## Welcome

Please follow the links above which will take you to each of the various sections to view.

The papers can be viewed by author name and also by paper number.

We hope you enjoy the 32nd Congress.

# PIANC MMX

## Foreword

PIANC is the global organisation providing guidance for sustainable waterborne transport infrastructure for ports and waterways, and is the forum where professionals around the world join forces to provide expert advice to facilitate the growth of maritime and inland waterborne transport. The PIANC UK Section is honoured to be hosting this 125th Anniversary PIANC MMX International Congress in Liverpool from 10th to 14th May 2010, and we look forward to welcoming our PIANC friends and maritime colleagues from around the world to share their experiences and exchange ideas during the Congress sessions.

The PIANC MMX Scientific Committee received over 300 abstracts from experts worldwide offering technical papers for this Congress. Nearly 200 of these abstracts have been selected to ensure a full programme of high-quality technical presentations made in four parallel sessions held over the four working days of the Congress. In addition, technical visit options to both the modern port of Liverpool and waterway developments and the historic inland canals have been arranged for delegates and partners. The Congress will be staged in the Liverpool Arena and Convention Centre, newly opened in 2008, which is perfectly sited on the waterfront, adjacent to the historic Albert Docks and the new cruise line terminal in the flourishing Port of Liverpool.

This book of abstracts summarises the content of the presentations to be made at PIANC MMX and will assist delegates to identify which papers and sessions to attend from the various sessions which will be running in parallel over the course of the Congress. The detailed programme will be provided to delegates on arrival.

We welcome all of you taking part in the Congress and wish you a successful and pleasant stay in Liverpool and that you enjoy the technical and social events during the week.

Yours sincerely

Stephen Cork -  
Chairman  
PIANC UK Section

Peter Hunter -  
Chairman  
PIANC MMX Scientific  
Committees

## Organisation

### PIANC-UK Organising Committee

Mike Thorn (Chairman - PIANC MMX Organising Committee)  
Stephen Cork (Chairman - PIANC-UK )  
Peter Hunter (Chairman - PIANC MMX Scientific Committee)  
Martin Japes (Treasurer - PIANC-UK)  
Ron Gardner  
Greg Haigh  
Richard Hill  
Mary Kendrick  
Ian White

### Supporting Organisations

The PIANC MMX Organising Committee is pleased to acknowledge the significant financial support received from Trelleborg Marine Systems, Peel Ports, Westminster Dredging, Dredging International, Royal Haskoning, Atkins Global, Arup, the International Association of Dredging Contractors (IADC), AECOM and HR Wallingford in pledging their support and sponsorship of the PIANC MMX Congress.

### PIANC Scientific Committee

Peter Hunter (Chairman - PIANC MMX Scientific Committee)  
Hartmut Bruehl – CoCom  
Elio Ciralli – RecCom  
Ron Gardner – PIANC-UK  
John Harris – PIANC-UK  
Don McDowell – PIANC-UK  
Susan Rees – EnviCom  
Philippe Rigo – InCom  
David Telford – PIANC-UK  
Louis Van Schel – PIANC HQ  
Henk Jan Verhagen – MarCom

38	Germany	Guenz T.	Container terminal development in the south of Viet Nam
39	Finland	R. Kajatkari	Working with nature : Environmental efficiency in port projects and port use
41	Belgium	Luc van Damme, Verhaeghe H.	The LNG-Terminal of Zeebrugge : future developments
44	China	Yan Hua	Research and application of technique of nautical depth in China
45	Netherlands	Hellebrand S.	Waiting facilities for inland shipping on Maasvlakte 2
46	Netherlands	De Jong Martijn	Channel depth, ship motions and limiting wave conditions for exit manoeuvres of Astute Class Submarines, Barrow-in-Furness, UK
51	Australia	Lobianco	Strategic Asset Management of the Port of Melbourne
52	Japan	Suzuki K.	Long term water quality monitoring at the mouth of Tokyo and Ise bays using ferry
55	Lithuania	Vytautas Paulauskas	Safety of high freeboard ships in ports
58	USA	Craig E. Philip	Achieving vessel safety improvements using on-board tracking/recording systems

