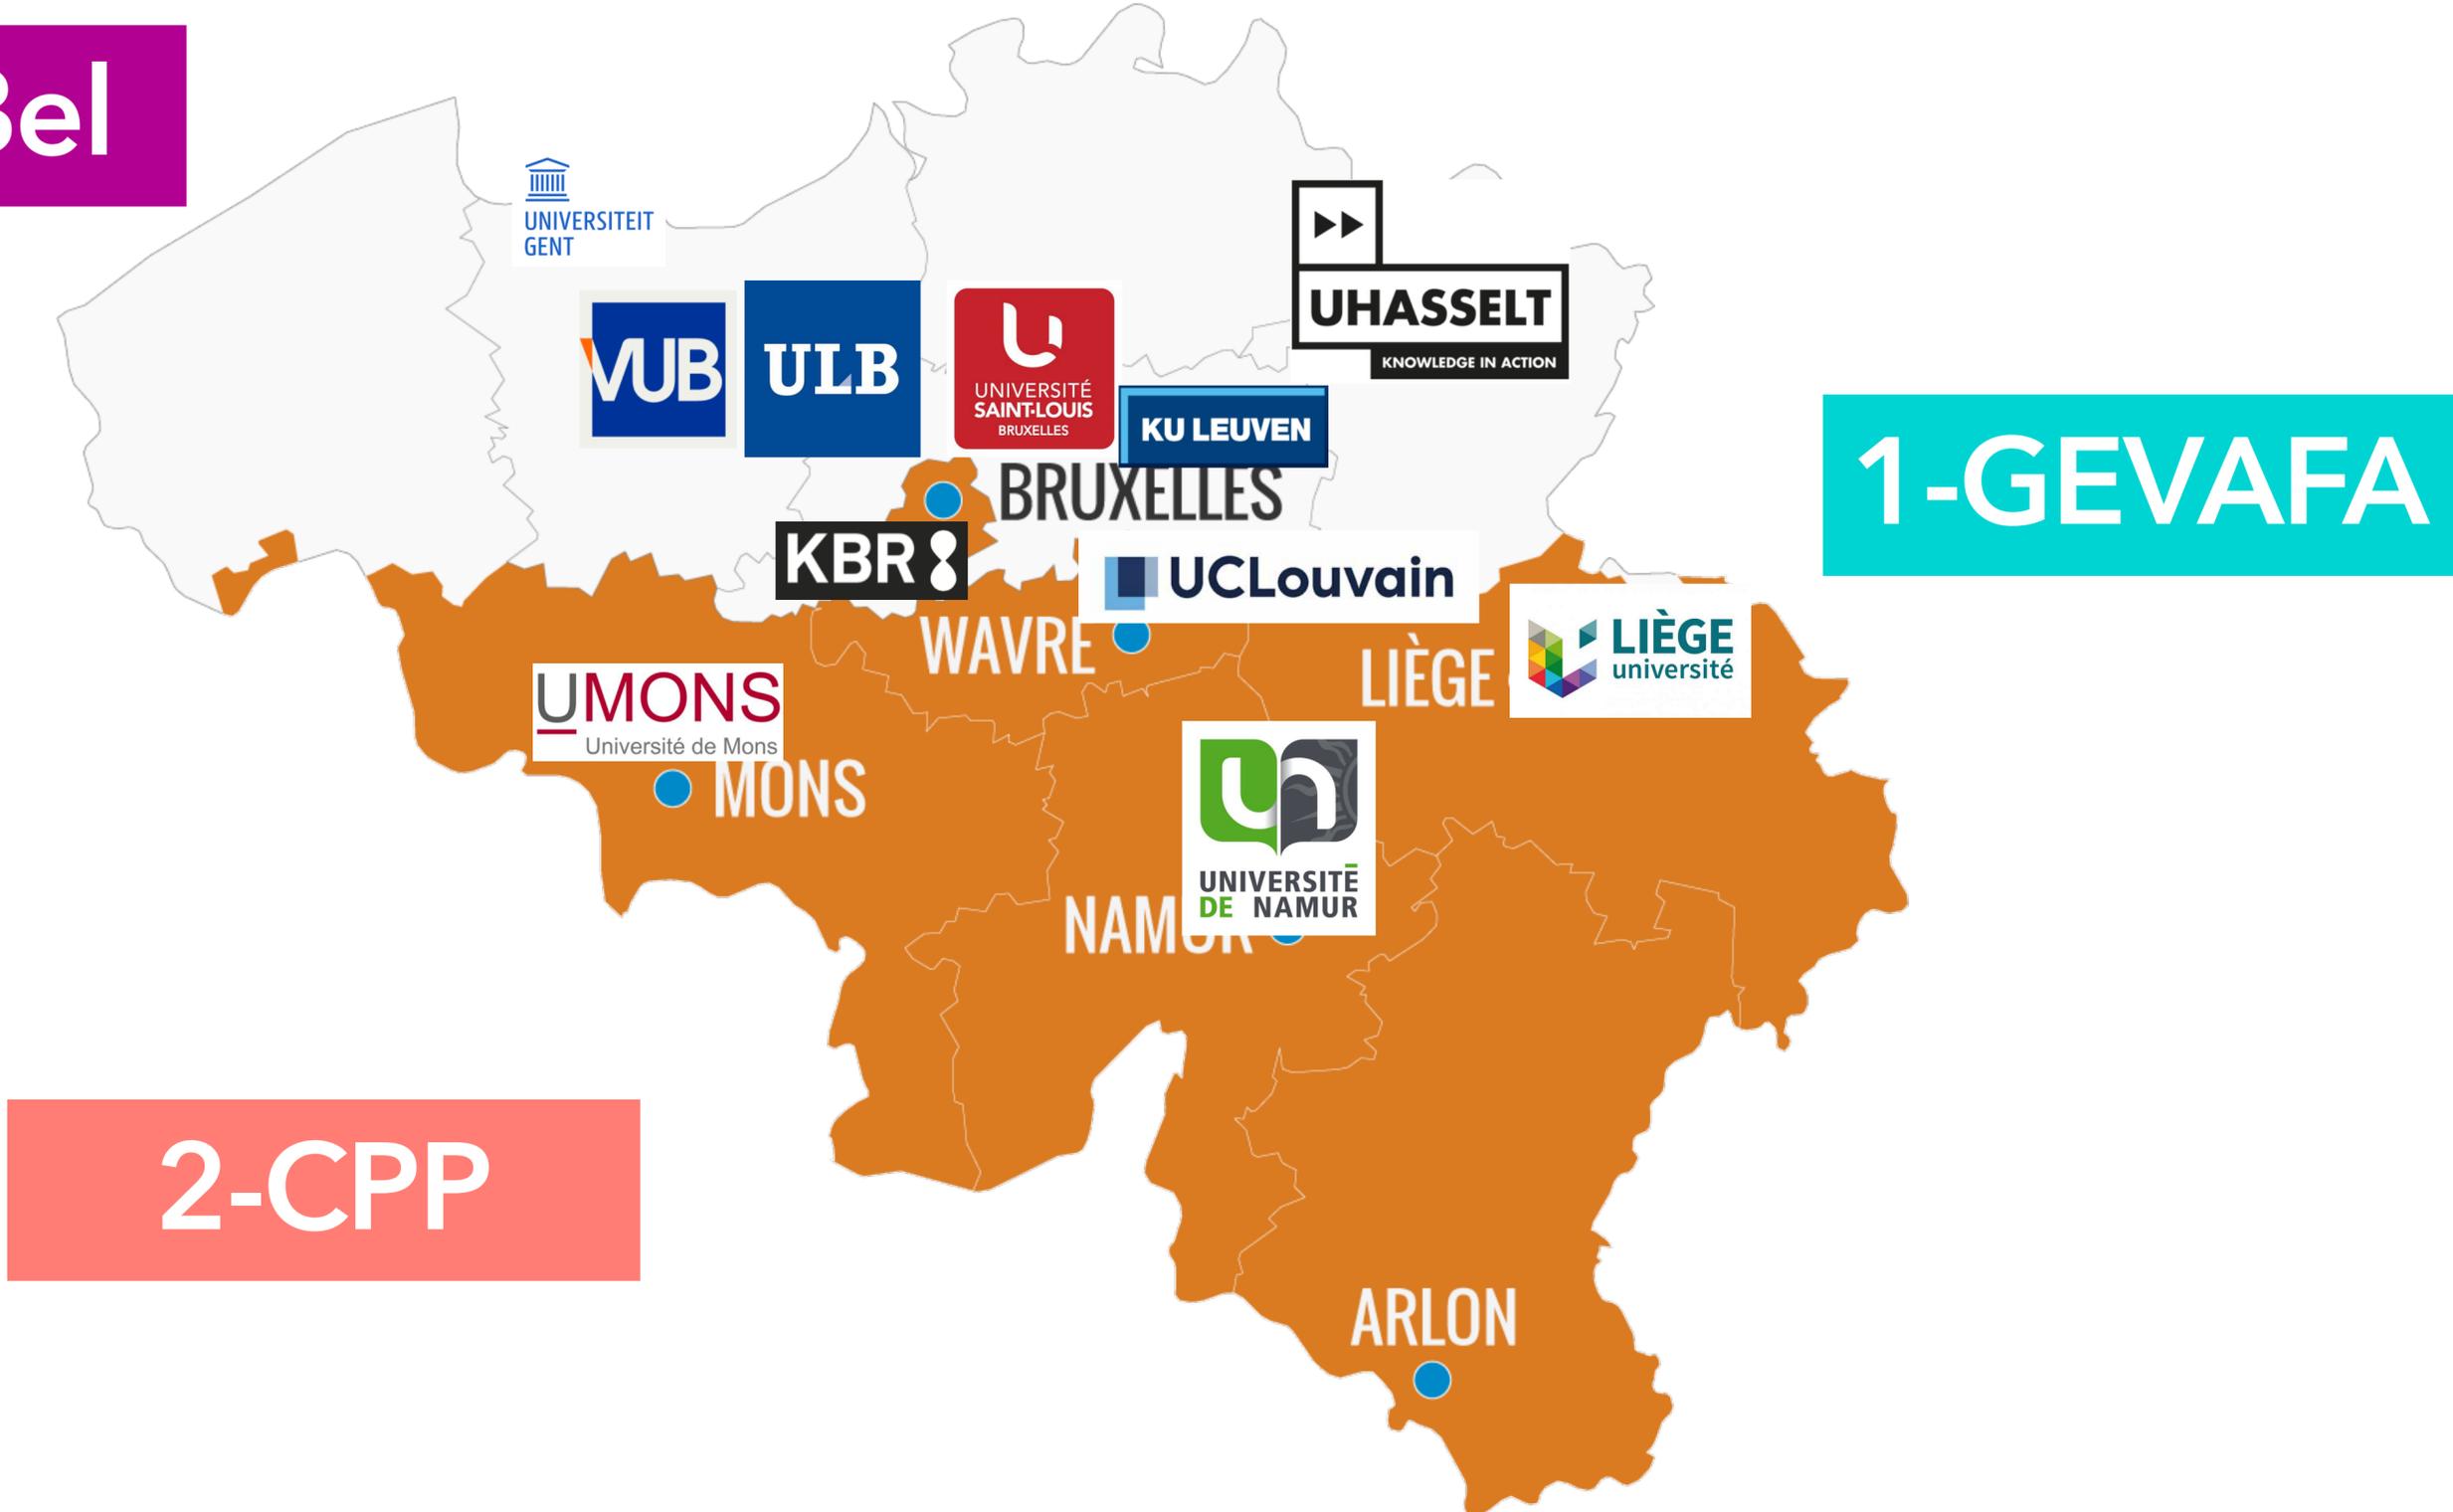

Health sciences-Medicine

2010-...

All universities of Belgium + Royal national Library of Belgium working together

3-PeriBel

1-GEVAFA

2-CPP

PERIBEL

Digitization and shared conservation project developed by the Royal national library of Belgium (KBR)

- **Digitisation of periodicals published in the geographical area of Belgium**
- **Volumes free of rights will be available online**
- **The KBR will keep the conservation collection**

A set of 50 title is being processed.

(test to adjust the methodology and procedures)

CHALLENGES AND QUESTIONS

1 - what about the electronic conservation ?

2 - what about the freedom of choice within each group ? (Second collection,...)

3 - Team work and good collaborative mood is essential !

PROJECTS AND DEVELOPPPEMENT

1 - Develop cooperation

- the Royal National Library of Belgium (KBR)
- the libraries of Flemish universities (Biomed, BiodIng)
- the public libraries of the Fédération Wallonie-Bruxelles
- other public institutions (Africa Museum, botanical garden, etc)

2 - Make the project a priority

- for the Universities and their decision-makers
- to gain support in term of human resources
- to dream of a shared stocking zone

3 - Join EPICO

- Active membre
- EU and more network
- Share of knowledge
- Kuopio Conference
