Legend

Bibliometric indicators linked to the journal (for those whose ISSN has been indicated by the author)

• **IF** = Impact factor Thomson ISI. Are indicated: IF of the year of publication and IF of the latest edition of JCR (latest). « ? » if not known by ORBi yet ; « - » if non-existent.

• **IFS** : idem as IF but for a 5 year period (new indicator since 2009).

• Following the decision of the French-speaking rector’s office to stop subscribing to the JCR Impact Factor, IF and IFS are no longer updated from 2015. The “latest” index corresponds to the 2014 index of the journal, or of the last year of presence of the journal in the JCR.

• **EigenF = EigenFactor** (see: [http://www.eigenfactor.org](http://www.eigenfactor.org)).

• **Article Infl. = Article Influence** : EigenFactor divided by the number of articles published in the journal.

Bibliometric indicators linked to the article

• **ORBi viewed** = total number of visualizations of a reference on ORBi (of which X internally within the ULiège).

• **ORBi downloaded** = total number of downloads of the full text via ORBi, including requests copy.

• **SCOPUS®** = number of citations picked up by SCOPUS®.

(Warning: According to disciplines, some bibliometric indicators may not be relevant)