No.	Country	Authors	Title
61	Belgium	De Roo S.	Field monitoring of ship-induced loads on (alternative) bank protections of non-tidal waterways
62	Netherlands	Hamoen G.	The development of the port of Eemshaven : innovative quay structures at the Port of Eemshaven, Eemsmond, The Netherlands
63	UK	Hudson P.	U534 the U-boat story, a story of regeneration
66	UK	Osborn S.	Maritime design standards in the 21st Century - aligning BS6349 to the Eurocodes
67	Spain	Macineira Alonso E.	Breakwater's construction in new port at Punta Langosteira - A Coruna, Spain
71	Netherlands	Verhagen H.J.	New developments in toe and berm design for breakwaters
72	UK	Hawkes Peter	Climate change and navigation : waterborne transport, ports and waterways : a review of climate change drivers, impacts, responses and mitigation
74	Germany	Fleischer P.	Experiences with revetments for inland waterways in Germany
76	Germany	Kuehni Katri	A maintenance system for waterways infrastructures
77	Germany	Thorenz C.	Numerical evaluation of the filling and emptying systems for the new Panama Canal locks
78	Germany	S.Wassermann Soehngen B;	Investigations to define minimum fairway widths for inland navigation channels
79	Japan	Ueda Shigeru	Reliability design of marine fender systems
80	China	Li-Zhonghua	Research and application of new hydro-shiplift for high dam navigation in China
82	Netherlands	de Bont J.A.M.	Numerical modeling of waves and motions of ships moored with MoorMasterTM units in the Port of Salalah
85	Netherlands	Hekkenberg R.G.	The shape of things to come - an outlook on the inland navigation of the future
86	France	Galiana Mathieu	Feedback on the repairing works on French navigable dikes and banks
89	Norway	Nybakk A.	Risk assessment of the sediments in the Harstad harbour, Norway

No.	Country	Authors	Title
91	Japan	Sakakibara S.	Tsunami effects on ship motions and mooring loads
92	Canada	Kwok Stephen	Adapting and developing hands free mooring for navigation locks
97	China	Wang Feixin	Application of muddy soil filled geo-textile tubes in embankment engineering
99	China	Qi Xiulian	On construction of large-scale waterway at offshore reef island area
100	China	Ji Lan	Probalistic design of channel widths
104	Netherlands	Vellinga T.	Environmental monitoring construction Rotterdam port expansion Maasvlakte 2
106	Netherlands	Kant G.	Maasvlakte 2 reclamation : maintaining nautical safety during construction
107	Netherlands	Clijncke A.	Maasvlakte 2 : development of the master plan
109	France	Demenet Pierre François	Passing vessel interaction study with moored ships - Application to moored large containers
123	Japan	Katou Hiroyuki	Tidal wave disaster by high waves on the coast of Nyuzen fishing port
124	Japan	Ishimoto Shouji	More parted precast concrete structure of the warf and revetment
125	China	Meng Dechen	Study on developing inland waterway transport and saving land resources
126	Australia	O'Brien W.T.	Risk mitigation through DUKC - Case study port of Melbourne
129	Netherlands	Kaarsemaker M.H.A.	Evaluation of flow fields for their impact on Manoeuvring
130	UK	Smedley M.	European MarNIS project gives sea ports a new ris management tool
131	Belgium	Dumortier Sven	Upgrade of the jetty approach trestle at South Hook LNG import terminal jetty, Milford Haven
132	Germany	Schmidt Eckard	JadeWeserPort' deep water container terminal Wilhelmshaven/Germany

No.	Country	Authors	Title
136	Netherlands	Zanetti R.	Improvement of European transport corridor VII in Serbia
137	USA	Agrawal Vijay	Highly productive, dense and automated container terminal operating system trends
141	USA	Wakeman Tom	Overcoming the potential maritime barriers to international trade by countries-in-transition
146	Spain	Martinez S.	Designing a new low-reflectivity quay wall caisson
147	Netherlands	Gille J.	Towards EU emissions cap for maritime shipping?
148	Netherlands	Gille J.	Fuel economics in inland shipping
150	UK	Robertshaw G.	Technical innovations for working in remote and exposed locations - experiences from the Isle of Scilly Harbour improvements project
151	France	Roux S.	Determination of hawser forces using numerical and physical models for the third set of Panama locks studies
152	France	Pareau P.E.	The Rhone navigation management centre
154	France	Bois Jean Philippe	Restoring Navigability to the upper Rhone
156	Belgium	De Wolf P.	Harbour of Ostend : layout of beakwaters and seawall inside the harbour
163	Netherlands	Bouwsma s.c.	Traffic management for the Juliana Canal
164	Belgium	Adams R.	Dealing with salt intrusion and water shortage in the future Seine Scheldt West Liaison
165	South Africa	Kapp Frans	Sturrock dock sliding caisson - repairing a 65y old sliding caisson gate for Sturrock dry dock, Table Bay harbour, Cape Town, South Africa
166	China	Yan Zhangxin	Study on the ship steering safety for Yangshan Deep Port of Shangai International Shipping Center
167	Belgium	De Clercq B.	New European standard for calamity information exchange on inland waterways
168	Netherlands	van 't Hoff J.	Hydraulic fills manual

