

RÉEMPLOI DES ÉLÉMENTS STRUCTURELS EN BÉTON : ENJEUX SOCIOTECHNIQUES ET PROCESSUS DÉCISIONNELS VERS UNE CONSTRUCTION CIRCULAIRE

Hofmann Elisa – Promoteurs : Prof. L. Courard & Dr. A. Mertens

PROBLÉMATIQUE

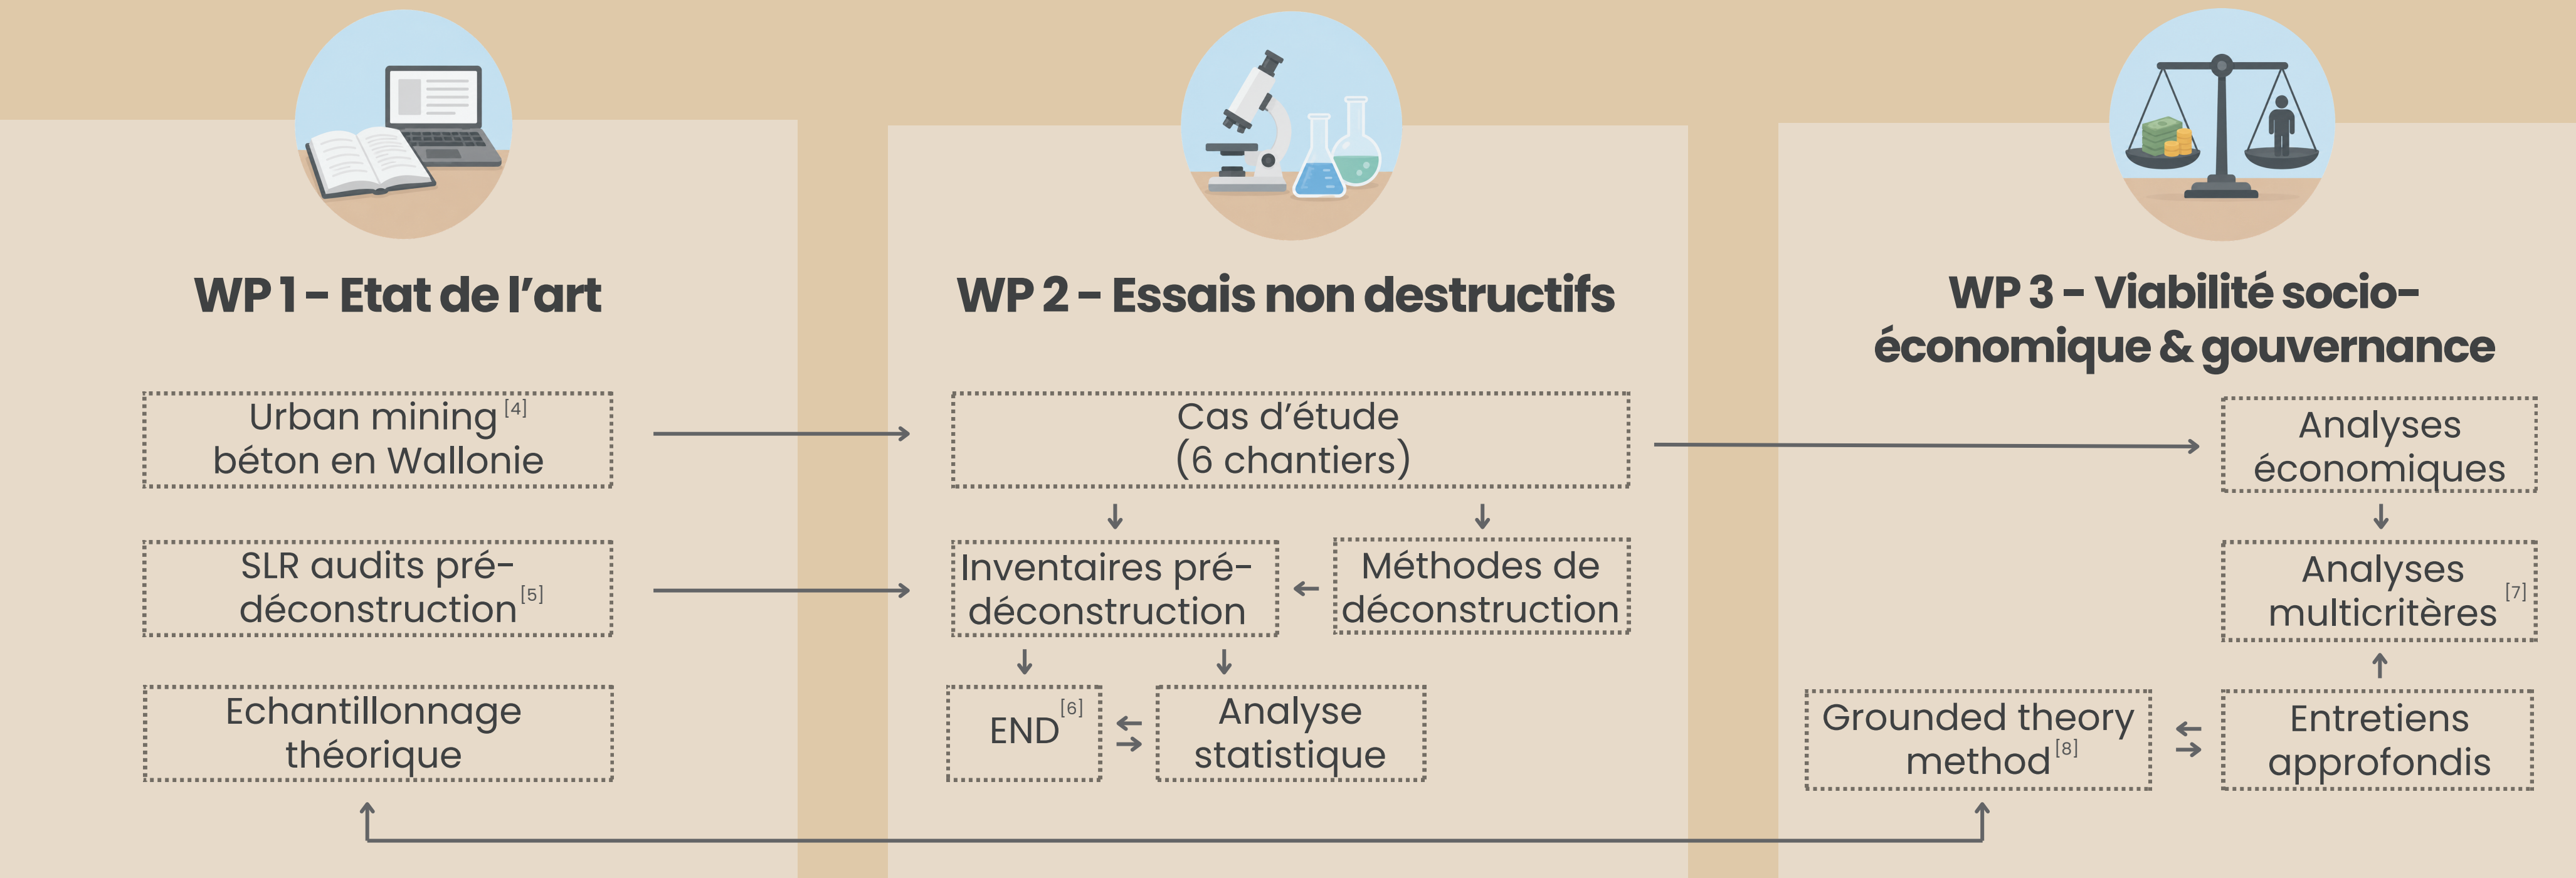

QUESTIONS DE RECHERCHE

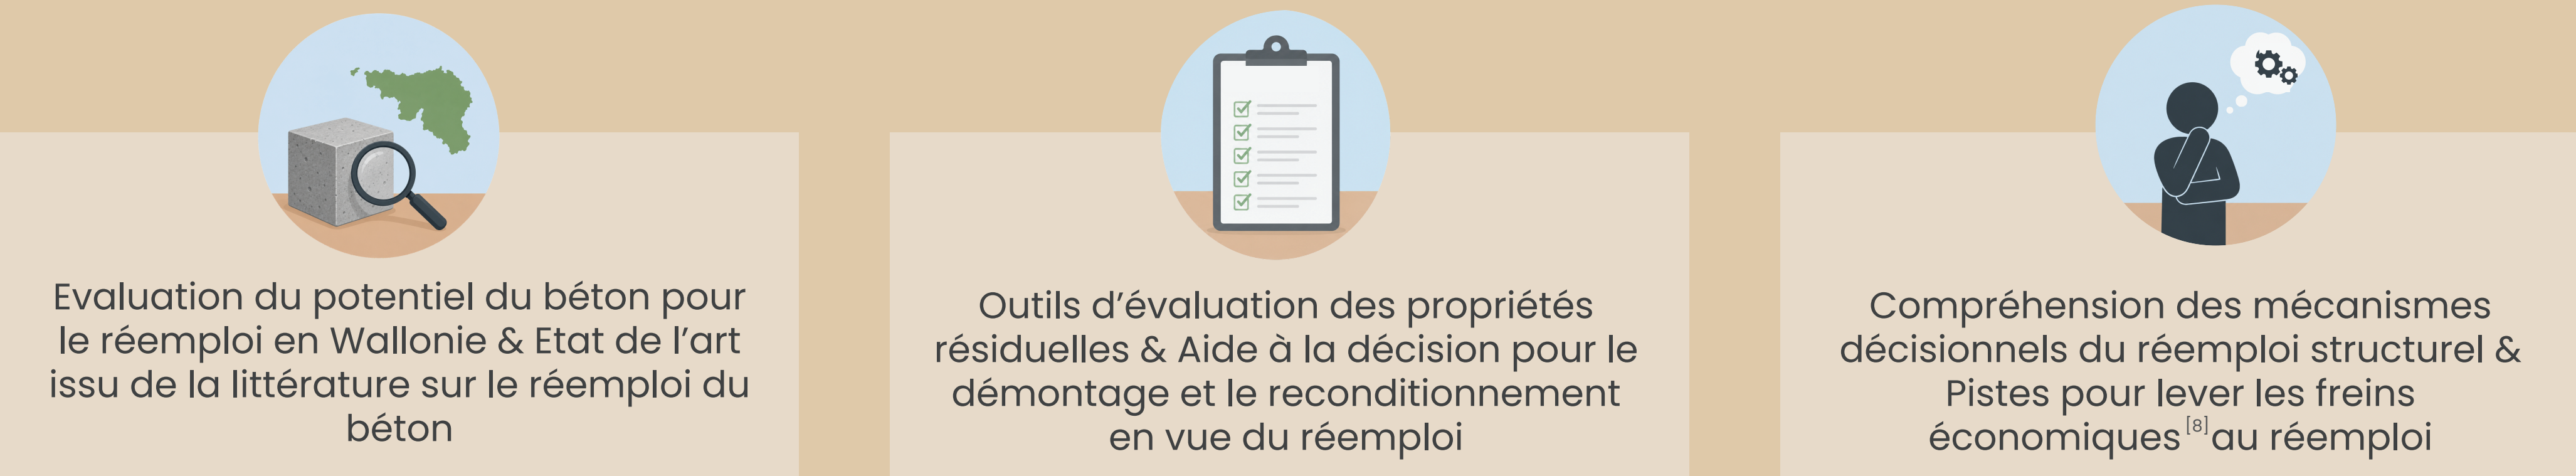

Pourquoi les éléments de structure en béton sont-ils majoritairement recyclés plutôt que réemployés ?

Comment définir un processus décisionnel en faveur de leur réemploi ?
