

# AON Non-Life Seminar 2026

Wednesday 18<sup>th</sup> March 2026: 14:00 – 19:00  
Leuven

During this exclusive seminar, we will discuss some of the most material drivers of risk in a Non-Life Insurance context. The starting point is the 2021 (Bernd) flood losses in which we will seek parallels with the flood events that affected the CEE region in 2024 (Boris). From this topic we will broaden the discussion to focus on flood defense, other natural perils (windstorm) and finally (claims) inflation.

Location	De Hoorn (old Stella Artois brewery) Sluisstraat 79 3000 Leuven Belgium  When arriving by train in Leuven railway station, De Hoorn is a pleasant 20 minutes' walk. For those arriving by car, there is a public parking Vaartkom (address: Engels Plein 32, Leuven) at 5 minutes' walk from De Hoorn. The seminar will take place in the "Machinezaal".	
Agenda		
13:15 – 14:00	Arrival and Coffee.	
14:00	Introduction.	Jean-François Walhin (AON)
	01/01 Reinsurance renewal reflections and looking forward.	Daniele De Bosini (AON)