No.	Country	Authors	Title
169	Ireland	Harvey Jim	Developing a business process model for bridge management
172	Luxemburg	Osorio Paulo	Examination of structural reliability analysis of quay walls with steel sheet piles
173	Belgium	Plancke Yves	A new disposal strategy for the Western Scheldt, conciliating port accessibility and nature preservation
174	Belgium	Sas Marc	New PIANC guidelines for berthing structures, related to thrusters*
179	France	H.Allender, Tant S.	Master plan for waterways maintenance
181	Netherlands	Ten Broeke I.	Full implementation of inland AIS on the inland waterway networks of Netherlands and Germany
182	USA	Joers F.R.	Upper Mississippi lift-in-unit lock wall monoliths
185	USA	Zappala S.	Suspended sediment plumes associated with navigation dredging in the New York/New Jersey Harbor
186	France	Pauli G.	The greening of inland navigation - the case of Rhine navigation
188	Belgium	Eloot Katrien	Synergy between theory and practice for ultra large containerships sailing to the port of Antwerp
189	Netherlands	Raaijmakers T.C./Verheij H	Ship wave reduction for an inland marina with a breakwater
197	China	Wu Peng	Study on the land reclamation project in the Southwest water of Shatuozi in Dalian port
199	China	Shang Jian-ping	A simulation study for LNG terminal throughput capacity
201	China	Yang Guo-ping	Research on turning circle, braking distance and channel dimension of large vessels based on vessel observation
202	China	Wu Peng	A combined system of loop culvert and through gate filling and emptying for navigation locks under heads from either direction
207	USA	Grier D.	Potential of short sea shipping in the US : a comparison with the European experience
210	Japan	Arikawa T.	Large tsunami experiments

No.	Country	Authors	Title
213	UK	Miles P.	Refurbishment and reconstruction of South Hook LNG import
214	Germany	T. Wachholz and M.Osterthun	Expansion of the river Weser to provide a modern inland waterway for connecting German seaports with hinterland terminals
215	France	Morellato D.	Constitution of a numerical wave data-base along the French Mediterranean coasts through hind cast simulations over 1979-2002
217	France	Artières O.	Fiber optics monitoring solution for canal dykes
219	France	Gallicher Lavanne A.	Squat measurement in Seine : current navigation conditions and impact of the channel deepening
220	Italy	Blandon Carlos A.	Seismic analysis and design of pile supported and block work wharves
221	USA	Cann Anne	Planning navigation infrastructure for an uncertain future
222	Austria	Gussmagg G.	An assessment of the opportunities and risks of container transport on the Danube river between Austria and the Black Sea
223	UK	Brooke Jan	Working with nature
224	UK	Brooke Jan	Climate change : mitigation and adaption measures for inland waterways in England and Wales
225	UK	Birchenough	Monitoring of dredged material disposal sites at sea and how it links to licensing decisions
228	Ireland	Harvey Jim	3D capture of bridges using laser technology
229	France	Dupray S.	New guidance for the use of concrete in maritime engineering
230	France	Lerouvillois D.	Needs and technologies for port security
231	Belgium	Sas Marc	Study and 3d modeling of density and discharge currents of the third sets of Panama locks
232	France	de Bruyn B.	Improve the environmental studies quality of the projects of inland waterways
233	Austria	Trögl J.	River information services for logistics users

No.	Country	Authors	Title
234	China	Dafu Cai	Design of channel regulation project for Daijiazhou river stretch in the Middle Yangtze river
238	Belgium	Van Haute F.	How to protect your structure against MIC/ALWC - A practical approach of a proven solution
239	Austria	Leopold D.	E-learning platforms as an adequate instrument to achieve developments inland waterway transport
240	Iceland	Viggosson G.	Landeyjahöfn Ferry Harbour at the South Coast of Iceland
241	France	Raujouan P.	Dredging in France - evolution of the practices
242	UK	Fleming G.	A risk-based approach to disposal of TBT contaminated sediments
243	Netherlands	De Jong Michiel	Developing the Kyung In Canal between Icheon and Seoul as a short sea destination and IWT project in Republic of Korea*
244	China	Hu-Yaan	Hydrodynamics of the filling and emptying system using unilateral main wall culvert with double valves in high head locks
246	Netherlands	Vercrujssse P.M.	Steps towards development of green dredging technology
251	Belgium	Bayart P.	Water resources for the Sein-Scheldt-East project
252	Belgium	Bousmar D.	"The ports for the new class Vib lock at Ivoz-Ramet, River Meuse, Belgium"
255	Germany	Stoschek O.	Optimization of an harbour channel in the Shastra estuary, India
256	USA	Briggs	Comparison of PIANC and CADET ship squat predictions [NEW]
257	Belgium	De Pooter P.	Manifa (Saudi Arabia) Large scale experiences with breakwaters
259	India	Sannasiraj S.A.	"Development of Chennai Port Mega Terminal - issues and proposed solutions"
263	Italy	Lai Carlo;Bozzoni F	Seismic risk assessment and mitigation of Italian maritime port structures using GIS technology and guidelines for the design of new facilities
264	Germany	Cofalla Catrina	Flood search I - Investigating the eco-toxicological relevance of remobilized sediments under flood conditions for inland waterways

No.	Country	Authors	Title
265	UK	Byrne David	Innovation in the design of floating passenger and RoRo freight facilities on the river Mersey
267	UK	Allsop N.W.H.	A database of major breakwaters around the world
268	Belgium	Lucion C.	Integrated and sustainable solutions for the treatment and valorization of dredging sediment : the "Solindus" project
